

Organization **Nelson & District Arts Council**

Registration # S-0008686
Box 422, Nelson BC V1L 5R2

Name of Organization being sponsored if applicable -

Project Title **ArtWalk 2024**

Project will be located in: City of Nelson

Across Nelson, with a major focus on the downtown core, inside and outside of businesses.

Importance to the community:

In this unpersicdented time, we need arts more than ever. It is what unites us as a community during our darkest times, and the pandemic brought this to light. Artists need opportunities in order to survive, and this will support those artists. This staple event in it's 35th year has become a go to for individuals in the region, who are invested in it continuing. Despite the complexities that the world presents, ArtWalk allows our community to show our civic pride, and give residents and artists a sense of unity. Benefactors Include (but are not limited to): Visual and Performance Artists, Business Owners, Arts Lovers, Youth, Tourists, Technical Professionals

Work Plan Dates: Project Start: 6/1/2024 Project End: 9/8/2024

1. The project will provide:

ArtWalk is celebrating 35 years of local/regional artist promotion and community arts engagement. The pandemic has highlighted the importance of support through providing paid opportunities to perform and a low barrier gallery where visual artists can be featured. Up to 50 visual artists are hosted in up to 30 venues across the summer. A brochure is distributed across the region, highlighting this community staple: a free, family friendly summer event that tourists and locals alike participate in. NDAC promotes artists through our social media platforms, driving traffic toward the in person galleries throughout the community.

Two in person openings are hosted and will feature up to 20 local performance artists each, who will be paid professional fees for their work. Thousands of individuals attend the openings. ArtWalk ensures that downtown core is activated with performance art in different genres and styles so that everyone in the community can see something that they connect with.

We will be waiving all artist fees for the gallery portion of ArtWalk, so as to ensure that artists are able to take home as much money as possible.

2. Organization Mandate:

The Nelson & District Arts Council's mandate is to stimulate, broaden, encourage and facilitate cultural opportunities, projects and activities in Nelson and District.

3. Community objectives the project will work towards are:

In this unpersicdented time, we need arts more than ever. It is what unites us as a community during our darkest times, and the pandemic brought this to light. Artists need opportunities in order to survive, and this will support those artists. This staple event in it's 35th year has become a go to for individuals in the region, who are invested in it continuing. Despite the complexities that the world presents, ArtWalk allows our community to show our civic pride, and give residents and artists a sense of unity. Benefactors Include (but are not limited to): Visual and Performance Artists, Business Owners, Arts Lovers, Youth, Tourists, Technical Professionals

4. Project will address issues or opportunities pertaining to:

Artists continue to be desperate for paid gigs due to the climate that the pandemic has left the arts and culture sector in.

Not enough rural Shows: Showcasing of rural artists, both visual and performance

Artists are asked to volunteer all the time: Appropriate pay of rural artists

Rural Youth need engagement: Youth Artist Support

There are no opportunities for people facing financial barriers: Barrier Free Visual and Performance Arts Exposure

Community Building: Community events increase civic pride

Events aren't easy for seniors/individuals with mobility issues to access: Accessible events in centralized locations

Arts Technicians need employment: Provide jobs for arts techs whether in person or online

As an artist support organization, we hear time and time again that the above needs need to be filled. We are proud to bring these benefits to the community, while addressing these needs.

5. This organization is best to provide this project to the community because:

The Arts Council was the initiator of the ArtWalk movement in Western North America in 1988. We have proudly delivered this project for over three decades and are a prominent and trusted organization in the cultural community. We have the staff and expertise to ensure that the 2024 edition of ArtWalk is a success

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Project: ArtWalk 2024

NDAC ED (secures funding), ArtWalk Coordinator Stephanie Myers, a Technical team will support live music at the live events, a Canada Summer Jobs Student has been applied for to support the project with marketing and admin as well.

- 8. Minors will be working on this project:** No
- 9. Project will be 100% completed by volunteers:** No
- 10. Is the project viable without ReDi funding support: :** Yes

11. In-kind sources and contributions:

Hall Printing - In Kind Design Assistance
Local Business Owners - In Kind Marketing Assistance

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

ArtWalk 2024

Alignment with CBT and City of Nelson's Sustainability Strategies, Goals and Objectives

ArtWalk 2024 embodies the following guiding principles of the following **Columbia Basin Management Plan Strategic Priorities:**

- **Community Wellbeing:** ArtWalk truly strengthens the culture of the Columbia Basin by being a staple for artists, businesses and tourists for over 30 years. ArtWalk gives an opportunity for Artists to make a living from their art in a rural location, empowering them with the knowledge that they can make money from their art outside of metropolitan centres.
- **Support for Business Renewal:** We are committed to supporting artists businesses as they transition into this new digital era.

ArtWalk 2024 fulfills the following **Sustainability Principals and Directions from the Nelson Path to 2040 Strategy:**

- **Cultural Strength:** ArtWalk truly embodies all of the cultural strength principals from Facilitating cross generational and socio-economic relationships to Authentically representing our artistic and cultural values in how we live, move, play, shop, and do business.
- **Healthy Neighbourhoods:** ArtWalk provides a venue where all community members can join together in the name of regional art, from children to seniors, adding greatly to the cultural climate of the area. Through this enhancement, residents feel more pride in their community and also can see an increase in mental health and well-being.
- **Prosperity:** ArtWalk gives opportunities to Artists to create income from their work, enhancing the economy of the City of Nelson and its surrounding areas.
- **Resiliency:** ArtWalk is a living example of resiliency. For 35 years and through many economic ups and downs (and a pandemic) locally it has maintained a steadfast focus on enhancing the area culturally,

economically and socially and also fosters community engagement and cohesion. This cohesion is imperative in times of environmental distress as well, allowing for community members to come together easily to overcome disaster, because that togetherness and community pride has already been established at barrier free, community centred events like ArtWalk. COVID showed us how important the arts are to our region, and we are proud to support artists, artistic contractors and their work in their time of need.

35th annual Nelson ArtWalk opens Saturday

Black Press Submitted
Jun 22, 2023 2:00 PM

Nelson ArtWalk opens Saturday, June 24, downtown and runs 6 to 9 p.m. Photo: Submitted

Submitted by Nelson and District Arts Council

The Nelson and District Arts Council is thrilled to announce the 35th annual ArtWalk, celebrating all things art in our region.

The first opening night will take place on Saturday, June 24, from 6 to 9 p.m. There are over 20 venues and 45 artists to experience in downtown Nelson and beyond. Opening night will feature performers all around town to entertain you as you wander from amazing venue to amazing venue. Look for stilt walkers, singers, musicians and more.

The second opening night happens on Saturday, Aug. 5, where there will be a complete change of the art that is on the walls. Come out on these nights and support your local arts community. Look for the brochures and posters around town.

There will also be five mini-performance areas around town to entertain the wandering art lovers with their musical performances. All of these are listed on the 3,000 brochures all around town, on website at ndac.ca/nelson-artwalk and on our social media. Keep your eyes peeled for Bessie Wapp on stilts as well.

NDAC wants to thank business owners for participating in ArtWalk and supporting the local arts community. The event populates unique venues with quality, locally produced artwork chosen by the venue operator to fit their walls and business branding.

Both professional and emerging artists will be on display and of course for sale. NDAC is very honoured to be able to work to support artists in a multitude of ways and they hope the community will join them and come out on Saturday to admire and buy some art.

MESSAGE FROM OUR PRESIDENT

I am beyond thrilled to welcome each and every one of you to this year's incredible ArtWalk!

A massive shoutout goes to our incredible artists, businesses, volunteers, sponsors, and ArtWalk supporters who've made this year's event happen; a special shoutout to our wonderful ArtWalk coordinator, Stephanie Myers.

ArtWalk has been a staple in our town for years, and it never fails to ignite interest and awe. This year's exhibition is no exception. The work you will witness is simply out of this world, and it's a beautiful reflection of the passion and creativity bursting within our local artists.

We can't thank the artists and businesses enough for joining us in this year's ArtWalk. Your participation means the world to us. Here at NDAC, our mission is to support our rural artists, and we're constantly adapting our programs to ensure that there are safe opportunities for everyone to partake in. So go on, soak up the art, mingle with fellow art enthusiasts, and let's keep this beautiful community spirit alive and thriving.

PHOEBE SUTTON
PRESIDENT
NDAC

1st Opening Night

Saturday, June 24th
6 - 9pm

Come celebrate the 35th annual ArtWalk, the Nelson & District Arts Council invites you to roam the streets of Nelson from downtown and beyond. Look for performers during the evening such as dancers, singers, musicians, puppeteers and stilt walkers all while enjoying some of the best visual artists in the region.

2nd Opening Night

Saturday, August 5th
6 - 9pm

Come out to enjoy a whole new batch of artists up on the walls of the ArtWalk Venues. Again there will be performers throughout the streets to entertain you as you discover some of the best visual art in the area.

NELSON & DISTRICT ARTS COUNCIL PRESENTS
20 VENUES AND OVER 45 ARTISTS

Project Title **Rural Artist Support Weekend 2024**

Project will be located in: City of Nelson

Online. We have found that our attendance greatly increases when we hold the sessions online.

Importance to the community:

The Arts and Culture sector is in desperate need of support. When we provide artists with education, we provide the whole community with benefits. Educated artists navigate the business world more efficiently, increasing their ability to make sales (local economy), market themselves (outside our community) and operate as businesses. Offering these sessions in a barrier free setting allows for anyone to access services that can be seen as challenging/financially prohibitive to access. All speakers are paid for their time in the form of an honoraria in order to encourage the symbiotic relationship between the arts and business.

Bringing in representatives from funding bodies allows for rural artists to connect with the funders, building relationships that are invaluable for their career opportunities. Artists have the opportunity to directly have their questions and concerns addressed face to face, something that is readily available for metropolitan artists but not for our rural communities.

Work Plan Dates: Project Start: 9/1/2024 Project End: 12/15/2024

1. The project will provide:

In the fall of 2016, NDAC hosted an Arts and Poverty Forum. That roundtable discussion determined that a major need of local and regional artists is education on the business of being an artist. The first RASW was held in 2017, and it has become an annual event, featuring fully accessible educational opportunities to over 1000 artists in our region to date.

RASW provides artists with education in areas that they might not be comfortable accessing. Artists are provided with a free weekend symposium featuring speakers from the business community (mortgage broker, marketing expert, financial planner, curator, lawyer) as well as roundtable discussions focusing on the local artists' concerns. NDAC works to bring in speakers from provincial funding bodies and entities. This allows for artists to connect directly with funders, building relationships that can be invaluable for career opportunities.

We will be tailoring sessions to meet the needs of artists in the current cultural climate. Alongside our regular business oriented sessions, we will offer education on how to ensure audience/artist safety, resilience funding options and more. We also will host a presentation on cultural appropriation, a topic that requires a lot of discussion in our predominantly caucasian community.

We also provide ASL interpretation at our event and are one of the only organizations doing this work in the region.

2. Organization Mandate:

The Nelson & District Arts Council's mandate is to stimulate, broaden, encourage and facilitate artistic opportunities, projects and activities in Nelson and District.

3. Community objectives the project will work towards are:

The Arts and Culture sector is in desperate need of support. When we provide artists with education, we provide the whole community with benefits. Educated artists navigate the business world more efficiently, increasing their ability to make sales (local economy), market themselves (outside our community) and operate as businesses. Offering these sessions in a barrier free setting allows for anyone to access services that can be seen as challenging/financially prohibitive to access. All speakers are paid for their time in the form of an honoraria in order to encourage the symbiotic relationship between the arts and business.

Bringing in representatives from funding bodies allows for rural artists to connect with the funders, building relationships that are invaluable for their career opportunities. Artists have the opportunity to directly have their questions and concerns addressed face to face, something that is readily available for metropolitan artists but not for our rural communities.

4. Project will address issues or opportunities pertaining to:

Many artists find the business of art daunting. Not understanding business can be a massive barrier and RASW provides the opportunity to become comfortable with the business of art. Sessions have included marketing, insurance, investment, grant writing and more. Every session is different and provides a perspective on business that artists of all disciplines can engage with.

Rural Artists find it challenging to connect with funders. In 2023 we saw RASW feature speakers from Creative BC, BC Arts Council and the Canada Council for the Arts. This interaction is rarely afforded in rural communities, and

Project: Rural Artist Support Weekend 2024

provided local artists with the opportunity to directly communicate and build relationships with provincial funders/organizations based in the lower mainland.

Cultural appropriation is an issue that local artists often struggle with. Providing education on this topic will allow for local artists to develop respectful practices, especially when working outside their own histories and cultures.

5. This organization is best to provide this project to the community because:

This will be our eighth year offering the event and we have seen it increase in popularity annually from our initial roundtable discussion. As the arts service organization in the area we are the perfect conduit to connect artists and businesses, as we have healthy relationships with both groups. Our networking and marketing skills ensure that the events are well attended and our online forum provides for an accessible space, a huge bonus when working with people that could potentially face physical and monetary barriers.

We have the experience with live-streaming events so implementing a digital version of this event will not be an issue.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Nelson and District Arts Council, Local Business Experts, Creative BC, BC Arts Council, Canada Council for the Arts

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Any of the presenters from funding bodies from the province or federal government are unable to receive payment for their presentations, so their sessions are provided in kind.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Rural Artist Support Weekend 2024

Alignment with CBT and City of Nelson's Sustainability Strategies, Goals and Objectives

NDAC's Rural Artist Support Weekend 2024 embodies many of the guiding principles of the **Columbia Basin Management Plan Strategic Priorities**:

- **Community Wellbeing:** The Rural Artist Support Weekend truly strengthens the culture of the Columbia Basin through providing educational opportunities that enhance the businesses of regional artists.
- **Support for Business Renewal:** We are committed to supporting artists' businesses as they transition into this new digital era and are committed to providing programming during the weekend that focuses on artistic business resilience and renewal in the face of COVID 19.

The Rural Artist Support Weekend 2024 fulfills the following **Sustainability Principals and Directions from the Nelson Path to 2040 Strategy**:

- **Cultural Strength:** The Rural Artist Support Weekend truly embodies the cultural strength principals from facilitating cross generational and socio-economic relationships to using arts, heritage, recreation and our greatest community asset, our diversity to create meaningful learning opportunities.
- **Healthy Neighbourhoods:** In providing the artistic community with enhanced business skills we are creating a meaningful opportunity where a diverse group can meet and engage with their peers and members of the business sector, creating a symbiotic relationship.
- **Prosperity:** By providing good business practices, the weekend enhances the economic viability of many artists in the area.
- **Resiliency:** The weekend's focus is on maintaining and enhancing the economic, social and cultural climates of Nelson and District by providing an opportunity for Artists to feel supported and engaged with their community. This engagement and community connection is vital in times of distress, bringing our community members closer together when facing adversity.

Project Title **Completion of Tennis Court Lighting**

Project will be located in: City of Nelson
LVR Multisport Facility, 1007 Cottonwood St, Nelson, V1L 3W2; above LV Rogers Secondary School

Importance to the community:

The extension of playing hours to 10pm with 4 lit courts is necessary to meet the increased demand for court time. Moreover, climate change is extending the outdoor playing season in the spring and fall when daylight hours are short. Extended play will particularly benefit working families, and enable evening programs for both juniors and adults to operate at capacity. Court lighting will also enable expansion of social and tournament events in the future drawing more visitors to our community.

Work Plan Dates: Project Start: 5/20/2024 Project End: 6/21/2024

Project: Completion of Tennis Court Lighting**1. The project will provide:**

In 2021, the Nelson Tennis Club, with the assistance of CIP/AAP funding, undertook LED lighting of 2 of the 4 tennis courts which provided excellent playing conditions from dusk until 10pm, particularly in the low-light shoulder seasons. By late 2023, however, the growth in tennis membership to 250 and the increased popularity of evening programs had increased the demand for playing time to the point that lighting of the 2 remaining courts has become necessary. The underground electrical cable conduits and cement footings for the light poles are already in place, as is the master electrical panel in the Facility Centre. The project will involve mounting 5 additional light poles, attaching light brackets to the pole tops, running the electrical wiring from the main junction box to the top of the poles then through the bracket arms, and finally wiring and attaching the LEDs to the brackets. A certified electrician and a bucket lift will be required.

2. Organization Mandate:

The Nelson Tennis Club is a registered non-profit society committed to providing and maintaining high-quality tennis facilities and programs for the citizens of Nelson and region, and for visitors to the area. The Club is partnered with School District 8 in the shared use of the court facilities. The Club provides professional instruction for all age groups, with particular emphasis on youth development. The Club hosts social events and tournaments for community building and to provide opportunities for recreational and competitive play. Administration, operation and facility maintenance is provided by volunteers. Membership fees are kept to the minimum necessary to maintain operations, and membership bursaries are available for those with financial hardship in order that participation is open to all income levels.

3. Community objectives the project will work towards are:

The extension of playing hours to 10pm with 4 lit courts is necessary to meet the increased demand for court time. Moreover, climate change is extending the outdoor playing season in the spring and fall when daylight hours are short. Extended play will particularly benefit working families, and enable evening programs for both juniors and adults to operate at capacity. Court lighting will also enable expansion of social and tournament events in the future drawing more visitors to our community.

4. Project will address issues or opportunities pertaining to:

1) Since 2018, the tennis club has grown from 80 to 250 members, with a notable increase in family memberships. The main playing opportunity for working families during the week is in the evenings. 2) The growth in participation in evening programs, such as men's and women's nights, now requires 4 lit courts. 3) At times in mid-summer, the excessive afternoon heat necessitates evening play for health and safety concerns. 4) With 4 lit courts, NTC will be positioned to host larger regional tournaments to the benefit of Nelson's hospitality sector. 5) Climate change is extending the outdoor season earlier into the spring and later into the fall when daylight playing hours are limited.

5. This organization is best to provide this project to the community because:

Since the beginning of site revitalization in 2018, the NTC, with a solid core of experienced volunteers, has a proven record of accomplishing large, complex capital projects on time and on budget. The completion of court lighting is the last significant capital project at the site and is a comparatively straightforward undertaking compared to previous large projects such as court reconstruction and building of the Facility Centre.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The Nelson Tennis Club capital projects volunteer group will be responsible for planning, procurement, site supervision, and the provision of volunteer labour. Cobra Electric will provide re-purposed light standards. Arcright Welding will fabricate the light brackets. All electrical installation work will be undertaken by Ian Colgur, certified electrician.

Project: Completion of Tennis Court Lighting

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

The Nelson Tennis Club volunteers will transport the light standards from Cobra Electric to the site, will provide the labour required to mount the light poles and brackets, and will assist the electrician in the running of wires and attachment of LEDs.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

1. The project will provide:

Project: Infant Radiant Warmer for the Maternity Ward

The goal of this project is to raise \$50,000 to purchase an Infant Radiant Warmer for the Maternity Ward at Kootenay Lake Hospital. This infant warmer uses gentle radiant heat to maintain the body temperature of newborns who require assistance after their birth. It is equipped with an overhead lamp to prewarm the mattress and is especially helpful in providing soothing warmth for premature babies. The radiant warmer has integrated controls, such as oxygen and suction, for clinicians to use when resuscitating babies. It also comes with an integrated scale for the baby's first weight.

Funds for this campaign will be raised through grants as well as direct mail solicitation to individuals, local businesses and service organizations.

2. Organization Mandate:

Kootenay Lake Hospital Foundation is governed by a volunteer board of directors with a mandate to raise funds to purchase priority medical equipment for Kootenay Lake Hospital.

3. Community objectives the project will work towards are:

Maternal newborn care will benefit from this purchase. We have an increasing population of patients who rely on KLH for their perinatal care.

4. Project will address issues or opportunities pertaining to:

Kootenay Lake Hospital is home to the busiest Maternity Ward in the region. The infant warmer will support priority and safe care for every delivery by having state of the art resources available. It will replace an infant warmer that needs upgrading as it has reached the end of life and parts are no longer available.

5. This organization is best to provide this project to the community because:

Kootenay Lake Hospital Foundation was established as a registered charity in 1991. Over the last 33 years we have raised over \$6.5 million to purchase priority medical equipment for our hospital.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The Kootenay Lake Hospital Foundation's Executive Director, along with the 13 volunteers on the Board of Directors will implement this project.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Not applicable

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Polka Dot Dragon Arts Society**

Registration # S0075885
305 4th st, Nelson BC V1L 2S1

Name of Organization being sponsored if applicable -

Project Title **Polka Dot Dragon Lantern Festival**

Project will be located in: City of Nelson

The festival will take place as a parade on Baker Street on Friday, Feb 7th and as an outdoor gallery/performance space at Lakeside Park on Saturday, February 8th. The workshops will take place in and around Nelson in January, at local schools and community centres.

Importance to the community:

Participating in community arts strengthens communities. This festival appeals to a variety of ages and skill levels. It promotes local artists and performers and art appreciation. It gives artists an opportunity to come together and network and to make works outside of the gallery/theatre setting. It brings students together by offering workshops, so that on the day of the festival the beach is filled with creations made by students from different schools. It creates opportunities for volunteers to meet each other as they work towards common goals. This festival sparks creativity and imagination and brings light to our community in a time of year when connection with community can be difficult to find.

Project: Polka Dot Dragon Lantern Festival

| | | |
|-------------------|--------------------|--------------------|
| \$4,800.00 | \$34,800.00 | \$34,800.00 |
|-------------------|--------------------|--------------------|

1. The project will provide:

This project brings people together in celebration of art, nature, and community. The Polka Dot Dragon Lantern Festival has been happening since 2014, and growing in size and popularity each year. Through a combination of providing lantern making kits and hosting lantern making workshops at community centres and local schools it creates an accessible platform for community art, where everyone can be an artist. The festival also promotes local artists and performers by offering a honorariums each year to support their contributions to the festival.

2. Organization Mandate:

- To advance the public's appreciation of the arts by producing arts festivals and events in the West Kootenays and by providing a forum for qualified artists to exhibit, present, or perform their artistic works through participation in such events.
- To carry activities ancillary and incidental to the attainment of the above charitable purpose.

3. Community objectives the project will work towards are:

Participating in community arts strengthens communities. This festival appeals to a variety of ages and skill levels. It promotes local artists and performers and art appreciation. It gives artists an opportunity to come together and network and to make works outside of the gallery/theatre setting. It brings students together by offering workshops, so that on the day of the festival the beach is filled with creations made by students from different schools. It creates opportunities for volunteers to meet each other as they work towards common goals. This festival sparks creativity and imagination and brings light to our community in a time of year when connection with community can be difficult to find.

4. Project will address issues or opportunities pertaining to:

This festival takes place in February. It is not the easiest season to host an outdoor festival, but we have found it is a time of year people are very appreciative for reason to come together and make art. The community building which happens in preparation for the festival is just as important as the event itself. The festival gives people the opportunity to come out and enjoy the outdoors in a different way. The main way we have identified these needs is by the overwhelming enthusiasm we have received at the lantern making workshops, from the growing number of artists and performers who have become involved, and the great turnout of attendees each year.

5. This organization is best to provide this project to the community because:

The Polka Dot Dragon Arts Society was incorporated in January 2022. After several years of working with partner organizations to produce the festival, we decided that wanted to have a non-profit dedicated solely to bringing more community engaged arts opportunities to the Kootenays. The lantern festival continues to be the main focus of our non-profit, and we have also started to develop other community arts projects.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Myra Rasmussen is a community engaged artist and the artistic director of Polka Dot Dragon Arts Society. With help from the society's board of directors, she will be in charge of the project and will work with an event organizer, local artists, performers, and community volunteers to implement the project.

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

City of Nelson is waiving park permit fee for community event, providing electricity, and portable washrooms

Schools and community centres are donating space for workshops

Nelson District Credit Union is lending tents for event

Kootenay Coop, Save on Foods, and Oso Negro are providing food for volunteers

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Project Title **KCR Cultural Space and Live Music Series**

Project will be located in: City of Nelson

The project will take place at the Kootenay Coop Radio Station in Nelson. Live broadcasts can be accessed on air throughout the region and online.

Importance to the community:

Residents and artists of our community will benefit from the completed renovation of the KCR basement space through having access to a cultural performance and rehearsal space in which local and small touring artists can host shows. It will benefit emerging artists in our community through the creation of a low-barrier, inexpensive space equipped with sound and video tech that will contribute to their ability to test and promote their work. Currently there are very few small venues of this size available in Nelson and area. Local organizations in our community will benefit from another potential venue for public and private meetings. Our cooperative members and listeners will benefit from the station having the space and capacity to produce live to air performances. Artists and bands showcased in the live to air series will benefit from exposure to a live audience and being broadcast on air and streamed online.

Project: KCR Cultural Space and Live Music Series

| | | |
|------------|-------------|-------------|
| \$9,150.00 | \$15,085.00 | \$15,085.00 |
|------------|-------------|-------------|

1. The project will provide:

This project will enable the Kootenay Coop Radio to purchase high quality sound reinforcement equipment for our new performance venue; increase staff capacity directed at producing live music content that exposes established and emerging regional artists to an audience; and raise the profile of the station in the community. Over the past couple of years, Kootenay Co-op Radio has been working to convert the basement in our heritage building into a live performance venue and community space. To date we have installed a basement entrance at the front (Hall Street side) of our building; met fire code regulations for a 30 person venue capacity; upgraded plumbing and electrical infrastructure: constructed a fire barrier ceiling (insulation and drywall), and installed a small kitchen and bar area, thanks in part to funding through this program. Upon completion of the renovation, KCR will produce a series of 12 1-hour long monthly live music broadcasts showcasing local musicians. KCR listeners will enjoy a new live to air music performance series while participating musicians will benefit from their performances being broadcast on the radio and streamed online. This series will coincide with our 25th anniversary celebrations as well as welcome the community into our new space.

2. Organization Mandate:

Kootenay Cooperative Radio uses its facilities and the initiative and skills of its membership to create a medium for balanced expression of the varied perspectives of our community. KCR aims to entertain and inform listeners through its commitment to innovative broadcast journalism and high-quality programming.

3. Community objectives the project will work towards are:

Residents and artists of our community will benefit from the completed renovation of the KCR basement space through having access to a cultural performance and rehearsal space in which local and small touring artists can host shows. It will benefit emerging artists in our community through the creation of a low-barrier, inexpensive space equipped with sound and video tech that will contribute to their ability to test and promote their work. Currently there are very few small venues of this size available in Nelson and area. Local organizations in our community will benefit from another potential venue for public and private meetings. Our cooperative members and listeners will benefit from the station having the space and capacity to produce live to air performances. Artists and bands showcased in the live to air series will benefit from exposure to a live audience and being broadcast on air and streamed online.

4. Project will address issues or opportunities pertaining to:

- Residents of our community will have increased access to cultural performances, both during the project and beyond, in a small, intimate, all-ages venue
- Artists have access to a low-cost performance and rehearsal space
- Developing this venue and producing live to air shows raises the profile of KCR in the community and has the potential to attract new members, supporters and sponsors
- Rental fees from the use of the finished space by musicians, KCR programmers and community groups contributes to an increase in operating revenue for the station
- These opportunities have been identified through internal strategic planning work; the station receiving several requests per month since the beginning of the renovation project for use of the space for shows and rehearsals; and the success of a previously produced live to air series of shows featuring local and regional musicians and bands

5. This organization is best to provide this project to the community because:

Kootenay Coop Radio has over 20 years of experience connecting artists and community. We have hosted many events since our inception in 1999. Our building is underutilized and so this small performance space will become a

Project: KCR Cultural Space and Live Music Series

valuable asset for expanding cultural performance opportunities. KCR has over 60 programmers who connect with a variety of artists in our broadcast area and this allows us to have a very diverse offering of artists in our network. Local and touring artists contact us regularly about wanting to promote their work. This project will create yet another avenue for us to meet the needs of these artists. KCR has 3 part-time staff who are able to coordinate projects and programs and volunteers to deliver on our strategic planning goals. The KCR staff will guide the work of installing the technical infrastructure, producing broadcast shows for the concert series and ongoing management of the space.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The KCR staff- our Operations and Programming Manager, Administrative Manager and Sponsorship and Events Coordinator- as well as KCR volunteers. A short-term coordinator and sound technician will be contracted to co-produce the live music series.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

KCR staff and volunteers will work to complete the renovation of the basement performance space as well as conduct outreach with potential artists and bands who will be a part of the live to air concert series.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

KCR Basement Cultural Space: City of Nelson Sustainability Goals and Community Priorities

Kootenay Coop Radio was founded in 1999. KCR is volunteer driven and community powered radio station broadcasting to over 60,000 people in Nelson, the Slocan Valley, Castlegar, Kaslo and other areas of the West Kootenays and over the internet to a world wide audience. KCR has over 3,000 members and more than 50 programmers who help us represent the diverse nature of Nelson and area.

This project will address the areas of Cultural Strength, Healthy Neighbourhoods, Healthy Living and Social Well-Being and Resiliency, identified in the City of Nelson's 2040 Sustainability Strategy.

Kootenay Coop Radio is important to the community as it reflects the diverse voices of our region, offering a forum for discussion and analysis of current affairs, from environmental, political and social issues as well as pop culture and the arts. A recent success in engaging the local community was our KCR Live radio show which showcased local musicians live in our studio playing their music and discussing their craft live with a host in our Hall Street Studio. This brought local musicians who had been unable to perform live during the pandemic to our listeners and highlighted the KCR Studio as an emerging cultural hub for Nelson. This project gave voice to over 60 musicians, including students of the Selikirk College Music Program and LV Rogers High School. The basement renovation project will allow us to continue this process by providing a small live venue for local musicians and other artists to rehearse and perform while contributing to the social and cultural vitality of Nelson.

Healthy neighbourhoods are vibrant and the work we are doing to revitalize the KCR station, both inside and out, contributes to the Hall Street corridor which will be enhanced by having a performance venue and cultural space just off of the downtown core. This project will create an all ages venue

and gathering space in the Hall Street neighbourhood within walking distance of downtown and the waterfront.

KCR has a significant percentage of programmers who are seniors. Social well-being through the stages of life requires opportunities for people of all ages to have ways to contribute. KCR has a diverse mix of programmers and our seniors have a chance to mentor new programmers and to stay engaged in being a voice of and for the community. Young people need a place to start when interested in performing, exploring spoken word, or being a community activist and voice for change. The various KCR programs provide this opportunity through a supportive and collaborative Coop approach.

Resiliency can be enhanced in many ways in a community and KCR ensures that the many community organizations that create and support resilience initiatives have a voice through our shows such as Kootenay Morning and EcoCentric as well as through public service announcements and individual programmers' shows.

Nelson has many gathering spaces but small venues are needed. This project will provide a small rehearsal and performance space and it will be able to be adapted to other uses for meetings, school groups, Selkirk College music students, and other arts and culture groups. A key feature of this project is that it will create a small affordable venue for rehearsal, performance, meetings and other community uses.

To whom it may concern:

February 15, 2024

I am writing this letter in support of Kootenay Coop Radio's CBT Resident Directed grant application.

I was on the KCR board for 4 years (term ended November 2023). I was co-chair for 2 years and chaired the Personnel Committee and the Policy and Governance Committee and I am currently on the Finance Committee. I also have co-hosted shows on KCR.

The basement project is a key piece of the strategic plan developed by the KCR board in 2020. It will assist KCR in advancing the four key strategic goals:

- 1) Excellence in Programming
- 2) Stronger Community Presence
- 3) Sustainable Funding
- 4) Technology and KCR Studio

Completing the basement increases the breadth of KCR's programming, it creates more opportunity for music events, meetings, and other events to increase KCR's presence in the community and will bring in additional revenue along with creating a vibrant user space to establish more of a studio atmosphere.

In 2021 KCR received a grant to host "KCR LIVE", which featured many local and regional musicians. It was very popular with our audiences and it expanded performance opportunities during a difficult time for musicians due to Covid-19. A few of these shows featured students from the Selkirk College Contemporary Music and Technology Program. This was the start of an important partnership for both the Music program and KCR. The Selkirk College Music program needs opportunities for their students to perform - they need a variety of venues and for new performing musicians who need a smaller venue that allows them to have a less intimidating experience for learning about performing. Since the KCR LIVE events we have had a few more students and some faculty perform on a variety of KCR shows. A next step will be to have the basement in a finished state so that we can regularly host "tiny desk" like concerts featuring Selkirk College Music program students.

I have personally attended two of the music events hosted in the basement and they were sold out and provided a great venue for up and coming musicians to perform in. The completion of the project with high quality sound reinforcement and sound proofing, along with upgrades to the bathroom will make this a sought after venue for music events, other performance events, meetings and workshops. I have even had musicians suggest they'd like to shoot music videos in this space.

KCR provides invaluable services to the residents of Nelson and area with an eclectic suite of music and information shows and adding a well equipped performance space will increase KCR's ability to serve musicians, not-for-profits, people needing meeting space or rehearsal spaces and workshop space.

I would be happy to discuss this with anyone as you deliberate on your granting process.

Project Title **Community Spay-Neuter & Medical Assistance**

Project will be located in: RDCK Area A, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area H, City of Nelson, Village of Salmo, Village of Kaslo

The Project takes place and starts at the Nelson BCSPCA including our local vets.

Importance to the community:

There is an ongoing trend of animal owners requesting assistance from the program. Due to rising cost of Vet care, animals owners do not always have the resources to seek spay neuter, vaccines and permanent identification. Funding for the Project will prevent more unexpected litters of kittens and puppies. As well the added protection of a vaccine and parasite prevention lowers the risk of illness/spread of disease like Parvo virus, distemper, FIV, FIP. The public also benefits from the decreased conflict with stray at large animals.

Work Plan Dates: Project Start: 5/31/2024 Project End: 6/1/2025

|------------------------------|--------------------------|---------------------------|
| \$4,980.00 | \$14,420.00 | \$14,420.00 |

1. The project will provide:

The BCSPCA will identify families/persons in need of Spay Neuter/ Medical Assistance via walk-ins, Out Reach workers speaking on behalf of clients, phone calls and referrals. The purpose of the project is to reduce the number of unexpected litters of kittens and puppies. Included in the Project is a standard vaccine, parasite treatment, and permanent lifetime microchip registration with the BC Pet Registry. This will be achieved by working with local Vets, social workers, engaging with the public, educating on the importance of spay neuter and vaccines, vet visits.

2. Organization Mandate:

To protect and enhance the quality of life for domestic, farm, and wild animals in British Columbia.

3. Community objectives the project will work towards are:

There is an ongoing trend of animal owners requesting assistance from the program. Due to rising cost of Vet care, animals owners do not always have the resources to seek spay neuter, vaccines and permanent identification. Funding for the Project will prevent more unexpected litters of kittens and puppies. As well the added protection of a vaccine and parasite prevention lowers the risk of illness/spread of disease like Parvo virus, distemper, FIV, FIP. The public also benefits from the decreased conflict with stray at large animals.

4. Project will address issues or opportunities pertaining to:

We are addressing the problem of pet overpopulation, due to unexpected litters of kittens and puppies. These are identified by owner surrender requests, social media posts of puppies/kittens needing homes, roaming intact animals disrupting neighbourhoods. We also get requests from animals owners that can not afford the cost of the procedure of spay/neuter.

5. This organization is best to provide this project to the community because:

Our organization is well know in the community and surrounding areas, providing outreach with our pet food bank, emergency boarding and general education to the public. We have a great relationship with local vets and we work together to make the project run smoothly. We connect to with animals owners and keep it all about helping the animal owner and build a trusting relationship.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The BC SPCA Animal Centre Manger, staff, Volunteers of the Nelson BCSPCA, local Vets, their staff and animal guardians are all involved in the process.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Our Veterinary partners offer us a discount on all procedures including microchip implantation, vaccines and treatments, pain management and aftercare items.

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Living Lakes Canada Society**

Registration # 727136327RR0001

#202A, 330 Baker Street, Nelson British Columbia V1L 4H5

Name of Organization being sponsored if applicable -

Project Title **Water monitoring for local climate change adaptation**

Project will be located in: RDCK Area A, RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, RDCK Area K

Monitoring sites have been established across the RDCK on Ktunaxa, Secwepemc, Sinixt and Syilx Nations territories.

The network has been designed to include a diverse range of watershed types. Monitoring carried out at each site can be used to infer conditions of other watersheds with similar characteristics, allowing the knowledge generated to improve understanding of all RDCK watersheds.

Many smaller community-based water stewardship groups also operate in this region - this project aims to complement and support their efforts. LLC would prefer not to receive funds from this program at the expense of applications for local/ Indigenous-led water stewardship initiatives.

Importance to the community:

This project will support improved watershed management and stewardship decisions that benefit all residents of the RDCK. This project is consistent with priorities identified in strategic plans and climate adaptation strategies identified by numerous communities in this area.

The monitoring being carried out responds to the community priorities identified in 2022 and 2023 related to tracking the effects of climate change and other impacts on water supply. Communities need to understand these factors to be able to implement adaptive management in the face of a changing climate.

The data resulting from this program will be shared openly through the Columbia Basin Water Hub database. We will collaborate with data users and produce resources to support interpretation of the data to inform decision making. The resulting information will be used to support local cumulative effects studies, land-use planning, watershed restoration, community adaptation plans and sustainable water usage practices.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/30/2025

1. The project will provide:

Living Lakes Canada has developed an innovative methodology to gather the data and information necessary to build climate resilience in the Columbia Basin. We are implementing a coordinated water monitoring network that reflects local priorities while also addressing scientific data gaps.

In 2022, we implemented this approach in the RDCK within the Mid Columbia-Kootenay region. In 2023 we expanded to the Lower Columbia-Kootenay region (map attached). Activities for 2024 will include monitoring of stream flow; water temperature; climate; high elevation ecosystems; groundwater, wetland and lake level; water quality and biodiversity at 67 locations across the RDCK.

To support local capacity building and youth engagement in water monitoring and stewardship, we offer community workshops and training on water monitoring protocols, volunteer opportunities, internships and employment opportunities.

The monitoring network is responding to the recognized need for critical long-term data to support community and ecosystem resilience in the face of climate disruption. The improved knowledge of our watersheds will support local climate adaptation and water stewardship initiatives.

2. Organization Mandate:

Living Lakes Canada (LLC) facilitates collaboration in education, monitoring, restoration and policy development initiatives for the long-term protection of lakes, rivers, wetlands and watersheds in Canada. Our mandate is to help Canadians understand, adapt and mitigate the impacts of climate change to water quality and quantity, biodiversity and healthy human communities through grassroots water stewardship activities. Living Lakes Canada bridges the gap between science and action to foster and normalize citizen-based water stewardship.

LLC serves to address the climate crisis as it relates to people across Canada. Our work encompasses water protection, restoration, and health. We build capacity through community-based water monitoring to help address climate impacts. We promote and facilitate cross-sector collaboration and research to increase water literacy and support progressive decision-making for improved water stewardship. Our successful leadership and stewardship templates have supported the creation of many other grassroots water stewardship groups. LLC has received multiple water stewardship awards and has been recognized by the federal government as a "best practices" example in community-based ecological monitoring in Canada.

Project: Water monitoring for local climate change adaptation

Our internal support functions assist our core programs and are currently managing an annual budget of \$4,344,098 including projects across Canada.

3. Community objectives the project will work towards are:

This project will support improved watershed management and stewardship decisions that benefit all residents of the RDCK. This project is consistent with priorities identified in strategic plans and climate adaptation strategies identified by numerous communities in this area.

The monitoring being carried out responds to the community priorities identified in 2022 and 2023 related to tracking the effects of climate change and other impacts on water supply. Communities need to understand these factors to be able to implement adaptive management in the face of a changing climate.

The data resulting from this program will be shared openly through the Columbia Basin Water Hub database. We will collaborate with data users and produce resources to support interpretation of the data to inform decision making. The resulting information will be used to support local cumulative effects studies, land-use planning, watershed restoration, community adaptation plans and sustainable water usage practices.

4. Project will address issues or opportunities pertaining to:

Climate impacts are resulting in extreme temperature and precipitation, flooding, fire events and diminishing glaciers. Existing water monitoring networks are insufficient to track and understand these impacts. Therefore, decision makers and community members do not have access to the information required to improve community climate resilience.

These data gaps have been identified in a series of reports from the Pacific Climate Impacts Consortium (PCIC) and Columbia Basin Trust (CBT) dating back to 2006. These reports highlighted the need for increased water data to help communities understand climate impacts and adapt.

Specific local issues and opportunities were identified through extensive consultation with the communities in 2022 and 2023 through online surveys and meetings, in-person community meetings and direct conversations. All levels of government, First Nations, local stewardship groups and the private sector were involved in community consultation which informed LLC's monitoring site selection.

5. This organization is best to provide this project to the community because:

Living Lakes Canada has been leading the development and implementation of this project since its beginnings in 2017. Results to date, supported by the RDCK ReDi Grants in 2023, are detailed in the attachments to this application.

Our team is composed of 17 qualified full-time employees who bring a wealth of experience facilitating water monitoring and stewardship projects, with seasonal and part-time staff retained as needed. We have contracted the appropriate hydrology professionals to provide scientific guidance and oversight. Additionally, we are connected to a network of industry leaders and professionals who provide in-kind advisory support to our staff.

As this is a large-scale project, we are enhancing our capacity by working with local consultants, stewardship groups and community members to implement the monitoring.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The project is led by Living Lakes Canada and will be implemented by our staff, primarily based in Nelson. Summer students will be employed, providing job experience opportunities for local youth. Local consultants are also employed to support the operation of monitoring stations and provide technical oversight. Where possible,

Project: Water monitoring for local climate change adaptation

monitoring is carried out in collaboration with community stewardship groups, local governments and Indigenous communities.

- 8. **Minors will be working on this project:** Yes
- 9. **Project will be 100% completed by volunteers:** No
- 10. **Is the project viable without ReDi funding support:** : Yes

11. In-kind sources and contributions:

All levels of government, environmental stewardship groups, Indigenous community members and knowledge holders, industrial water users, tourism and recreation operators, community drinking water systems, private sector consultants make in-kind contributions to the project through sharing local concerns and priorities. Many of these groups also contribute their own data to the Columbia Basin Water Hub database where it can be accessed by LLC and other data users. Local governments and landowners provide access to sites and share local observations and conditions. Community members support the monitoring activities as volunteers. We receive discounts and sponsorships from several monitoring equipment and software providers.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

LCK LRG Demographic Breakdown

Figure 1: Participation in the Lower Columbia-Kootenay LRG across sectors and demographics.

QUESTIONS AND CONCERNS ABOUT WATER AND CLIMATE CHANGE

At the in-person meetings, participants were asked to generate questions or concerns they have about water and climate change. Prominent themes were around water supply, emergency preparedness and the impacts of human activity.

Select Questions and Concerns About Water and Climate Change From the LCK LRG:

- How will the hydrologic cycle change over time?
- What is the state of groundwater?
- What is the value of water?
- Are there enough monitoring stations to support climate predictions?
- Will my community have enough water (potable/fire hydrant) in future time of drought/wildfire?
- Are disturbed sites and undisturbed sites being monitored for comparison?
- What are the impacts on water quality and quantity from wildlifes or clear cut logging to the riparian edge?
- How vulnerable does our water supply have to be before it will take precedence over industrial interest?
- Will winter flows get lower in the future? What impact will that have on ecosystems, fish and communities?

December 17th, 2023

Re: Columbia Basin Water Monitoring Framework

To Whom It May Concern,

The Dumont Creek Water Users group supports Living Lakes Canada's implementation of the Columbia Basin Water Monitoring Framework (CBWMF) and the associated Columbia Basin Water Hub. Dumont Creek Water Users group was formed in 2019 to enlist community support to protect the Dumont Creek Watershed and Paradise Valley sub-basin. There has been over 100 years of logging and road building activities conducted in this part of Slocan Valley, including the Winlaw Woodlot 1832 tenure holders. The Dumont Creek Water Users group recognizes that the CBWMF offers a localized solution to the Basin-wide need for cost-effective and community-focused water monitoring that supports a science-based approach to decision making related to water supply for communities.

Through the CBWMF, Living Lakes Canada has installed a water monitoring station in Dumont Creek. This station collects hydrometric data to monitor seasonal changes in the volume of water in Dumont Creek. This station has provided valuable data in a catchment area highly influenced by the logging and road building activities of SIFCO. To provide context, extensive habitat fragmentation due to intensified logging and road networks have greatly influenced the Dumont Creek watershed. In 2019 the Dumont Creek Water Users group initiated a petition that stopped SIFCO's attempt to log the watershed. The data collected through the CBWMF is valued for communicating our needs and concerns to the Selkirk Forest District and their Authorization Forester. The Dumont Creek Water Users group therefore endorses the continued development and implementation of the CBWMF and Water Hub to help collect, store, analyze, and share water quantity and quality data in the Columbia Basin.

The work being carried out by Living Lakes Canada and the CBWMF is necessary for an improved understanding of what's needed for watershed resiliency during this time of climate uncertainty. As an organization that has benefitted from the support and resources provided through the CBWMF, the Dumont Creek Water Users group supports Living Lakes Canada in this initiative.

Sincerely,

John Wittmayer

RE: Columbia Basin Water Monitoring Framework

To Whom It May Concern,

Slocan lake Stewardship Society (SLSS) is an environmental non-profit society for the protection and conservation of the Slocan Watershed through science, education and advocacy. The Slocan Watershed is an integral part of the Upper Columbia Basin water network, sharing ecological and cultural importance along with the Arrow and Kootenay Lake watersheds. SLSS continues to focus on conservation projects and initiatives that enable us to adapt and protect water sources in the face of climate change.

SLSS supports the Columbia Basin Water Monitoring Framework (CBWMF), the implementation of the Priority Monitoring Matrix and their ongoing work with the Columbia Basin Water Network (CBWN). SLSS currently does water quality testing on several north Slocan Lake tributaries. Working with Okanagan Nation Alliance in the fall of 2021, SLSS installed an additional 10 temperature loggers on fish bearing streams. On an ongoing basis, SLSS gathers and uploads this data and information into the CBWN.

To complement our current tributary monitoring program, we have a growing need to gain knowledge through alpine wetland, glacial and snow pack monitoring. The majority of our work to date has concentrated on foreshore, creek mouths and valley bottoms. We have recognized there is a long term need for higher elevation data and stream flow information. Since SLSS is dedicated to protecting the quantity and flow of water throughout our watershed, with higher elevation monitoring in place we can gain a greater understanding of climate impacts and improved basis for adapting to climate change in our conservation and restoration efforts.

SLSS endorses this initiative to develop a water monitoring priority matrix, along with a Water Hub and Monitoring Framework for the Columbia Basin. As a participant in the Mid-Columbia Kootenay Local Reference Group, SLSS will share our data, information and knowledge in support of this project. Bringing together water stewards, scientists, conservationists, indigenous, local and provincial communities will provide for well-rounded input that is needed for an initiative of this nature. SLSS recognizes that the multi-discipline, collaborative approach will be effective in developing an expanded, science-based water monitoring program for the Columbia Basin.

Sincerely,

A handwritten signature in black ink, appearing to read "W King".

Wendy King, President
Slocan Lake Stewardship Society

MEMO

DATE: September 22, 2023

TO: Mid-Columbia Kootenay Local Reference Group

FROM: Living Lakes Canada

SUBJECT: CBWMF Pilot Year Data Summary for Mid-Columbia Kootenay Hydrologic Region

Living Lakes Canada acknowledges that the Columbia Basin Water Monitoring Framework project referenced in this Memo is taking place in the unceded traditional territories of the Ktunaxa, Lheidli T'enneh, Secwepemc, Sinixt and Syilx Nations who have stewarded these lands for generations. Recognizing Indigenous People as the rightful caretakers of their unceded territories, we work to complement their intergenerational work and Indigenous-led water stewardship initiatives.

Living Lakes Canada is completing its first year of data collection through the [Columbia Basin Water Monitoring Framework](#) (CBWMF) project. As part of the project's pilot year, water quantity, water quality, and climate were monitored in three sub-regions of the Canadian Columbia River Basin: the Mid-Columbia Kootenay (MCK), Columbia-Kootenay Headwaters (CKH), and Elk River Valley (ERV). The importance of this monitoring in understanding the state of freshwater in the Columbia Basin cannot be overstated — 2023 has been an unprecedented year with regard to snowfall, rainfall, drought, and wildfires. The following summary of surface water and climate conditions is based on the hydrometric and climate data that were collected in the MCK region. A full report will be released early 2024.

Across the MCK region, lower-than-average snowpack was followed by above-average spring and summer air temperatures, contributing to a very early melt of the snowpack and snow-free conditions one month earlier than is typically recorded. This early onset of spring snowmelt is what is expected under climate change and provides important context for future conditions. Climate monitoring at the Kokanee Glacier site (conducted by Alpine Club of Canada) found that the high air temperatures in April resulted in an early spring melt. These conditions are similar to what was observed throughout British Columbia.

Seasonal streamflow patterns show the effects of sustained high air temperatures, much earlier than normal snowmelt, and lower than normal precipitation during the spring. An exceptionally early melt was recorded by our hydrometric stations on MacDonald, Caribou, Silverton, Upper Wilson and Fitzstubs Creeks. The data show that the above seasonal air temperatures at the end of April triggered snow melt resulting in streamflows and water levels peaking in mid-May, one month ahead of typical freshet events. During this time, all creeks in the CBWMF showed a strong diurnal pattern, demonstrating that streamflow was driven by run-off from snowmelt, which reaches a maximum during mid-day when unseasonal air temperatures and solar radiation were highest. Since this time,

exceptionally hot and dry weather during the summer have spurred continued declines in historically low levels for many streams through the MCK.

This early melt combined with a hotter and drier than normal summer has had a significant impact on glacial-dominated systems such as Upper Glacier Creek. After several days of maximum daily air temperatures above 30°C, we observed increasing flows in the creek driven by the melting of high elevation snow and glacier ice. Streamflow patterns observed on Glacier Creek to date indicate that it is being fed by glacial melt. Continued monitoring of [Upper Glacier Creek](#) will allow us to track the changing input to water systems from glacially-fed streams as glaciers continue to recede. Data obtained from Glacier Creek will help to inform our understanding of how fast glaciers are melting in the Columbia River Basin and the impact on streamflow; this information can then enable modeling of nearby basins that contain glaciers, many of which are important water sources for local residents.

The unseasonably high spring air temperatures and corresponding streamflow patterns also impacted lake levels across the region. According to The [International Kootenay Lake Board of Control](#), high air temperatures in early spring caused water levels in Kootenay Lake to peak on May 18, 2023, one month earlier than historically reported. The [Arrow Lake](#) Reservoir has experienced lower than average inflows from tributary streams, contributing to a significant decline in water levels ([Arrow Lake conditions](#)). The CBWMF program is monitoring tributaries to both of these systems.

With continued monitoring, data collected by the CBWMF will be instrumental in supporting local climate adaptation and freshwater stewardship in the MCK region.

The CBWMF project is intended to expand upon the valuable monitoring and stewardship work carried out by local stewardship groups, First Nations, provincial agencies, municipal and regional governments, and the private sector to fill important data gaps across the region's complex landscapes. These include:

- Arrow Lakes Environmental Stewardship Society
- Alpine Club of Canada
- Central Kootenay Invasive Species Society
- Slocan Lake Stewardship Society
- Slocan River Streamkeepers Society
- Valhalla Mountain Touring
- Village of Silverton

Water data for the MCK are shared on the Columbia Basin Water Hub by many of these groups and can be found [here](#). Preliminary MCK data from the CBWMF project is available [here](#).

Living Lakes Canada continues to welcome community feedback and collaboration on the CBWMF project, and encourages the sharing of water data through the Columbia Basin Water Hub database.

If you have any questions, please contact: Paige Thurston, CBWMF Program Manager, at paige@livinglakescanada.ca.

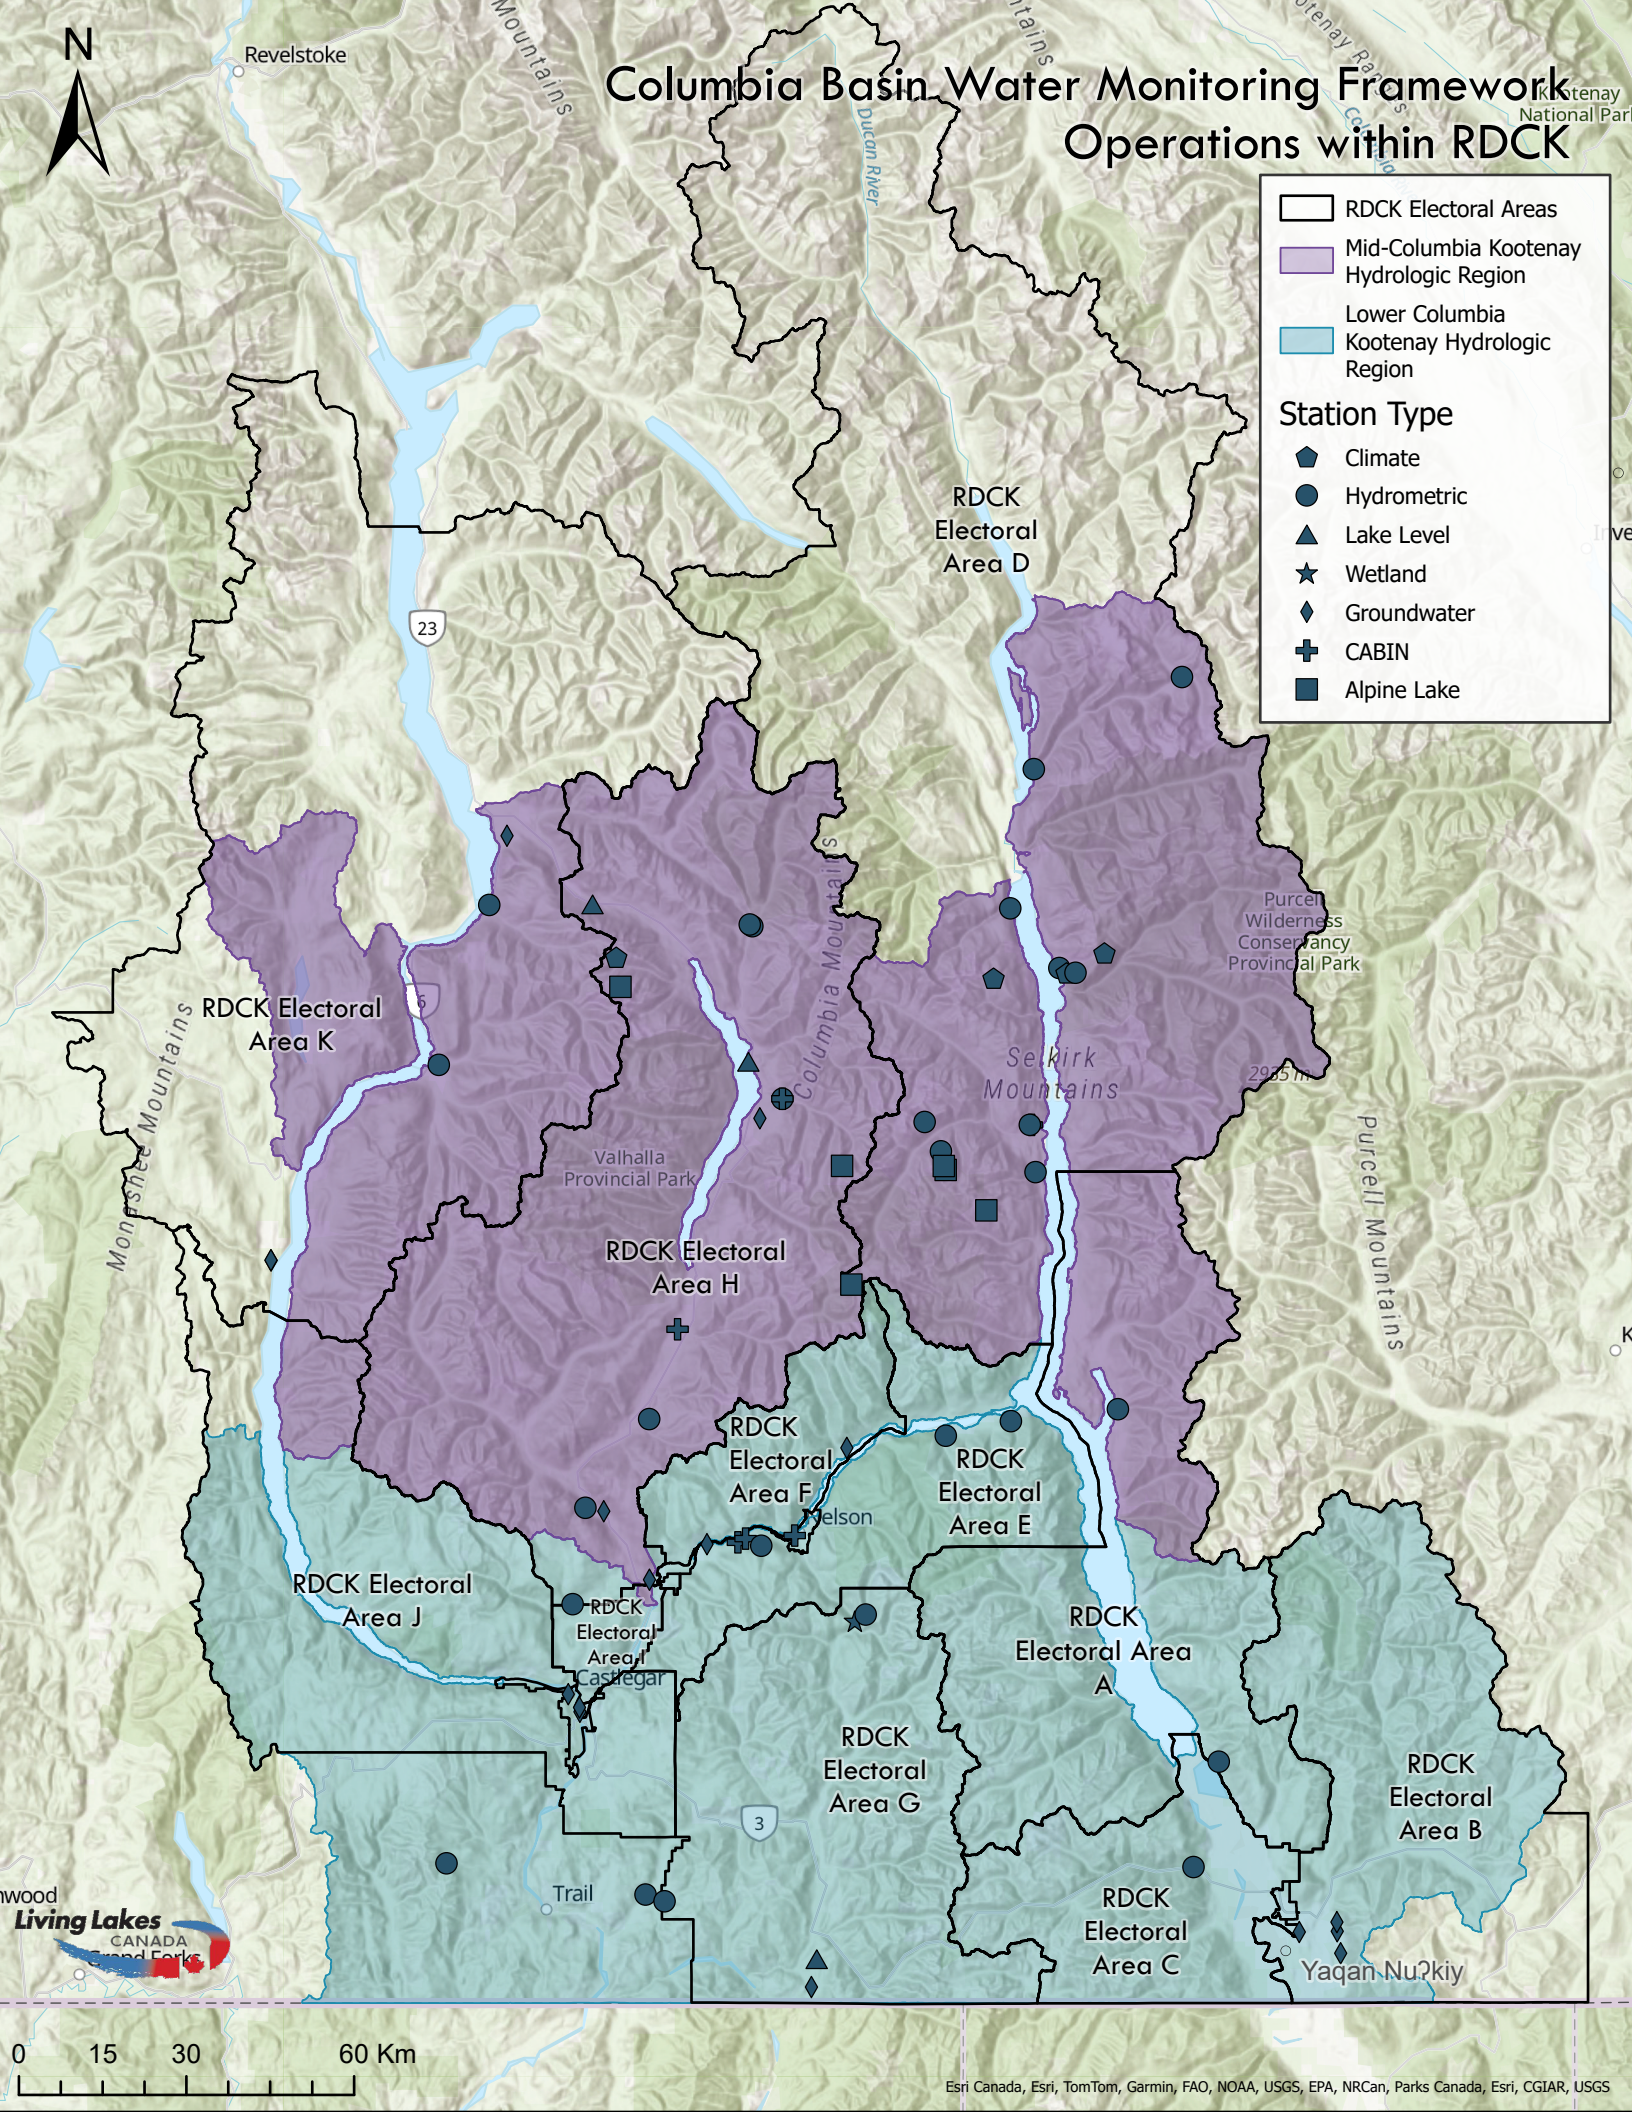

To learn more about the CBWMF, visit www.livinglakescanada.ca/cbwmf.

7641 Holt Road, Balfour British Columbia V0G 1C0

Name of Organization being sponsored if applicable -

Project Title **Parent and Child Time**

Project will be located in: RDCK Area E

Redfish Elementary School 265 Bryan Rd Nelson B.C V1L 6M9. PACT taking place at the school gives families and children continuity and makes the transition from PACT to Kindergarten much easier for all involved. We have many families from both Areas E and F attend weekly.

Importance to the community:

In this area, there is a noticeable lack of family-oriented programs, and we are trying to fill that gap. Most services and programs for residents in Areas E and F are provided in Nelson, but due to the ever-increasing cost of living, it's becoming challenging for families to travel. By bringing in professionals to the school for these early years' families, we are helping those who feel isolated and alone. Besides the government funded StrongStart program at Redfish School which runs only once a week, we are the only program of this kind in the area. We have loyal attendees from both Areas E and F, and on average, we have nine families attending each week. The program facilitator works with the principal and teachers to identify and support families at risk.

1. The project will provide:

This is a weekly program that happens at Redfish Elementary School and is free for children between the ages of 0 and 6 along with their parents or caregivers. The program includes various activities such as songs, story time, crafts, science experiments, a nutritious snack, gym space for free play and organized active play, and a Lending Library. Additionally, a qualified facilitator invites Guest Speakers 4-6 times per year who are professionals in their field and come to talk about topics like dental hygiene, sleep, health and nutrition, financial literacy, basic first aid, and physical and occupational therapists.

2. Organization Mandate:

Creating Community Connections. We aim to offer and promote family/child-based programs, activities, and events in our community; to foster strong inter-community communication, and networking to support these programs and events; to provide opportunities for citizens to become active/involved members of their communities in safe and healthful ways; to provide and maintain a network of safe and suitable venues for programs and activities; and to promote health and well-being, and community spirit.

3. Community objectives the project will work towards are:

In this area, there is a noticeable lack of family-oriented programs, and we are trying to fill that gap. Most services and programs for residents in Areas E and F are provided in Nelson, but due to the ever-increasing cost of living, it's becoming challenging for families to travel. By bringing in professionals to the school for these early years' families, we are helping those who feel isolated and alone. Besides the government funded StrongStart program at Redfish School which runs only once a week, we are the only program of this kind in the area. We have loyal attendees from both Areas E and F, and on average, we have nine families attending each week. The program facilitator works with the principal and teachers to identify and support families at risk.

4. Project will address issues or opportunities pertaining to:

This program caters to the needs of families in the Outlet areas. PACT serves as a crucial link for families with each other, their community, and healthcare professionals. Parents and caregivers cherish the social connections they form at the program and often become lifelong friends as their children grow up together. As we reside in a rural and somewhat isolated community, the healthcare connections parents and caregivers establish are paramount. Children require the opportunity to learn, play, and grow with their peers. At PACT, we provide families and children with a secure and enjoyable place to play and develop essential social, physical, and literacy skills. These skills help the children prepare for their entry into Kindergarten and the public education system. Families play a crucial role in shaping our program yearly by expressing their needs or parent-education desires verbally or in writing.

5. This organization is best to provide this project to the community because:

The Kootenay Lake Family Network is a group of volunteer parents dedicated to our community. The Parent and Child Time program has been established for 15 years and has evolved to meet the needs of our community. This year, we are working closely with the school to integrate the program and make the transition to Kindergarten less daunting for families. We follow Redfish School's Code of Conduct and learning language. Our Lending Library has many parenting books and is being expanded regularly. We understand that parents are the child's primary teachers and that it is essential to provide books to families.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Project: Parent and Child Time

The Kootenay Lake Family Network has had a 15-year partnership with the Columbia Basin Alliance for Literacy (CBAL) to deliver this program. CBAL hires the qualified facilitator and the KLFN provides the snacks, supplies, and equipment.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

\$1000 in-kind donation from Redfish School - reduced rate for facility rental.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

January 7, 2024

RE: CBT ReDi Grant APPLICATION (CBAL | *Parent + Child Time* PROGRAM)

To Whom It May Concern:

We are delighted to host Columbia Basin Alliance for Literacy's (CBAL) *Parent and Child Time* program at REDFISH Elementary School, year-after-year, on Friday mornings. Not only is the non-profit program a staple for the young families in our community, it is also a fantastic bridge between home and school for children (and parents) as they grow their literacy skills, make connections *within* their future school environment, and eventually make the transition to kindergarten.

We deeply value our community partnership with CBAL's *Parent and Child Time* program and look forward to many more years working in collaboration to support families in our local area.

With this in mind, REDFISH Elementary School fully supports any grant application that helps keep the program running to its fullest potential.

Sincerely,

Mark Bonikowsky | Principal
REDFISH Elementary School (SD8)

Redfish
Elementary School

December 15, 2023

Dear Julie,

Thank you for all that you do with the Parent and Child Time program. Thanks also for the love you have shown our children throughout the years.

Billie says you are her best friend!

Nichole, Josh, Axel, Cole, and Billie

February 13, 2024

To whom it may concern,

My 4-year-old son and I always look forward to Parent & Child time. It is very beneficial to newcomers to connect with other members of the community - it helped us meet new friends and feel at home. We enjoy the bag of books every week and has helped contribute to my daughter's ability to read.

The crafts & snacks are always of such great variety, as well as all the toys/sensory toys that are available for children's growth & development.

The Guest speakers are such an added bonus to help inform parents, and circle and song time gives so much variety to the morning session.

This is a much-appreciated event in our Rural area.

Kind Regards
Charlotte Cooke

February 14, 2024

To whom it may concern,

I asked my son, Rowan what his favourite things about Parent and Child Time are and he said snack time, singing, and playing with friends.

As a parent, I have found the community-building aspect invaluable. I have met the majority of my local parent friends at PACT, who have provided support, stability, and fun during a phase of life that can be isolating (particularly when living rurally). These connections have made the transition to elementary school feel less daunting. I have also learned a lot from the speaker series over the years. Julie is a kind and calm facilitator, who the kids adore and look forward to seeing each week, and what activities and snacks will be offered each week. The added presence of the lovely volunteer, Cheryl, has been an added bonus for all.

Brittney Larsen

Organization **Kootenay Wellness Foundation**

Registration # XS0078058

514 Vernon Street, Nelson British Columbia V1L 6H3

Name of Organization being sponsored if applicable -

Project Title **Kootenay Yoga Festival**

Project will be located in: RDCK Area A, RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, RDCK Area K, City of Nelson, Town of Creston, Village of Nakusp, Village of New Denver, City of Castlegar, Village of Salmo

Our festival takes place at the Vallican Whole Community Center in RDCK Area H but we will be making connections between folks throughout the West Kootenay region and encourage attendance from all surrounding communities. We have also held events in Castlegar & Nelson and are making allies with other festivals in the area. We use the Kootenay Yoga Festival & our year-round events as a platform to connect with the greater community which provides us more support & participation each year and brings us closer to our organization's larger vision; to create a community bursary fund for alternative health services.

Importance to the community:

This is the fourth year running the festival and the positive impact we've seen on at-risk individuals, local businesses, private health practitioners, and the community as a whole is significant. This project is incredibly important for promoting a healthier lifestyle for all communities in the Kootenays which greatly benefits our region as a whole. The long-term goal of our foundation is to create a community bursary fund which can support up to 100 low-income people with their well-being by giving access to holistic health services in the area. This will also allow more support to local businesses & private health practitioners as they will be able to reach a wider scope of clients, contributing to a conscious local economy. We will also promote indigenous health and reconciliation through our collaboration with the Autonomous Sinixt people and will create more awareness about the traditional territory we live on today.

1. The project will provide:

Our organization has been running an annual wellness & arts based festival in the Slocan Valley area, currently titled 'Kootenay Yoga Festival'. This is an inclusive event that not only promotes personal health but also fosters community engagement and supports local talent. Our upcoming event in September 2024 marks the fourth year of the festival and we expect approximately 300 attendants, attracting guests from the local area as well as from out of town. The festival builds a bridge between surrounding communities, artists, and wellness cultures in the West Kootenays and serves as a platform for individuals and groups to showcase their passions, performances, wisdom, and skills. Local artists will share their offerings throughout the weekend and we will also provide access to a diverse range of yoga & movement classes, self-development workshops, and educational talks. Surrounded by the natural beauty of the Sinixt tÉ™mxwÃ¸laÉ”xw (homeland), participants can learn about our local First Nations culture and traditional territory. We have formed a solid alliance with the Autonomous Sinixt, with their support, we create awareness on reconciliation and the cultural values of the Sinixt peoples through educational workshops with elder, Marilyn James. Our main focus is to make art and holistic wellness more accessible to the general public by creating an environment that supports physical, mental, emotional, and creative health.

2. Organization Mandate:

Kootenay Wellness Foundation is a non-profit organization with a mission to support individuals with their health & wellness by encouraging the use of the various holistic services offered throughout the Kootenay region. Our mandate is to make the wellness industry more accessible to the public to improve the overall health of our community. We work with financial barriers of individuals & families to provide free resources & low-income services for physical, mental & emotional well-being. Our goal is to empower people to improve their own lives through self-care and ancestral healing practices as well as to create a circular economy with the local businesses, practitioners & facilitators in our area. Overall our project budget is approximately \$50,000.

3. Community objectives the project will work towards are:

This is the fourth year running the festival and the positive impact we've seen on at-risk individuals, local businesses, private health practitioners, and the community as a whole is significant. This project is incredibly important for promoting a healthier lifestyle for all communities in the Kootenays which greatly benefits our region as a whole. The long-term goal of our foundation is to create a community bursary fund which can support up to 100 low-income people with their well-being by giving access to holistic health services in the area. This will also allow more support to local businesses & private health practitioners as they will be able to reach a wider scope of clients, contributing to a conscious local economy. We will also promote indigenous health and reconciliation through our collaboration with the Autonomous Sinixt people and will create more awareness about the traditional territory we live on today.

4. Project will address issues or opportunities pertaining to:

We recognize the large population of at-risk individuals within our local communities who struggle with financial hardships as well as physical, mental & emotional health issues. As a result, we see a greater need for alternative health services to manage the daily stresses of life as well as more events, especially in rural areas, to enhance community connection. Our foundation is actively working on creating more accessibility to these services by offering a discounted ticket program to the festival for low-income folks as well as special youth passes and a

Project: Kootenay Yoga Festival

volunteer program which provides free entry as an exchange. By offering year-round events at an accessible price, we can also increase community involvement at our local gatherings & workshops. In addition, we will be using mobile outreach to bring events closer to those in rural communities and providing transportation options for those who may have difficulty traveling to our festival.

5. This organization is best to provide this project to the community because:

Our team is a group of hard working individuals who are committed to improving our community through the vision of our foundation. Each person has the capacity to manage their time appropriately, complete important tasks successfully and use their valuable skills to make this project a reality. Our current team consists of Event Coordinator, Fundraising Director, Finance Assistant, Website Designer, Digital Marketing & Communications Manager, Sound & Tech Coordinator and Executive Director. We have had a very successful outcome from previous year's festivals and events, with lots of positive feedback and collaboration from our community. This has allowed us to grow a lot as an organization since the initial conception of this project. We are certain that we will be able to have the same kind of success in 2024 and we are very motivated by how we can truly impact the wellbeing of those living in our region.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Our KYF team of skilled individuals has been generously volunteering their time & energy for the start up of this project, however, this is an initiative that requires support from our entire community. We have a detailed plan for volunteer involvement with clear roles to support the planning & production of our events. We have also assembled an advisory board with members who have expertise in relevant areas and we regularly engage with them for guidance and feedback on how to successfully complete our project. Our sponsorship program also allows local businesses to be involved in and support the event.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

- Over 400 volunteer hours from staff positions,
- 50 hours consultation time from advisors

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Letter of Support

January 25, 2024

Kootenay Wellness Foundation/Kootenay Yoga Festival

To whom it may concern,

I would like to offer my support for the Kootenay Yoga Festival and Kootenay Wellness Foundation. I believe it fills an important community function here in the Slocan Valley.

In my work to develop an updated Economic Development Strategic Plan for the Slocan Valley, I reached out to a dozen local industry leaders, including Amy Heasman (KYF) from the Wellness sector. Amy helped by providing me with her observations and suggestions how stakeholders might best support the local Wellness industry.

The following recommendations can be found on page 51 of the Strategic Plan, which guides the work of the Slocan Valley Economic Development Partnership;

- Support non-profit organizations that support the Wellness sector.
- Support wellness classes, workshops and community networking opportunities.
- Sponsor community wellness events like the Kootenay Yoga Festival.

Over the past year I have witnessed Amy's initiative and development of the festival and foundation and have supported her, as best I could. I find Amy to be very collaborative, well-organized and community-minded. I have no doubt that her endeavours will prove fruitful and beneficial to the Slocan Valley community.

Additionally, I appreciate KYF's dedication to acknowledging and including meaningful local First Nations involvement.

I encourage other stakeholders to support Kootenay Wellness Foundation's work wherever possible.

Sincerely,

Ron LeBlanc

Slocan Valley Economic Development Coordinator - Community Futures of Central Kootenay
Serving Slocan, Silvertown, New Denver and RDCK Area H

Autonomous Sinixt

Smum iem
Box 69 New Denver, B.C.
V0G 1S0

To whom it may concern,

Autonomous Sinixt recognizes the Kootenay Wellness Foundation as an important local organization that provides access to barrier-free alternative health services to those in need throughout our local area. We recognize that holistic services are essential for optimal physical, mental & emotional wellbeing and that healthy individuals will make a healthier community for us all to live in. We will be supporting the Kootenay Wellness Foundation as they expand in their endeavors and look forward to the positive impact that it will create across the West Kootenay Region.

We appreciate the Kootenay Yoga Festival's efforts to include Sinixt cultural protocols and teachings in their mission, as a step towards establishing right relations with the land and the water in the Sinixt təmx'wílaʔx (land) and creating accountability in reconciliation efforts.

Warm Regards,
Marilyn James
Autonomous Sinixt Matriarch

Organization **Slocan Valley Rail Trail Society**

Registration # S035527
Box 22, Winlaw BC V0G 2J0

Name of Organization being sponsored if applicable -

Project Title **Slocan Valley Rail Trail Signage Improvement Project**

Project will be located in: RDCK Area H, Village of Slocan
The project will take place along the entire length of the 50 km long Slocan Valley Rail Trail.

Importance to the community:

With data showing our trail is getting over 100,000 annual users, new signage will compliment Trail safety in a comfortable manner. We want regular and new users to know how to best enjoy the Trail. We have many out-of-area users who may be unfamiliar with names of creeks, road crossings and rules of the Trail. When you add in our existing on-trail amenities direction signs, we will a better position to connect them to local restaurants, accommodation, market gardens, grocery stores, artisans and more.

Project: Slocan Valley Rail Trail Signage Improvement Project**1. The project will provide:**

The purpose of the project is to purchase new signage to upgrade and replace various existing Trail signage. The original Trail signage was based on highway standards of the day from 20 years ago, many of which have now be destroyed, damaged or removed. Our project will allow us to transition our signage to a smaller, more attractive size that better reflects the experience of being on our Trail. We will require over 75 new STOP and YIELD signs alone to meet all our crossings. As well, we will be upgrading (or adding) a multitude of other signs - including identifying road and creek crossings, directional signs, parking information, new information signs on our kiosks, speed limit signs (due to the increase presence of eBikes) and more. The signs will be aluminum with an anti-graffiti coating applied to them. Some vegetation work may need to be done for improved visibility. There are also associated installation costs, such as hardware, shipping etc. to consider. The signs will be installed by our volunteers. All of these are intended to help the user better enjoy our Trail and be able to navigate it safely.

2. Organization Mandate:

To manage and maintain the Slocan Valley Rail Trail in partnership with Rec' Sites and Trails BC. The Slocan Valley Rail Trail is a 50 km long recreational corridor located in the lower Slocan Valley

3. Community objectives the project will work towards are:

With data showing our trail is getting over 100,000 annual users, new signage will compliment Trail safety in a comfortable manner. We want regular and new users to know how to best enjoy the Trail. We have many out-of-area users who may be unfamiliar with names of creeks, road crossings and rules of the Trail. When you add in our existing on-trail amenities direction signs, we will a better position to connect them to local restaurants, accommodation, market gardens, grocery stores, artisans and more.

4. Project will address issues or opportunities pertaining to:

When CBBC installed the Fibre Optic signs two years ago, most of our signage posts were moved to the opposite side of the Trail. The existing signage was removed to achieve this. The posts are mostly in place, and some new ones have been added, but have had limited signage re-installed. Our Trail counter data confirms that we are seeing over 100,000 annual users on Trail. We are replacing old faded and damaged signs with new, mainly aluminum signs which will make the Trail more inviting to the eye as well as safer and easier to navigate for all users.

5. This organization is best to provide this project to the community because:

The Slocan Valley Rail Trail Society has undertaken many Trail improvement projects over the past 20+ years. We are well known for being able to achieve our goals and are well connected in finding the resources needed to achieve them.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The Board of the Slocan Valley Rail Trail Society will be organizing the purchase of the needed signage. Once purchased, they will be installed by volunteers

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: Yes****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:**

We will be providing the anti-graffiti coating for the signs.

After purchase, volunteers will be installing the signs. it may take 100 to 200 hr hours to achieve this.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Crawford Bay & District Hall & Parks Association**

Registration # S-0005550

Box 71, Crawford Bay BC V0B 1E0

Name of Organization being sponsored if applicable -

Project Title **Crawford Bay's Asset Management Plan**

Project will be located in: RDCK Area A

Crawford Bay Hall:16230 Wadds Road, Crawford Bay, BC. Crawford Bay Park: 15990 Highway 3A, Crawford Bay,BC
Kootenay Bay Boat Launch: Pilot Bay Road, Kootenay Bay, BC

Importance to the community:

Our association receives a yearly financial services grant from the RDCK. As part of our due diligence in responsibly using those funds we need to have a credible plan as to how they are used in the ongoing maintenance and capital improvements of community owned facilities. The restoration of our community hall has been on the minds and in the hearts of local residents for approximately 15 years. Purchasing the land on which the hall sits was the first step, raising the funds to do the work is the present step. Along with doing the work comes properly managing a newly restored and valuable building. Valuable in financial terms as well as emotional ones. All residents, visitors, and businesses in our region will benefit from a properly managed and maintained community hall, community park and boat launch. Property owners will benefit by the well planned use of their tax dollars.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/30/2025

Project: Crawford Bay's Asset Management Plan

| | | |
|-------------|-------------|-------------|
| \$22,500.00 | \$45,490.00 | \$45,490.00 |
|-------------|-------------|-------------|

1. The project will provide:

The project is to prepare an Asset Management Plan (AMP) for the three facilities which our association owns or operates and manages. These being our Community hall, Community Park and the Kootenay Bay Boat Launch. This AMP will begin with Facility Condition Assessments (FCAs) to determine the state of our infrastructure (what do we own & what condition is it in?). The FCA reports will capture and document the existing condition of the buildings and site systems. The AMP will use current, proposed and future desired levels of service as well as life cycle management plans for each asset to determine the capital and maintenance costs required to achieve the proposed level of service.

This plan is needed for two reasons; it is sound management and it is a requirement of our funders (who must remain nameless due to confidentiality agreements) in order to receive the \$1.8 million toward the Hall renovation for which we presently qualify. An AMP will include: outlining our organization's goals & objectives for asset management (AM), determining what success looks like for our assets, our assets' lifecycles, a financial strategy and an improvement plan to evolve our AM program. We will achieve these goals by retaining and collaborating with Roth Integrated Asset Management Strategies (IAMS) LTD, specialists in AMP creation.

2. Organization Mandate:

To develop and maintain hall, parks and recreational facilities for Crawford Bay, Kootenay Bay & Pilot Bay

3. Community objectives the project will work towards are:

Our association receives a yearly financial services grant from the RDCK. As part of our due diligence in responsibly using those funds we need to have a credible plan as to how they are used in the ongoing maintenance and capital improvements of community owned facilities. The restoration of our community hall has been on the minds and in the hearts of local residents for approximately 15 years. Purchasing the land on which the hall sits was the first step, raising the funds to do the work is the present step. Along with doing the work comes properly managing a newly restored and valuable building. Valuable in financial terms as well as emotional ones. All residents, visitors, and businesses in our region will benefit from a properly managed and maintained community hall, community park and boat launch. Property owners will benefit by the well planned use of their tax dollars.

4. Project will address issues or opportunities pertaining to:

The ongoing issue of properly maintaining and planning for capital improvement and replacement of our community facilities will be addressed. The requirement for asset management plans that has been stipulated in some of our funding agreements for restoration of the community hall will also be addressed. These issues have been identified through questions arising when our association studies maintenance and improvement work on our assets and through the afore mentioned funding agreements. We have been fundraising for four years to restore our 85 year old community hall. Between the architect, engineers, building inspector, community surveys, hazmat studies etc. we have determined what needs to be done. Approved funders have told us an asset management plan is essential to properly maintain the hall after restoration is complete and the value of this important asset increases. This type of planning is also needed for the community park and boat launch.

5. This organization is best to provide this project to the community because:

Our association is the owner and steward of the Crawford Bay community hall and community park . It has a license to occupy agreement with the BC Ministry of Natural Resource Operations to maintain the Kootenay Bay Boat Launch. The association has, for decades, had the responsibility for management, maintenance and fiscal over-site of these facilities. This alone demonstrates our capacity to deliver the project.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The directors and volunteers of the Crawford Bay & District Hall & Parks Association will collaborate with Roth Integrated Asset Management Strategies LTD. of Oakville Ontario to implement the project.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

SCHEDULE A

Project: Crawford Bay Community Hall Renovation

A. Project Description

The purpose of the Project is in furtherance of the public purpose of the Trust and is specifically to support the Recipient to install a new roof and complete foundation enhancements to the Crawford Bay Community Hall (Hall) located at 16230 Wadds Road, Crawford Bay.

B. Duties and Deliverables

The Recipient will be responsible for all aspects of the supervision and administration of the Project, including:

1. installing a new roof and completing foundation enhancements to the Hall in accordance with the Recipient's 2022 application (Application) to the CleanBC Communities Fund, which was approved in principle on November 17, 2022;
2. securing all funding required to complete each phase of the Project before the associated phase has started;
3. a board member or staff of the Recipient must participate in asset management training at least once every two years;
4. ensuring all necessary regulatory permits and approvals are acquired for the Project and adhered to; and,
5. paying for a minimum of 80% of the final Project costs using funding sources other than the Grant.

C. Reporting Schedule

The Recipient will report as follows:

1. Interim Report due by March 30, 2024 which must include, but not be limited to:
 - a. an outline of the Recipient's progress in achieving the Duties and Deliverables outlined above;
 - b. confirmation that all funding is in place to complete the foundation enhancements as described in the Application; and,
 - c. a financial report outlining revenues and expenses for the Project to date.
2. Interim Report due by March 30, 2025 which must include, but not be limited to:
 - a. an outline of the Recipient's progress in achieving the Duties and Deliverables outlined above;
 - b. confirmation that all funding is in place to complete the new roof as described in the Application; and,
 - c. a financial report outlining revenues and expenses for the Project to date.
3. Final Report due on or before November 30, 2025, which must include, but is not limited to, a completed Final Report on the template provided by the Trust.

Collaborative ❖ Passionate ❖ Consistently Curious

PHASE 5 - SUMMARY REPORT - INFOGRAPHIC

They say a picture is worth a thousand words. Roth IAMS uses infographics, with clean and easy to understand graphs and tables to replace what are typically wordy Executive Summaries that simply regurgitate content that can be found in other areas of a report. The infographic provides a concise and easy to consume overview of the data on which the AMP was based. Additionally, infographics can easily be updated on an annual basis in the intervening years between formal AMP updates (usually done on a 5-Year schedule).

Roth IAMS will review the format and content of the proposed infographic with the CBDHPA as part of the preparation of the final AMP document.

PHASE 6 - PRESENT THE SUMMARY TO THE CBDHPA BOARD OF DIRECTORS

Roth IAMS will also prepare a Society Board-Level Presentation demonstrating an overview of the project and the key points of the final AMP upon submission of the initial draft version.

Following the presentation, comments and feedback from the Society Board will be integrated into the AMP, and a second presentation will be delivered based on the final AMP.

SCHEDULE

Roth IAMS will work with CBDHPA to determine a schedule that fits within their timeline.

FEE

The fee for the condition assessment and asset management plan is included in Table 2 below:

| Table 2 – Roth IAMS Proposed Fees | |
|--|---------------------|
| Item | Proposed Fee |
| Craford Bay Community Hall and Site FCA | \$3,890.00 |
| Crawford Bay Community Park FCA | \$4,580.00 |
| Crawford Bay Public Boat Launch FCA | \$3,145.00 |
| Asset Management Plan | \$33,875.00 |
| Total Cost (Excluding Taxes) | \$45,490.00 |

This evidence may be in the form of:

- Approval letter(s) from other funding program(s), including approval date, conditions (if applicable), and contact info;
- Council/Board/Band Council resolutions or staff reports from the applicant and partners, where applicable, committing the use of reserve funds or borrowing;
- Recent bank statements showing available reserves;
- Letter of approval for bank loans (for non-local governments);
- Letter of investor intent or commitment and any associated conditions;
- Local Government loan authorization bylaw that has passed Third Reading and/or dated proof that borrowing has been approved through a formal public approval process, plus Liability Servicing Limit Certificate indicating that borrowing is within a local government's assent-free borrowing limit (separate from submission for approval by the Inspector of Municipalities);
- Not-for-Profit/For-Profit entity, Financial Statement (prepared internally for projects with eligible costs up to \$500,000 or reviewed by an independent public accountant for projects with eligible costs over \$500,000); or,
- Other evidence as agreed through discussion with Program staff.

Construction Permit NOT on First Nations Reserve Land

Prior to payment in excess of 25% of the approved funding amount, the Recipient must submit to the Province:

- A copy of the approved construction permit or other applicable local equivalent; and,
- Confirmation that required permits have been received and that design and construction meets associated regulatory requirements.

Asset Management

Prior to payment in excess of 50% of the approved funding amount, the Recipient must submit to the Province an Asset Management summary for the asset group that was funded (e.g., for an EV Charging Station project, the asset group would be 'all electrical vehicle charging assets'), including:

- Organization's current and planned asset management practices and activities in reference to the Asset Management BC Roadmap and/or Asset SMART 2.0 (<http://assetmanagementbc.ca>), including any links to asset service levels; and,
- Brief summary of energy management system and/or demand side management strategies

Name of Organization being sponsored if applicable -

Project Title **Creative Spaces 2024**

Project will be located in: RDCK Area F

Creative Spaces 2024 will take place exclusively in Taghum Hall and on its grounds.

Importance to the community:

As previously mentioned, parents require safe, supervised activities for their children during the summer months, and their children benefit from activities that stimulate positive growth, group cooperation and skill development within disciplines that may provide life-long enjoyment, or even plant the seeds for a future vocation. While we expect that Creative Spaces will serve families from the Taghum/Blewett area, we know from past experience that children attend the camp from much further afield: Castlegar, the Slokan Valley, Nelson, and the North Shore, depending on where their parents work.

Work Plan Dates: Project Start: 7/1/2024 Project End: 8/9/2024

| \$5,700.00 | \$21,200.00 | \$21,200.00 |

1. The project will provide:

Creative Spaces provides children ages 7 - 12 with an intensive three weeks of day camp focusing on the Arts: music, drama, and visual arts. Camp coordinators are hired with the Canada Student Works program. Artist facilitators are granted honorariums for delivering half-day programs for a week long. Two snacks and a supervised lunch allows time for active outdoor activities. Before and after camp hours supervision is available for parents who must maintain a work schedule. Creative Spaces is a 'device free' zone that encourages the child's innate creativity. An extra educational assistant will be on hand to assist those children who are neuro-divergent.

2. Organization Mandate:

The objects of the Society are to hold educational and recreational activities, and any other form of activities for the betterment of the community, as a non-profit society. The operation of the Society is carried out at 'Taghum Hall', an accessible and welcoming community space.

3. Community objectives the project will work towards are:

As previously mentioned, parents require safe, supervised activities for their children during the summer months, and their children benefit from activities that stimulate positive growth, group cooperation and skill development within disciplines that may provide life-long enjoyment, or even plant the seeds for a future vocation. While we expect that Creative Spaces will serve families from the Taghum/Blewett area, we know from past experience that children attend the camp from much further afield: Castlegar, the Slovan Valley, Nelson, and the North Shore, depending on where their parents work.

4. Project will address issues or opportunities pertaining to:

There is a need for parents to find safe stimulating day time activities for children who are too old for day care. Also, there is a need of every child to engage in activities that foster creativity, cooperation and artistic expression. Demand for this program continues to be requested. This year, we anticipate three weeks, but we will be open to extending the camp, if the demand exists. The past years, children needing extra behavioural assistance needs have not been sufficiently met, and this has been difficult for the artist leaders. This year, a trained educational assistant will work along-side the team.

5. This organization is best to provide this project to the community because:

Taghum Hall is ideally suited to provide Creative Spaces for this its eighth year. The venue itself is bright and inviting and large enough to have more than one activity happening at a time and provide socially distancing (if necessary). The grounds allow for safe supervised play during snack breaks and lunch. A comfortable quiet space, the Kernaghan Room, is available for children who need a quiet time. Additionally, Taghum Hall has become recognized as a venue that supports and encourages the arts through regular community drop-in groups, workshop, concerts and theatre performances. The hall includes an indoor and outdoor performance area, and lighting, and sound equipment to support performances as needed. It is no surprise then, that we want to share these pursuits with children.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Creative Spaces will be developed by the Events Committee at Taghum Hall, who organize the initial tasks for scheduling, hiring coordinators, soliciting local artists, promotions and accepting registrations. Closer to camp time, the camp coordinators will assist with these tasks, parent liaison, snack/lunch prep, first aid, and assisting the artist facilitators. An educational assistant will work with the children and facilitators during the camp days.

8. Minors will be working on this project: Yes

9. **Project will be 100% completed by volunteers:** No

10. **Is the project viable without ReDi funding support:** : Yes

11. **In-kind sources and contributions:**

Taghum Hall is run by dedicated volunteers. Coordination efforts will be conducted by these volunteers. When extra hands are needed, which invariably happens, these volunteers step up to fill-in the gaps.

Volunteer planning, recruitment, administration and supervision. Acquired art supplies through community member donations and residual inventory. Fresh food donations from local farmers, businesses and market vendors.

12. **Supporting documents below, if submitted:**

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Subject: Re: Support Letter for Creative Spaces
To: Taghum Hall Events <events@taghumhall.ca>

To whom it may concern, this is a note to express gratitude to the Taghum Hall Society for which they have made it possible for our recently adopted daughter and her friends in the area to attend their Creative Spaces summer camp this July. The community we have found at Taghum Hall has been integral to our girl's sense of belonging. She first came to the Winter Fair and saw the children participating in a play, a few months later, with some encouragement she was cast in the earth day play and her confidence and connections in the community began to grow. She has made friends through the Taghum hall and is so excited to go back to camp this year! My husband and I have been so appreciative that community events are so accessible and have given our girl a sense belonging.

In kindness, Lauren Ryan

Organization **Kootenay International Burlesque Festival**

Registration #

1011 8 Street, Nelson BC V1L 3B4

Name of Organization being sponsored if applicable -

Project Title **Kootenay International Burlesque Festival**

Project will be located in: City of Nelson

The project will take place on June 28 & 29 at The Capitol Theatre in Nelson, BC

Importance to the community:

The local burlesque community in Nelson has continued to grow over the past decade and has moved from the local pub to the Capitol Theatre stage as audiences have grown with each production. Our community contains an array of performers that are eager to showcase their talents and further educate themselves through workshops and clinics that the KBF has produced. Over the past four years the KBF has provided over 250 local artists a paid opportunity to present their talents and we have entertained over 3500 local audience members. We believe that artists, audience members and local businesses will all benefit from our festival by means of bringing paid work for performers, by bringing in international acts for our audience members and by collaborating with local businesses in a sponsorship capacity.

Work Plan Dates: Project Start: 6/1/2024 Project End: 7/15/2024

1. The project will provide:

The 5th annual Kootenay Burlesque festival is happening from June 28 & 29 2024 in Nelson, BC. The purpose of the festival is to celebrate burlesque in all its various forms and to provide a paid opportunity for local and out of town performers a chance to have their talents showcased. Our festival also exposes rural artists to world-renowned performers to help build and foster relations abroad as well as providing educational events that help preserve, promote and advance burlesque as a theatrical art form. This year our headliner is Kitty Kin-Evil, she is an award winning indigenous performer from Ottawa, Ontario. She holds multiple burlesque titles and awards and is in the top 10 list of the most influential performers in Canada. Our festival also likes to shine a spotlight on our local performers, we have selected Marloe Blu from the Kootenay Basin as our feature performer for this year's festival

2. Organization Mandate:

The KBF is a community-oriented professional growth and educational organization for burlesque performers. The KBF showcases and encourages festival submissions from people of all genders, sizes, age and races. We conduct educational events to preserve, promote and advance burlesque as a theatrical art form as well as offer paid performance opportunities for local and out of town performing artists. We offer classes, workshops and other educational offerings that further professional skill and development and are committed to supporting personal transformation through creative artistic expression in the burlesque arts.

3. Community objectives the project will work towards are:

The local burlesque community in Nelson has continued to grow over the past decade and has moved from the local pub to the Capitol Theatre stage as audiences have grown with each production. Our community contains an array of performers that are eager to showcase their talents and further educate themselves through workshops and clinics that the KBF has produced. Over the past four years the KBF has provided over 250 local artists a paid opportunity to present their talents and we have entertained over 3500 local audience members. We believe that artists, audience members and local businesses will all benefit from our festival by means of bringing paid work for performers, by bringing in international acts for our audience members and by collaborating with local businesses in a sponsorship capacity.

4. Project will address issues or opportunities pertaining to:

The KBF helps to promote and provide local artists with an opportunity to showcase their talents as well as pay artists for their work. We also provide educational opportunities for local performers that would otherwise not exist and we further promote interest in burlesque in our area as well as aim to bring tourism to Nelson every summer for the festival. Our festival also exposes rural artists to internationally renowned performers to further build relationships outside of our local area. The KBF understands that not everyone has the means to afford to attend shows and educational classes so we are providing one free week end pass that includes the performance showcases and the full day of workshops & classes to a resident in the Columbia basin who would otherwise not be able to afford to attend.

5. This organization is best to provide this project to the community because:

The production team behind the KBF has been producing shows since 2016 and has provided hundreds of local performing artists a paid opportunity to showcase their talents and have entertained thousands of audience members during that time. The KBF team produces three shows a year outside of the festival and each of them has sold out consistently for the past seven years including our most recent 2023 Christmas Cabaret and the Kootenay Burlesque Marathon that happened on Feb 10th 2024. We have the production experience and the support of our local performers as well as a loyal audience following to best deliver this project proposal.

6. Partners involved in this project have been consulted: True

Project: Kootenay International Burlesque Festival

7. Partners involved in implementing this project:

The project is being implemented by the Kootenay Burlesque Festival team and its associate members. Our Festival Coordinator is Sherry Perry, our Front of House Coordinator is Mark Walpole and our Performer Coordinator is Heather Krause.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

The 2024 KBF already has the support of several local businesses, Finley's Bar & Grill has provided us with the use of their restaurant Sage free of charge as a space to host our headliner and performer meet and greet and so far the Cloudside Hotel, The Dancing Bear Inn and Alpine suites have offered us discounted room rates for festival performers and attendees. The 2023 KBF had the support of over 20 local business who all stepped up to support our festival in the way of sponsorship,discounted services and/or provided swag for our performer bags. We look forward to continuing to build more relationships between local businesses and our performing arts community as our festival continues to grow.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Taghum Community Society**

Registration # BC Society S0008400
5915 Taghum Hall Road, Nelson British Columbia V1L 6Y2

Name of Organization being sponsored if applicable -

Project Title **Fridge and Cooler - Kitchen Upgrade**

Project will be located in: RDCK Area F

Taghum Hall is a community centre located in Taghum. It serves as the community hall for the Blewett area, as well as Bonnington and South Slokan. The hall is a 6 minute drive from Nelson, and many Nelsonites attend the functions there. There is a large hall, ample parking, and beautiful grounds at Taghum Hall, making it an attractive venue for many different activities.

Importance to the community:

The Taghum Hall kitchen is the only part of the building which was not renovated in 2014. The facility is in excellent shape, yet the kitchen is very old. When considering a renovation, the kitchen was assessed to be unsalvageable, and to be demolished. A new re-build is required. The new commercial-grade kitchen will serve the many people who use the hall now and far into the future.

Work Plan Dates: Project Start: 8/1/2024 Project End: 8/31/2024

|------------------------------|--------------------------|---------------------------|
| \$5,600.00 | \$5,600.00 | \$5,600.00 |

1. The project will provide:

Taghum Hall is upgrading its kitchen facility and requires a new fridge and cooler. The hall's kitchen is utilized by all community users and is in need of an upgrade. Currently the kitchen is using an inefficient second-hand fridge. For hall functions, a glass fridge and cooler (to see what is inside the fridge before opening it) would be ideal. These items would be part of the whole kitchen re-build which will occur in the autumn of 2024.

2. Organization Mandate:

The objects of the Society are to hold educational meetings, recreational activities, and any other form of activities for the betterment of the community, as a non-profit society.
The operation of the Society is to be carried on in the Taghum/Blewett area of British Columbia.

3. Community objectives the project will work towards are:

The Taghum Hall kitchen is the only part of the building which was not renovated in 2014. The facility is in excellent shape, yet the kitchen is very old. When considering a renovation, the kitchen was assessed to be unsalvageable, and to be demolished. A new re-build is required. The new commercial-grade kitchen will serve the many people who use the hall now and far into the future.

4. Project will address issues or opportunities pertaining to:

Glass fridge and cooler is ideal for serving large groups. Items in the fridge are located BEFORE opening the door, and thus conserving energy. People being served can preview items to select what they want in advance of ordering. Currently, the hall's fridge is loud, inefficient, and old. When working in the kitchen, it has a loud hum and buzz, which is annoying for those preparing food. There is no cooler currently at the hall, but during various functions, easy selection of cool drinks for sale would be best displayed with a glass cooler.

5. This organization is best to provide this project to the community because:

Taghum Hall is the community hub in the Taghum/ Blewett/ Beasley/ Bonnington/ South Slocan areas. There are a variety of ongoing community programs for all ages; annual festivals and activities; and the hall is a rental venue for weddings, funerals, and educational offerings. The hall is supported by an active board and volunteers, who have taken on and successfully delivered, very ambitious projects in the past.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The Taghum Community Society board will be overseeing the ordering of these kitchen items. These have been recommended by the architectural group and interior design company who are overseeing the Taghum Hall kitchen re-build.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Volunteers will oversee this project: ordering, receiving and installation.

12. Supporting documents below, if submitted:

Project Title **Valuing Cottonwood Falls Park**

Project will be located in: City of Nelson

Throughout Cottonwood Falls Park in Nelson: Lots 9 -14, Block 101, Plan 9500, including Carbonate Street Right of Way and Falls Street Right of Way.

Importance to the community:

As Nelson's population grows and as more tourists discover our community, it will become increasingly important to have beautiful, interesting, accessible parks. Cottonwood Falls Park is a highly valued small treasure. Citizens and visitors will benefit from:

- learning the stories of the Syilx and Metis people, which will help us appreciate the diverse origins of our community and support truth and reconciliation,
- experiencing the physical beauty and the peaceful reflection offered by the garden and park in all seasons,
- recognizing the valuable benefits of this natural creek and its water flow in the midst of the city,
- participating in cultural activities reflecting the global friendship with our sister city in Japan, and
- knowing that everyone can access the park regardless of their physical ability.

We hope the contributions made by Friendship Society volunteers for 37 years will be inspiring for other groups in our community.

Work Plan Dates: Project Start: 6/15/2024 Project End: 6/15/2025

| \$18,300.00 | \$18,300.00 | \$18,300.00 |

1. The project will provide:

Valuing Cottonwood Falls Park supports the Friendship Society's volunteer work in making Cottonwood Falls Park a valued destination for all local citizens and visitors.

1) Signage

Two new display signs recognizing the Syilx and Metis communities will be developed by our project team in co-operation with Indigenous and Metis representatives. Grant funding will provide for a part-time researcher to provide background information on all signs using QR codes.

2) Friendship Garden

The project will allow our volunteers to plant and maintain garden beds, add topsoil and mulch, purchase garden tools, install appropriate irrigation, and improve and develop gravel pathways.

3) Cottonwood Creek

Invasive plants along the creek identified by KinSeed Ecologies in 2023 will be removed. A 2024 consultant's report will guide us in developing and installing a system for using valuable creek water for irrigation.

4) Cultural Activities

Cultural activities offered at our seasonal events will provide citizens and visitors opportunities to learn skills and gain awareness of our sister city's culture. A laptop/projector and screen will allow leaders and participants to view relevant cultural slides and videos.

5) West Side Pathway

The Society will assist the city in constructing and paving a wheelchair and mobility impairment accessible pathway to ensure safe access to the west side artifacts site and waterfall viewpoint. A supplier has been approached.

2. Organization Mandate:

The purposes of the Friendship Society (est. 1987) are:

- a) to deepen friendship and mutual understanding through educational, cultural, and economic exchanges with Izu-shi, Shizuoka, Japan;
- b) to raise awareness of our sister city relationship through the Cottonwood Falls Friendship Garden and community activities in Nelson and area;
- c) to promote world peace and prosperous global relationships through cooperation and goodwill between the sister cities of Nelson, British Columbia, Canada and Izu-shi, Shizuoka, Japan.

3. Community objectives the project will work towards are:

As Nelson's population grows and as more tourists discover our community, it will become increasingly important to have beautiful, interesting, accessible parks. Cottonwood Falls Park is a highly valued small treasure. Citizens and visitors will benefit from:

- learning the stories of the Syilx and Metis people, which will help us appreciate the diverse origins of our community and support truth and reconciliation,
- experiencing the physical beauty and the peaceful reflection offered by the garden and park in all seasons,
- recognizing the valuable benefits of this natural creek and its water flow in the midst of the city,
- participating in cultural activities reflecting the global friendship with our sister city in Japan, and
- knowing that everyone can access the park regardless of their physical ability.

We hope the contributions made by Friendship Society volunteers for 37 years will be inspiring for other groups in our community.

Project: Valuing Cottonwood Falls Park

4. Project will address issues or opportunities pertaining to:

As requested by the city and in accordance with the Indigenous Land Acknowledgement, we will be inviting the Syilx and Metis communities to participate in our Display Signage Project. The grant will cover design and production costs.

Ongoing garden care is required in beds and pathways. Improved irrigation will result in more efficient use of water and ease the burden on our volunteers.

To ensure the viability of the natural corridor of the creek, it's important to recognize native plants and remove invasive ones. Recent drought conditions require us to develop alternative irrigation sources.

Increasing interest in cultural activities such as lantern making have encouraged us to continue offering these workshops at our events. Showing real-life images on a screen will enhance the experience.

Following recommendations by a city commissioned disability consultant, our volunteers completed the base for an accessible west side pathway. The next step is applying all-season surfacing.

5. This organization is best to provide this project to the community because:

This project continues the work of the Friendship Society in the park, begun in 2003. The current leadership group has been responsible for:

- a) Friendship Gate 2017
- b) Garden Pathway Renewal 2018
- c) West Side Viewpoint, Gardens, Pathways 2019
- d) Waterfall Viewpoint, 1896 Hydro-Electric Artifacts Site 2020
- e) Viewpoint Safety Railings, Garden Renewal, Stone Wall 2021
- f) Volunteering in Cottonwood Falls Park 2022
- g) Enhancing Cottonwood Falls Park 2023
- h) Fortis BC Community Giving Award 2019-2024
- i) Sister City Exchange Visits 2017, 2019, 2024

The Society works closely with the City of Nelson and enjoys good relationships with contractors and suppliers. We have been financially supported by the Columbia Basin Trust, the Osprey Foundation, Fortis BC, the City of Nelson, and our members. In 2021, the Friendship Society received a City of Nelson Sustainability Leadership Award. In 2024, we received a Japanese-Canadian Legacies Society grant for new cultural initiatives.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The President, Vice-Presidents for Garden and Cultural Projects, Chairs of the Garden Committee, and Board Members will implement the project. The Friendship Society will engage local suppliers and contractors, work closely with the City of Nelson Administration and Public Works Department, and carry out the physical work with the help of Society members.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Nelson Izu-shi Friendship Society: Volunteer labour for liaison with Indigenous communities and QR code researcher, installation of signage: garden, pathway, and irrigation work; liaison with invasive species and irrigation consultants;

Project: Valuing Cottonwood Falls Park

organization, promotion, and delivery of cultural activities; and co-ordination of access pathway construction.
(Estimated value \$8000)

City of Nelson: Crew and equipment for assistance with installation of irrigation system, pathway improvements, and completion of west side access pathway. (Estimated value \$4000)

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Granny Gardening Tours,
c/o ms Lee Reid,
904 Third St, Nelson B.C. V1L2R6.
Feb 18, 2024

Letter of Support for Nelson Izu-shi Friendship Society

Good day,

I am Lee Reid, founder and facilitator of the popular “Granny Gardening” tours in Nelson, B. C. I will describe the mission of the tours, and how they have converged with the Cottonwood Falls gardens as hosted and maintained by the Nelson Izu-shi Friendship Society. For brevity, I will generally address the Cottonwood Falls gardens as ‘The Friendship Garden.’

Granny Gardening summer walking tours in Nelson are sponsored by the “Neighbourhood Small Grants” program, which is administered by Osprey Foundation in Nelson. The tours are designed to strengthen community by connecting neighbours and neighbourhoods of diverse cultures and generations within a common passion: love of nature, love of culture and heritage, and love of gardens.

The Nelson Izu-shi Friendship Society has created an impressive example of community spirit in the gardens at Cottonwood Falls park and creek. Their vision and accomplishments with building, and expert landscaping, are a testimonial to collaborative teamwork, involving many contributions from diverse community groups such as Nelson’s sister city of Izu-shi, Kootenay artisans and building contractors, and the City of Nelson.

The ‘granny’ tour group was quite intrigued with the cultural exchanges to Japan, which are sponsored by the sister cities and organised locally through the Nelson Izu-shi Friendship Society. We also noted the work the Nelson Izu-shi Friendship Society has done to make all pathways and vistas accessible to people with mobility concerns. They have restored historical landmarks and built a new garden tools storage shed.

Last autumn 2023, “Granny Gardening” was honoured to tour the Cottonwood Falls gardens and park with members from the Nelson Izu-shi Friendship Society. Autumn leaves and Japanese maples glowed with crimson as the large group, aged 18 to 93, strolled the well-maintained trails to fenced vantage spots at the invigorating waterfall. The Nelson Izu-shi Society has done a fantastic job with building ornate gates and a bridge across Cottonwood Creek, and will soon have display signage at the many scenic vistas where people can stop to read about the significant history and cultures of this location. Some of the Friendship Society’s volunteers accompanied the tour group. They described the love they invest in maintaining the gardens, planting annuals and perennials, weeding, pruning, and staffing the culture events hosted by the Society. We noted that tourists and global travelers make the Friendship Garden a special designation. Many locals visit the gardens to enjoy the beauty and tranquility. In fact, elder Jim Sawada, who is the founder of the gardens, mentioned that people frequently come to heal illness and to soothe grief. Our tour was invited to stay on for the Japanese-themed autumn leaves ceremony to be held that afternoon.

It was obvious to the tour group that the Friendship Garden holds a special place in the heart of Nelson. The Nelson Izu-shi Friendship Society does a magnificent job of hosting and welcoming people from around the world. This spring, “Heritage B.C.” will hold their annual conference in Nelson. They have requested a tour of the Cottonwood Falls gardens on May 1, and the Nelson Izu-shi Friendship Society has graciously agreed to host them.

Respectfully yours,

Lee Reid (leereid@telus.net) ph 250-352-3870

RE: Cottonwood Falls Japanese Garden Project Continuation

John please consider this our letter of our continuing support for your application for funding to continue works this year on the Cottonwood Falls Park Project with regards to the Park and your ongoing upgrades.. The Nelson Gyro Club continues to support what your group has accomplished with the park upgrades over the years and fully supports the application to provide Maintenance, Path Renewal, Irrigation, Workshops, Additional Signage and Access for those with Mobility Challenges. The parks in Nelson associated to our Volunteer Organizations are part of what makes our community such an amazing place to live.

As we have stated in the past the Nelson Gyro Club is also fully aware of and appreciates the volunteer hours that so many of your members put into the garden making such a great addition to the Nelson landscape and feel any additional works suggested will continue to enhance the parks contribution to the entire community.

If anyone would like to contact the club regarding our support please free to have them contact me or our President Grant McKen or myself directly.

Nelson Izu-shi Friendship Society
Valuing Cottonwood Falls Park

Application for a CBT ReDi Grant: Supporting Document for the City of Nelson
February 19, 2024

The project aligns with the **Sustainability Principles and Directions** and the goals and objectives of the **Focus Areas** of the **Nelson Path to 2040 Sustainability Strategy**. The project also addresses components of Nelson's **Active Transportation Plan** and the **Sustainable Waterfront and Downtown Master Plan**. The completed project will contribute to Nelson's **Four Pillars**: Cultural, Environmental, Social, and Economic.

PRINCIPLES AND DIRECTIONS Cultural Strength

FOCUS AREA Arts, Culture, and Heritage (ACH 1,2,3)

Goal: *"Nelson is regarded as a vibrant arts, culture, and heritage hub where locals and visitors are engaged in experiencing the authentic fabric of the city, the diverse nature of the community and the creative spirit of its people."*

The new display signage recognizes the stories of the Syilx and Metis people in our community's heritage, offering artwork and images of "the authentic fabric" of our community over time. The seasonal sister city cultural activities provide opportunities to enjoy, honour, and learn from the diversity of our community. Together, their presence in Cottonwood Falls Park supports and strengthens our developing cultural visions and contributes to Nelson's vibrant creative identity.

PRINCIPLES AND DIRECTIONS Healthy Neighbourhoods

FOCUS AREA Healthy Living and Social Well-Being (HLSW 2,3,4,5)

Goal: *"Nelson is a community where people are engaged, respectfully connecting with their families, their community, their culture, the environment (and where) learning is embraced."*

This project continues the work of Nelson Izu-shi Friendship Society volunteers in creating an "inviting park, community garden, and public space for gathering" with "safe, enjoyable walking corridors and greenways" and access for all, especially on the west side for those experiencing mobility impairment conditions. The beautiful garden provides spaces for quiet contemplation as well as opportunities to develop friendships and build community through intergenerational social interaction. The signage project encourages learning the stories of Cottonwood Creek and our community.

PRINCIPLES AND DIRECTIONS Robust Ecosystems

FOCUS AREA Natural Areas, Recreation, and Leisure (NARL 2,3,5,6) and (W1)

Goal: *"Nelson's natural areas are restored into functioning, accessible ecosystems (which) provide recreation, leisure, sustenance and transportation opportunities."*

Park visitors can gain an understanding and appreciation of the natural ecosystem of Cottonwood Creek and its value to the people and wildlife of our community. Identifying indigenous creekside plants and removing invasive ones as well as researching the use of creek water for irrigation will help to ensure that this natural system continues to flourish. Children can enjoy experiencing a natural creek within a city and creek pathways will create another valuable piece of an interconnected trail network.

The project also addresses:

Active Transportation Plan Improvement Measures

- Develop proposed pathways and links

Sustainable Waterfront and Downtown Master Plan Proposed Improvements

- 7) Enhance Cottonwood Creek: designate the Cottonwood Creek corridor for rehabilitation & pathways
- 9) Create Civic Spaces: to serve as neighbourhood gathering spaces

Organization **Selkirk Concert Society**

Registration # S-0061702

114 Union St., Nelson, BC BC - British Columbia V1L 4A2

Name of Organization being sponsored if applicable -

Project Title **Selkirk Pro-Musica 2024-25 Concert Series**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area G, City of Nelson

Concerts will be presented in one of 2 venues in the City of Nelson. Most concerts are held at St. Saviour's Anglican Pro-Cathedral, 710 Ward St. Nelson. Concerts requiring sound amplification will be held at Shambhala Hall, 700 Tenth St. Nelson. The local musicians and audience members come from Nelson and the surrounding communities.

Importance to the community:

There is no other group presenting small chamber music concerts for the Nelson area. The success of the past 11 season demonstrates strong supporting interest.

Nelson identifies itself as an arts community. It needs groups such as ours to plan and present concerts. Those who benefit are the listening audience, of all ages, and also the musicians who benefit from the opportunity to perform and earn additional income. As well the local schools benefit from our Youth Engagement project which uses the same musicians to provide area schools with free concerts and workshops. The Health Arts Society uses these musicians to provide the local residential care facilities with concerts.

Work Plan Dates: Project Start: 6/1/2024 Project End: 5/30/2025

|------------|-------------|-------------|
| \$6,000.00 | \$27,200.00 | \$27,200.00 |
|------------|-------------|-------------|

1. The project will provide:

A series of 6 concerts will be presented in Nelson between Sept. 2024 and May 2025. These will be evening chamber music concerts including classical, jazz, and world music genres. To encourage concert attendance ticket prices are kept affordable through fundraising. Advertising includes posters, newspaper articles, radio interviews and social media. As there are no paid staff the SCS Board provide all administration and project coordination.

Musicians include local professionals (3 groups) and touring artists (3 groups) to provide diversity and variety.

2. Organization Mandate:

STATEMENT OF PURPOSES OF SELKIRK CONCERT SOCIETY

1) To enrich the cultural life of Nelson by presenting performances of small ensembles in an intimate venue featuring local professional musicians, supplemented with touring musicians, which encompasses a variety of musical genres and instrumental/vocal combinations.

2) To expand performance opportunities for professional musicians in the Nelson area, thus encouraging these artists to continue to contribute to the musical life of our community both as performers and teachers.

3) To encourage continued interest in music by bringing these concerts to students in the school system, thus building audiences for the future.

3. Community objectives the project will work towards are:

There is no other group presenting small chamber music concerts for the Nelson area. The success of the past 11 season demonstrates strong supporting interest.

Nelson identifies itself as an arts community. It needs groups such as ours to plan and present concerts. Those who benefit are the listening audience, of all ages, and also the musicians who benefit from the opportunity to perform and earn additional income. As well the local schools benefit from our Youth Engagement project which uses the same musicians to provide area schools with free concerts and workshops. The Health Arts Society uses these musicians to provide the local residential care facilities with concerts.

4. Project will address issues or opportunities pertaining to:

- This project enriches the cultural life and identity of the community.
- It enhances the cultural well being of area residents.
- Local professional musicians have increased opportunities to perform locally and increased employment. They are supplemented by touring musicians who provide diversity.
- There is limited opportunity to hear live performances of this quality and diversity in a small rural community.
- Affordable ticket prices encourage attendance.

The SCS Board are local musicians and music teachers and who know the local needs and issues. The success of the seasons presented to date and positive feedback from the audience and musicians are proof of the benefit of this approach.

5. This organization is best to provide this project to the community because:

Project: Selkirk Pro-Musica 2024-25 Concert Series

We have been in operation since 2012. The Society is well known now and respected for it's work. The SCS Board has many experienced members who know the jobs involved in planning and presenting the concert series. The Letters of Support attached confirm this.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

- The administration and project coordination for the concert series is provided by the Board of Directors, all Nelson residents and volunteers (planning the season, negotiating with musicians, bookkeeping, front of house services, billeting, ticket sales. poster design and distribution, etc)
- Otter Books provides ticketing.
- Local news outlets provide advertising.
- Musicians plan the program for their concert, rehearse the music and present the show.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

There are no paid staff and the SCS Board provide all the administration and project coordination. Otter Books does the ticket sales at no cost to SCS.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Letter of support for Selkirk Concert Society

Ellie Hedges <ellie@nelsonstudio88.com>

15 Feb 2024,
16:55 (15
hours ago)

To whom it may concern,

This is a letter written in support of Selkirk Concert Society's application for funding and their efforts to enrich the cultural life of Nelson. The group was founded in 2012, and our community has strongly supported such an organization in Nelson.

Selkirk Concert Society is a non-profit organization in Nelson. The board is comprised of local musicians with many years of experience performing and teaching. They create performance and employment opportunities for local professional musicians while providing the community with performances by small ensembles in intimate settings.

They are currently raising funds for their 2024-2025 concert series.

Fundraising will enable Selkirk Concert Society to offer professional chamber music concerts in the community. It will also ensure that ticket prices remain affordable for all community members.

As the president of the Nelson Registered Music Teachers Association, we support their efforts and I look forward to continuing our collaborative relationship.

Sincerely,

Ellie Hedges, BCRMTA, ARCT, MYC

Ellie Hedges

Project: Legally Blonde: The Musical

1. The project will provide:

Black Productions is pleased to present its 12th annual show, Legally Blonde, in Nelson BC. This is a full Broadway musical that will be cast with local performers and supported by local arts technicians and crew. Since 2013 Black Productions has been the only consistent source of semi professional theatre in our community, seeing over 2000 audience members annually and worked with over 250 artists and arts workers since its inception. Audiences come from across the interior to attend these sold out productions as our reputation has grown for providing high quality, engaging theatre. Past shows include Addams Family, Mamma Mia, Grease, Rock of Ages, Cabaret, Chicago and more.

The project provides the only semi professional productions in the region, engaging local artists and arts workers who are desperate to do this work at home, instead of travelling large distances to find performance opportunities.

The project provides the opportunity for basin residents to travel a short distance to experience this calibre of theatre within their region. Usually you have to travel to Vancouver or Calgary for these experiences.

The project increases the cultural vibrancy of the region, providing opportunities for theatre artists that are incredibly hard to come by.

All of these points will be achieved by successfully producing live musical theatre in Nelson.

2. Organization Mandate:

Black Productions is dedicated to bringing high-quality, entertaining productions to Nelson and surrounding areas. With a passion for storytelling and a commitment to fostering local talent, Black Productions strives to create engaging theatrical experiences.

3. Community objectives the project will work towards are:

It's important because we rarely see locally developed large scale musical theatre. All participants in the show (cast/crew) will benefit from the community building experience of creating a show. Audiences will benefit from having the opportunity to experience locally produced live musical theatre in their community.

4. Project will address issues or opportunities pertaining to:

Theatre artists and arts workers have essentially zero opportunities to perform locally in high quality musicals (ID'd through the review of the theatre brochures for all the regional theatres)

Local audiences rarely have the opportunity to witness regionally developed large scale musical theatre (ID'd as above)

Black Productions upholds Nelson's reputation as an amazing small arts town through the production of these shows (ID'd through feedback in person and online)

Theatre artists and workers rarely have opportunities for paid work in this area (ID'd through community awareness)

These shows bring massive amounts of our community together, uniting them at a time when there is great division in the world. The shows provide an escape where people can sit back, relax and enjoy themselves.

5. This organization is best to provide this project to the community because:

Black Productions has been presenting large scale musicals in Nelson annually since 2013. We have extensive knowledge around production management, with a focus on artist safety, and managed to navigate the pandemic successfully, producing two online events during that time. We are a trusted entity in the community and have managed to maintain strong relationships through our existence as an organization.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

black productions.

Legally Blonde: The Musical

Alignment with CBT and City of Nelson's Sustainability Strategies, Goals and Objectives

Legally Blonde embodies the following guiding principles of the following **Columbia Basin Management Plan Strategic Priorities:**

- **Community Wellbeing:** Black Productions has significantly enriched the cultural fabric of the Columbia Basin for over a decade, serving as a cornerstone for theatre artists, businesses, and tourists alike. Offering a unique platform for artists, Black Productions empowers individuals to actively participate in the world of theatre arts within a rural setting, emphasizing the possibility of engaging in performance art beyond metropolitan centers.

Legally Blonde meets the following **Sustainability Principals and Directions from the Nelson Path to 2040 Strategy:**

- **Cultural Strength:** ArtWalk truly embodies all of the cultural strength principals from Facilitating cross generational and socio-economic relationships to Authentically representing our artistic and cultural values in how we live, move, play, shop, and do business.
- **Healthy Neighbourhoods:** Musical theatre in small rural communities fosters healthy neighborhoods by cultivating community bonds, encouraging collaboration, and providing a platform for shared creative experiences. Residents of all ages contribute their talents, whether onstage, backstage, or in the audience, strengthening relationships and creating a supportive network. These productions instill a sense of local pride and identity, enhancing overall community well-being. As a form of entertainment and cultural expression, musical theatre contributes to the quality of life, attracting diverse audiences and fostering a positive and inclusive atmosphere.
- **Resiliency:** In the face of the pandemic, our small rural musical theatre organization has become a beacon of community resilience. Despite unprecedented challenges, our tight-knit group rallied together, demonstrating an unwavering commitment to keeping the arts alive. Embracing innovative solutions, we explored virtual performances, bringing the magic of musical theatre directly into the homes of our community

members. The collective determination to adapt and find creative solutions has not only sustained our organization but has also strengthened the bonds within our community, showcasing the remarkable resilience that emerges when people come together in the face of adversity.

Arts/Entertainment

Black Productions presents The Addams Family: A New Musical

Submitted by Black Productions

Black Productions is thrilled to be mounting a production of *The Addams Family: A New Musical*, bringing a full-scale musical to the Capitol Theatre stage for the first time since 2019. The cast of 22 dynamos will be bringing this show to Nelson on May 25 to 28 and tickets are on sale now.

The Addams Family is a comical feast that embraces the wackiness in every family, featuring an original story that is every parent's nightmare: Wednesday Addams, the ultimate princess of darkness, has grown up and wants to marry a sweet, smart young man from a respectable family — a man her parents have never met.

And if that wasn't upsetting enough, Wednesday confides in her father and begs him not to tell her mother. Now, Gomez Addams must do something he's never done before — keep a secret from his beloved wife Morticia. Everything will change for the whole

From left, Madeline Setzer, Avi Phillips, Sydney Black and Carly Brandel as Wednesday, Gomez, Morticia and Pugsley from the Addams Family. Photo: Ingrid Love

family on the fateful night they host a dinner for Wednesday's "normal" boyfriend and his parents.

The Addams Family: A New Musical is directed by Lindsay Clague, with choreography by Mackenzie Hope and musical

direction by Malaika Horswill.

Tickets are \$35 for adults or \$30 for children under 12 (plus taxes and fees) and are available at the Capitol Theatre box office, by calling 250-352-6363, or going to www.capitoltheatre.ca.

Project Title **Symphony of the Kootneays at the Capitol Theatre**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area H, City of Nelson
The Capitol Theatre in Nelson.

Importance to the community:

Cultural - These events will be highlights of Nelson's cultural calendar - rarely does the Capitol Theatre get to be used to its full extent - hosting so many musicians at once on stage. Additionally, the Association will use these concerts to gauge the community's interest in future concerts, potentially making these events an annual occurrence.

Social - The SOTKA has plans to provide discounted or free tickets to marginalized communities, including youth, seniors, low-income individuals, and people with disabilities.

Economic - The SOTKA pays its artistic director, its musicians, and its soloists professional wages, allowing them to pursue their art while residing in a rural location. Additionally, the two events provide concertgoers an opportunity for a "night out," which will provide spin-off benefits to local restaurants.

1. The project will provide:

The Symphony of the Kootenays (SOTK) will present two concerts at the Capitol Theatre in Nelson. The October concert will feature two soloists living in the West Kootenay - Natasha Hall on Violin and Martine denBok on Viola. The April concert will feature a West Kootenay-born soloist visiting from San Francisco, Amy Zanrosso on Piano. The symphony also includes between 40 and 45 musicians, a quarter of which live in the West Kootenay, along with its artistic director and conductor, Jeff Faragher.

This project is meant to leverage the expense of gathering of the musicians and rehearsal time put in for the SOTK's normal concert weekends and bring the symphony to Nelson for the least possible expense. By "piggybacking" these concerts, the residents of Nelson and surrounding communities can enjoy these rare performances without travelling outside of the West Kootenays.

Supported by the volunteer board of directors primarily based in Cranbrook, a Nelson-based "booster club" will provide the necessary logistics to bring the symphony to the West Kootenay, including project coordination, travel, marketing, and hospitality.

The October concert will feature the soloists performing Mozart's Sinfonia Concertante for Violin, Viola, and Orchestra, along with Dvorak's New World Symphony.

The April concert will feature Brahms' 1st Piano Concerto, along with Schubert's Unfinished Symphony.

2. Organization Mandate:

The Symphony of the Kootenays (SOTK) Association's mandate is to provide high quality live concerts of orchestral music to audiences in the East, Central and West Kootenays. SOTK endeavors to employ, as available, Kootenay musicians in order to help make it possible for them to live and work in the smaller communities in the region. SOTK works with community arts organizations, schools and other practitioners to collaborate and provide innovative programming for the communities we serve.

3. Community objectives the project will work towards are:

Cultural - These events will be highlights of Nelson's cultural calendar - rarely does the Capitol Theatre get to be used to its full extent - hosting so many musicians at once on stage. Additionally, the Association will use these concerts to gauge the community's interest in future concerts, potentially making these events an annual occurrence.

Social - The SOTKA has plans to provide discounted or free tickets to marginalized communities, including youth, seniors, low-income individuals, and people with disabilities.

Economic - The SOTKA pays its artistic director, its musicians, and its soloists professional wages, allowing them to pursue their art while residing in a rural location. Additionally, the two events provide concertgoers an opportunity for a "night out," which will provide spin-off benefits to local restaurants.

4. Project will address issues or opportunities pertaining to:

Funding this initiative allows the City of Nelson and surrounding Areas the opportunity to support two major cultural events while providing only a fraction of the overall cost of the concerts. Leveraging the funding and planning of the Association's regular schedule, the greater Nelson area can enjoy two presentations rarely seen in a population centre of this size.

The SOTK has identified the desire for the symphony to perform in Nelson through word of mouth and discussions with the administration of the Capitol Theatre. The symphony only performs four times a year, and when Nelson and area residents hear that it is not performing locally, they question why we are not able to perform here more often.

Project: Symphony of the Kootenays at the Capitol Theatre

Finally, as discussed below, there will be a component of this project supporting marginalized communities - encouraging attendance to those who would not normally be able to afford this kind of presentation.

5. This organization is best to provide this project to the community because:

The Symphony of the Kootenays has a track record of close to 50 years of producing high-quality concerts in the East Kootenays, along with many "run-out" concerts to Creston, Trail, Nelson, and most recently, Invermere. The primary proponents of the project are familiar with the staff and administration at the Capitol Theatre, having performed in and presented many shows there. The Association is in a stable financial position and has expertise on the board regarding logistics and marketing.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Rob Fahie - Treasurer and principal bassist of the SOTKA. Rob has a long track record of presenting performances with the Selkirk Concert Society. He is also an accountant, adept at project management and budgeting.

Jeff Faragher - Artistic director and conductor of the SOTKA. Jeff has been the conductor of the symphony for 10 years and has toured throughout Canada as a professional cellist. He also holds an MBA from the University of Alberta.

Ellen Bailey - General manager of the SOTKA - Ellen has been the GM for the symphony for four years.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Nelson Seniors Centre Society**

Registration # S0077654

717 Vernon Street, Nelson BC V1L 4G3

Name of Organization being sponsored if applicable -

Project Title **Defibrillator for Nelson Seniors Centre**

Project will be located in: RDCK Area E, RDCK Area F, City of Nelson
At the Nelson Seniors Centre 717 Vernon Street, Nelson BC.

Importance to the community:

The seniors attending our facility will benefit from being assured that in case of cardiac arrest immediate action can be taken. AEDs are located in many public buildings in our community, the library, the hockey rink etc. The senior centre should be no different. If anything, the likelihood of a cardiac arrest is more likely to happen to our members.

Project: Defibrillator for Nelson Seniors Centre

1. The project will provide:

The project will involve purchasing a Zoll AED plus automatic defibrillator, mount it in the senior centre and train key members on how to use it.

2. Organization Mandate:

To provide a safe location and environment for Nelson and region seniors to hold social activities and gatherings.

3. Community objectives the project will work towards are:

The seniors attending our facility will benefit from being assured that in case of cardiac arrest immediate action can be taken. AEDs are located in many public buildings in our community, the library, the hockey rink etc. The senior centre should be no different. If anything, the likelihood of a cardiac arrest is more likely to happen to our members.

4. Project will address issues or opportunities pertaining to:

Our member population (200 members +) ages range from 50 years to 95 years old. Many of our members have heart issues, high blood pressure and various chronic illnesses. Should they collapse at our centre we would like to keep them alive until the ambulance arrives.

5. This organization is best to provide this project to the community because:

Our organization already has first aide kits, sanitizer stations, places for an ailing senior to lie down but only missing an AED. Local first aid instructors will be on site for training sessions on how to use the AED. We expect to train 10-20% of our membership.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The board members including activity team leaders. There are many members that are retired nurses, doctors, lab technologists, care aides, paramedics.....that are familiar with using AEDs. We will train these members to be aware and able to use the AED in case of emergency.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

02 Stanley Street, Nelson British Columbia V1L 1N4

Name of Organization being sponsored if applicable -

Project Title **Digital Learning at the Library**

Project will be located in: RDCK Area F, RDCK Area H, City of Nelson

This project will take place at the library. The library has loaner devices for those without, it has public Wi-Fi, and it has resources for people with disabilities through the National Network for Equitable Library Services (NNELS). The space is accessible, and it is equipped with technology that supports in-person and virtual participation in experiential learning activities and presentations. Library staff members involved in the pilot are information management, intercultural communication and literacy experts. The library also has cutting-edge video production and recording equipment in the Tech Hub available for public use for free.

Importance to the community:

All community members in our area will have access to these programs and we will promote them widely. The library has long provided our community with equitable access to technology, through public Wi-Fi, public computers, and loaner devices. Increasingly, community members also rely on the library to close gaps in education around technology use. With an aging workforce and an increase in immigration in our area, seniors and newcomers are key communities we hope to serve. The library is a key fixture of support for newcomers and seniors and encourages a sense of belonging in our community through tech programs. It's important also to note that many responses to our 2023 patron satisfaction survey indicated the desire to participate in tech training programs at the library. Increasing digital literacy in our community will have measurable economic and social benefits.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/30/2025

1. The project will provide:

The Digital Learning at the Library project will pilot programs for adults and seniors that directly support their learning needs related to technology. 1. Beginner technology classes on topics such as email tools, saving to the cloud, securing passwords, detecting spam, safely navigating online purchases, etc. will provide participants equitable access to the digital world and economy. 2. Drop-in hours for support with computers, smartphones and iPads will connect community members to social, community building and civic engagement resources online. 3. Workshops in the library's Tech Hub will encourage creative and social innovation. With these programs, and upgrades that make it easier for people to complete job applications and general administrative tasks, the library will pilot providing holistic support for digital learning in our community. The current wait time for technology support at the library is three to four weeks. Adding additional programs will reduce the wait time for individual support by providing more small group learning opportunities. Over 300 Canadian libraries offer technology training classes to nearly 16,000 people per month! This training gives community members access to essential health and social services, and they touch on key indicators of the social determinants of health: literacy, employability, social inclusion and non-discrimination. Because this is a pilot project, its intent is to reach a broad audience and solicit feedback.

2. Organization Mandate:

The Friends are applying for the grant on behalf of the Nelson Public Library. The Friends mandate is to raise funds and advocate for the Library. The Library's mission is to spark curiosity, support inclusion and make learning possible for everyone. Its vision is a connected community inspired by innovation and imagination. The core values of the Library are: universal and equitable access, excellent service, diversity, equity and inclusion, sustainability, and meaningful relationships. There are many ways that this project supports these values. Crucially, this project will provide anyone and everyone in our community equitable access to technology and education. As community members learn new tech skills, a whole new array of information, services, resources, employment opportunities, community connections, creative ideas and innovations become available to them.

3. Community objectives the project will work towards are:

All community members in our area will have access to these programs and we will promote them widely. The library has long provided our community with equitable access to technology, through public Wi-Fi, public computers, and loaner devices. Increasingly, community members also rely on the library to close gaps in education around technology use. With an aging workforce and an increase in immigration in our area, seniors and newcomers are key communities we hope to serve. The library is a key fixture of support for newcomers and seniors and encourages a sense of belonging in our community through tech programs. It's important also to note that many responses to our 2023 patron satisfaction survey indicated the desire to participate in tech training programs at the library. Increasing digital literacy in our community will have measurable economic and social benefits.

4. Project will address issues or opportunities pertaining to:

National data identifies older adults, seniors, newcomers to Canada, people with disabilities, people living in rural areas and at-risk youth as being key demographics with gaps in digital learning education. There is sense of being left behind among older adults and seniors in particular that discourages them from participating in the digital economy. Newcomers and people with disabilities are overlooked by digital tools meant to reach the masses rather than to accommodate diverse needs. In terms of local input, we learned through our 2023 library patron survey and through

Project: Digital Learning at the Library

participation rates in existing programs, that the community wants and needs more digital learning programs for adults.

(Our Teen Services Coordinator is working with community partners to address unique needs of at-risk youth in programs that are external to this pilot project.)

5. This organization is best to provide this project to the community because:

The library is best suited to meet the broad digital learning needs of our community because of its physical resources, staff knowledge and community connections. We currently partner closely with community organizations providing literacy services on several successful programs. However, literacy is just one component of digital learning. This project addresses digital learning beyond the scope of urgent literacy needs by providing the community access to information and tools, access to community resources, programs and equipment that promote innovation and creativity, resources to support job readiness etc. With this project, the library will meet the digital needs of our community more broadly. Finally, we will be able to offer space and professional capacity to carry out more work in this much needed area, which we hope will lead to a long-term digital strategy on which to base future operational developments as required.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Library staff members will be responsible for facilitating beginner technology classes and drop-in device support programs. In collaboration with CBAL and Learning in Retirement, these staff members already address our community's digital learning needs on a much smaller scale, through occasional collaborative sessions. Adding more capacity (hours) to support digital learning will make it possible to provide the additional programs described above. Local online marketing and podcast professionals will support workshops and individualized support for community members using the recording studio, media center and digitization station at the library. Library management will construct tracking mechanisms and program evaluation processes.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Digital strategy development, including 15 consultations with community partners regarding community needs, program assessment and research \$2400 (60 hours). Marketing/promotions materials & printing \$600 (\$300 materials, \$300 time).

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

1206 McQuarrie Avenue
Nelson, BC

February 14, 2024

Dear Resident Directed Grants Committee,

The Columbia Basin Alliance for Literacy (CBAL) is a non-profit organization working in 16 communities in the Kootenay and Boundary regions of British Columbia. CBAL works to support the development of healthy learning communities, in which each member of the community has strong basic skills for lifelong continuous learning.

CBAL has enjoyed a collaborative partnership with the Nelson Public Library for many years. Our shared goals of supporting community learning have seen us partner in program delivery, collaboratively planning, being responsive to community needs, and working together to maximize community resources.

The Nelson Public Library and CBAL have worked together over many years to offer programs and resources to support the community in developing basic tech skills. There has always been more demand than our combined capacity to offer tech programs. Strong tech skills are essential for living in the modern world, and allow citizens to access information, communicate, and participate in their community and their own lives. Supporting all members of the community to have strong tech skills supports the City of Nelson's goal to have a 'productive economy, well-protected environment, healthy citizens, and strong cultural connections.'

Please consider the Nelson Public Library's application for a Resident Directed grant.

Sincerely,

Joan Exley
Community Literacy Coordinator
Columbia Basin Alliance for Literacy

January 30, 2024

Dear Resident Directed Grants Committee,

Re: Digital Learning Programs at the Nelson Public Library

On behalf of Community Futures Central Kootenay, I am pleased to support the Nelson Public Library's digital learning pilot programs. As technology evolves and our community grows, the library's plan to pilot expanding digital learning opportunities in our community meets an urgent need.

I am confident that providing beginner tech classes, drop-in device support, and access to training in the library's Tech Hub will have positive outcomes in terms of both employment preparedness for our labor force and for the social wellbeing of our community.

Community Futures Central Kootenay is a not-for-profit mandated to support business and foster community economic development in the Central Kootenay region. The library's plan to expand digital learning opportunities will equip more people with the knowledge and expertise needed to adapt in a rapidly changing world. This project aligns with our organization's vision for a vibrant, diverse, resilient, and sustainable Kootenay economy where access to much-needed learning opportunities is a cornerstone of prosperity.

Universal and equitable access to library resources is one of the Nelson Public Library's guiding values. They seek to address the growing digital divides in our community and ensure populations at risk are not left behind or excluded from the digital economy due to lack of home devices or internet service. This pilot offers a variety of digital learning programs which will help them determine the needs in our community and how we can collectively address them.

We look forward to working with the library to strengthen our community's capacity to meet its digital learning needs through pilot programming funded through the Resident Direct Grants.

Sincerely,

Andrea Wilkey, *Executive Director*

Re: Digital Learning at the Library

Dear Resident Directed Grants Committee,

I'm writing to support the application for the Nelson Library ReDi grant to fund their "Digital Learning at the Library" project. As the Manager of the Kootenay Seniors, a program of Nelson CARES Society, I believe that the proposed library program will address gaps in technology education in our community. I am confident that seniors in our community in particular will benefit from technology classes provided at the library.

I believe this program aligns with Kootenay Seniors Mission: To Support seniors to remain independent in their homes for as long as possible, living with dignity and joy, and being an integral part of their community.

Many of our senior clients struggle with technology and having the "Digital Learning at the Library" project would be beneficial to many of our clients. Learning technology skills are essential for seniors to participate and feel like they are part of the community. As technology changes quickly, it can be difficult for seniors to keep up with the functions of devices and processes that have moved online. Identifying trustworthy sources of support can be a challenge as well, because of the huge volume of information online.

We wholeheartedly support the Nelson Library to increase the capacity of the program to assist seniors in the Nelson area.

Sincerely,

Coreen Gries

KS Manager

January 31, 2024

Re: Digital Learning Programs at the Nelson Public Library

Dear Resident Directed Grants Committee,

Kootenay Career Development Society (KCDS) is pleased to support the Nelson Public Library's digital learning pilot programs. As technology evolves and our community grows, the library's plan to pilot expanding digital learning opportunities in our community meets an urgent and important need.

In providing services to hundreds of job-seeking Nelson residents, I can confirm that skills-development offerings such as beginner tech classes, drop-in device support and access to training in the library's Tech Hub will support positive outcomes in terms of both employment preparedness for our labor force and for the social wellbeing of our community.

KCDS is a regional non-profit society incorporated in 2004 and well known as a 'one-stop-shop' for employment services. Currently, KCDS is the prime contractor for WorkBC program in Boundary, West and Central Kootenay region, providing career development, employer and employment services to thousands of job-seeking. KCDS also delivers a wide variety of specialized employment programs focusing on workforce development targeted job seekers with barriers to employment. It is our continued experience that programming provided by the Nelson Library supports universal and equitable access, social inclusion, and mental health benefits. It also routinely aligns with the increasing demand for literacy and other basic and essential skills-development opportunities.

This specific proposal, which aims to address the growing digital divides in our community responds to a barrier to employment that we are seeing with increasing frequency; we would be excited to refer our clients to this program.

We look forward to working with the library to strength our community's capacity to meet its digital learning needs and enthusiastically support their funding request for this pilot program.

Sincerely,

Jocelyn Carver, Executive Director

Nelson and District Seniors Coordinating Society

Re: Letter of Support for Digital Learning programs

We are writing to the library to express our support in the programs and services to establish a long-term Digital Strategy for the Nelson Library.

The importance of providing these classes and workshops is a very valuable sector that all participants will get value from.

Trusting this will receive full support.

Kind regards,

Linda Winje
Office Manager

Bob Schmitz
Chair Person

2024 City of Nelson ReDi grant application additional information.

Purposed project: Digital Learning at the Library

The proposed project aligns with many of the City of Nelson's sustainability strategies, goals and objectives found in the Path to 2040 and Nelson Next plans.

Below are a list of City objectives and corresponding Library services and outcomes of the proposed project, that support City goals.

Nelson Path to 2040 Sustainability Strategy

Cultural Strengths: using our many arts, traditions, heritage and recreation assets to enrich the quality of life for all citizens.

The Nelson library showcases local artists through library collections, partnerships with local literary and visual arts organizations to bring arts alive through presentations and training workshops. This project would provide local creatives tools and training in the Tech Hub's recording studio that can be used for the development of creative arts (music, film, voiceover, etc.). Moreover, training to create professional digital and visual marketing materials will be provided in the Tech Hub's media studio, which local artists can use to develop promotional materials for their work.

Healthy Neighbourhoods: safe, welcoming, connected places with meaningful opportunities to interact with neighbours of all ages and income levels.

The library is one of the few public spaces in Nelson where everyone is welcome (at no cost) to use the facility to meet friends and neighbours, study, hang-out afterschool, collaborate on projects, try new technology and participate in civic programs. The proposed project would increase meeting and collaboration opportunities. The drop in and beginner tech sessions will encourage the development of a community of practice in which participants support one another as they learn to adopt new tech tools together. We anticipate that these programs will appeal to seniors and newcomers to Canada, who may in addition to needing tech help, be looking for opportunities to connect meaningfully with community members.

Robust Ecosystems: ensuring natural systems are flourishing in Nelson.

The Nelson Library's strategic priorities were developed using a climate lens and specifically identifies supporting the City and Regional District's climate initiatives. The library is measuring its progress by the percentage of collection and resources dedicated to sustainability issues compared to total holdings and by the number of patrons/community partners who indicate that the library helps to increase their sustainability practices. Loaning devices (chromebooks and tablets) and utilizing shared tech rather than purchasing it for yourself are fundamentally sustainable decisions that we make available to all community members. Through this project, we will also provide the public guidance on how best to dispose of end-of-life technology and devices.

Prosperity: fostering a diverse, value-added economy that provides meaningful employment opportunities and supports healthy and affordable lifestyles.

The Nelson library makes life more affordable for residents of all ages by offering free resources and services. The proposed project will also provide life-long learning opportunities, technology tools and training on the tools and equipment in the Tech Hub that will support small businesses and the self-employed in particular.

Resiliency: maintaining and enhancing the economic, social, ecological, and cultural systems that strengthen our ability to withstand future challenges.

By providing a space to learn, discover and publicly discuss issues important to the community, the library strengthens meaningful relationships and civic engagement. This project addresses the digital divides in our community, ensuring no one feels left behind or isolated by technological evolution. The community's capacity to access information and resources online will increase, which could improve community responses to climate emergencies and understanding of City of Nelson support mechanisms.

Nelson Next

The library supports the City's Nelson Next plan of collaborative action, protecting vulnerable groups from climate impacts, capacity building, and cross-sectoral partnerships and innovation. This is done through access and sharing of information, public awareness, supporting innovation through our collections and programs, leveraging our community partners to network, assisting in building relationships and collaborations. The library has coordinated with representatives from the Climate and Energy department to implement public awareness around climate and energy initiatives. We have and continue to increase the library's Library of Things, which now includes food preservation equipment (canners, food dehydrators). We also continue to host public presentations on Climate and Energy initiatives and have and continue to host public presentations that address our community's climate anxiety. Public awareness of these events and city initiatives would benefit from the proposed project because it will improve our community's digital literacy and capacity to navigate online information, resources and services.

Organization **Nelson Baseball Association**

Registration #

PO Box 886, Nelson BC V1L 6A5

Name of Organization being sponsored if applicable -

Project Title **New Roofs on the Lions Park Baseball Dugouts**

Project will be located in: City of Nelson

The Project will take place at our Lions Park baseball diamond (Figure 1).

Importance to the community:

The Project is important because it will provide our baseball community with better dugouts at our Lions Park diamond. Our baseball community includes players, parents, and visitors from Nelson and other nearby West Kootenay towns (Trail, Castlegar, Beaver Valley, Salmo, Kaslo, and Slocan Valley).

During our Spring season, we have 10 teams (~120 players), ages 5-10 yrs, that practice and play games at Lions Park. This translate to a significant number or parents and visitors during our 10 week Spring season.

The Project will benefit the City of Nelson by improving the appearance of Lions Park and the Nelson Baseball Association by providing us with a long-life asset consistent with our dugouts at Queen Elizabeth Park.

Work Plan Dates: Project Start: 7/15/2024 Project End: 7/19/2024

Project: New Roofs on the Lions Park Baseball Dugouts

| | | |
|-------------------|-------------------|-------------------|
| \$4,999.00 | \$5,258.60 | \$5,258.60 |
|-------------------|-------------------|-------------------|

1. The project will provide:

The Project will replace the roofs on the two dugouts at our Lions Park baseball diamond in Nelson (Figure 1). The old roofs are damaged and were not originally installed with drip edges resulting in rotting fascia.

The new metal roof will be installed with 26 gauge Tough Rib panels from Westman Steel with iceguard, synthetic underlay, and drip edges. This is the same high-quality materials used on our two dugouts and three buildings at Queen Elizabeth Park field and our new equipment building at Lions Park (constructed in the summer of 2023). These metal roofs are no maintenance, long-life assets.

The Project will be achieved by hiring Edge Roofing Ltd. who are a well-known and experienced roofing contractor in the Nelson area (cost estimate attached).

2. Organization Mandate:

The mandate of the Nelson Baseball Association is to provide a safe, fun, developmental environment for players, coaches, and parents. Development includes learning baseball skills, games rules and strategy, and important life skills such as fair play and good sportsmanship.

We have offered youth baseball programs in Nelson since 1965. Our programs are offered in seven age divisions (i.e., T-Ball (5-6 yrs), Rookie (7-8 yrs), Minors (9-10 yrs), Girls (7-10 yrs), Majors (11-12 yrs), 15U, and 18U). Our 2024 Operational Budget is attached.

The goal of our capital projects program is to continue to upgrade our Lions Park and Queen Elizabeth Park baseball fields to ensure a modern and safe setting for players, parents, grandparents, and visitors.

3. Community objectives the project will work towards are:

The Project is important because it will provide our baseball community with better dugouts at our Lions Park diamond. Our baseball community includes players, parents, and visitors from Nelson and other nearby West Kootenay towns (Trail, Castlegar, Beaver Valley, Salmo, Kaslo, and Slocan Valley).

During our Spring season, we have 10 teams (~120 players), ages 5-10 yrs, that practice and play games at Lions Park. This translate to a significant number of parents and visitors during our 10 week Spring season.

The Project will benefit the City of Nelson by improving the appearance of Lions Park and the Nelson Baseball Association by providing us with a long-life asset consistent with our dugouts at Queen Elizabeth Park.

4. Project will address issues or opportunities pertaining to:

There are no issues with the Project, it's a simple task.

The Project will provide the opportunity to: (1) upgrade our sports infrastructure (two dugouts) at Lions Park to a higher standard; and (2) use materials, colors, etc. that provide consistent branding at both our baseball fields in Nelson.

5. This organization is best to provide this project to the community because:

Project: New Roofs on the Lions Park Baseball Dugouts

We are confident in our ability to deliver the Project because we are an experienced club. In the last four years, we have supervised the installation five metal roofs at our Queen Elizabeth Park field and one at our new Lions Park equipment building last summer.

Since 2018, the Nelson Baseball Association has raised over \$550,000 and completed capital projects at our two baseball fields in Nelson. We have been awarded grants from federal, provincial, and regional agencies and other well-respected groups such as the Toronto Blue Jays and the Columbia Basin Trust. The community has supported our capital projects with over \$120,000 in cash and in-kind donations. Our capital projects are high quality and have been delivered on time and within budget.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Charles Jansen - Supervisor, City of Nelson Parks

Jim Sevigny - Field Manager, Nelson Baseball Association

Dan Gaudreau - President, Edge Roofing Ltd.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

The Nelson Baseball Association will be purchasing new 2x6" fascia, plywood and stain (~\$600), and volunteer time for supervision, staining and installation (40 hrs).

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Nelson Youth Action Network**

Registration #

310 Ward Street - Suite 101, Nelson British Columbia V1L 5S4

Name of Organization being sponsored if applicable -

Project Title **Youth Mural Project 2024**

Project will be located in: City of Nelson

The Youth Mural Project will take place in Nelson BC. Meetings regarding the preparation and planning of our youth mural project will occur at the Nelson and District Youth Centre, located at 608 Lake Street. The location site of the mural will be Rosemont Elementary School, located at 1605 Crease Avenue. Rosemont Elementary School, and by extension the entire Rosemont suburb, is a mindful community which uses caring, commitment to learning, creativity, common sense and calm to embrace challenges and change. This site location will foster mutual respect and responsibility, and an appreciation and care for this special neighborhood.

Importance to the community:

Community murals are a mode of expression for artists in every graphic style imaginable. Murals have recently become community centrepieces that bring people together to celebrate the heritage and history of their hometowns. Our proposed youth mural project will create a vibrant neighborhood that community members will want to visit, live in, and take care of. Murals often remind us to slow down and admire our surroundings, and create important conversations and expand thoughts on community issues.

Our project will be beneficial to the extended community of Nelson to explore and celebrate the talent and passion of local artists. Participating youth will have the opportunity to develop confidence, express themselves, and encouragement to engage in community.

Work Plan Dates: Project Start: 5/16/2024 Project End: 6/30/2024

| \$5,000.00 | \$6,500.00 | \$6,500.00 |

1. The project will provide:

The Youth Mural Project 2024 is an opportunity for young local artists to learn the skills involved in the creation of a large art mural to be enjoyed and celebrated by the extended Nelson community. The youth will come together to choose one local professional artist to assume the role of supportive mentor throughout the entire process of preparation and creation. With the collaboration of the Nelson and District Arts Council, the group of local youth will meet bi-weekly to discuss artists, as well as overall design and layout which will ultimately result in the design and creation of a unique art mural. This project will provide local youth the opportunity to gain skills and knowledge in leadership and teamwork, with the additional opportunity to expand on their creative and art skills.

2. Organization Mandate:

The Nelson Youth Action Network is a CBT grant-funded program that supports activities and diverse opportunities based on local youth priorities to engage youth to connect more and with our community. The NYAN also collaborates with organizations that work and interact with youth. An oversight committee formed by youth, council members, and local youth workers supports youth priorities and directs NYAN and programming.

3. Community objectives the project will work towards are:

Community murals are a mode of expression for artists in every graphic style imaginable. Murals have recently become community centrepieces that bring people together to celebrate the heritage and history of their hometowns. Our proposed youth mural project will create a vibrant neighborhood that community members will want to visit, live in, and take care of. Murals often remind us to slow down and admire our surroundings, and create important conversations and expand thoughts on community issues.

Our project will be beneficial to the extended community of Nelson to explore and celebrate the talent and passion of local artists. Participating youth will have the opportunity to develop confidence, express themselves, and encouragement to engage in community.

4. Project will address issues or opportunities pertaining to:

Often times graffiti is a controversial subject, illegal art that is a visual form of communication with unauthorized individuals marking a public space. Our community has identified this as an issue. Sidney Black, Executive Director of the Nelson & District Art Council as well as the Nelson International Mural Festival Founder in collaboration with Joscelyn Koehle, the Nelson Youth Action Network Coordinator, are excited to present an opportunity for local youth to learn new artistic skills while providing valuable experiences to engage with their community. Our proposed project of a youth mural will act as a deterrent for future graffiti while simultaneously creating a safe, welcoming, and healthy addition to a local neighborhood.

5. This organization is best to provide this project to the community because:

The Nelson Youth Action Network supports activities and diverse opportunities based on local youth priorities to engage youth to connect more and with our community. The NYAN also collaborates with organizations that work and interact with youth. An oversight committee formed by youth, council members, and local youth workers supports youth priorities and directs NYAN and programming. The NYAN started at the Nelson and District Youth Centre in 2017. Since 2017 NYAN has been providing several experiences for youth, which include providing young artists with the experience to create a mural for the annual Muralfest. We are well-suited and excited to deliver this project.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Joscelyn Koehle will be extensively involved in overseeing this unique project in her role of Coordinator of the Nelson Youth Action Network. For the past 12 years Joscelyn has worked with children of all ages in homes, schools and outdoor settings always reflecting on leadership skills, communication, relationship building, and independent decision-making. Various youth artists from the Nelson area with interest in participating in this large group project will be working alongside an artist who will act as mentor for our participating youth to offer support, technical knowledge, and skills to create a memorable and timeless asset to our community.

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

In-kind contributions include extended use of the multi-purpose meeting room at the Nelson & District Youth Centre for youth to host all preparation and planning meetings, as well as mural planning meetings with the assigned artist.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

REDI GRANT – CITY OF NELSON SUSTAINABILITY STRATEGIES, GOALS, and OBJECTIVES

The intended purpose of this document is to highlight how the proposed Youth Mural Project 2024 aligns with current City of Nelson sustainability strategies, goals, and objectives.

The Nelson Path to 2040 Sustainability Strategy serves as an umbrella document that sets the direction for future policy and planning decisions. This strategy is comprised of varying components which include sustainability principles and directions which define Nelson's community vision. These five principles, to varying levels, all align with the Youth Mural Project 2024.

Cultural Strength is about celebrating and embracing our history and our diversity as a community. Cultural vibrancy in Nelson continues to flourish with the opportunity that our annual Mural Festival creates; large scale public artworks, educational opportunities, and reflections of local cultures, histories, and stories fortifies collaboration amongst artists, businesses, and community members. The festival is inclusive of all cultures, genders, ages, and abilities. The Nelson Youth Action Network is proud to participate and contribute to the success of this festival with a youth mural project. This year we hope to continue to celebrate and embrace our diverse history and our diversity with the promotion of artistic and cultural expression; preserve and celebrate heritage; build cultural vision for our community; foster an inclusive and respectful community; maximize intergenerational connections; sustain an open attitude and culture of learning

Healthy neighbourhoods include informal public spaces for gathering; we aim to contribute to the establishment of safe, welcoming, connected places with meaningful opportunities to nurture cross-generational and socio-economic relationships and to ensure public safety.

The Nelson Youth Action Network (NYAN) serves the community through social and cultural programs that engage, connect residents, and enhance quality of life. All of which align with the overarching pillars of the Path to Sustainability in the municipal vision. The NYAN started at the Nelson and District Youth Centre in 2017, and impressively supports the city's overall vision: a prosperous and resilient community with robust ecosystems and safe, welcoming neighbourhoods where diversity, history, and culture can be celebrated. Since 2017 NYAN has been providing several experiences for local youth. These experiences include; taking youth to regional conferences, subsidized workshops to increase employability, Supporting the LGBTQIA+ community with weekly meet-ups, and providing young artists with the experience to create a mural for the annual Muralfest. The Youth Mural Project 2024 will be onsite at Rosemont Elementary School which will invite local residents, as well as tourists to our area, to utilize active transportation methods to explore all the murals created during this years festival.

February 21, 2024

RE: Nelson Youth Action Network ReDi Grant application

To whom it may concern,

Please accept this letter in support of the Nelson Youth Action Networks (NYAN) application for ReDi grant funding to support local artists in their 2024 Youth Mural Project.

NYAN is a Columbia Basin Trust grant-funded program that supports activities and diverse opportunities based on local youth priorities which encourage youth to connect more with our community. NYAN also collaborates with organizations that work with and interact with youth. An oversight committee formed by youth, council members and local youth workers supports and directs programming for NYAN.

NYAN started at the Nelson & District Youth Centre in 2017 and has since provided many youth-oriented experiences throughout our region. The Youth Arts Action Committee is a collaboration between NYAN and the Nelson & District Arts Council that also started in 2017 to give local youth artists a chance to learn and connect with the amazing arts community in Nelson.

Balfour Golf & Recreation comprises several community use recreation facilities in the Balfour area. We have an established relationship with NYAN through hosting of some of their events in the Balfour Community Hall which we operate. Keeping youth engaged in our region is extremely important and we encourage you to consider supporting the NYAN application for ReDi grant funding related to their 2024 Youth Mural Project.

Regards,

Craig Wilkinson
General Manager
Balfour Golf & Recreation

Organization **West Kootenay Watershed Collaborative**

Registration # S0077239

7025 Beggs Road, Nelson BC V1L 6S5

Name of Organization being sponsored if applicable -

Project Title **Branching Out for Watershed Understanding**

Project will be located in: RDCK Area A, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, City of Nelson

Specific sites for presentations are still to be determined dependent on space and scheduling. Preliminarily: Kaslo-Langham, Crawford Bay, Harrop-Proctor, and Nelson/Taghum Hall

Importance to the community:

This project is important to communities in the RDCK because they require the tools and knowledge provided by cutting-edge science to participate in land use decisions that affect them. The Central Kootenays have more domestic surface water sources than many other areas of the Province. Millions of dollars of real estate and infrastructure lie at the mouth of creeks, streams and brooks. The threat of drought, wildfire and landslides is expected to increase with climate change. Kootenay Lake and River residents have high property assessments yet the average RDCK individual income in 2020 (after tax) was the lowest in the Columbia Basin. Funds to repair water system damage and to conduct risk assessments are limited. These workshops will deliver easily digestible information to residents and ratepayers to increase their knowledge and participation in decision making. This will assist community members in responding to requests for input.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/1/2025

Project: Branching Out for Watershed Understanding

| Total ReDi Funding Requested | Total from Other Sources | Total Project Cash Budget |
|------------------------------|--------------------------|---------------------------|
| \$10,700.00 | \$13,400.00 | \$13,400.00 |

1. The project will provide:

"Branching Out," wants to inform residents dependent on surface water for both drinking and agriculture on the latest science and thinking around watershed defense, resilience and quality. In a series of four workshops/presentations we will support our mutual interests by staying current and active in our need to protect local resources. These discussions will be recorded and considered in looking for subjects of ongoing and urgent issues. Collaborative practices require that we as an organization listen and weave into our project the real concerns of our evolving communities. This will take place at 4 distinct and diverse locations situated in the RDCK to maximize community input and participation.

2. Organization Mandate:

To support, connect and share resources with communities along Kootenay Lake to the confluence at the Columbia River, as they create and enact long-term, cohesive and kincentric plans to protect, restore and utilize their community watersheds.

3. Community objectives the project will work towards are:

This project is important to communities in the RDCK because they require the tools and knowledge provided by cutting-edge science to participate in land use decisions that affect them. The Central Kootenays have more domestic surface water sources than many other areas of the Province. Millions of dollars of real estate and infrastructure lie at the mouth of creeks, streams and brooks. The threat of drought, wildfire and landslides is expected to increase with climate change. Kootenay Lake and River residents have high property assessments yet the average RDCK individual income in 2020 (after tax) was the lowest in the Columbia Basin. Funds to repair water system damage and to conduct risk assessments are limited. These workshops will deliver easily digestible information to residents and ratepayers to increase their knowledge and participation in decision making. This will assist community members in responding to requests for input.

4. Project will address issues or opportunities pertaining to:

In exploring the larger landscape; inclusive of existing housing developments, we are attempting to get an on the ground assessment of the public's understanding of both what a watershed is and how it is impacted by human activities on the landscape. The issues were identified through the WKWC's own experiences over the past 3 years. Public commentary and the real exhaustion accompanied with tears and searching for other ways to address the losses motivates this project for public education and outreach. Taking direction from the RDCK's own collected stories in the Watershed Governance Initiative we are engaging the new science of attribution to effectively address community concerns.

5. This organization is best to provide this project to the community because:

The WKWC is unique in that its geographic focus is delivering information and education to the communities on Kootenay Lake and Kootenay River to the confluence of the Columbia River. We have and will continue to forge relationships with local groups working on land-use education and recently contributed to the Nelson Museum: Archives and Gallery Show "Elevate."

Our organization is relatively new, participating in the Healthy Watersheds Initiative (HWI) prior to our incorporation. Through that project some of our board members were involved in taking part in project development for Community in Nature as part of the HWI. Since incorporation in the fall of 2022, we have sponsored Dr. Younes Alila

Project: Branching Out for Watershed Understanding

PhD UBC at a public information session at the North Shore Hall, had community information tables in front of the Kootenay Country Store Co-operative, and held a successful Organizational Launch on a snowy December Day.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

In parallel with our work the Board of WKWC and our speakers/organizations: The UBC Hydrology Lab of Dr. Younes Alila, Wildfire and Water Presentation led by Fire Ecologist Robert Gray BSc and a Forest Ecologist to be determined.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

The WKWC is a working Board and will be hands on for both the planning and development stages of the project. In addition, Board members will report on the meetings, provide transportation and conduct the final project accounting to Redi Grant.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Nelson Nordic Ski Club**

Registration # S-0018000

P.O. Box 486 Nelson, 4638 Highway 6, Nelson - C British Columbia V1L 5R3

Name of Organization being sponsored if applicable -

Project Title **Phase Two: Completion of the New Apex Groomer and Electric Snow Machine Building**

Project will be located in: RDCK Area E

Nelson Nordic Ski Club is located 10 km south of Nelson on Hwy 6. The mechanical building addition we are working on is directly across from Whitewater Ski Resort Road, just below the parking lot.

Importance to the community:

Nelson Nordic provides an affordable outdoor recreation service to Nelson and the surrounding communities. With it's 1200 members and 5,000 day pass visitors both local and from afar increasing tourism and economic growth in the area the club provides a valuable outdoor recreation opportunity with programs for 4 to 80+ year olds. The club also serves the under-represented population groups in the area. Last year we had 207 visits from a variety of groups to ski and snowshoe for free, including free rentals from Gericks and instruction from members at the club. With support from RDCK the club grooms to Cottonwood Lake along the railtrail, providing an active transport corridor for locals to ski to the club from Nelson. This trail also provides a dog friendly area, hugely popular. Keeping our grooming machines safe and in top shape is critical to providing these daily groomed trails for our users.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/20/2025

Project: Phase Two: Completion of the New Apex Groomer and Electric Snow Machine Building

| Total ReDi Funding Requested | Total from Other Sources | Total Project Cash Budget |
|------------------------------|--------------------------|---------------------------|
| \$46,429.08 | \$53,429.08 | \$53,429.08 |

1. The project will provide:

Phase one of this project, initiated in the fall of 2023 and concluding presently, involved securing funding from various sources including a Capitol BC Gaming grant of \$48,030, a \$2000 donation from Nelson Home Hardware, and additional funds from NNSC, totalling \$109,769.94. This phase aimed to house and secure a second grooming machine and our new electric snow-machine due to significant security risks at the club, compounded by the deteriorating state of the old shed which lacked security, heating, and wiring.

Phase two of this project aims to complete the project. This includes insulating, wiring, and cladding the interior of the new addition. Having power in the shop will facilitate drying and routine maintenance of the machines, promoting their longevity. The Husky Groomer, estimated at \$250,000 for replacement, and the Electric Snowmobile, valued at \$25,000 and requiring a power source for charging, underscore the necessity of these upgrades. Vandalism and theft, along with an increase in off-season activity at the facilities, have prompted this action, particularly following unfortunate incidents of theft, fuel pilferage, equipment damage, and trail vandalism the club experienced last summer.

2. Organization Mandate:

The NNSC shall provide healthy, family-oriented, quality, community-responsive cross country ski facilities, trails and programs that can be enjoyed by skiers of all ages and levels regardless of their abilities. The Club shall be especially responsive to environmental considerations.

3. Community objectives the project will work towards are:

Nelson Nordic provides an affordable outdoor recreation service to Nelson and the surrounding communities. With it's 1200 members and 5,000 day pass visitors both local and from afar increasing tourism and economic growth in the area the club provides a valuable outdoor recreation opportunity with programs for 4 to 80+ year olds. The club also serves the under-represented population groups in the area. Last year we had 207 visits from a variety of groups to ski and snowshoe for free, including free rentals from Gericks and instruction from members at the club. With support from RDCK the club grooms to Cottonwood Lake along the railtrail, providing an active transport corridor for locals to ski to the club from Nelson. This trail also provides a dog friendly area, hugely popular. Keeping our grooming machines safe and in top shape is critical to providing these daily groomed trails for our users.

4. Project will address issues or opportunities pertaining to:

The issues of vandalism and security breaches pose significant safety risks and financial burdens at the club, particularly targeting our buildings and the fuel tank of our groomer. Implementing security measures such as security cameras and heavy-duty iron bar protection, will mitigate much of this vandalism, particularly at critical areas like our mechanical shop and new addition where our grooming machines and snowmobiles, collectively valued at \$525,000, are housed. To fully address these challenges, we require further enhancements to the addition: insulation, electrical wiring, and iron bars. These upgrades are crucial for ensuring the security and longevity of the machines. Additionally, the purchase of our new electric snowmobile, funded through grants, necessitates the provision of electrical outlets for charging within the new building. Ensuring a well-insulated and secure building with electrical capabilities is essential for maintaining these machines' performance, as snow-covered equipment requires heating to remove snow to prevent damage.

5. This organization is best to provide this project to the community because:

Project: Phase Two: Completion of the New Apex Groomer and Electric Snow Machine Building

Nelson Nordic is well-equipped to lead this project with our extensive experience in managing club facilities and addressing security concerns. Supported by dedicated volunteers, staff, and paid contractors we have the expertise and commitment to execute the project effectively. Having secured funding from grants and donations, including completing phase one, we clearly have the capability to finance and initiate necessary improvements promptly. We have a track record of coordinating complex projects within budget and on schedule, and with access to skilled professionals we will ensure efficient execution of phase two of this project. Additionally, we maintain a strong network of community partners and stakeholders who support our initiatives and are willing to lend assistance when needed. This collaborative approach enhances our capacity to deliver projects efficiently and effectively. Nelson Nordic's experience, funding success, and collaborative approach make us the ideal candidate to ensure the security and sustainability of our club facilities.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The general manager with approval from the Board of Directors will oversee the work to be done. A contractor will be installing the insulation and electrical as well as the iron clad bars for the main doors. DHC has done security work for the club in the past and will install the new security cameras for the new addition. We will require two cameras to cover the whole area (only one is quoted on the quote sheet from DHC). Home Hardware is contributing \$2000 and discount on materials for the project.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Home Hardware has agreed to provide discounts for materials required for the project such as to insulate and add electrical to the new addition.

The project is viable without the funding but may take much longer to complete and will go to a Phase Three approach.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Proposal Summary:

DHC is pleased to present a detailed project overview as related to the webcam at Apex. We have designed this system using industry best practices combined with our wealth of knowledge and years of experience related to such projects or products. This proposal covers the following:

Apex Webcam

Supply and install Axis webcam to replace the damaged one.

Total Package for the Apex Webcam is \$1480.75 + applicable taxes.

Overall Notes:

Quote Includes

- Certification testing all newly installed network cabling and fiber optics.
- Project management and coordination.

Warranty:

- Workmanship & installation 1 year.
- All Manufacturer's warranties.

ASSUMPTIONS/EXCLUSIONS:

- Applicable taxes additional.
- Permits, as/if required.
- Labour and materials outside of quote are billed additionally.

DHC Communications standard terms and conditions apply.

2.0 Additional Terms & Conditions:

- a)** DHC payment terms are Net 30 from month of invoice (e.g. May progress draw shall be paid no later than June 30). 2.5% per month interest retroactive to invoice date will apply to late progress payments.
- b)** Pricing is valid for 30 days, after which it is subject to change.
- c)** 50% due upon approval, balance to be progress invoiced.
- d)** Any changes to the scope of work must be authorized in writing prior to commencement.
- e)** All materials installed and/or on site shall remain the property of DHC until such time as such is fully paid.
- f)** Interest charges at 2.5% per month retroactive to DHC's substantial completion date shall apply if holdback payment is not received in full 60 days after DHC's substantial completion date.

Re: Support letter for Nelson Nordic Ski Club's ReDi Grant application

To Whom it May Concern:

Please accept this as our letter of support for the Nelson Nordic Ski Club's endeavour to apply for ReDi grant funding to complete Phase Two of their project to insulate, wire, and clad the interior of the new addition to their mechanical shop. We understand that the club has suffered from vandalism this past year and requires better security cameras and iron clad doors to prevent security breaches going forward. They just recently received funding for a new Electric Snow machine which is a step in the right direction for environmental sustainability at the club. This machine requires power to charge in this new addition.

Cross country skiing is an activity that our group has really enjoyed at the club over the last few years. The sport has increased in popularity and the trails are busy so ensuring that the grooming machines are safe and dry in this new addition is important for sustainability of club services to the community and groups like ours. Being outdoors in nature is very important for people's physical and mental well-being. Nelson Nordic provides a valuable service to the surrounding communities and we fully support their grant application to make the club buildings safer and complete.

We can be contacted if you have any questions regarding this support.

Lim Limpt (thank you),

RE: Nelson Nordic Ski Club Snowcat Garage

To Whom it May Concern:

This letter is to confirm that we give permission to Nelson Nordic Ski Club (NNSC) to build a new 20' x 40' snowcat garage on the Apex property that we own at:

PID: 011-707-721 Lot "A", District Lot 1241, Kootenay District Plan 17958

This is the location of the trailhead for the Club's trail system.

As two of the three owners of the aforementioned property, we also affirm that we and the third owner (Hendrik Dannys) have recently entered into a long-term lease agreement for the property that will see NNSC have control of the property for the express purpose of constructing, maintaining and using Nordic ski trails and related facilities on the property until at least August 31, 2045.

We are currently awaiting the signed copy of the lease agreement by courier from Mr. Dannys, who lives in rural Ontario, and it is scheduled to arrive on Tuesday, August 3, 2021.

Should you have any questions about the lease agreement with Nelson Nordic Ski Club or the permission we have granted the NNSC to build a new garage for its snowcats, please do not hesitate to contact us.

Kind regards,

Jerry Filippo

Anne Filippo

Project Title **Lakeside Park Bocce Courts**

Project will be located in: City of Nelson
Lakeside Park

Importance to the community:

Bocce is an integral part of the Italian community, being a very social activity that is accessible to all. The community at large will benefit from having the courts redeveloped; the courts belong to the City of Nelson, and not to the NICS as many think. The Nelson Special Olympics Bocce team will benefit greatly having two regulation courts to practice and play on. The Nelson Seniors Centre and Learning in Retirement group will be utilizing the courts as part of their program. The NICS will assist them with volunteer instructors to teach them how to play bocce.

Work Plan Dates: Project Start: 5/16/2024 Project End: 9/30/2024

| Total ReDi Funding Requested | Total from Other Sources | Total Project Cash Budget |
|------------------------------|--------------------------|---------------------------|
| \$32,500.00 | \$36,000.00 | \$36,000.00 |

1. The project will provide:

Redevelopment of bocce courts at Lakeside Park

The project will replace two of the three bocce courts that were removed to make room for the new basketball courts. This will provide community access to bocce courts for leisure activities. It will also give the Nelson Special Olympics bocce team regulation size bocce courts to practice and play on. Member of the Nelson Italian-Canadian Society will again be able to host their annual bocce tournament that brought in players from Italian societies in Cranbrook, Trail and Kelowna.

The project will be realized with the redevelopment of the courts, involving site preparation, providing electrical & water service to the site, construction of perimeters around the the courts, installation of lighting and benches around the outside of the court area and a 6' chain link fence.

The work will be completed by a combination of workers from the City of Nelson, contractors, NICS and Nelson Special Olympics Bocce Team volunteers.

2. Organization Mandate:

The Nelson Italian-Canadian Society promotes many initiatives, especially those related to the Nelson Italian-Canadian community. Other initiatives include the strengthening of relations with other ethnic groups, the cooperation and assistance in the management of community, social, cultural & educational projects.

3. Community objectives the project will work towards are:

Bocce is an integral part of the Italian community, being a very social activity that is accessible to all.

The community at large will benefit from having the courts redeveloped; the courts belong to the City of Nelson, and not to the NICS as many think. The Nelson Special Olympics Bocce team will benefit greatly having two regulation courts to practice and play on. The Nelson Seniors Centre and Learning in Retirement group will be utilizing the courts as part of their program. The NICS will assist them with volunteer instructors to teach them how to play bocce.

4. Project will address issues or opportunities pertaining to:

The issues for this project is that the courts have to be redeveloped from scratch. The three courts that the NICS built in 1987 were removed to make room for the basketball courts. The redevelopment project has been scaled back to two courts instead of the original three.

5. This organization is best to provide this project to the community because:

The NICS is best suited to deliver the project as our organization built and paid for the original bocce courts in 1987. The NICS collaborated with the Nelson Hoops Association and agreed to have the original courts relocated to make room for the basketball courts. This was done with the provision that the redevelopment costs would be covered by the Nelson Hoops Association and the City of Nelson. The NICS would provide the funding and volunteers to construct the perimeters around the two courts that are to be redeveloped.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Nelson Italian-Canadian Society, Nelson Special Olympics Bocce team and the City of Nelson and a contractor

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Project: Lakeside Park Bocce Courts

The NICS and Nelson Special Olympics Bocce Team organizers will be providing human resources to the project. These individuals will be doing a number of tasks associated with the construction of the new court perimeters and basic landscaping.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

NELSON SENIORS CENTRE

Paul Boscariol
President
Societa Italo-Canadense di Nelson

Dear Paul,

Nelson Seniors Centre Society supports your project to reconstruct bocce courts at Lakeside Park. Many seniors in our membership would gladly take part in this outdoor activity.

Our members recently asked our board to organize outdoor activities during warmer months. Bocce fits that request. Best of luck to your organization in this endeavor.

Kind Regards

Carol Howard, President

Nelson Seniors Centre Society

To Whom It May Concern,

I am writing this letter on behalf of Learning In Retirement, Nelson. We are a non-profit group helping seniors to find new interests, connect with other seniors and learn new skills all while having fun together. We are very pleased to support the Nelson Italian Canadian Society's efforts to redevelop the bocce courts at Lakeside Park.

We believe that having bocce courts at Lakeside would be a valuable asset to our LIR members as well as seniors as a whole in Nelson. Bocce is a low impact physical activity that has a significant social component to it. If the courts are able to be redeveloped, we are currently discussing NICS volunteering to put on bocce lessons as part of the LIR 2024 Fall Course selections for our interested members.

LIR is very much hoping that the NICS is given permission to redevelop the bocce courts, as it will benefit seniors in our community beyond measure.

Thank you for your consideration to the NICS request.

Vicki Valks

Planning Committee

Learning In Retirement, Nelson

Dear ReDi Grant Committee,

I am pleased to be writing on behalf of the Special Olympics branch here in Nelson BC. As the volunteer coordinator, program coordinator and the head coach for bocce at our local branch myself, our committee, volunteers, athletes and their families would like to express our full support for this grant application by the Nelson Italian-Canadian Society to redevelop the bocce courts at Lakeside Park. We feel this is imperative to developing our athletes and progressing their skills in the sport to be able to work towards competing in tournaments.

Special Olympics is dedicated to enriching the lives of people with intellectual disabilities in our communities through sport. This year local is celebrating our 40th year and we are expanding and growing strong. Our group has seen some challenges over the last few years. It was a struggle to maintain our athletes, volunteer and coach enrollment, and our sports programs through Covid. We saw our numbers reach all time lows and only 2 sports survived that period. Bocce and bowling kept going with enthusiasm. As we continue to build our other sports back up these two remain the favorite with sometimes up to 15 athletes and their family members, and several workers, coaches and volunteers attending these sports each week. We no longer have a bowling alley in Nelson and so, our athletes travel every Monday throughout the winter over to Castlegar to practice. Unfortunately, we also haven't had official bocce courts in Nelson for some time. We continue to play twice a week in the summer on portable courts, but in order to bring the athletes skills up to a competitive level we need access to official courts.

The special Olympics games are held in different locations with different kinds of courts and the athletes are expected to be able to play in these different settings. Currently our Nelson athletes have not had any practice on official bocce courts. They are at a disadvantage in this sport when it comes to bigger competitions such as regional, provincial or national games. This year is the qualifying games for the SOBC summer games including bocce. If the NICS is successful in their proposal to redevelop these bocce courts our athletes might have a chance at developing their skills on official courts enough to compete in the qualifiers and possibly advance to bigger competitions.

To our athletes, bocce is not just a sport. It's a way to stay fit, be outside, socialize, build friendships and be seen and included in the local sports community. It's our most accessible and low barrier sport, making it inclusive for all of our athletes. Through bocce we have watched our athletes grow their skills, promoting confidence and pride in themselves. They are very much looking forward to the start of this season and have been hoping to see the courts rebuilt so they can get practicing. Additionally, once these courts are rebuilt, our group would be able to expand and offer space for more adult athletes and a possibility to finally offer a youth bocce program for our athletes under 12 years of age who currently can not play because we do not have enough courts available. We would also have the ability to be a host community for tournaments with other SOBC locals from around the province.

The addition of these bocce courts at lakeside park would help us provide our athletes a higher level of training and give them more opportunities to advance in this sport that they love. We

would use the courts twice a week for a minimum of 12 weeks over the spring and summer or as long as the weather permits each year. We are very much looking forward to this project's completion!

Sincerely,
Sayla Harder
Volunteer Coordinator
Nelson Special Olympics

Project Title **Completion Sproule Creek Trail Upgrade**

Project will be located in: RDCK Area F

Sproule Creek - at Taghum near Nelson.

Trailhead is at the end of Sproule Creek Road.

Importance to the community:

The project will provide substantial opportunities for outdoor recreation and exercise in the forest. This pristine nature trail is in close proximity to many residential areas (Nelson and smaller nearby communities). An upgraded trail will help obviate the need to drive long distances to find wonderful forest trails to walk and enjoy. Most trails in the forests of Nelson and Area are steep and require significant fitness, experience, strength and endurance. Sproule Creek Trail is so safe and is easy enough that most people of average ability are able to walk it. This upgraded trail provides an additional location for tourists visiting the area.

Work Plan Dates: Project Start: 5/17/2024 Project End: 9/30/2024

| RDCK ReDi FUNDING REQUESTS | | | | |

|------------------------------|--------------------------|---------------------------|
| \$4,999.00 | \$4,999.00 | \$4,999.00 |

Project: Completion Sproule Creek Trail Upgrade**1. The project will provide:**

Sproule Creek Trail is a pristine trail along the Sproule Creek, it is close to Nelson, fairly long (8.4 km out and back) and without much elevation gain. This allows people who cannot do strenuous hiking the opportunity to hike in the outdoors. The condition of trail surfaces, boardwalks and bridges has severely deteriorated over many years to the extent that walking on some sections placed the walker at risk for injury. In 2023 financial and material support were obtained from the Kootenay Boundary Regional District Area F and Recreation Sites and Trails BC, Ministry of Environment and Climate Change Strategy (the agency which has jurisdiction over the trail). A professional trails consultant produced a detailed and comprehensive report on the trail conditions and provided detailed recommendations regarding remediation. A trails constructor professional over a period of some months in 2023 upgraded the trail. The trail surface needs some further work to complete the project. Signage markers needs to be installed. The aim, in summary, is to repair the condition of a beautiful trail (one of a kind for this area), in order to allow the residents of Nelson and Area, and the West Kootenays to go for a 2-3 hour walk along a creek in the forest.

2. Organization Mandate:

The Friends of Pulpit Rock Society is volunteer-driven / volunteer-run society and relies on community support and volunteers to take care of the trails. Types of projects include the development of new trails, maintenance of trails and the upgrading of damaged trails. The trails that we consider falling under our ambit are those close to the City of Nelson. The Society depends on donations and grants and it has no operating budget otherwise. We employ a trails contractor to do the majority of the work. Volunteers do some work.

3. Community objectives the project will work towards are:

The project will provide substantial opportunities for outdoor recreation and exercise in the forest. This pristine nature trail is in close proximity to many residential areas (Nelson and smaller nearby communities). An upgraded trail will help obviate the need to drive long distances to find wonderful forest trails to walk and enjoy. Most trails in the forests of Nelson and Area are steep and require significant fitness, experience, strength and endurance. Sproule Creek Trail is so safe and is easy enough that most people of average ability are able to walk it. This upgraded trail provides an additional location for tourists visiting the area.

4. Project will address issues or opportunities pertaining to:

Trail conditions will be optimized to allow relatively easy, safe and pleasant walking and hiking for many, including the young and the elderly, and for those who are not fit and strong enough to walk or hike most trails in the area. The trail deficiencies were identified by one of the directors of the Friends of Pulpit Rock Society and professionally described by the Trails Consultant and the Trails Contractor.

5. This organization is best to provide this project to the community because:

The Friends of Pulpit Rock Society is the sole organization which assumes trails management in the the Nelson area and the Sproule Creek trail in particular

1. The Pulpit Rock Trail: Friends of Pulpit Rock Society have delivered a major remediation project of this highly used trail. It was completed over the past few years. This trail has been maintained by the Friends of Pulpit Rock for a great number of years.

2. The Lyons Bluff trail was developed and completed over the past couple of years. This was a major project which connected the Pulpit Rock Trail to the Lyon's Bluff trail to establish a loop hike. Very successful project.

3. A recent trail diversion / bypass was required after a dangerous rockfall on the Pulpit Rock Trail. This work was done professionally within a few days.

4. The Sproule Creek upgrade - first phase. Very successful project.

6. Partners involved in this project have been consulted: True

Project: Completion Sproule Creek Trail Upgrade

7. Partners involved in implementing this project:

1. The Directors of the Friends of Pulpit Rock Society. All have extensive knowledge and experience regarding trail conditions and trails management.
2. Trails Consultant (not employed as yet): Moraine Recreation Consulting offers a broad range of services in the recreation field for everything from interpretive sign design and installation to campground and trail assessment and design.
3. The trail construction contractor (not employed as yet): He has extensive knowledge and experience regarding trail construction and remediation.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Administration and Supervision will be provided by Friends of Pulpit Rock Society volunteer directors. This has an estimated value of \$350.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Nelson Disc Golf Society**

Registration # S0070725

1613 WARD ST, NELSON BC V1L 1V7

Name of Organization being sponsored if applicable -

Project Title **Highwater Disc Golf Course Community Gathering Space**

Project will be located in: RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, City of Nelson, City of Castlegar, Village of Slocan

The course is located on Blewett Road, next to Bonnington Falls, on lands owned by Teck Metals and BC Hydro, with whom the Nelson Disc Golf Society (NDGS) have negotiated long-term licenses of occupation. It's located roughly 20 minutes from Nelson, Castlegar and Winlaw.

Importance to the community:

The proposed enhancements at Highwater will transform it into a more accessible and inclusive facility, purposefully designed for families and equipped to host community gatherings and world-class tournaments. Nearby businesses and the local economy will benefit from increased traffic, because recreation is the heart of liveable West Kootenay communities which attract talented people to our region and power economic development and cultural diversity.

Highwater Disc Golf Course, a free public recreational facility, is the most played disc golf course in the RDCK being 20 minutes away from Nelson, Castlegar, and Winlaw.

The inclusion of an 18 x 24-foot Picnic Shelter and a vault toilet in the enhancement of the course helps cater to a variety of needs beyond the primary activity of disc golf offering more accessibility to public space protected and cared for.

Work Plan Dates: Project Start: 6/14/2024 Project End: 5/14/2025

|------------------------------|--------------------------|---------------------------|
| \$50,000.00 | \$236,400.00 | \$236,400.00 |

1. The project will provide:

The primary goal of this project is to increase accessibility and usage of the Highwater Disc Golf Course. We propose the installation of an 18 x 24-foot picnic shelter and a vault toilet to promote inclusivity by providing families with the means to enjoy the public space for extended periods.

The project will improve accessibility for new players by introducing an easier alternate course layout. The addition of 18 new pads and 18 new baskets will immediately enhance the satisfaction of players seeking a quicker or simpler round of disc golf.

The project will include landscaping to improve accessibility for individuals with reduced mobility. This will be achieved by smoothing rough areas in the fairways. Additionally, we aim to increase the climate change resilience of the course by protecting and establishing trees for shade and beauty. Our plan includes planting native conifer trees to provide more shade on the course and selectively pruning existing shade trees to protect against wildfires.

The picnic shelter will enhance the public access experience at the disc golf course by providing a space for socialization, protection from the elements and a venue for community events.

2. Organization Mandate:

Encourage new people try disc golf, and strive to develop a disc golf community that is open to all people.

3. Community objectives the project will work towards are:

The proposed enhancements at Highwater will transform it into a more accessible and inclusive facility, purposefully designed for families and equipped to host community gatherings and world-class tournaments. Nearby businesses and the local economy will benefit from increased traffic, because recreation is the heart of liveable West Kootenay communities which attract talented people to our region and power economic development and cultural diversity.

Highwater Disc Golf Course, a free public recreational facility, is the most played disc golf course in the RDCK being 20 minutes away from Nelson, Castlegar, and Winlaw.

The inclusion of an 18 x 24-foot Picnic Shelter and a vault toilet in the enhancement of the course helps cater to a variety of needs beyond the primary activity of disc golf offering more accessibility to public space protected and cared for.

4. Project will address issues or opportunities pertaining to:

By enhancing the Highwater Disc Golf Course, we create an environment that embraces players of varying expertise. Novices can feel comfortable learning the game, while seasoned players can continue to hone their skills, thus fostering a sense of inclusivity and encouraging more people to participate.

The addition of a picnic shelter and a vault toilet transforms the course into a versatile venue and will provide accessibility for individuals of all ages and abilities. Local events, such as birthday parties, staff gatherings, and

Project: Highwater Disc Golf Course Community Gathering Space

fundraisers, can now be hosted amidst the natural beauty of the course creating lasting memories in this communal space.

The Highwater Disc Golf Course aims to become one of Canada's premier disc golf destinations. Its scenic location, thoughtful amenities, and commitment to inclusivity position it as a standout course, drawing enthusiasts from across the country and benefiting the tourism industry with the potential to host internationally recognized tournaments.

5. This organization is best to provide this project to the community because:

Building on the momentum from our 2020 installation of the 9-hole family course in Nelson and the 2021 installation of Highwater, the first complete 18-hole course in this region, our network of directors, volunteers, contractors, and sponsors is enthusiastically moving forward to complete the enhancement. NDGS has earned recognition for its successful collaboration with Teck Metals and BC Hydro, ensuring the use and stewardship of this excellent site for disc golf in the heart of the Nelson-Castlegar corridor.

Remarkably, no other non-profit organization is currently working to develop free disc golf courses in this region. NDGS is actively working to engage local governments in the development of regional disc golf courses, and at present, it stands as the primary driving force behind this commendable effort. In 2021, NDGS secured a CBT grant under the community development program, achieving success in both the execution and reporting phases of the project.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The Nelson Disc Golf Society has established a Highwater Enhancement Committee, comprising NDGS directors, members, and volunteers. This committee will oversee and execute all aspects of the project, providing regular monthly reports to the Board of Directors. The Committee comprises a diverse and talented group with backgrounds spanning environmental consulting, communications, real estate and education.

Our directors have worked on past community recreation projects including the Lillooet disc golf course, the Art Gibbon disc golf course, and establishing the Highwater disc golf course in 2021. The NDGS maintains good standing and financial accountability as a registered society in BC.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:**

Donated professional project management fees 200 hours x \$55/hour = \$11 000

Donated construction labor fees 32 hours x \$50/hour = \$1600

Donated landscaping labor fees 200 hours x \$30/hour = \$6000

Donated professional arborist fees \$1200/day x 2 days = \$2400

Donated meeting rental space 14 months x \$120/month = \$1680

Total estimated in-kind value= \$22 680

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

**Mount Sentinel
Secondary School**

PO Box 99, 1014 Playmor Road, South Slokan BC V0G 2G0
Tel 250.359.7219 mtsentinel.sd8.bc.ca

To Whom It May Concern,

I am writing to extend my enthusiastic endorsement for the proposed enhancements to the Highwater Disc Golf Course as put forth by the Nelson Disc Golf Society. In my capacity as an educator, I have had the privilege of witnessing firsthand the profound positive effects that disc golf has had on the physical and socio-emotional development of my students. Beyond its obvious benefits for physical fitness, disc golf serves as an invaluable platform for nurturing teamwork, strategic thinking, and a deep appreciation for outdoor recreation. I firmly believe that sustained investment in disc golf initiatives will not only enrich the educational landscape but also contribute significantly to the holistic well-being of our youth.

Your support for the Nelson Disc Golf Society's endeavors is pivotal in realizing the vision of a more accessible and inclusive disc golf experience for our community. By supporting this cause, we are collectively investing in the creation of a free, public disc golf facility that will serve as a cornerstone for fostering healthy lifestyles and community engagement among local youth and their families.

Thank you for your consideration of this important matter.

Yours Sincerely,

Jake Hildebrand
Teacher, Physical and Outdoor Education
Mt. Sentinel Secondary School

February 12, 2024

To Whom it May Concern,

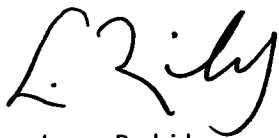

I am writing this letter in support of the Nelson Disc Golf Society's proposal for the expansion of the Highwater Disc Golf Course and area.

The creation of the Highwater pro Disc Golf Course has been a wonderful addition to our community. It has brought many adults together for recreation, personal development, and wellness. It has been well maintained and is a beautiful addition to a popular multi-use area. The only thing Highwater is lacking is a youth/beginner friendly layout, and some amenities that would make Highwater equally accessible to all ages.

Being an elementary school teacher has given me the opportunity to introduce the growing sport of disc golf to my students. Our parent group has generously purchased a class set of discs and a practice basket for my class. Disc golf is becoming very popular in our school. With the plans put forward by the Nelson Disc Golf Society to upgrade the course at Highwater, I foresee Highwater becoming a fantastic outdoor education destination for school groups. The location is perfect for this.

I urge you to please consider supporting the proposal presented to upgrade the facilities at the Highwater Disc Golf Course. I believe that the Nelson Disc Golf Society has a clear vision to make this area welcoming and accessible to people of all ages. It will bring youth and families together from the surrounding communities, and provide opportunity for healthy recreation, goal setting, and outdoor education opportunities for youth in our communities.

Sincerely,

A handwritten signature in black ink, appearing to read 'L. Radridge', written in a cursive style.

Laura Radridge

Classroom Teacher, Brent Kennedy Elementary School
Box 40 - 1092 Highway 6 Crescent Valley, BC

To Whom It May Concern,

I am writing to express my heartfelt support for the enhancements to the Highwater Disc Golf Course Proposed by the Nelson Disc Golf Society. As a teacher working at Rosemont Elementary, I've been lucky enough to have access to the course at Art Gibbons, and have seen the positive ways that my students have responded to disc golfing. First, it's accessible. If you can go through a walk in the forest, you can disc golf. Second, it gives them a safe environment to be active, to be challenged, and to be independent. I believe that continued support for disc golf initiatives will help broaden our physical education curriculum and bring this sport to students who would otherwise not experience it. Your support for the Nelson Disc Golf Society will help build a free public disc golf course that will benefit local children and their families

Yours Truly,

Eli Geddis
Grade 5/6 Teacher
Rosemont Elementary School

Project Title **KRD Dock Facility Build Project**

Project will be located in: RDCK Area E, RDCK Area F, City of Nelson

As mentioned above, this dock will be part of the Hall Street waterfront rebuild as described in the "Sustainable Waterfront and Downtown Master Plan"

Importance to the community:

Dragon boat paddling is the fastest growing sport in the world and is environmentally conscious, supporting community recreation, and an outlet for wellness and connection. We began as cancer survivors and continue to hold the door open for friends and supporters of all cancers and for anyone that may benefit from comradery and exercise on our beautiful lake.

Work Plan Dates: Project Start: 5/20/2024 Project End: 7/20/2024

| RDCK ReDi FUNDING REQUESTS | | | | |
|----------------------------|---------------------|--|--|-----------------------|

|------------------------------|--------------------------|---------------------------|
| \$7,500.00 | \$30,000.00 | \$30,000.00 |

1. The project will provide:

The dock will replace the existing Float Plane wharf and is being completed in consultation with the City of Nelson Director of Operations. KRD has a draft copy of a Memorandum of Understanding for this project. KRD will use one side of the dock for its dragon boat moorage and will leave the other side for float plane access. The dock will provide a permanent home for KRD and provide good accessibility for our primarily senior membership.

2. Organization Mandate:

To raise awareness of all cancers and promote the sport of Dragon Boating for the enrichment of self, KRD and the community.

3. Community objectives the project will work towards are:

Dragon boat paddling is the fastest growing sport in the world and is environmentally conscious, supporting community recreation, and an outlet for wellness and connection. We began as cancer survivors and continue to hold the door open for friends and supporters of all cancers and for anyone that may benefit from comradery and exercise on our beautiful lake.

4. Project will address issues or opportunities pertaining to:

Since KRD's inception in 2004 the dragon boat has been moored during the summer months at a variety of locations - both private and public. In the past, when given notice that we have to move, it becomes a scramble to find a spot for a 48' boat. Though extremely grateful for the generosity of past moorages, having a permanent location will benefit the clubs established 20 year presence in the Nelson and District community.

5. This organization is best to provide this project to the community because:

KRD has 20 years of using a variety of dock facilities that ensure the safety and accessibility for the paddlers. There are a number of long-term members in the club who are still active and supportive of this particular project.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

KRD executive have varying rolls in the project.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Volunteer time and effort of directors and members.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

MEMORANDUM of UNDERSTANDING

KOOTENAY RHYTHM DRAGONS
AND
THE CORPORATION OF THE CITY OF NELSON

This MEMORANDUM OF UNDERSTANDING is made and entered into by and between Kootenay Rhythm Dragons, of Nelson, BC, (hereinafter referred to as the “**KRD**”) and the Corporation of the City of Nelson, Suite 101, 310 Ward Street, Nelson, BC, V1L 5S4, (hereinafter referred to as the “**City**”), and collectively known as the Parties, for the purpose of establishing and achieving a mutual understanding relating to the arrangement between the Parties regarding the dock replacement that will tie into the City’s Hall Street Pier (hereinafter referred to as the “**Pier**”).

WHEREAS, the City issued KRD a Licence to Occupy in the past to utilize the City owned pier to moor KRD’s dragon boat and since the development of the Pier, KRD have not been able to moor the dragon boat there;

AND WHEREAS, the City has agreed to accommodate KRD request to install a new dock (the “**Dock**”) that will be anchored to the Pier;

NOW THEREFORE, the Parties enter into this Memorandum of Understanding to formalize their mutual understanding setting out the scope of each Party’s obligations and other preliminary terms and conditions related to the Dock.

1. PURPOSE AND OBJECTIVE

The purpose of this MoU is to outline the terms and conditions between KRD and the City concerning the foreshore, City Pier, and the anchoring of the DOCK.

2. RESPONSIBILTY AND OBLIGATIONS OF THE PARTIES

THE KRD WILL:

- a. Obtain any permits, licenses and/or leases as required;
- b. Contact FrontCounterBC to verify that all requirements and permits have been met before constructing the Dock;
- c. Utilize the services of a professional dock designer for the Dock design;
- d. Utilize the services of a professional dock builder for the construction of the Dock;
- e. Ensure that the design has been undergone a favorable Environmental Impact Assessment prior to construction;
- f. Pay for the full construction/installation of the Dock that will replace the existing float plane dock;
- g. Maintain ownership of the Dock;
- h. Permit continued use for float planes by leaving the north side of the Dock available for use of float planes; there will not be any fees associated for float planes utilizing the Dock;

- i. Provide signage as necessary to indicate use of the Dock by the KRD;
- j. Maintain risk and liability insurance as required; and
- k. Provide the City with KRD Safety Plan for any water rescue, slip and fall or other emergency activity surrounding Dock use.

THE CITY WILL:

- l. Permit KRD to use the existing locked gate and ramp;
- m. Dispose of the existing float plane dock;
- n. Permit KRD to use the existing anchors and pilings of the existing dock for the Dock;
- o. The City will not charge KRD for the use of the ramp and moorings;
- p. Grant KRD a Licence of Occupation once the Dock is built; and
- q. Provide signage that will designate the north side of the dock as "Float Plane Parking Only".

3. TIMEFRAME AND IMPLEMENTATION

KRD season commences in early May, with the anticipation of installing the Dock on or around May 1st, 2024.

4. MAINTENANCE

- a. General Maintenance: KRD shall, at their own expense, maintain the Dock in good repair and condition, including but not limited to the floating dock framing, all associated hardware, cross bracing, floats, dock bumpers, corner bumpers, bull rails and deck boards.
- b. Specific Responsibilities: Maintenance responsibilities include, without limitation, all necessary repairs, replacements, and routine upkeep.
- c. Compliance with Laws: All maintenance and repairs shall be carried out in compliance with applicable laws and regulations.
- d. Inspections: the City shall inspect the Dock periodically to ensure compliance with the general maintenance obligations in Section 14.

5. ACCESSIBILITY AND PUBLIC USE

KRD, float planes, and float plane pilots will have access and use of the Dock. The Dock is to otherwise remain secured and is not intended for general public use.

6. GENERAL PROVISIONS

- a. The Parties acknowledge and understand that they must be able to fulfill their responsibilities under this Memorandum of Understanding in accordance with the provisions of the law and regulations that govern their activities. Nothing in this Memorandum of Understanding is intended to negate or otherwise render ineffective any such provisions or operating procedures. The Parties assume full responsibility for their performance under the terms of this Memorandum.

- b. If, at any time, either party is unable to perform their duties or responsibilities under this Memorandum of Understanding consistent with such party's statutory or regulatory mandates, the affected party shall immediately provide written notice to the other party to establish a date for resolution of the matter.

7. LIMITATION OF LIABILITY

No rights or limitation of rights shall arise or be assumed between the Parties as a result of this Memorandum of Understanding.

8. ARBITRATION/MEDIATION DISPUTE RESOLUTION

- a. **Negotiation:** In the event of any dispute, controversy, or claim arising out of or relating to this agreement, or the breach, termination, or invalidity thereof (the "Dispute"), the Parties shall first attempt to resolve the Dispute through good faith negotiations. One Party shall notify the other Party in writing of the Dispute, and the Parties shall have 30 days from the receipt of the Dispute notice to attempt to resolve it amicably.
- b. **Mediation:** If the Dispute cannot be resolved through negotiation within the 30-day period, the Parties agree to submit the Dispute to mediation before resorting to arbitration or litigation. The mediation shall be conducted in accordance with the Mediate BC guidelines or another mediation institution mutually agreed upon by the Parties. The mediator shall be jointly selected by the Parties. If the Parties cannot agree on a mediator within 14 days of deciding to mediate, a mediator shall be appointed by the Mediate BC or the agreed-upon institution. The mediation shall take place in British Columbia, and the language of the mediation shall be English. Each Party shall bear its own costs related to the mediation, and the Parties shall share equally the fees and expenses of the mediator.
- c. **Arbitration:** If the Dispute is not resolved through mediation within 60 days of the commencement of mediation, or such other period as the Parties may agree in writing, the Dispute shall be finally settled by binding arbitration. The arbitration shall be conducted in British Columbia in accordance with the Commercial Arbitration Act (British Columbia) and the rules of the British Columbia International Commercial Arbitration Centre, unless the Parties agree otherwise. The arbitration shall be conducted by one arbitrator mutually agreed upon by the Parties, or, failing such agreement, one arbitrator appointed in accordance with the rules of the chosen arbitration institution. The language of the arbitration shall be English. The decision of the arbitrator shall be final and binding upon the Parties, and the cost of the arbitration, including the arbitrator's fees, shall be shared equally by the Parties, unless the arbitrator decides otherwise.
- d. **Continuation of Obligations:** Notwithstanding the existence of a Dispute, the Parties shall continue to fulfill their respective ongoing obligations under this agreement.
- e. **Confidentiality:** All negotiations, mediations, and arbitration proceedings pursuant to this clause shall be confidential, and the Parties shall maintain the confidentiality of all information, documentation, and proceedings related to the

Dispute, except as required by law or as necessary to enforce any arbitration decision or award.

9. NOTICE

Any notice or communication required or permitted under this Memorandum of Understanding shall be sufficiently given if delivered in person, or by certified mail, to the address set forth in the opening paragraph.

10. GOVERNING LAW

This Memorandum of Understanding shall be governed by and construed in accordance with the laws of British Columbia.

11. ASSIGNMENT

Neither party to this Memorandum of Understanding may assign or transfer the responsibilities or agreement made herein without prior written consent of the non-assigning party, which approval shall not be unreasonably withheld or delayed.

12. FORCE MAJEURE

any event or circumstance beyond the reasonable control of either party, which makes it impossible or impracticable for the party to perform its obligations under this MOU. Such events may include, but are not limited to, acts of nature, war, terrorism, strikes, labor disputes, civil disturbances, government actions, and other unforeseen events (Force Majeure Event). Each party shall promptly notify the other party in writing, providing detailed information about the nature of the event, its anticipated duration, and any measures being taken to mitigate its effects.

13. ENTIRE UNDERSTANDING

The herein contained Memorandum of Understanding constitutes the entire understanding of the Parties pertaining to all matters contemplated hereunder at this time. The Parties signing this Memorandum of Understanding desire or intend that any implementing contract, license, or other agreement entered into by the Parties subsequent hereto shall supersede, and preempt any conflicting provision of this Memorandum of Understanding whether written or oral.

14. MEMORANDUM OF UNDERSTANDING SUMMARIZATION

Furthermore, the parties to this Memorandum of Understanding have mutually acknowledged and agreed to the following:

- The Parties to the Memorandum of Understanding shall work together in a cooperative and coordinated effort, and in such a manner and fashion to bring about the achievement and fulfillment of the goals and objectives of this Memorandum of Understanding.
- It is not the intent of this Memorandum of Understanding to restrict the Parties to this Agreement from their involvement or participation with any other public or private individuals, agencies or organizations.

- It is not the intent or the purpose of this Memorandum of Understanding to create any rights, benefits, and/or trust responsibilities by or between the Parties.
- The Parties to this Memorandum of Understanding have the right to individually or jointly terminate their participation in this Agreement provided that advance written notice is delivered to the other party.
- Upon the signing of this Memorandum of Understanding by both Parties, this Agreement shall be in full force and effect.

15. AUTHORIZATION AND EXECUTION

The signing of this Memorandum of Understanding does not constitute a formal undertaking, and as such it simply intends that the signatories shall endeavor in good faith, to the best of their abilities, the goals and objectives of this Memorandum of Understanding.

This Agreement shall be signed by the City of Nelson and Kootenay Rhythm Dragons and shall be effective as of the date first written below.

Kootenay Rhythm Dragons, **by its authorized signatory:**

Project Title **Pollination Pathway Workshop Series**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area H, RDCK Area J, City of Castlegar
The Pollination Pathway Workshop Series will take place at numerous sites within the RDCK and RDKB. Locations were determined based on documented flora and fauna at each site.

The locations in the RDCK are:
Syringa Provincial Park (Area J)
The Whole School in Winlaw (Area H)
Marsden Face West of Nelson (Area F)
Millennium Park (City of Castlegar)
Balfour or Kokanee Creek Provincial Park (Area E)

The locations in the RDKB are:
Record Ridge (Rosland, Area B)
Pend d'Oreille river (Area A)
Trail

KNPS will inspire conversations across the Kootenays by posting online through social media and the KNPS website.

Importance to the community:

KNPS receives regular messages from community members who want to get involved in native plant gardening or volunteering. Our programming already supports homeowners and land managers in establishing and maintaining native plant habitat across the West Kootenay region from Rosland to Johnson's Landing. We estimate at least 371 people connected with our programs in 2023 by attending one of our many workshops, public presentations, outreach booths, interpretive activities, and volunteer field days. On Facebook in 2023, we reached 37,539 accounts, 3,146 people visited our page, and our followers grew by 159 to more than 1,700. There is an astounding level of interest in plant-pollinator conservation from members of our community and we expect to continue to see high participation numbers at each of our events in 2024/25. Residents will be trained to contribute to native plant/pollinator conservation locally, which will benefit the entire food web of the West Kootenay.

Work Plan Dates: Project Start: 5/17/2024 Project End: 6/30/2025

1. The project will provide:

The Pollination Pathway Workshop Series includes nine immersive workshops and events that offer a deep dive into the world of local plants and pollinators. Workshops include lab and field-based training in species identification, monitoring, restoration, seed propagation, and native gardening and will be held at various locations across the West Kootenays. The goal of the project is to engage residents in hands-on, land-based learning so they may contribute to establishing a Pollination Pathway across the West Kootenay. A Pollination Pathway is a corridor of connected plant-pollinator communities that supports healthy pollination networks, species migration, and adaptation to climate change. Workshops will be led and hosted by experts with KNPS, the West Kootenay Botanical Society, the Native Bee Society of BC and KinSeed Ecologies.

Participants will receive:

- Educational resources, pamphlets, manuals
- Connections to specialists and knowledge keepers
- Greater knowledge of local ecosystem functions and values
- Skills in local plant and pollinator identification
- Skills in ecological restoration and native plant gardening

The project aligns with our mission of fostering a deeper understanding and appreciation of native plants and helps to ensure their preservation for future generations. For example, the monarch butterfly was listed as endangered in December 2023, and this project helps to increase milkweed populations and connectivity between plant communities. Monarchs were detected at a KNPS research site in 2022.

2. Organization Mandate:

The mission of the Kootenay Native Plant Society (KNPS) is to celebrate and promote the appreciation and conservation of BC native flora and their habitats through study, education, and advocacy. We seek to foster an understanding and appreciation of our native plants and to preserve their diversity for future generations. The society is entering year four of a five year project called the Pollination Pathway Climate Adaptation Initiative (PPCAI). The PPCAI enhances plant pollinator networks and connectivity in the BC West Kootenay region. The PPCAI combines community science, research, ecological restoration, meadow-making, outreach and education. This collaborative approach ensures plant and pollinator species native to the West Kootenay region of BC meet adaptation and migration requirements in response to climate driven ecological changes.

Project: Pollination Pathway Workshop Series

Operating budget, 2023/24: \$267,000

3. Community objectives the project will work towards are:

KNPS receives regular messages from community members who want to get involved in native plant gardening or volunteering. Our programming already supports homeowners and land managers in establishing and maintaining native plant habitat across the West Kootenay region from Rossland to Johnson's Landing. We estimate at least 371 people connected with our programs in 2023 by attending one of our many workshops, public presentations, outreach booths, interpretive activities, and volunteer field days. On Facebook in 2023, we reached 37,539 accounts, 3,146 people visited our page, and our followers grew by 159 to more than 1,700. There is an astounding level of interest in plant-pollinator conservation from members of our community and we expect to continue to see high participation numbers at each of our events in 2024/25. Residents will be trained to contribute to native plant/pollinator conservation locally, which will benefit the entire food web of the West Kootenay.

4. Project will address issues or opportunities pertaining to:

This project addresses two issues and opportunities for native plants and pollinators: climate change adaptation and habitat connectivity.

Native plants are limited in their ability to adapt to climate change and migrate to areas of higher habitat suitability, and a lack of connectivity between plant communities due to landscape fragmentation further limits migration and genetic mixing for both plants and their pollinators. This means local ecosystems are at extreme risk for biodiversity loss as species that are slow or unable to adapt succumb to environmental changes. Herein lies an opportunity for assisted migration and increasing habitat connectivity. Residents of the West Kootenay have a key role to play in this initiative through native plant gardening, volunteering, and advocacy. This project will equip residents with knowledge and skills to identify plant and pollinator species, build and maintain native plant gardens to increase connectivity, and contribute to citizen science monitoring and research.

5. This organization is best to provide this project to the community because:

KNPS has been leading native plant research, restoration, education, and advocacy in the West Kootenays for more than twelve years, connecting with thousands of people in this time. KNPS has worked on public and private lands to protect and enhance approximately 40 ha of native plant and pollinator habitat, with plans now in development for up to 700 ha. PPCAI is a broad and expanding partnership with support from 22 organizations including all levels of government, non-profit organizations, businesses, schools, and First Nations. In 2023, more than 4,000 plants and 250,000 seeds of 38 species were distributed at 13 sites. We have an extremely strong team of staff and contractors including specialists in ethnobotany, restoration ecology, entomology, and geographic information systems and an active team of board members and volunteers. There is no organization better suited to deliver this project than KNPS in this region.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The project will be managed and facilitated by KNPS with staff support from our Co-Founder and Program Manager Valerie Huff, Administrative Manager Nicole McCallum, our Restoration Assistant, and our incoming Outreach Assistant. The KNPS Board Outreach Committee will also support program logistics, planning, and facilitation. Subject matter experts including Bonnie Zand with the BC Native Bee Society, Iraleigh Anderson with Anderson Consulting, Dr. Bren Beckwith with Kinseed Ecologies, renowned entomologist Janice Arndt, and Dr. Jamie Fenneman will be contracted to deliver the workshops.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes**

11. In-kind sources and contributions:

Curriculum Development: \$2,400
Equipment Cost: \$1,200
Manuals: \$500 (if students want to purchase, then \$25 each.)
Board of Directors support: \$1,500
Volunteer labour: \$2,500

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

The Lepidoptera Family contains some of the most beautiful and memorable insects in our local ecosystems. Diverse in their life strategies and appearances, these showy fliers range from fluttering little skippers to night flying moths to large iconic swallowtails.

This pamphlet showcases 12 butterflies that are listed as rare by the Province of British Columbia or are considered to be vulnerable to climate change in the West Kootenay region of the BC Interior.

Butterflies can be imperilled by changes in habitat and climate because they undergo multiple morphological changes from egg to larva (the 'caterpillar') to a flying adult. More specifically, butterflies can be vulnerable if they are small or have limiting life strategies (e.g., one brood per year or special host plant use). Furthermore, habitat loss and climate change can affect the quality of host plants and the flight times of, and the availability of nectar plants for, adult butterflies. Many butterflies can adapt, but some may not.

You can help!

-  Learn more about butterflies and the native plants they require throughout their lives.
-  Advocate for the protection and conservation of natural areas and volunteer for local ecological restoration projects.
-  Consider planting host and nectar plants in your home or community gardens.

Monarch larva on showy milkweed.

● **KNPS 2022 YEAR IN REVIEW** ●

2 million seeds of 30 native plant target species collected,

12 project partners in conservation activities on 13 sites across Lower Columbia Region

400 camas bulbs and 60,000 camas seeds planted at 5 enhancement sites.

JOIN US ON THE POLLINATION PATHWAY!

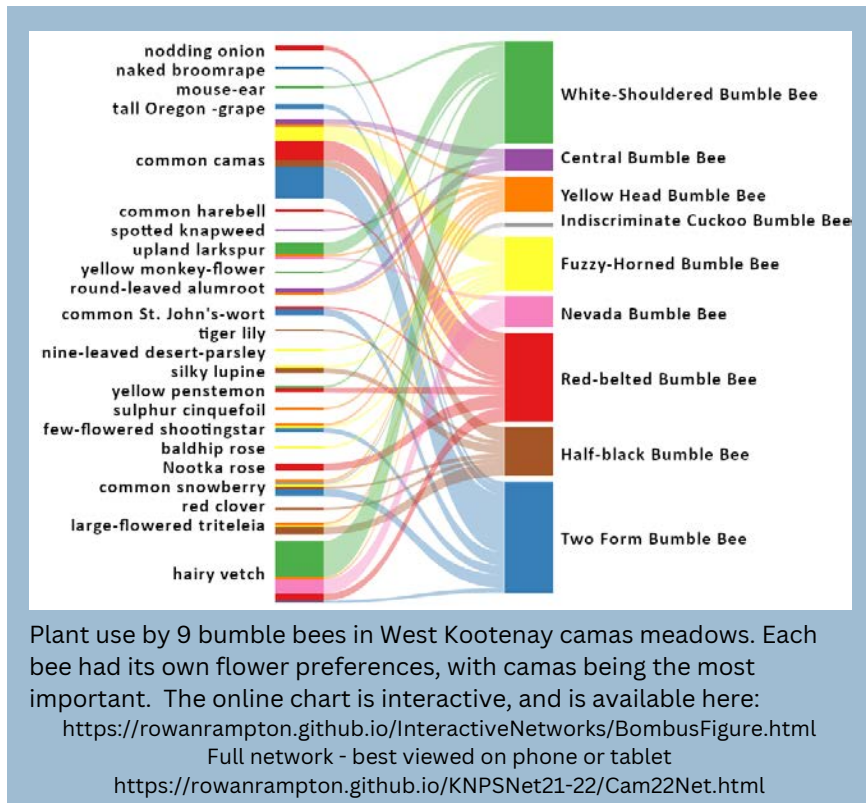

In 2021, KNPS launched an ambitious plan to build, connect and broaden habitat for native plants and pollinators. Our goal is to support these important species in our region through the impacts of climate change.

Throughout the Lower Columbia Region, the staff, volunteers and valued partners who make up the Pollination Pathway Climate Adaptation Initiative have been learning about and working to restore 13 native plant enhancement sites. And we are excited to share that over the past year we have been able to measure our positive impact!

In this year-in-review, we tell you about some of our achievements and offer a few snapshots of the exciting work underway. ●

NEW FINDINGS IN BEE BUSINESS

Our 'Floral Relations of Native Bees in Camas Meadows' project has been opening some new vistas in bee research. Graduate student Rowan Rampton documented 99 species of flowering plants and over 200 species of bees that visit Lower Columbia camas meadows. His observations revealed that over one-third of the known bee species in British Columbia can be found in these meadows. Even more exciting, through Rowan's diligent work and the assistance of bee taxonomist Lincoln Best, this project has uncovered bee

species unknown to science, as well as species new to British Columbia and to Canada!

The interactive pollination networks he has created (one pictured here) provide a fascinating view into bee - flower bonds and shows us how, among a diverse meadow full of plants, bees inevitably play favourites, yet everyone wins.

Link to full interactive pollination network:

Also as part of this project, KNPS hosted an important eco-cultural event with First Nations, western trained scientists, and project representatives in Millennium Park, Castlegar, in May 2022. This event was called; 'ʔitxwáʔ (Camas) and təptəpqin (Bee): Exploring Ecological Methods and Value Systems Among Western-trained Ecologists and Indigenous Knowledge Keepers'. Participants included members of the Colville Confederated Tribes, Sinixt Confederacy, Okanagan Nation Alliance, Secwépemc Nation, and Ktunaxa Nation.

The outcome of this event was a rich and respectful conversation about approaches to bee and camas research and how best to recognize and honour Indigenous ways of knowing in this work. Our time together provided us a rare and special moment to bond over our shared connection to the land.

PROTECTING THE FUTURE OF CAMAS

Seed collecting and planting days are the foundation of KNPS conservation and ecological restoration work. Every year, college and university students join our team in summer months and make important contributions to these efforts on the ground and, often, through innovative research projects. Their work enhances the effectiveness of KNPS restoration efforts and offers valuable data and observations to numerous other stakeholders across BC and Canada in support of ecosystem protection.

One such remarkable student-lead project is the mapping work of Selkirk College student Tannah Ernst as part of her GIS Program Thesis. She is creating a map, known as a species distribution model, for camas (*Camassia quamash*) in the Pacific Northwest Interior (Columbia Plateau), including the camas occurring in the Lower Columbia. Camas is an ecologically and culturally significant flower that KNPS has been working to protect since 2012.

Tannah's map illustrates existing sites of camas as well as projected distribution of future sites, taking into account how our climate is expected to change in the next two decades. Although she is still completing this work, Tannah has already been able to identify a predicted reduction of camas habitat in the Lower Columbia under a 2020-2040 mid-risk climate scenario.

In other words, much of the camas growing along the Columbia River and parts of the lower Kootenay River could be lost in the coming decades. This research contribution by Tannah is key to understanding and planning for the survival of this plant under the impacts of climate change still to come. ●

Another highlight of KNPS Camas work was the renewed relationship with teachers and students with Brent Kennedy and Mt. Sentinel schools, located near the Crescent Valley Camas meadow.

With support from the Ministry of Transportation and 20 volunteers, the site was cleared of encroaching shrubs and opened up for camas and other meadow plants in August 2022.

The site is now poised to become a special outdoor gathering place for local students as they learn about camas and become entrusted stewards of this meadow.

BRINGING BACK THE BUTTERFLIES

Through our 'Building Climate Resilient Butterfly Habitat' project KNPS is working in Beaver Creek and Syringa provincial parks to document butterfly species and create native plant communities that attract and support butterflies.

Last year in these parks, we identified 48 butterfly species, including the blue-listed (marked of special concern) Silver-spotted Skipper and the at risk (red-listed) Edith's Copper. In the fall, restoration sites were established in each provincial park and both native plant seeds and seedlings, custom chosen based on our research findings, were planted into these sites.

An exciting part of this project is the Butterfly Habitat Interpretive Garden (BHIG) located near the day use area at Syringa Park. With the support of BC Parks, this public space now has hundreds of native plants that are important host plants for caterpillars and nectar plants for adult butterflies, especially those that are considered to be at risk and climate vulnerable. Enhancement of this interpretive site is ongoing and in early 2023 we added a universally accessible pathway and a bench; interpretive signage will be coming soon, as well. It is an exciting and rewarding part of the Pollination Pathway program that will continue to reach hundreds of park visitors annually. ●

MILKWEED FOR MONARCHS

Monarch Butterflies are a beloved butterfly famed for its long migration and close association with milkweed species. They were also recently recognized as an endangered species under the International Union for the Conservation of Nature.

While surveying the populations of showy milkweed - the Monarch's preferred food source - in the Pend d'Oreille Valley last summer, our student intern, Tiffany Muncaster, discovered the return of this beloved butterfly to the Lower Columbia. **This was the first time the butterfly has been seen in our region for five years, when KNPS Program Manager Valerie Huff last found caterpillars during her annual Monarch survey.** Tiffany went on to document a total of 29 Monarch caterpillars in the Pend d'Oreille and another 18 caterpillars at another showy milkweed site, Montrose Hill.

In addition, Valerie documented leaf damage from hungry young caterpillars near the Waneta dam, south of Trail. This last record is notable because all the showy milkweed occurring at this site were planted by KNPS over the last six years. Now, it appears this site is supporting an internationally endangered butterfly.

We are proud to see our efforts are making a measurable difference to supporting Monarchs right here in the Kootenays! ●

Native Plants for the Pollination Pathway

The bees and butterflies have told us which plants they need!

The KNPS research team has spent three years documenting the native plants that are most important to native bees and butterflies in low elevation West Kootenay ecosystems. These discoveries are shared in this *first-of-its-kind* list. Choosing these priority flowering herbs and shrubs will help pollinators flourish in your garden and connect your garden with wild populations. Together, we can build a more biodiverse and resilient pathway of native plants and pollinators across our landscape.

| NATIVE PLANTS | | POLLINATOR BENEFITS | |
|---|---|--|--|
| HERBS | yarrow (<i>Achillea millefolium</i>) | ★ |  |
| | nodding onion (<i>Allium cernuum</i>) | ★ | |
| | spreading dogbane (<i>Apocynum androsaemifolium</i>) | ★ |  |
| | showy milkweed (<i>Asclepias speciosa</i>) | ★ |  |
| | common camas (<i>Camassia quamash</i>) | ★ | |

| Nootka rose (<i>Rosa nutkana</i>) | ★ |  | |

Pollinator "Magnets"

These plants have been identified in our field work as attracting a wide variety and number of bees, butterflies, and other pollinators. Essential for supporting the broadest diversity of pollinators and other native plants.

Plants for Specialist Bees

Many bees specialize on the pollen from a single type of plant. These "specialist bees" are particularly vulnerable to extinction with the loss of their plant partner. Including plants for specialist bees in gardens and natural areas can also support a variety of other pollinators.

Butterfly Host Plants

Caterpillars of butterflies and moths feed on specific plants. For example, Boisduval's Blue caterpillars eat only silky lupine. By choosing these plants, you can support the rare and climate-vulnerable butterflies of the West Kootenay.

Note: This list is just a small selection of the native plants needed in healthy ecosystems. Aim for diversity and abundance in your plantings.

One well chosen plant can make a world of difference to a native pollinator!

Kootenay Native Plant Society
connecting people, plants, and place

KNPS Connects People, Plants, and Place

We welcome you to show your support for Native Plants by becoming a member of KNPS!

Cost is \$20 for an individual , \$35 for immediate family up to 4.

Membership is renewed annually.

Members are entitled to vote at our Annual General Meeting (members 18+) and receive benefits like early sign ups for our public events. Most of all, members have the reward of protecting and conserving native plants and pollinators that rely on them. Thank you!

visit www.kootenaynativeplants.ca/getinvolved/memberships to signup today!

Warm Thanks to Our Supporters

Our conservation work is only made possible through a generous array of funders and partners. Warm thanks to all, and especially Columbia Basin Trust whose multi-year Ecosystem Enhancement Program matching grant has provided a secure foundation for our Pollination Pathway program.

POLLINATION PATHWAY CLIMATE ADAPTATION

Annual Newsletter

March 2022

Pollination of native plants by native pollinators underpin the sustainability of ecosystems. Diverse plant-pollinator communities form the basis of the food chain for all wildlife and for people. The Pollination Pathway Climate Adaptation Initiative is working to enhance plant-pollinator communities in the Lower Columbia area of the West Kootenay, British Columbia.

This Program, with 13 sites and more than 20 partners, will build ecological resilience and connectivity within the ecosystem enhancement area.

Site-specific assessment and the incorporation of relevant climate research will guide restoration actions within three program areas:

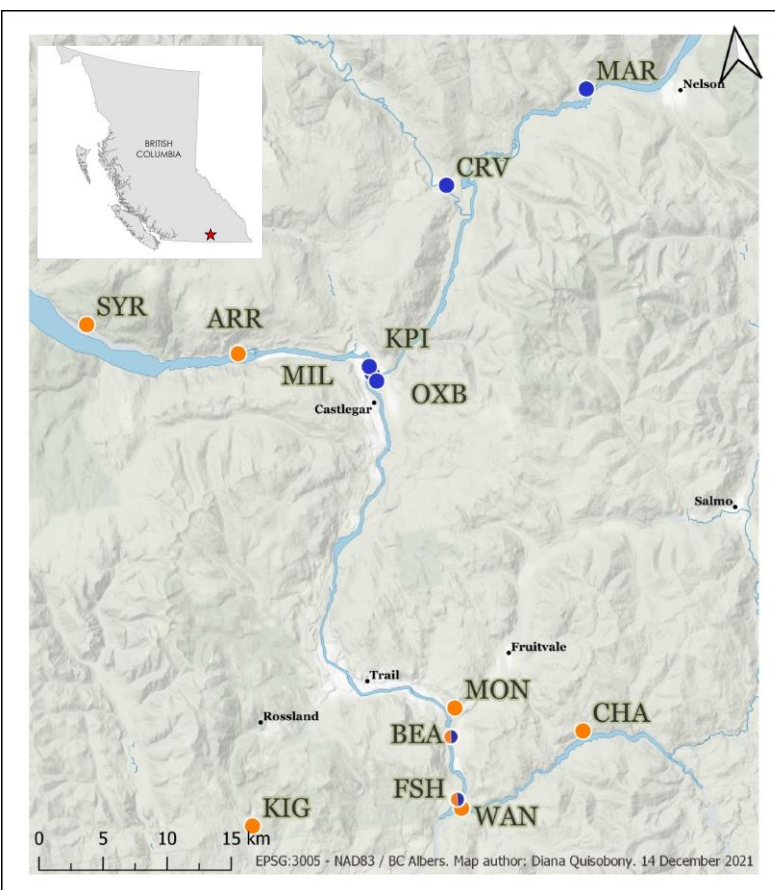

- ✳ Ecosystem enhancement of meadow/grassland communities supporting common camas and bees.
- ✳ Improving host and nectar plant availability for at-risk and climate-vulnerable butterflies.
- ✳ Increasing abundance and diversity of climate-adaptive, pollinator-preferred native plants through seed collection, custom growing, and out-planting.

Butterfly Sites

- SYR Syringa Provincial Park
- ARR Arrow Lake Restoration Site
- MON Montrose Antenna Trail
- BEA Beaver Creek
- CHA Charbonneau Creek
- FSH Fort Shepherd Conservancy
- KIG King George VI Provincial Park
- WAN Waneta

Camas Sites

- MAR Marsden Face
- CRV Crescent Valley
- MIL Millennium Park
- KPI *kp'tit'els* (Lower Brilliant Terrace)
- OXB Oxbow
- BEA Beaver Creek Provincial Park
- FSH Fort Shepherd Conservancy

2021 Milestones

- Collected over 5,000,000 seeds
- Planted over 1,000,000 seeds
- Nearly 60 species

Camas Plantings

- 11,000 bulbs planted into beds
- 2,400 bulbs & 18,500 seeds into 5 field sites

Other Plantings

- 300 milkweed rhizomes
- 1000 additional native plants

Need for Seeds

Pollinator habitat enhancement is limited by the availability of native plant seeds that support native bees and butterflies.

In 2021, we collected more than five million seeds of 59 plant species for our Wild Seed Library. Seven people and numerous volunteers spent more than 470 hours in the field. Processing of the seed took more than 250 hours.

Two public seed collection training days were held. On one day, 15 volunteers collected half a million seeds for a pollinator meadow project at the Kootenay Gallery of Art in Castlegar. On another, we collected seeds of 10 species for use on project sites.

King George Bees

Our intern Tannah Ernst helped us document bumble bee diversity in King George VI Provincial Park.

We detected 12 species of bumble bees; Half-black Bumble Bee and Vancouver Two-form Bumble Bee were the most common. Other species of note were Indiscr. Cuckoo Bumble Bee and the listed Western Bumble Bee.

Abuzz about Bees

We were joined by University of Calgary student Rowan Rampton in Year 2 of our FWCP-funded project, "Floral Relations of Native Bees in Camas Meadows." His MSc research focuses on:

- how the timing of plant-pollinator interactions are affected by environmental cues at varying elevations; and,
- the impacts of phenological mismatch.

There are eight meadow sites occurring from Marsden Face to Beaver Creek Provincial Park. Over the summer 2021, Rowan documented 800 pollinator

visits of 27 bee genera and the floral abundance and phenology of 94 plant species.

The observed diversity of plant and bee species associated with camas meadows supports their high ecological value.

Seed Collection Manual

To support volunteer training, the Program is creating a seed collection manual with 20 carefully selected plant species for restoration activities.

The manual includes species descriptions, methods of seed collection and forecasting, and info on similar species and associated pollinators, and contains more than 120 photos and botanical illustrations for identification. Also included are protocols for reliable and ethical seed collection.

Learning and Fun

Created by our intern Diana Quisobony, *Blazzom* is a new plant-pollinator card game that generates exciting player interactions and promotes ecological learning. It helps us all realize our role within the pollination pathway and have fun too!

Camas Meadows

“Riparian Camas Meadows” is a three-year project funded, in part, by Environment and Climate Change Canada (ECCC). The project goal is to begin the ecological restoration of degraded riparian and wet meadow ecosystems with special attention to camas (*Camassia quamash*) communities located along the Columbia and Kootenay rivers (5 sites), as well as two upland seepage sites. These meadow systems maintain high biodiversity and connectivity and

Planting Camas

Over 11,000 camas bulbs, ranging from 3-5 years old, and lomatium and yampah seeds were planted into reconstructed camas propagation beds at the Mir Centre, Selkirk College. These beds will supply plants for restoration sites.

Our camas efforts extended to our field sites as well - planting 2,400 bulbs and 18,500 seeds with the help of many volunteers and community groups.

Student Help

With funding from ECO Canada and Mitacs, and with support of Selkirk Innovates and Co-op Education and Employment Services at Selkirk College, we welcomed the help of three student summer interns: Diana Quisobony (seeds), Tannah Ernst (bees), and Josh Fogal (butterflies).

The CBT Job Experience Program also allowed us to hire Terri McRitchie (Restoration Coordinator) and Jenny Wallace (Seed Coordinator). All contributed to an amazing Pollination Pathway team!

likely are, and have been, important transition communities linking aquatic and dryland ecosystems. The meadows support over 90 species of native pollinators and provide early food sources for other wildlife. These meadows are also sacred Sinixt harvesting grounds for camas bulbs (*itxwa*, black camas), representing a deep heritage of plant stewardship, especially at the confluence of the Columbia and Kootenay rivers.

This work includes three main components:

- Applied research in plant composition, soils and hydrology, climate, and ecological structure, complemented with in-depth historical, cultural, and land use change investigations.
- Development and implementation of restoration prescriptions for the sites informed by previous, and on-going, research.
- Ecocultural events and outreach activities celebrating the wonders of camas meadows in our region.

Getting the Word Out

Connecting with more than 1,000 followers in the KNPS Facebook page so far, the "Pollinator Plant of the Week" series invites people to share their photos and perspectives.

In August 2021, our student interns took over the Kokanee Creek Nature Centre, first to premiere the new card game, *Blozzom*, and second, to showcase local plants and pollinators and share research with park visitors.

Thanks to these groups for helping us collect and plant seeds in 2021:

- Castlegar Butterflyway Rangers
- Rotary Sunshine
- Twin Rivers School
- J.L. Crowe
- Selkirk College
- Many Volunteers!

Butterflies in BC Parks

"Building Climate Resilient Butterfly Habitat" is a 3-year project funded by the BC Parks Living Lab for Climate Change and Conservation Program. A partnership among BC Parks, KNPS, and Selkirk College, we're studying regional plant-butterfly associations, with emphasis on at-risk and climate-vulnerable butterflies, and how best to establish meadow habitat at Syringa and Beaver Creek provincial parks (ref. site at Charbonneau Cr.).

In year 1, we found high plant, butterfly, and non-forest ecosystem diversity in the West Kootenay: 49 butterfly species and 160 plant species were identified and surveyed. Of the 141 nectaring observations, we found that butterflies prefer native asters, spreading dogbane, and brown-eyed Susan. Plants responded to severe heat and drought, and likely wildfire smoke, by shortening maturation periods, aborting growth, among other adaptations.

In Year 2, we'll continue our surveys and collect data on plant abundance and floral density. Data from these surveys, as well as Program climate research, will inform the restoration prescriptions within the parks.

An exciting additional part to this project is the development of an Interpretive Site at Syringa Park. Site preparation has begun, including planting of milkweed and native plant seeds. In 2022, we hope to continue with more site prep and planting and adding a pathway, signs, and a bench.

Complementing this work, our intern Josh Fogal conducted a Pale Swallowtail study noting that these butterflies peak in June, oviposit on snowbrush, and prefer spreading dogbane for nectar.

1. The project will provide:

TIDAL WAVE: Is a new dance program aiming to raise awareness about the oscillation between environmental sustainability and climate change with social inclusion.

HYPRID: The program will investigate balancing physical & digital presentations to maintain our environmental sustainability accomplishments established during COVID-but not compromising engagement in vulnerable youth.

From 2020-2022, we:

- Reduced our carbon footprint by 407,018kg
- Saved 475kg of disposable personal protective equipment through the digital presentation of our work
- Reduced our workplace related CO2 by 338,000kg by working remotely
- Reduced our GHG emissions by 442K by wearing uniforms and costumes made of sustainable and organic materials

Project: Tidal Wave - Year 2

NEW CHALLENGE: As the pandemic subsides, we're challenged with how to continue to balance our environmental sustainability accomplishments as we incorporate more physical work. In "Tidal Wave," environmental sustainability is part of both the theme and the action-plan for presentation.

Tidal Wave's new format and theme, will help us develop sustainable growth in our organization for a post-pandemic era. Whilst participants are meaningfully impacted by:

- Cool digital tools and a professional performance to engage with art and culture and ecology
- Thought-provoking discussions and engagement exercises to reflect on environmental sustainability and advocacy
- Opportunity to explore the uneven distribution of the climate change burden and how it correlates to social inclusion

2. Organization Mandate:

Mission: To use contemporary dance to promote kinship, collaboration, and teamwork.

Mandate:

Mandate & About:

- We further the development of dance and public engagement through performance and outreach programming.
- We provide flexible touring series for arts venues, public schools, and conservatories to bring performances and interactive programming to both large & small communities.
- We use dance to make the world a better place

DEFINING VULNERABLE: We engage with people who have been systemically underserved in Canada's history as well as those that currently experience hegemonic inequities (physical, economic, or social). In using the term "vulnerable," we are not blaming or disempowering vulnerable populations. Instead, we recognize the systemic barriers that prevent people from fully participating in society. We also note that a person's proximity to hegemonic characteristics (e.g. white, urban, cis, heterosexual, wealthy, able-bodied, and thin) affects the degree of their vulnerability.

3. Community objectives the project will work towards are:

WE'RE WORKING WITH A NEW PARTNER IN SLOCAN TO HELP US BETTER SUPPORT COMMUNITY NEEDS: W.E. Graham Community Service Society is helping us

INCLUSION: By connecting social inclusion with a new urgent wider world framework (ecology, environmental sustainability, and climate change), we're maintaining the relevancy of our work, but also reaching our audiences through a new lens. A new exciting Arts Based Community Development strategy and performance will help us better reach teenagers!

BALANCING THEME WITH CARBON COSTS OF TOURING: As the pandemic subsides, we're challenged with how to balance our environmental sustainability accomplishments while also being sensitive to artists' mental health. We'll balancing both physical & digital formats for Tidal Wave, where environmental sustainability is part of both the theme and the action-plan for presentation.

4. Project will address issues or opportunities pertaining to:

We thought deeply on what we want to explore next &...

- What urgent themes haven't we addressed yet?
- What gaps are there in our service? -How can we better our service to vulnerable Basin communities through dance?
- How do we deepen our commitment to inclusion?
- How can we make process-based learning simpler?

Based on the answers to the above, we devised a framework for Tidal Wave

Project: Tidal Wave - Year 2

Youth Presenters will work with other SQx presenters to DESIGN, DELIVER, & EVALUATE TIDAL WAVE

CONTEXT:

-Develop a 3-day arts-based community development process to engage vulnerable youth with:

1. Dance performance by professional dancers
2. TikTok video development with participants
3. Discussions

-Investigate different ecological frameworks like 1) How do climate related disasters more adversely affect vulnerable populations? Consequently, how do climate related disasters support or oppose inclusion? OR 2) How does water access affect inclusion?

5. This organization is best to provide this project to the community because:

At SQx, our vision is that all humans have a responsibility to protect the earth. Therefore exploring the environment is a "natural" progression for us, and it's part of our social and community responsibility to use dance and our services to reflect on wider world issues affecting communities.

COVID MADE US STRONGER: We adopted a digital presentation style very quickly for projects like AIP, which helped us be more environmentally sustainable (see attached). Now environmental sustainability impacts all our decision-making. COVID helped us to positively reevaluate our dissemination strategies.

AIP ACHIEVEMENTS

- 100% of educators felt AIP increased their students' understanding of equity, discrimination, & racism
- 92% of participants reported they could demonstrate inclusion
- 80% of educators felt AIP increased their students ability to ask for help & seek justice from adults & their peers
- 82% of participants had a positive experience in being physically active through dance

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

YOUTH DESIGN, PRESENT, & EVALUATE IMPACT.

***HIRING PREFERENCES: We have hiring preferences because it's critical to the identity of our organization, and it is how we work towards continuously improving SQx and our programming and performances to ensure our work considers the experiences of diverse audiences and participants. Our goal by ensuring diverse presenters are at the forefront of creation is to give voice and visibility to vulnerable populations. Each artist brings special knowledge and experiences that influence the social inclusivity outcome of our works.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:****12. Supporting documents below, if submitted:**

Organizations are also asked to present copies of supporting documents at community engagement meetings.

RE: SQx & WEGCSS Tidal Wave Partnership

On behalf of W.E. Graham Community Service Society (WEGCSS) we agree to partner with SQx in the development of their new program arts-based Community Development program, Tidal Wave.

Tidal Wave is a new dance performance program aiming to raise awareness about the oscillation between environmental sustainability and climate change with social inclusion.

We want to partner with SQx on this project because Tidal Wave uses creative workshops, performances, learning, teaching, and training to help alleviate rural isolation and lack of social and recreational services for Slocan Valley youth through an environmental & cultural lens.

In partnership SQx & Latséeni Daakahidi (House of Wellness and Strength) - Taku River Tlingit First Nation, and SD67 Okanagan - Skaha, WEGCSS roles and responsibilities include providing:

- On-site monitoring in the Slocan Valley during piloting
- Educator and student survey feedback
- Impact measurement feedback
- Discussion topic feedback
- Thematic feedback

Like WEGCSS, SQx is an established Slocan Valley service provider. SQx has been providing blended social-cultural programming in the Kootenays for more than decade. Therefore, as a like-minded organization we are eager to formalize a relationship between us through Tidal Wave.

Please note, however, that WEGCSS is providing services and support for Tidal Wave, but not financial support. We are a partner; not a funder. WEGCSS is not financially liable for any components of the project.

Please do not hesitate to contact me, should you require further confirmation of our support.

Chantal Smith
Executive Director
W.E. Graham Community Service Society

Sustainable Development Goals (SDGs)

At SQx, we pride ourselves on our ability to advance 9 of the 17 United Nation's Sustainable Development Goals (SDG's) for peace & prosperity for people & the planet.

| | | |
|----------------------------------|--|---|
| 2 ZERO HUNGER | 3 GOOD HEALTH & WELL-BEING | 4 QUALITY EDUCATION |
| 5 GENDER EQUALITY | 8 DECENT WORK & ECONOMIC GROWTH | 10 REDUCED INEQUALITIES |
| 13 CLIMATE ACTIONS | 16 PEACE, JUSTICE, & STRONG INSTITUTIONS | 17 PARTNERSHIPS FOR THE GOALS |

2 ZERO HUNGER

SQx aims to increase food security & improve nutrition in remote areas in Canada. When touring to remote communities with high food insecurity, we bring fresh produce to make healthy smoothies & snacks for students & staff.

3 GOOD HEALTH & WELL-BEING

SQx promotes physical activity & boosts the health & well-being of vulnerable youth by increasing access to Arts, Culture, & Sport.

In June 2023, we tracked 1,011,160 minutes of physical activity in vulnerable communities in Remote & Northern Canada.

4 QUALITY EDUCATION

SQx provides equal access to free, inclusive, & socially-responsible programming that aims to foster positive youth development & civic engagement.

From 2020-2023, we presented our Active Inclusion Program (AIP) to 31,015 youth. 218/218 educators said AIP increased their students' understanding of equity, discrimination, & racism.

5 GENDER EQUALITY

100% of SQx's Leadership Team are women. We empower women & gender diverse people to ensure full & effective participation & equal opportunities for all.

Our works (i.e. Cecilia, Anti-Bullying Movement Program, Active Inclusion Program), aim to disrupt all forms of discrimination against women & girls across the globe.

8 DECENT WORK & ECONOMIC GROWTH

SQx provides long-term, inclusive, & sustainable employment for vulnerable artists.

By digitizing & diversifying our work, SQx has doubled our artist numbers & contract lengths, meaning we created more jobs for diverse artists. In addition, artists (excluding management), working with SQx across 2 seasons (2022-2023) received an average wage increase of 20%.

10 REDUCED INEQUALITIES

SQx promotes the social inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion, or economic or other status.

We ensure that diverse artists are at the forefront of creation & development to give voice & visibility to vulnerable populations. Each artist brings special knowledge & experiences to increase the social inclusivity outcomes of our works.

13 CLIMATE ACTIONS

Climate actions are at the heart of SQx. We're committed to ending the climate crisis through the development of hybrid program & performance architectures, responsible consumption & production patterns, & the creation of works that raise awareness about climate change & its impacts.

From November 2020 - June 2023, we reduced our carbon footprint by 479,557 kg.

16 PEACE, JUSTICE, & STRONG INSTITUTIONS

SQx fosters peaceful & inclusive communities through socially-responsible performance & performance programming, & aims to provide justice for all.

232/237 educators said our Active Inclusion Program increased their students' knowledge & ability to show citizenship, selfless gestures, & kindness to encourage belonging within Canada.

17 PARTNERSHIPS FOR THE GOALS

We have strong global partnerships for the sustainable development & growth of SQx. Partnering with CIRCE - Experimental Platform for Dance & Theatre in Tbilisi, Georgia for our "Cecilia" double-bill amplified arts engagement in vulnerable populations, fostering international social change. Additionally, collaborating with Taku River Tlingit First Nation for our "Tidal Wave" project ensures it's culturally safe, respects Indigenous voices, & honours their perspectives.

Organizational Highlights

Our mission is to use contemporary dance to promote kinship, collaboration, and teamwork. We further the development of dance and public engagement through performance and outreach programming. We provide flexible touring series for arts venues, public schools, and conservatories to bring performances and interactive programming to both large and small communities. We use dance to make the world a better place.

Fiscal Responsibility

SQx has 9 years of audited financial statements to ensure we maintain the highest standard of trust with those most affected by our organization's actions (formally known as stakeholders). Additionally, only 5.5% of our annual revenues goes to office and administration. We use dance to make the world a better place, and revenues are genuinely felt in vulnerable communities (rather than an office).

Fair Wages & Sustainable Employment

SQx employees are paid in accordance with the fee and rate standards set by Canadian Alliance of Dance Artists (CADA) Professional Standards. In fact, artists (excluding management) working with SQx across 2 seasons (from 2022-2023) received an average wage increase of 20%.

100% of SQx artists believe that their job with SQx is sustainable. We continue to sustainably improve the well-being of emerging and professional artists across Canada through stable, long-term, and full-time employment.

Positive & Healthy Work Culture

We believe in a culture of respect, inclusion, collaboration, and trust. We prioritize the health and well-being of our employees by leading regular check-ins, and facilitating open communication and collaboration.

100% of SQx artists believe that SQx provides a safe work environment that supports artists mental health. We provide various employee wellness programs, including monthly team lunches and weekly yoga classes to boost team morale and promote physical, emotional, and mental prosperity.

A Great Place to Work

100% of SQx artists feel their work at SQx is meaningful and creates transformative meaningful change both for employees and recipients of SQx's work.

100% of SQx artists feel SQx's response to COVID (including pandemic and post pandemic response) positively impacted their career and experience as an employee.

100% of SQx artists feel they have accomplished a career goal in the last 6 months.

100% of SQx artists believe SQx is dedicated to diversity and inclusiveness and they consistently make efforts to ensure everyone at work feels respected, supported, and included.

100% of SQx artists think SQx is successful at accommodating diverse work styles.

"I'm really proud to work for an organization that is seeking to make the world a better place. It's also evident that management cares about the well-being of their employees and are working hard to make positive changes for the health and well-being of us artists."

"SQx is an inclusive and caring environment. Everyone is here to lend a helping hand to fellow coworkers AND to any student teacher or school that needs it. You can see how much everyone at SQx is willing to put themselves on the line to support people in need."

"SQx strives to find connection between their work and the community (beyond that of the contemporary dance community). In my opinion, SQx creates meaningful change within the contemporary dance community and the broader community."

"What stands out to me about working with SQx is being able to work with women who are so well-rounded and truly intelligent. We're not only dancing, but we're all actively participating in important discussions and are quickly learning new skills to contribute to the organization in various ways. I work with people who are brave, resilient, and creative -- and that, is very inspiring and makes me incredibly happy!"

ACTIVE INCLUSION PROGRAM (AIP)

AIP is an interactive performance program that uses dance to disrupt discrimination, intolerance, racism, and hate.

From September 2020 to June 2023, we presented AIP to

31,015 YOUTH

MISSION & IMPACT

AIP empowers youth to recognize Canada's diversity as a source of strength, and encourages youth to show citizenship, selfless gestures, and kindness to increase belonging within their communities for the full and meaningful participation of all. AIP also brings together Indigenous and non-Indigenous youth to share and learn about reconciliation and decolonization in Canada.

100% of educators (Grade 3 and above) feel AIP increased their students' understanding of equity, discrimination, and racism.

99% of educators feel AIP increased their students' knowledge and ability to work collaboratively and as a team.

97% of educators feel AIP inspired their students to become more physically active and express a positive attitude towards being physically active.

96% of educators feel AIP inspired their students to become positive role models and leaders within their community, family, and school.

"Loved how involved, engaging, and responsive the instructors were. Their abilities to make connections with the students are incredible!"
Arts Education Director, WP Bate, Saskatoon, SK

"Thank you so much for everything that you've done for our classroom and community. You had 100% participation the entire time and my students were so excited to dance with you every morning. This program is incredible. I'm a huge fan of your mission. Kukwstsétsemc!"
Educator, Sk'elep School of Excellence, Kamloops, BC

"A program that reaches the body, heart, and head, and has an impact."
Educator, École South Pointe School, Winnipeg, MB

"AIP was amazing! I enjoyed myself so much! [...] I made so many memories and connections about the history about Canada. [...] The only thing that I wish is that the AIP dance was longer."
Student, Osoyoos Elementary, Osoyoos, BC

Organization **Central Kootenay Invasive Species Society**

Registration # BC Society Number S-48744
Suite 19-622 Front Street, Nelson British Columbia V1L 4B7

Name of Organization being sponsored if applicable -

Project Title **Community Pulling Together**

Project will be located in: RDCK Area C, RDCK Area F, RDCK Area H, RDCK Area J, City of Castlegar
Coordination of the project will occur through the CKISS offices. The pulling events will occur at five sites as follows:
-Norns Confluence site, Robson, Area J
-Kootenay Gallery site, City of Castlegar
-Creston Valley Wildlife Area, Area C
-Snk'mip Sanctuary in Hills, Area H
-Pulpit Rock trail, Area F

Importance to the community:

This project involves a variety of community members from youth and school groups, to local residents and diverse organizations. This is an engaging and accessible program that benefits not only the environment, but encourages outdoor learning and knowledge building. Community groups are keen to take care of their beloved spaces and need the support and knowledge to do so. The entire community benefits when the youth are educated and involved.

"The trips allow our youth to become environmental stewards through invasive species management and restoration activities within our community. CKISS provides our group with hands-on restoration experiences by assisting with invasive species removal, site inventory, and plant ID. This type of placed based education helps youth feel they are giving back by learning to take care of the world by understanding and connecting them to where they live".

Deidre Pierce, Robson Scouts and Venturers

Work Plan Dates: Project Start: 5/17/2024 Project End: 11/30/2024

| Total ReDi Funding Requested | Total from Other Sources | Total Project Cash Budget |
|------------------------------|--------------------------|---------------------------|
| \$7,545.00 | \$24,407.00 | \$24,407.00 |

1. The project will provide:

The Community Pulling Together program engages local residents under three objectives; direct action to control invasive species, bringing the issue of invasive species to the attention of the community and encouraging volunteers to become local stewards of the natural assets in their communities. CKISS will run six events based on partners requests.

In a Community Pulling Together event, a group is organized to mechanically remove an invasive plant infestation in their community. Participants gain hands-on experience and knowledge on invasive plant control. Stewardship groups that successfully complete a weed pull event receive a 250 honorarium (with the exception of school groups). The events last from two to three hours with anywhere between 10-30 volunteers and CKISS provides supplies (shovels, bags and weed disposal).

Groups love to roll up their sleeves and get involved in a project with tangible results. People can see that they can make a difference in only a few hours and have a sense of pride with their accomplishments. Volunteers get to learn hands-on the impact of invasive plants on an ecosystem and learn removal techniques. These events are highly regarded and a fun way to develop environmental ambassadors.

2. Organization Mandate:

Mission: To protect ecosystems and communities by preventing and reducing the harmful impacts of invasive species.

An invasive species is a species that is not native to a specific location, and that has a tendency to spread to a degree that causes damage to the environment, human economy or human health.

Vision: Ecosystems, communities and the regional economy are healthier because the harmful impacts from the spread of invasive species have been reduced. Central Kootenay Invasive Species Society (CKISS) educates, works with, and calls to action area residents, visitors, and a diverse range of communities and organizations.

3. Community objectives the project will work towards are:

This project involves a variety of community members from youth and school groups, to local residents and diverse organizations. This is an engaging and accessible program that benefits not only the environment, but encourages outdoor learning and knowledge building. Community groups are keen to take care of their beloved spaces and need the support and knowledge to do so. The entire community benefits when the youth are educated and involved.

"The trips allow our youth to become environmental stewards through invasive species management and restoration activities within our community. CKISS provides our group with hands-on restoration experiences by assisting with invasive species removal, site inventory, and plant ID. This type of placed based education helps youth feel they are giving back by learning to take care of the world by understanding and connecting them to where they live".

Deidre Pierce, Robson Scouts and Venturers

4. Project will address issues or opportunities pertaining to:

Project: Community Pulling Together

Invasive species affect the economic and environmental potential and health of our communities. Tourism, agriculture, energy infrastructure and property values are all vulnerable to the impacts of invasive species. Invasive species have a significant impact on ecosystem health, and the International Union for the Conservation of Nature considers them one of the greatest threats to biodiversity globally.

CKISS has conducted inventory and monitoring of invasive plants in the region since 2005. A database of suitable sites for the Community Pulling Together program and requests from community groups is maintained. A prioritized list of invasive plants for the region is produced annually through a consultative process with regional land managers.

CKISS seeks to continue this program on existing sites to increase efficacy of treatment through continuity and to capitalize on the enthusiasm of volunteers in new areas. Primary invasive species targeted include scotch broom, Himalayan blackberry, yellow flag iris and knapweed.

5. This organization is best to provide this project to the community because:

CKISS has a mission to protect ecosystems and communities by preventing and reducing the harmful impacts of invasive species. Prevention is the most effective invasive species management, and education and outreach are key to this goal. CKISS strives to build capacity within local communities by engaging residents and youth through education and outreach and inspiring communities to take action. To support this goal CKISS has a dedicated Education Program Coordinator, who has organized Community Pulling Together events for the past 9 years. The Education Program Coordinator has developed an extensive outreach and social media presence and can effectively recruit volunteers and share the stories of success with the wider community.

CKISS also has an extensive terrestrial operations program that manages inventory, monitoring and control of invasive species in the region. Through this program, suitable sites are established and monitored on an ongoing basis.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The Central Kootenay Invasive Species Society (CKISS) will be coordinating the project. Volunteers including the following will be participating in the pulling events:

- Okanagan Nation Alliance and Robson Scouts, Norns Confluence site, Robson, Area J
- West Kootenay Naturalists, Kootenay Gallery Site, City of Castlegar
- Lucerne Elementary School or New Denver Dragon Boat Team Snk'mip Sanctuary, Area H,
- Options for Sexual Health Clinic, at the Creston Wildlife Management Area, Area C
- Nelson Run Club, Kootenay Mountain Club and Jazmine Lowther - Professional trail runner, Pulpit Rock trail, Area F

8. Minors will be working on this project: Yes**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:**

CKISS is providing all the planting equipment in-kind. CKISS has an extensive media platform which is being provided for advertising and recruitment of volunteers. CKISS has also developed extensive outreach material which is being provided at cost.

Volunteers will be providing labour in-kind valued at \$9,000.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Re: CKISS Application

To Whom It May Concern,

I am writing to express my strong support for the Central Kootenay Invasive Species Society's (CKISS) application to the Columbia Basin Trust Resident Directed Grant (ReDi Grants). As a member of the Nelson Run Club and an avid outdoor enthusiast in the Nelson area, I have had the pleasure of exploring the beautiful trails, including the Pulpit Rock trail. It is a beloved trail for hikers, runners, cyclists, and outdoor enthusiasts alike. Therefore, I am excited to hear about CKISS's initiative to organize a Community Weed Pull event at Pulpit Rock.

Teaming up with the Nelson Run Club and Jazmine Lowther, Nelson's 2023 Sport Ambassador, for this event is a fantastic idea. By mobilizing volunteers to remove invasive plants along the trail, we can contribute to improving ecosystem health and preserving one of the most popular trails in Nelson.

The presence of invasive plant species along the Pulpit Rock trail poses a threat to the local ecosystem and recreational activities. By participating in the Community Weed Pull event, we can take proactive steps to prevent the spread of invasive plants and protect our cherished trails.

I am eager to join fellow community members for two hours of rewarding weed pulling, snipping, digging, and bagging. It's an opportunity to give back to the trails we use and love, while also enjoying a fun and fulfilling outdoor activity with friends.

Considering the impactful work undertaken by CKISS and the vital nature of their initiatives, the Nelson Run Club wholeheartedly supports CKISS in securing funding through the ReDi Grants. For any queries regarding the Nelson Run Club's involvement and backing, feel free to reach out to me without hesitation.

Stephen Harris
Manager, Nelson Running Club

Regional District of Central Kootenay

Re: CKISS Application

To Whom It May Concern,

I am writing to express my strong support for the Central Kootenay Invasive Species Society's (CKISS) application to the Columbia Basin Trust Resident Directed Grant (ReDi Grants).

As the Restoration Lead for the Okanagan Nation Alliance (ONA), I am actively engaged in ecosystem health improvement projects across various sites in the Columbia Region, including the Norns Confluence site.

Norns Confluence is a riparian ecosystem greatly impacted by altered water cycles, erosion, development, human recreation, and the encroachment of invasive species. This site is crucial as Norns Creek serves as a spawning tributary of the Columbia River, acting as a vital wildlife corridor within an urban setting. The mature cottonwood forest at Norns Confluence provides essential foraging, roosting, and nesting habitat for numerous species, including eagles, red-tailed hawks, pileated woodpeckers, flickers, and more.

Despite our efforts focusing on revegetation, wildlife tree protection, and invasive plant management, Norns Confluence still faces challenges from invasive plants such as Himalayan blackberry, spotted knapweed, and orange hawkweed, which threaten native biodiversity.

The Norns Confluence site presents a valuable opportunity to raise awareness about the importance of preserving critical ecosystems within our community. The ONA Columbia Natural Resource team is eager to collaborate with CKISS in Robson to engage local residents in a Community Weed Pull event. These events empower residents by providing authentic opportunities for direct action on environmental issues and educate them about ecological concepts and the importance of protecting biodiversity.

Given the significance of CKISS's work and the importance of their initiatives, the ONA fully endorses CKISS in receiving funding from the ReDi Grants. If you have any inquiries regarding ONA's participation and support, please do not hesitate to contact me.

liml̓amt | Thank You

Alysia Dobie

TO KNOW NATURE AND KEEP IT WORTH KNOWING

The West Kootenay Naturalists Association

Regional District of Central Kootenay

February 17, 2024

Re: CKISS Application

To Whom It May Concern:

Please accept this letter of support for the Central Kootenay Invasive Species Society's (CKISS) application to the Columbia Basin Trust Resident Directed Grant (ReDi Grants).

The West Kootenay Naturalists Association (WKNA) is enthusiastic about the opportunity to work together with CKISS in their efforts to enhance our natural environment. These events not only allow us to contribute to invasive species management and restoration efforts in our community, but also provide invaluable hands-on experiences in environmental stewardship. CKISS guidance in invasive species removal, site inventory, and plant identification would be instrumental in enhancing our understanding of local ecosystems and fostering a sense of responsibility towards our environment.

The WKNA wholeheartedly endorses CKISS in receiving funding from the ReDi Grants. We believe that CKISS initiatives align closely with our mission to promote environmental conservation and sustainability, and we are confident in CKISS's ability to effectively utilize the grant funds to further their impactful work in invasive species management.

Thank you for considering CKISS's application, and we look forward to having a role with them in their environmental stewardship endeavors.

Sincerely

Paula Neilson
President, WKNA

Re: CKISS Application

To Whom It May Concern,

I am reaching out to express my enthusiastic support for the Central Kootenay Invasive Species Society's (CKISS) application to the Columbia Basin Trust Resident Directed Grant (ReDi Grants).

In my role as Nelson's 2023 Sport Ambassador, professional trail runner and an avid outdoor enthusiast, I have had the privilege of exploring the beautiful trails in the Nelson area, including the iconic Pulpit Rock trail. This trail holds a special place in the hearts of hikers, runners, cyclists, and outdoor enthusiasts alike.

I am thrilled to learn about CKISS's initiative to organize a Community Pulling Together event at Pulpit Rock and am fully on board with this endeavor. Collaborating with the Nelson Run Club for this event is an excellent idea. By rallying volunteers to remove invasive plants along the trail, we can play a significant role in enhancing ecosystem health and safeguarding one of Nelson's most cherished trails.

The presence of invasive plant species along the Pulpit Rock trail poses a serious threat to the local ecosystem and recreational activities. Participating in the Community Pulling Together event allows us to proactively address this issue and protect our beloved trails for future generations.

I am eager to contribute to CKISS's efforts by utilizing my trail running network to promote the event and recruit volunteers. Count me in to assist in recruiting volunteers for the rewarding tasks of invasive plant pulling, snipping, digging, and bagging. I firmly believe in the importance of this event and its potential to make a positive impact on our community and environment.

Considering the significant work undertaken by CKISS and the crucial nature of their initiatives, I wholeheartedly endorse CKISS in securing funding through the ReDi Grants. Should you have any questions regarding my involvement or support, please do not hesitate to reach out to me.

Warm Regards,

Jazmine Lowther

Organization **Nelson Civic Theatre Society**

Registration # 811788702 RR 0001

719 Vernon Street, Suite 103, Nelson British Columbia V1L 4G3

Name of Organization being sponsored if applicable -

Project Title **Supporting the Kootenay Screen-Based Industry**

Project will be located in: RDCK Area A, RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, RDCK Area K, City of Nelson, Town of Creston, Village of Nakusp, Village of New Denver, City of Castlegar, Village of Salmo

The KSBI Regional Program Manager is based in Nelson (and the Film Commissioner is in Winlaw), but the reach of the program spans the region (as far as Elkford and Sparwood in the east, to Edgewood and Burton in the west, to the Rossland and Montrose in the south. and as far as Radium Hot Springs and Edgewater to the north). With online interactions on the Facebook group, at meetups, and in events and workshops available to KSBI workers from all across the region, the program connects the widespread rural communities of the Columbia Basin.

Importance to the community:

The KSBI is a critical component that correlates to the KRFC. The Regional Program Manager is responsible for building and stewarding the local and regional network of more than 550 KSBI workers, and bridging the local industry with commercial film projects that are beginning to materialize across the East and Central Kootenay through the work of the KRFC. This role and program is a critical component of the development that is happening to bring these projects to the region and have local people and businesses benefit from them. Without it, we risk losing access to many future work opportunities on film projects.

1. The project will provide:

This project will support the Kootenay Screen-Based Industry (KSBI) Program for the 2024-25 year, supporting the key roles of Screen-Based Industry Program Manager and Events and Communications Coordinator and the costs associated with hosting meetups of Screen-Based Industry Workers in Columbia Basin communities within the RDCK. The Program Manager is also growing into an integral part of the regional management of the Kootenay Regional Film Commission.

The ReDi Program (and as CIP) has supported the KSBI program in a number of ways in the past, including start-up consulting to begin this economic stimulation program, the development of kootenayfilm.com, and support for the Kootenay Regional Film Commission (KRFC).

KSBI programming is free of charge, age-inclusive, and open to the public. It has no earned income streams. Since its inception, this program has needed minimal support because a BC Rural Dividend grant supported it. Our expectation has long been that NCTS would be able to support this role through earned income from three theatres once our renovation was complete. As this renovation has been delayed, that funding stream is not yet available to us, so we will need funding to continue this important regional economic development program in the coming year. Once the renovation is complete, the plan is for NCTS to be able to support this program on earned revenues.

2. Organization Mandate:

Organization Mandate As a registered Canadian charity, Nelson Civic Theatre Society's (NCTS) mandate is to provide a public amenity by operating and maintaining a theatre as a multi-use facility for film screenings and for other artistic, educational and community-building programs and events for the benefit of the general public; be a home and presenter of lectures, workshops, courses and seminars on topics related to film or utilizing digital media for a diverse range of audiences; and protect, preserve and improve Nelson's historic Civic Theatre.

We fulfill our mission through:

Programming a wide range of cinematic presentations that respond to community interests.

Protecting, preserving and improving The Civic Theatre as a venue for cinematic and live cultural experiences, and for other educational and community-building programs and events.

Supporting local film, digital media and their creators, and encouraging the study and appreciation of film as an art and as a medium for information and education.

Working with community partners and local screen-based media artists toward building an information and communications technology hub that provides our rural community the means of engaging with and participating in a global community.

Engaging with other organizations, institutions and individuals to create synergy and grow community capacity.

Continuing to invest in the future of our community and, in particular, its youth.

Our Values

Our programming reflects our community's diversity and culture.

We provide a fulfilling and respectful working environment for our staff and volunteers.

Project: Supporting the Kootenay Screen-Based Industry

Community input, dialogue and volunteerism are essential to our operation.

We strive to be innovative and entrepreneurial, a catalyst to local thought leaders as they contribute positively to the digital world.

We foster a spirit of collaboration and endeavour to complement the goals and programs of other community groups and organizations.

3. Community objectives the project will work towards are:

The KSBI is a critical component that correlates to the KRFC. The Regional Program Manager is responsible for building and stewarding the local and regional network of more than 550 KSBI workers, and bridging the local industry with commercial film projects that are beginning to materialize across the East and Central Kootenay through the work of the KRFC. This role and program is a critical component of the development that is happening to bring these projects to the region and have local people and businesses benefit from them. Without it, we risk losing access to many future work opportunities on film projects.

4. Project will address issues or opportunities pertaining to:

The KSBI program addresses the economic and networking barriers that workers face living in a rural community. The program began in 2016 as a response to feedback from industry workers that cultural infrastructure and opportunities for professional development were lacking in our region. Since its inception, the program's goals have been identified through ongoing regular engagement with members through meetups, panel discussions and surveys. Goals are reviewed and renewed on an ongoing basis to ensure responsiveness to local needs and economic realities. This project will support continued support and outreach for workers through management of an active Facebook group (currently 554 members), professional development opportunities (mentorships and workshops), and significant support to the economic goals of the KRFC.

5. This organization is best to provide this project to the community because:

Since 2017, NCTS has been committed to developing the KSBI and we have built a strong network. Our very active KSBI Facebook group connects more than 550 people, updating members on industry activities, including monthly meetups. The role we have played in developing and securing the KRFC is substantial. We want to continue building momentum for Kootenay-based film projects, including major ones with significant economic impacts. Results of this program have included festival events for youth, emerging and established Kootenay filmmakers, a wide array of professional development events and workshops, mentorships of women in film, strategic project leadership resulting in the development of the film gear rental program, kootenayfilm.com and the Kootenay Regional Film Commission, the majority of which has had a reach spanning the entire region. We look forward to KSBI programs supporting the STOODIS Indigenous Film festival this year. We are the right organization to continue this work.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

NCTS is the home of the KSBI and co-founder of the KRFC, in partnership with the Kootenay Rockies Tourism Association in Kimberley, BC. The KSBI Regional Program Manager will lead this project, working closely with the Events and Communications Coordinator and the Regional Film Commission. Depending on meetups, events, workshops, and mentorship plans, a number of other SBI professionals may be contracted to play paid and volunteer roles in executing programs.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:**

Project: Supporting the Kootenay Screen-Based Industry

Some meetups will be hosted in kind by local/regional businesses. NCTS offers considerable overhead to this project in the form of office space, supplies, printing, and bookkeeping, as well as hosting screening events.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Words of Support for the Kootenay Screen-Based Industry (KSBI)

I've been an independent filmmaker for the past 8 years and there have certainly been challenges and barriers I have experienced along the way being a woman. It seems like most film crews are dominated by males and not always open to have women join their team. In some situations, my safety and well-being was threatened and I certainly hoped I could have learned from other female mentors. After talking to some of my peers, I have realized it is a common experience for women in the industry. Having worked in the adventure and sport filmmaking industry, it is heavily male-dominated. I've witnessed that men tend to hire other men, and favour men on-set. Some of my most valuable experiences as a filmmaker have been working with other inspirational female creatives. Women understand each other and uplift each other.

I am impressed by all that The Civic Theatre is doing to keep film alive and support artists...I think they are doing amazing work and wholeheartedly support their creative vision to continue supporting local screen-based industry workers and artists, especially those that are women. This was a valuable mentorship experience for me and it is so clear that mentorship is such an impactful learning experience, helping those emerging learn from the more experienced. The need for these learning experiences and opportunities to connect with other females in the field are more prominent than ever.

It is great to see such a local initiative take strides to provide these types of learning opportunities, especially for underrepresented females in the industry.

~ Agathe Bernard, www.agathebernardphotography.com, www.carvinglandscapes.ca, www.agathebernard.com

Kootenay Rockies Tourism...is in full support of economic development opportunities in our region, and recognize that The Civic Theatre's goal to cultivate a strong screen-based industry closely aligns with our existing work in Destination Development, Media Relations and marketing the region on behalf of our stakeholders.

NCTS has already demonstrated outstanding drive, purpose, commitment and cultural leadership in our region with this project...We have continued conversations and see real opportunities for the emergence of a strong film region in interior BC with continued support. Their vision to develop this sector further is innovative and holds very promising potential to benefit the quality of all residents throughout the Kootenay region. We believe this project has a strong potential to become an economic asset to our region through increasing creative collaboration between the media arts and tourism sectors. Please consider this proposal as it is an exciting stepping stone to great opportunities for the film and tourism economy to flourish.

~Kathy Cooper, CEO, Kootenay Rockies Tourism

Our 2016 Nelson Innovation Centre Feasibility Study recommended that the NIC explore a strategic alliance with The Civic Theatre because of the work that they were already undertaking

to identify and support the local screen-based industry (SBI)...We believe that the KSBI program supports local business interests and that it will be a great economic benefit to the community through their work in conducting industry research and development. This work is pertinent at a time where the potential for economic development in our region is ripe and the more we can support initiatives like this, the more benefit our community gains, culturally and economically.

~Andrea Wilkey, Executive Director, Community Futures Central Kootenay

NCTS has given digital artists and filmmakers like me huge incentives and resources to continue growing here, in the Kootenays. They have given me and my peers opportunities to share information and connect with people in our work-spheres. As an independent filmmaker in Nelson, it has been a game-changer to meet people who are experts in their field, as well as motivated creatives who want to collaborate and support each other. There is a healthy brew of talented independent filmmakers working in the region, and we would benefit, and greatly appreciate, mentorship from these experienced professionals.

~Jonathan Robinson, Director, FMRL Productions

Having worked as a freelance filmmaker for the past few years in this community has shown me the importance of mentorship in any occupation...Having access to education and information taught by experts in their field is an invaluable resource. The workshops and mentorship opportunities that The Civic would provide would be amazingly useful to any aspiring filmmakers in the area, and also provide an opportunity for professionals to connect with future colleagues.

The KSBI meetups have played a large part in connecting the filmmaking community in the Kootenay Columbia region. I'm hopeful that the expansion of this program will help ignite the fire of the filmmaking community that exists in this area. There's so much local talent here, and with the help of KSBI we can bring that together to create something truly special.

~Tucker Anderson, Freelance Filmmaker, Tucker K Anderson Films

I am writing to express my support for the Civic Theatre's proposal for their Kootenay Screen-Based Industry Momentum Masterclass Workshop Series. In their last series, I enrolled in a Masterclass on lighting and sound, taught by an industry professional with many years of experience. Besides learning technical skills I made some really great connections which led directly to me finding work.

Living in a rural area has huge challenges for anyone wanting to work in the screen based industry, one of them being a lack of resources to further careers. Another Masterclass series here would be a great benefit to the filmmaking community and would help me grow my skills and make more connections in the industry.

~Carlo Alcos

Nelson, BC V1L 4G3 CA

February 20, 2024

Dear Mayor and Council,

On behalf of the Nelson Civic Theatre Society (NCTS), I am pleased to submit our request to The City of Nelson in support of our **economic project *Supporting the Kootenay Screen-Based Industry (KSBI)***. This project is based in Nelson but has regional impact, so we are also making requests to the other communities in our area.

This funding will be used to support the continuation of the KSBI program this year. When we begin this program through support from the BC Rural Dividend Fund, we expected fully that the conversion of The Civic Theatre into a three-screen venue would have been completed within 2-3 years, and that the income derived from that new model would support this role. As the renovation project has continued to be delayed, we are not yet in a position to support the staffing needs of this program through earned income, as planned. Accordingly, this funding request is critical to the continuation of the KSBI program, which, in addition to stewarding many initiatives for KSBI workers in our region, is now a key driver and complementary feature to the Kootenay Regional Film Commission, a joint program of NCTS and Kootenay Rockies Tourism Association. Without the KSBI Regional Program Manager specifically, it would be very challenging for NCTS to continue this exciting and growing economic initiative.

This project supports Nelson's Path to 2040 through the following focus areas:

Arts, Culture and Heritage

ACH1: Promote artistic and cultural expression and celebration in the community to help support a vibrant centre and identity.

ACH2: Preserve and celebrate the authenticity and heritage of our community.

ACH3: Engage the creative energy of the community in strengthening a cultural vision for Nelson.

ACH4: Integrate the Arts, Culture and Heritage sector with others to enrich and build a stronger community.

Outcome: The KSBI Regional Program Manager and Events and Communications Coordinator cultivate relationships with screen-based industry (SBI) workers and companies in our region, managing our social media content and outreach, organizing and facilitating meetups, and continuing to gather feedback from the community on how to better serve SBI interests in the

region, leading to more locally-generated film, video and divergent media projects, and better exchange between people, companies, and communities.

Energy and Climate Change

ECC2: Promote and support activities and infrastructure, such as buildings and transportation, which reduce energy consumption, reduce greenhouse gas emissions and are carbon-neutral.

Outcome: The KSBI supports local sharing of gear, venues, and services, reducing the need to source and bring these items from outside of the region or travel elsewhere to complete projects. Our nascent gear rental program will improve this effect further, by making technical equipment available to local filmmakers. As a result, transportation and travel costs to complete projects can be substantially reduced. Networking through the KSBI Facebook group and in-person meetups facilitates new professional connections, increasing the opportunities to collaborate with or employ people who are in our area on aspects of projects that would otherwise need to be sourced elsewhere.

Healthy Living and Social Wellbeing

HLSW2: Foster an inclusive & respectful community where all citizens have opportunities for meaningful participation in social, cultural, economic and environmental aspects of the City.

HLSW4: Maximize opportunities for intergenerational connections, in particular as they support family development.

HLSW5: Sustain an attitude of openness and a culture of learning that adapts positively to change.

HLSW6: Support economic development activities that incorporate social justice considerations such as: affordable and acceptable childcare, housing and transportation; living wages; sufficient employment; and workplaces free of discrimination and harassment.

Outcome: There is substantial activity on our Facebook group and at our meetups, both of which are open to the public. Valuable and supportive exchanges between emerging and established SBI workers cultivate intergenerational learning and cross-pollination, resulting in more local projects engaging more local people in a variety of capacities. There is already ample evidence of this through many local projects forged out of new collaborations.

Local Economy

LE1: Proactively attract, retain, expand and foster businesses and investment in Nelson.

LE2: Foster and support entrepreneurial leadership in the community.

LE3: Maintain and further develop our diverse economy by identifying and supporting key sectors.

LE4: Focus economic development and stimulus where it contributes to community values, including a vibrant downtown and waterfront and meaningful employment opportunities that support healthy lifestyles.

Outcome: The KSBI Program is contributing substantially to the development of the local film sector - this can be seen by the exchanges on the Facebook group, the number of new members that join on a steady basis, the many collaborations between film professionals and other artists, and the engagement at meetups and within workshops, masterclasses, and mentorship programs. Our hand in supporting the Kootenay Regional Film Commission cannot be understated - the entire purpose of the commission is centred around bringing film projects to our region to make significant economic impacts. It is already beginning to see outcomes, with the first major commercial feature completed in 2022 in Fernie, and many inquiries and considerations for films in communities across the region underway on an ongoing basis.

Our project also aligns with CBT's strategic priorities in Arts, Culture and Heritage, Community Priorities, Economic Development and Non-Profit Support.

Thank you so much for your thoughtful consideration of our request.

Sincerely,

A handwritten signature in black ink, appearing to read 'Eleanor Stacey', with a stylized flourish at the end.

Eleanor Stacey

Name of Organization being sponsored if applicable -

Project Title **Our Daily Bread Food Security Program**

Project will be located in: City of Nelson

The Food Security Program will take place at the Nelson location of Our Daily Bread on Falls Street. Members of our community will be invited to pick up non perishables/ frozen foods and non perishables including diapers and infant foods on Thursdays 10-11:30am.

Importance to the community:

ODB's Food Security program will play a critical role in promoting food security, reducing hunger, and fostering community well-being by providing essential food assistance to those in need and mobilizing resources and support to address underlying issues of poverty and inequality. Residents of Nelson will benefit from the project including children and youth, low income individuals, seniors, people living with disabilities, Indigenous peoples and residents from other rural and isolated communities. Nelson is a core city and quite often, we have residents outside of Nelson from Trail, Kaslo, Nakusp, Balfour, Slocan Valley and other areas across the Basin to access services. This project is important to our community because it will address the current gap and shortage in food security programs on the weekends by providing additional resources to those in need.

Work Plan Dates: Project Start: 5/20/2024 Project End: 5/20/2025

|--------------------|--------------------|--------------------|
| \$10,000.00 | \$24,810.00 | \$24,810.00 |
|--------------------|--------------------|--------------------|

1. The project will provide:

Our Daily Bread will create a community-based program that will help to address food insecurity in Nelson, BC. Our Daily Bread plans to pilot a food security program to provide food resources such as meals, groceries and frozen food packages to individuals and communities who are facing hunger and food insecurity. The project will forge partnerships with local grocery stores, farms and food suppliers to secure donations or discounts on food items. We will collaborate with other nonprofit organizations, churches, and community centers to leverage resources and reach more people in need. Our Daily Bread will use our existing location to create the food security program and train volunteers to assist with food storage, handling and safety regulations. We will recruit volunteers from the community to help with food collection, sorting, packaging, and distribution. This project will set up systems for collecting donated food items from partners and ensure their proper storage and handling. We will work with community partners to establish regular distribution days or times when community members can access the food program (tentatively Thursdays 10-11:30am). There is a food resource shortage in Nelson and area and this pilot program will help to alleviate hunger and food scarcity by providing nonperishables to our vulnerable community members in our current economy.

2. Organization Mandate:

Our Daily Bread in Nelson, BC is a community organization that focuses on providing meals and support services to those in need. Our Daily Bread aims to address issues related to food insecurity, poverty, and homelessness within our community. We strive to provide immediate relief to those in need and contribute to long term solutions that promote equity, justice, and well-being for all members of our community.

3. Community objectives the project will work towards are:

ODB's Food Security program will play a critical role in promoting food security, reducing hunger, and fostering community well-being by providing essential food assistance to those in need and mobilizing resources and support to address underlying issues of poverty and inequality. Residents of Nelson will benefit from the project including children and youth, low income individuals, seniors, people living with disabilities, Indigenous peoples and residents from other rural and isolated communities. Nelson is a core city and quite often, we have residents outside of Nelson from Trail, Kaslo, Nakusp, Balfour, Slocan Valley and other areas across the Basin to access services. This project is important to our community because it will address the current gap and shortage in food security programs on the weekends by providing additional resources to those in need.

4. Project will address issues or opportunities pertaining to:

Our Daily Bread is Nelson's only hot meal program. We have been serving members of our community for 22 years. Five days per week, ODB offers a hot nutritious meal, social space and resource connections to provide immediate relief to those facing food insecurity and homelessness. Since covid-19, numbers of people requiring food, shelter and clothing are increasing and the demand for food is expected to increase by 60% by 2050. Most of our clients are young adults and seniors who cannot keep up with the rates of inflation and increasing cost of living. According to the 2022 Nelson Committee on Homelessness report, Nelson has the 2nd highest rate of homelessness in British Columbia's Interior and this is an undercount. This means that for every 1,000 people in Nelson, a minimum of 8 people are confirmed to be experiencing homelessness.

5. This organization is best to provide this project to the community because:

Our Daily Bread has been serving this community since 2002. The organization has previous experience in addressing food insecurity and serving vulnerable populations in our community. We have an existing building to deliver this type of program along with the community networks and partnerships that can be leveraged to launch

Project: Our Daily Bread Food Security Program

and sustain a food security program effectively. Being rooted in the Nelson community, Our Daily Bread has a deep knowledge of local needs, resources, and community services. This local knowledge can inform the development and delivery of the pilot food security program and tailor the program to suit community needs, Our Daily Bread has established trust and credibility among community members, volunteers, donors, and partners through our previous work in the community. This is instrumental in building support for the food security program and attracting volunteers and donors.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

A project manager will oversee the implementation process, supported by Our Daily Bread staff members and volunteers who will be responsible for various tasks such as project coordination, volunteer coordination, outreach, and program evaluation. The involvement of community members is crucial for the success of the pilot project. This includes individuals and families who will benefit from these services, as well as local residents who may volunteer their time, donate food items, or provide support in other ways.

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Food Donations, Volunteer support, Food Storage Space, Transportation Services picking up food from donors, fuel cost and professional services.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Executive Summary

Introduction

Household food insecurity (HFI) is when a household worries about or lacks the financial means to buy nutritious, safe, personally acceptable foods. Monitoring household food insecurity is a priority for the BC regional health authorities and the Population and Public Health (PPH) program at the BC Centre for Disease Control (BCCDC). Household food insecurity prevalence is one of the 52 provincial health equity indicators developed by PHSA and one of 13 preliminary indicators identified by the BC health authorities in the first phase of a process to prioritize indicators to monitor food security in BC.

This report is an update to the August 2016 *Priority health equity indicators for British Columbia: Household food insecurity indicator report*, published by the Provincial Health Services Authority (PHSA) in collaboration with the PROOF research centre at the University of Toronto.

This report:

- Shares literature on household food insecurity, health and evidence-based responses
- Monitors trends in the prevalence of people who live in households experiencing household food insecurity in BC
- Reports on two indicator areas prioritized in a preliminary phase of a project to refine evidence-based indicators for food security monitoring in BC: **household food insecurity and income** and **household food insecurity and mental health**
- Summarizes data on concern for food security during the COVID-19 pandemic

The data in this report helps monitor household food insecurity in the province and can inform planning and policy development to address household food insecurity. This report focuses on household food insecurity, which is distinct from the broader issue of food insecurity, and it should be interpreted alongside monitoring and surveillance of other food insecurity indicators.

Household food insecurity refers to the inadequate or insecure access to food due to financial constraints.

Food insecurity exists when factors outside an individual's control negatively impact their access to enough foods that promote wellbeing. Economic, social, environmental, and geographical factors influence this access. Food insecurity is most acutely felt by those who experience the negative impacts of structural inequities, such as discrimination and on-going colonial practices.

Review of Evidence on Household Food Insecurity

The negative impacts of food insecurity on people's physical and social wellbeing have been well documented. Systematic reviews and meta-analyses further demonstrate the associations between food insecurity and adverse health and wellbeing outcomes in child, youth, adult and senior populations. Children who live in food insecure households have increased likelihood of various adverse physical health, development, social and academic outcomes. Among adults and seniors, household food insecurity is linked with poorer dietary intake, diabetes management, cognitive health and mental health outcomes.

Household food insecurity is primarily an income-based issue that requires income-based solutions. Household income is a robust predictor of food insecurity in Canada and is tightly linked to other forms of material deprivation, as illustrated by data from several socioeconomic indicators, such as income source, housing/homeownership and employment. Sociodemographic factors, such as place of residence, education, employment status, Indigenous identity, race/cultural group, immigration status and household composition, are also tightly linked to household food insecurity prevalence and severity, as well as poverty. People with these social identities disproportionately experience food insecurity and poverty due to structural factors such as racist and colonial policies, practices and norms that have restricted access to opportunity and upward mobility; thus addressing food insecurity requires addressing the structural drivers of health and its determinants. Evidence for the relationship between household food insecurity and health provides a compelling case for interventions that improve household incomes and economic security.

Indigenous Context and Data

Understanding key challenges around food insecurity among Indigenous Peoples requires centering Indigenous contexts and lived experiences. While the analyses in this report do not include data on household food insecurity among Indigenous Peoples, the report provides historical and current context and complexities of food security and food insecurity among Indigenous Peoples, shares available data, acknowledges the importance of broader, more holistic approaches in Indigenous contexts, and identifies the need for further work to find respectful ways to include Indigenous data and ensure interventions and policies address the needs of those experiencing the highest rates of food insecurity.

Methods

The prevalence of household food insecurity in BC was assessed using data from the 2017-2018 Canadian Community Health Survey (CCHS), a cross-sectional survey administered by Statistics Canada. The relationships between household food insecurity and various economic and sociodemographic factors were examined using bivariate analyses.

3 categories of Household Food Insecurity

Marginal food insecurity:

Worry about running out of food and/or limited food selection due to a lack of money for food

Moderate food insecurity:

Compromise in quality and/or quantity of food due to a lack of money for food

Severe food insecurity:

Miss meals, reduce food intake, and at the most extreme go day(s) without food

Key Findings

- In 2017-2018, 1 in 8 (12.5%) people 12 years of age and over in British Columbia lived in households that experienced some level of household food insecurity during the previous 12 months.
 - ◆ 2.8% of people lived in households classified as severely food insecure.
- The rate of household food insecurity varied within the province, from 10.4% in the Vancouver Coastal Health region to 16.6% in the Northern Health region.
- Household food insecurity rates in BC differ depending on different economic and sociodemographic characteristics.
 - ◆ Household food insecurity was most prevalent among people in households who were in the lowest quintile of income distribution at 26.9%, including 8.1% reporting severe food insecurity, compared to 3.5% in the highest quintile for income.
 - ◆ Among people living in food insecure households, more than three quarters (75.7%) reported their main sources of income were wages, salaries or self-employment.
 - ◆ People whose main source of household income is from social assistance had the highest rate of household food insecurity (57.9%), including 32.3% experiencing severe food insecurity.
 - ◆ Renters in BC experienced disproportionately high rates of household food insecurity (23.7%) compared to those who reported owning their home (7.9%).
- Household food insecurity is associated with adverse mental health outcomes in BC.
 - ◆ Compared to people living in food secure households, those living in food insecure households reported lower rates of positive perceived mental health (93.0% vs 79.1%).

Supplement: COVID-19 and concern for food security in BC

The COVID-19 pandemic has caused unprecedented changes to social and economic life, including job losses and reduced work hours, which have resulted in financial hardship. The BC COVID-19 Survey on Population Experiences, Action and Knowledge (SPEAK) collected information about BC residents' experiences and measure impacts on social, economic, physical and mental wellness during the COVID-19 pandemic, including concern for food security, or worry that food would run out before having money to buy more. Data from this survey show that concern for food security in BC in April/May 2021 was most prevalent among populations that faced inequities stemming from structural drivers of health and wellbeing prior to the pandemic.

- People living in remote communities reported the highest rate of concern for food security (16.9%).
- People who identified as Black had one of the highest rates of concern for food security (19.9%), compared to those who identified as white, who had the lowest rate (10.0%).
- Almost half (47.4%) of people with no legal immigration status or who are refugee claimants were worried that food would run out before they had money to buy more, followed by almost one third of those who are on work or study permits (32.3%).
- Single parents living with children aged under 18 (22.5%) and unattached people living with others (27.4%) reported higher rates of concern for food security compared to parents living with a spouse/partner and children (11.3%), people living with a spouse/partner (8.5%), and unattached people living alone (15%).
- Concern for food security was most prevalent among those aged 18-34 and 35-49 (18.4% and 14.0%), and rates decreased with increasing age, with those in the age groups 65-79 and 80 and over having the lowest rates of food insecurity (5.7% and 4.1%).
- 19.6% of people who did not complete high school and 14.8% of people for whom high school was the highest level of formal education completed reported concern for food security.
- Prevalence of concern for food security was highest among people reporting the lowest annual household incomes; 40.7% of those reporting annual household incomes less than \$20,000/year and 22.9% of those reporting household incomes between \$20,000-59,000/year worried that food would run out before they had money to buy more.
- People who experienced an employment change during the pandemic had higher rates of concern for food security compared to the overall rate in BC. Nearly a third (30.4%) of those who were reported being out of work for 7 months or longer reported concern for food security.

Discussion

When considered alongside other evidence on household food insecurity in Canada, our findings support conclusions made elsewhere that dominant responses to food insecurity, such as charitable food responses, do not address the structural drivers nor the symptoms and outcomes of the issue. It is broadly recognized that reducing household food insecurity at a population level requires policies that improve household incomes. Research is needed to examine the impact of income supports on household food insecurity, and ultimately, health, including relief measures that were implemented during the COVID-19 pandemic. The data reported here also highlight the need for accessible, consistent data on household food insecurity to monitor the extent of the issue and to evaluate health and social policy responses. There is also a need to better understand challenges around food security among Indigenous Peoples to inform policies and programs that centre Indigenous contexts and lived experiences.

Conclusion

This report is an update to the August 2016 *Priority health equity indicators for BC: Household food insecurity indicator report*. It includes household food insecurity data specific to the COVID-19 pandemic and is part of BCCDC's commitment to ongoing monitoring and surveillance of household food insecurity. The data demonstrates that household food insecurity continues to disproportionately affect people and households that are marginalized due to social, economic, geographic and structural inequities.

This report is intended to increase understanding of the drivers of household food insecurity and inform policy solutions that address the intersecting inequities at the root of household food insecurity.

Introduction

Context for this report

Using the work of Davis and Tarasuk, Health Canada defines household food insecurity (HFI) as “the inability to acquire or consume an adequate diet quality or a sufficient quantity of food in socially acceptable ways or the uncertainty that one will be able to do so”, which is most often the result of inadequate income (1). PROOF defines household food insecurity as “the inadequate or insecure access to food due to financial constraints” (2). Simply put, household food insecurity is when a household worries about or lacks the financial means to buy nutritious, safe, personally acceptable foods, and it is driven by multiple exacerbating factors (3).

Food insecurity is a significant public health issue in British Columbia (BC). The BC Ministry of Health identified food security as one of its core public health programs in 2006, and monitoring food insecurity is a priority for the BC regional health authorities and the Population and Public Health (PPH) program at the BC Centre for Disease Control (BCCDC), a part of the Provincial Health Services Authority (PHSA). The PPH program at BCCDC has developed a conceptual framework - the *Conceptual Framework for Food Security Indicators* - which articulates evidence-based indicators to monitor intersectoral action on food security and its determinants. Household food insecurity is one of 13 possible new indicator areas identified by the BC health authorities in the first phase of a process to prioritize indicators to monitor food security in BC. Household food insecurity is also one of the 52 indicators included in the suite of indicators developed by the PHSA to monitor health equity (4).

This report focuses on household food insecurity, which considers the economic and financial dimensions of food insecurity and is distinct from the broader issue of food insecurity as it does not look at other factors which impact food insecurity as articulated in the BC Food Security Definitions (see Box 1) (5). As such, this report on household food insecurity should be interpreted alongside the monitoring and surveillance of other food insecurity indicators.

Box 1

Household food insecurity refers to the inadequate or insecure access to food due to financial constraints.

Food insecurity exists when factors outside an individual's control negatively impact their access to enough foods that promote wellbeing. Economic, social, environmental and geographical factors influence this access. Food insecurity is most acutely felt by those who experience the negative impacts of structural inequities¹, such as discrimination and on-going colonial practices.

Food security means that everyone has equitable access to food that is affordable, culturally preferable, nutritious and safe; everyone has the agency to participate in, and influence food systems; and that food systems are resilient, ecologically sustainable, socially just, and honour Indigenous food sovereignty.

This report is an update to the August 2016 *Priority health equity indicators for British Columbia: Household food insecurity* indicator report published by the Provincial Health Services Authority (PHSA) in collaboration with the PROOF research centre at the University of Toronto. This report:

- Shares literature on household food insecurity, health and evidence-based responses
- Monitors trends in the prevalence of people who live in households experiencing household food insecurity in BC
- Reports on two indicator areas prioritized in a preliminary phase of a project to refine evidence-based indicators for food security monitoring in BC: **household food insecurity and income** and **household food insecurity and mental health**
- Summarizes data on concern for food security during the COVID-19 pandemic

The data in this report helps monitor household food insecurity in the province and can inform planning and policy development to address household food insecurity.

¹ Structural inequities: Unfair and unjust systemic biases present in institutional policies and day-to-day practices that disadvantage certain social identities over others based on race, gender, class, sexual orientation and other domains

Review of Evidence on Household Food Insecurity

Household food insecurity is a serious public health issue in Canada. This section provides evidence on the impacts of food insecurity on health, then describes the circumstances that create household food insecurity and evidence-based interventions.

The impact of household food insecurity on diet and health

The negative impacts of food insecurity on people's physical and social wellbeing are well documented in previous reports (3). This section highlights findings from systematic reviews and meta-analyses² on the known impacts of household food insecurity on health and wellbeing.

Household food insecurity in children and youth

- There is evidence for increased likelihood of having some birth defects, anemia, lower nutrient intake, asthma, and poorer general health and hospitalization among children who are food insecure versus those who are food secure (6). Children under five years old living in food insecure households are also more likely to experience developmental delays, poorer cognitive outcomes in vocabulary and math, and challenging behavior (7).

Household food insecurity in adults and seniors

- Food insecurity is inversely associated with adult dietary quality, particularly for intakes of vegetables, fruits and dairy products. There is more evidence for the impact of food insecurity on the dietary intake of women than for men (8,9).
- While there is some evidence indicating an association between household food insecurity and diabetes control and management, the significant heterogeneity among studies limits the strength of the association (10,11).
- There is some evidence that household food insecurity in early and later life is associated with poorer global cognitive function in middle age and in older adults (12).
- There is strong evidence for an association between household food insecurity and an increased likelihood of depression, anxiety, stress and sleep disorders (13,14).

² Systematic reviews use replicable methods to identify and synthesize all possible studies on a given topic, and in some cases, critically appraise the strength of the studies included in the review. A meta-analysis is a type of systematic review where the quantitative results from several studies are combined and summarized to create a pooled estimate of an effect. Systematic reviews and meta-analyses are considered 'gold standards' among research methods because they draw conclusions from the overall body of evidence on a topic or question.

Circumstances that create household food insecurity

Household food insecurity and economic factors

Income

Research consistently demonstrates that household food insecurity is primarily an income-based issue. Household income is a robust predictor of food insecurity in Canada and is tightly linked to other forms of material deprivation (15–18), as demonstrated by data from several socioeconomic indicators summarized below.

Income source

A household's source of income is a strong predictor for household food insecurity. Households whose main source of income is from social assistance are three times more likely to be food insecure than households who have income from wages or salaries (17). By design, social assistance programs do very little to build assets that could buffer an economic shock, making households vulnerable beyond their income alone (19). Household food insecurity, however, is sensitive to changes in income supplementation programs. In BC, overall rates of household food insecurity and rates of severe food insecurity decreased following a modest enhancement to social assistance benefits between 2005-2012 (18).

Housing and homeownership

Evidence indicates disparities in household food insecurity based on homeownership status and levels of housing assets. Most food insecure households are market renters, and among homeowners, those with a mortgage on a home valued in the lowest decile of home values are most likely to be food insecure (19). Lack of affordable housing in BC is a compounding stressor for food insecurity. Housing affordability is poor or worsening across several indicators of affordability, and this is especially true among the province's four largest urban regions: Okanagan Valley, Fraser Valley, Victoria and Greater Vancouver (20). These affordability challenges are particularly concerning given research that suggests protective effects of home ownership in relation to household food insecurity (21).

Employment

While income source plays a role in susceptibility to household food insecurity, working in paid employment does not prevent household food insecurity (22). While the prevalence of household food insecurity among households that receive wages from salaries or self-employment as their main source of income is low, 51.9% of food insecure households report wages or salaries as their primary source of income (15). This indicates that earning income through paid employment is not always sufficient to prevent household food insecurity. Changes to the labour market over the last 40 years have concentrated jobs at the top and bottom of the wage distribution and contributed to a growth in low-wage and precarious work, which is a concern for economic security and a potential driver of food

insecurity. In Canada, job losses and reduced hours during the COVID-19 pandemic were largely concentrated among people in low-paid and precarious work (23).

Household food insecurity and sociodemographic factors

In Canada, the probability and severity of the experience of household food insecurity depends not only on economic factors such as income, source of income, homeownership and employment, but also on sociodemographic factors (which are closely linked to poverty) such as place of residence, education, Indigenous identity, race/cultural group, immigration status and household composition (2,15). For example, Canadian data shows that food insecurity is more prevalent among households with children. 20.9% of male lone parent households and 38.1% of female lone parent households reported household food insecurity in 2021, compared with 15.6% of couples with children in the home and 9.1% of couples without children (15).

Systemic racism: a structural driver of household food insecurity

At the root of poverty are economic factors that fail to deliver or secure an adequate income to meet basic needs. In Canada, where structural factors such as racist and colonial policies, practices and norms restrict access to opportunity and upward mobility for racialized people, household food insecurity is most prevalent among households where the respondent identifies as Indigenous (30.7%), Arab/West Asian (27.6%) or Black (22.4%) (15). In 2020, the proportion of people living in poverty among racialized groups was 13.2% compared to 8.0% for non-racialized groups in BC (24). In Vancouver, over 66% of persons living in poverty were from racialized groups in 2020 (24). While there has been a downward trend in the poverty rate in Canada, disparities between racialized and non-racialized groups continue to persist. Addressing food insecurity requires attention to the structural drivers – or ‘causes of the causes’ – that drive health and its determinants.

Evidence-based interventions to address household food insecurity

Evidence for the relationship between household food insecurity and health provides a compelling case for interventions that improve households’ economic security. Research has shown that household food insecurity is primarily an income-based issue that requires income-based solutions, and there is evidence from Canada and the United States indicating that social protection policies and interventions that provide income to households improve both household food insecurity and health (2,25).

In Canada, cash transfers in the form of children’s and seniors’ benefits have been associated with reductions in household food insecurity, particularly effective at reducing severe food insecurity among low-income families (18,25–27). Similarly, in the United States, income supplementation programs, such as the Earned Income Tax Credit, have been shown to be associated with decreased household

food insecurity and improved health outcomes (18,26–27). In-kind financial benefits, which are non-cash monetary benefits or supplemental benefits typically restricted to spending on particular goods (e.g., food, medical or housing benefits/subsidies), are designed to augment households' material resources. In the United States, the Supplemental Nutrition Assistance Program (SNAP, formerly known as the Food Stamps Program), which provides targeted food purchasing assistance to eligible low-income people and families, has been shown to reduce poverty and household food insecurity (6). A systematic review of in-kind subsidies and child food insecurity found some evidence for reductions in food insecurity and poor health among recipients of programs like SNAP and WIC, the Special Supplemental Nutrition Program for Women, Infants, and Children; however, evidence was mixed and limited in scope and quality (28). There is no evidence demonstrating that in-kind financial benefits are more effective at reducing food insecurity than cash transfers, and research has identified administrative costs, stigma and barriers to access as hindering the effectiveness of in-kind financial benefits (29). There is consensus that in order for cash transfers and in-kind benefits to effectively reduce household food insecurity, sufficient benefit amounts and program coverage are necessary (28).

Day to day feeding programs are another broad type of intervention that often target specific populations, such as people who are homeless (e.g., soup kitchens), elderly people or people with disabilities (e.g., Meals on Wheels in the United States), or low-income children (e.g., school breakfast or lunch programs). Such targeted feeding programs have been shown to have limited and mixed impacts on household food security (30,31). They have also been associated with stigma and barriers to access (such as means testing) (32), and have been recognized as insufficient for addressing the root causes of food insecurity. A systematic review found that school food assistance and breakfast programs can increase food access and improve dietary intake, while delivering social, behavioural and educational benefits (28). Currently, there is no national school food program in Canada, and the patchwork of school food programs across the country provides inconsistent access to nutritious foods at school for children (33). A recent review of Canadian school food programs identified the need for sufficient resources to deliver high-quality programming, consideration of food systems and environmental impact, and integration of the social determinants of health as key considerations for a national school food policy and program (34), though experts caution that such a program should not be seen as a solution to the broader issues of poverty and food insecurity (35,36).

There is strong evidence for the association between community food programs, such as community gardens or kitchens and box programs, and positive social outcomes such as social connectedness and sense of belonging, as well as some positive impacts on community food security. However, there is limited evidence related to the impact of community food programs on household food insecurity (25).

Overall, there are significant gaps in BC and Canada’s policy response to household food insecurity, and the evaluation of programs that target the economic drivers of food insecurity is limited (37). Charitable food assistance remains the dominant and most prominent public response to food insecurity in Canada.

Food banks emerged in Canada in response to the economic downturn of the 1980s, and have since become institutionalized as a form of social assistance alongside economic and policy trends that have stagnated incomes for those at the bottom of the income distribution (38). While food banks are designed to serve those facing immediate food needs, the vast majority of food insecure families do not access charitable emergency food assistance. Food insecure households report food banks as a last resort after other resource augmentation strategies, and only a small percentage of food insecure households report using food banks (39). Despite the BC and federal governments directing emergency funds to food banks and food security programs to support immediate needs of people facing food insecurity during the pandemic (40,41), the gap between food bank usage and household food insecurity has been even more pronounced during the COVID-19 pandemic. A nationally representative survey to track the economic and health impacts of the pandemic found that only 7.4% of food insecure households reported receiving charitable food assistance in the previous months (42).

Effective and sustained responses to household food insecurity must be evidence-based, address the root causes of the issue and be evaluated for their impact on household food insecurity. Evidence shows that dominant approaches to addressing food insecurity focused on charitable, emergency food responses, such as food banks, do not effectively address the root causes of household food insecurity. Rather, the evidence demonstrates a need to address the conditions that give rise to household food insecurity – inadequate incomes, broader material deprivation and financial insecurity, and the intersecting structural inequities that underlie them – through upstream social policies.

Indigenous Context and Data

Indigenous Peoples' relationships with their traditional territories and food systems provided food security and food sovereignty for millennia. Prior to European contact, Indigenous Peoples' relationships to food were "land-based, holistic and self-determined" (43), and vibrant food trade and sharing relationships existed. While climate disruptions and fluctuating populations of plant and animal food sources caused food availability to vary, prolonged hunger was not a common experience for most Indigenous communities (44).

While the inherent rights of Indigenous Peoples, rooted in connection to lands and waters, have never been ceded or surrendered, colonization has disrupted traditional food systems and Indigenous Peoples' relationships to food (44). Forced dislocation from their traditional territories, ecological destruction and decimation of traditional food systems, impacts of residential schools, intergenerational trauma, and more have led to experiences of prolonged hunger and food insecurity among Indigenous Peoples. While Indigenous Peoples have always been resilient in maintaining traditional food systems and practices, these colonial disruptions and ensuing food insecurity have had detrimental impacts on the mental, emotional, spiritual and physical health of Indigenous Peoples.

While the analyses in this report do not include data on household food insecurity among Indigenous Peoples, it is well documented that Indigenous people and communities today are disproportionately impacted by high rates of household food insecurity and experience unique barriers to food access and food security.

- 30.7% of First Nations people living off-reserve in the 10 provinces reported experiencing household food insecurity in 2021, the highest percentage among all racial groups (15). This included 8.8% reporting severe food insecurity.³
- Even after accounting for sociodemographic and economic factors, households whose main income earner is Indigenous remain almost twice as likely to be food insecure compared to those with white main income earners (15).³
- On-reserve, 43.5% of First Nations households in BC reported not being able to afford to eat balanced meals in the past 12 months in 2015-2017 (45).

³ These data do not include people living in the territories or on reserve, who experience very high rates of household food insecurity.

- Close to half (48%) of households living on-reserve in Canada experienced household food insecurity in 2008-2018. Regional rates were 3-5 times higher compared to the general Canadian population (12%) (46).
- 47% of families living on-reserve reported running out of traditional food before they could replenish their supplies, and 77% desired to serve traditional food more often (46).
- There is little data available specific to food security and food insecurity among Métis and Inuit people in BC.

Understanding key challenges around food insecurity among Indigenous Peoples requires upholding inherent rights and centering Indigenous contexts and lived experiences. Tensions can exist for many Indigenous households who rely on income and must find a balance between time and energy spent in mainstream economic activities (i.e., participating in the wage economy or paid work), with time and energy for harvesting, preparing and preserving traditional foods from the land and passing food-related knowledge to current and future generations (43). At the same time, many Indigenous Peoples rely on traditional foods and food sources, especially in times where lack of income and rising food costs inhibit their access to market foods. When food from the lands and waters are not harvested, eaten and shared, and knowledge is not transferred, relationships between Indigenous Peoples, food, land and culture are disrupted, and in turn, the health of both current and future generations is impacted deeply (47). Thus, measures to support harvesting, access, exercising land rights, and intergenerational knowledge transfer, in addition to adequate incomes, are critical.

Indigenous scholars and Knowledge Keepers have articulated the need for broader, more holistic approaches in Indigenous contexts: “The criticisms of food security measures clearly point to the need for Indigenous voices, values and beliefs in food and nutrition studies” (48). The Working Group on Indigenous Food Sovereignty has identified that Indigenous Peoples’ ability to respond to their own needs for adequate amounts of Indigenous foods in the forests, fields and waterways requires framing within ecological, cultural and temporal scope and scale of Indigenous food systems (49).

Food security for Indigenous Peoples is intrinsically tied to food sovereignty, self-determination (UNDRIP Article 23) and access to land (UNDRIP Article 26), and requires Nation-to-Nation leadership and decision making. Both the UN Declaration on the Rights of Indigenous Peoples (UNDRIP) (50) and BC Declaration on the Rights of Indigenous Peoples Act (DRIPA) (51) recognize

and affirm Indigenous rights to self-determination, and the Truth and Reconciliation Commission's (TRC) Calls to Action (52) call for governments to acknowledge the impact of government policies on Indigenous health (18) and take action to identify and close gaps in health outcomes (19). The Province has reaffirmed its commitments to Indigenous Peoples through the Declaration on the Rights of Indigenous Peoples Act Action Plan (Action Plan) (53), which prioritizes the maintenance of traditional foods and systems over the next five years. The Action Plan highlights the following food security related outcomes the Province is striving towards:

- Indigenous food systems are recognized and supported in their foundational and interconnected role in providing cultural, social, environmental and economic well-being; and,
- Indigenous Peoples have meaningful and sufficient access to abundant and healthy traditional foods and have peaceful enjoyment of their harvesting rights.

Further work to find respectful ways to include Indigenous data is essential to ensure interventions and policies meet the needs of those experiencing the highest rates of food insecurity. The First Nations Population Health and Wellness Agenda (54) (a partnership between FNHA and the Office of the Provincial Health Officer (OPHO)) and Métis Public Health Surveillance Program (55) (a partnership between Métis Nation BC, OPHO and the Ministry of Health) demonstrate commitments to monitor and report on First Nations and Métis indicators including those related to food insecurity, traditional foods and Indigenous food sovereignty.

Methods

Measuring household food insecurity in Canada: The Canadian Community Health Survey

Data used in the main section of this report comes from the 2017/2018 Canadian Community Health Survey (CCHS), a cross-sectional survey administered by Statistics Canada that collects health-related information from approximately 130,000 Canadians. The sample is representative of the Canadian population 12 years of age and over living in the provinces and territories, but it excludes individuals living on First Nations reserves, Crown Lands, or in some Quebec health regions, full-time members of the Canadian military, and persons in prisons or care facilities.

Household food insecurity has been measured in Canada since 2004 using the Household Food Security Survey Module (HFSSM), a standardized and validated scale of household food insecurity that measures inadequate or insecure access to food due to financial constraints. The module monitors households'

experiences of food insecurity of the previous 12 months and consists of 18 questions on a range of conditions, from worrying that food will run out to modifying the amount of food consumed. The questions distinguish between the experiences of adults and children. Households with zero affirmative responses are classified as food secure, while households with one or more affirmative responses are classified as food insecure. Households are further classified as experiencing either *marginal*, *moderate*, or *severe food insecurity*, representing a spectrum of experiences with food insecurity (see Box 2) (2). Marginal food insecurity is defined by no more than one affirmative response, moderate food insecurity by two to five affirmative responses and severe food insecurity by six or more affirmative responses. While Statistics Canada reports on only moderate and severe food insecurity, this report adopts the use of marginal, moderate and severe food insecurity recommended by the PROOF research centre at the University of Toronto and used by BCCDC in the 2016 *Priority health equity indicators for British Columbia: Household food insecurity indicator report* (3).

Box 2

3 categories of Household Food Insecurity

Marginal food insecurity:

Worry about running out of food and/or limited food selection due to a lack of money for food

Moderate food insecurity:

Compromise in quality and/or quantity of food due to a lack of money for food

Severe food insecurity:

Miss meals, reduce food intake, and at the most extreme go day(s) without food

The prevalence of household food insecurity in this report is measured at the level of individuals 12 years of age and older who live in households that experience household food insecurity. Measurement of household food insecurity at the individual level, rather than at the household level, differs from previous reporting of household food insecurity in British Columbia (3) and in Canada (2). This discrepancy is because this report uses data from the CCHS Public Use Microfile (PUMF) rather than the CCHS Masterfile. Due to the risk of disclosure, household weights are not included on the PUMF. By applying individual weights supplied by Statistics Canada on the PUMF, the prevalences reported here reflect the proportion of individuals who reported living in households with food insecurity, and not the proportion of households experiencing food insecurity. Thus, data included in this report should not be directly compared to other reports of household food insecurity measured at the level of households.

Analytical approach

The data were analyzed to 1) determine the overall prevalence of household food security in BC at the provincial, Health Authority, and Health Service Delivery Area (HSDA) levels, and 2) to examine, using bivariate analyses, the relationship between household food insecurity and various economic and sociodemographic factors identified in the evidence review as influencing household food insecurity such as geography, income, income source and homeownership. These variables were selected through discussion and engagement with the Health Authority Food Security Committee. The relationship between household food insecurity and mental health, one of the indicator areas prioritized in the initial prioritization phase of the *Developing Provincial Food Security Indicators for BC* project, was also examined using bivariate analysis.

Findings

Prevalence of Household Food Insecurity across British Columbia

In 2017-2018, 12.5% of people 12 years of age and over in British Columbia lived in households that experienced some level of food insecurity during the previous 12 months, with 2.8% of people living in households that are classified as severely food insecure. This means that 1 in 8 people lived in households that experienced household food insecurity.

Reporting the total number of people living in food insecure households in BC is not possible with the data used in this report; however, it has been reported elsewhere that there are approximately 732,000 food insecure households in BC (15).

Across BC health authorities, the prevalence ranged from 10.4% in Vancouver Coastal Health to 16.6% in Northern Health (Figure 1). Marginal and moderate food insecurity contributed to Northern Health having the highest overall household food insecurity rate; however, the highest rate of severe food insecurity was in Interior Health, with a prevalence of 4.0%.

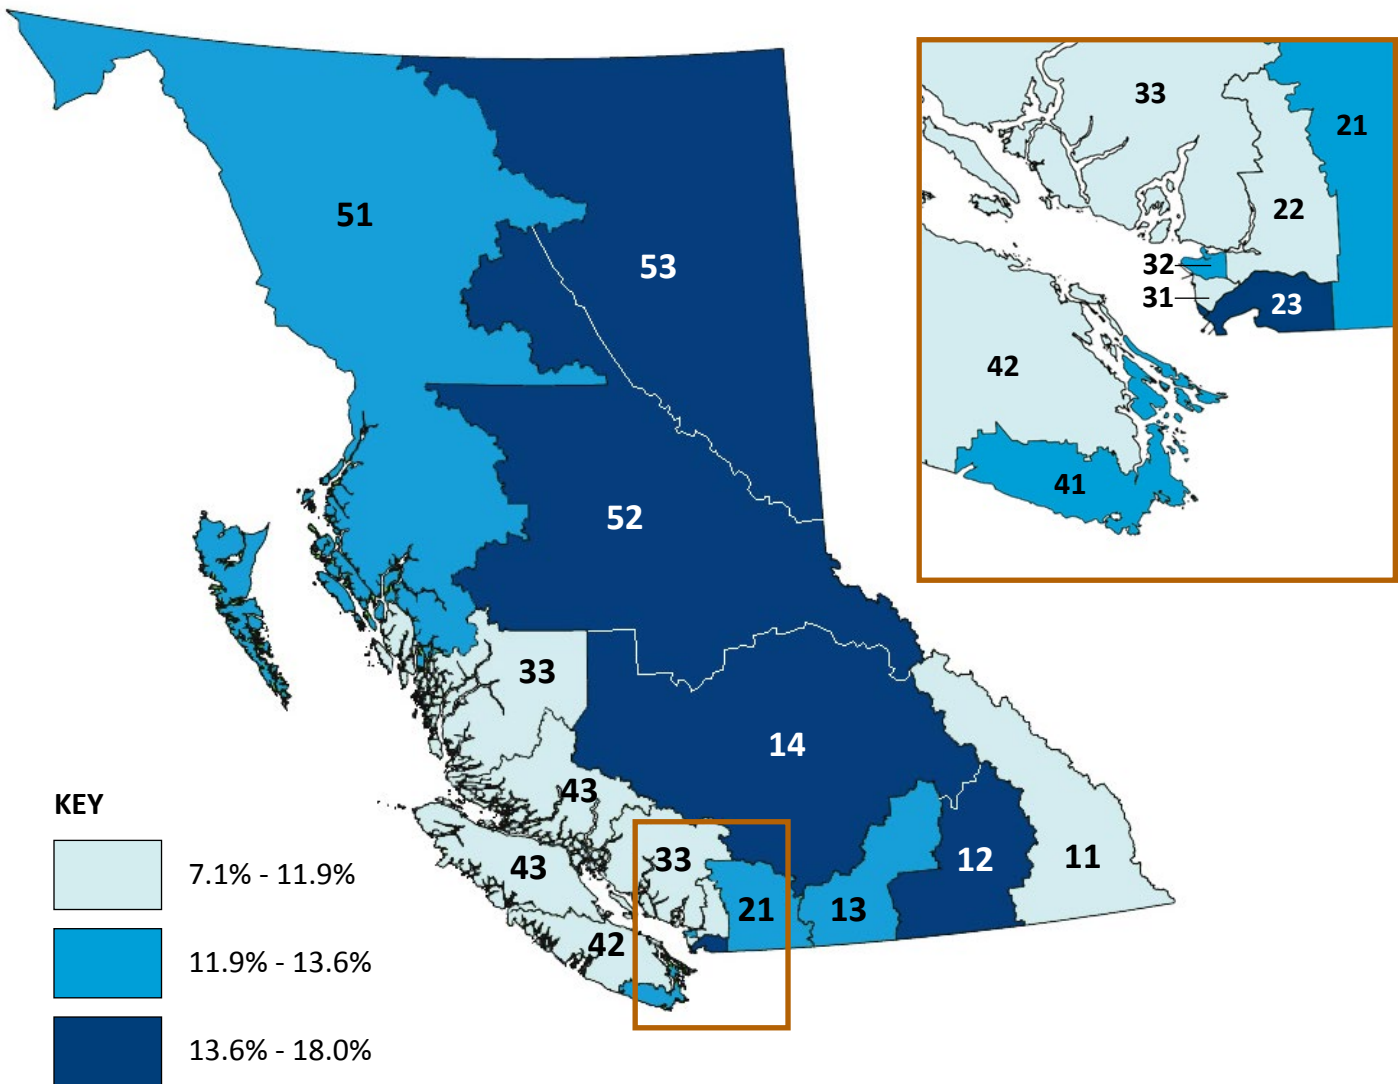

Figure 1. Prevalence of people living in households with food insecurity status in British Columbia by Health Authority

| | Interior | Fraser | Vancouver Coastal | Island | Northern | BC |
|--------------------------|----------|--------|-------------------|--------|----------|-------|
| Total | 13.4% | 13.1% | 10.4% | 12.3% | 16.6% | 12.5% |
| Severe food insecurity | 4.0% | 2.3% | 2.4% | 3.2% | 3.8% | 2.8% |
| Moderate food insecurity | 5.3% | 6.3% | 4.6% | 5.8% | 6.9% | 5.7% |
| Marginal food insecurity | 4.1% | 4.5% | 3.4% | 3.3% | 5.9% | 4.0% |

The rate of household food insecurity varied across the 16 Health Service Delivery Areas (HSDAs) in BC, with a more than twofold difference between the highest (Northeast, 18%) and lowest (North Shore/Garibaldi, 7.1%) (Figure 2).

Figure 2. Prevalence of people living in households with food insecurity status in British Columbia across Health Service Delivery Areas (HSDAs)

- | | | |
|-----------------------------|--------------------------------|---------------------------|
| 11 East Kootenay | 23 Fraser South | 43 North Vancouver Island |
| 12 Kootenay Boundary | 31 Richmond | 51 Northwest |
| 13 Okanagan | 32 Vancouver | 52 Northern Interior |
| 14 Thompson Cariboo Shuswap | 33 North Shore/Coast Garibaldi | 53 Northeast |
| 21 Fraser East | 41 South Vancouver Island | |
| 22 Fraser North | 42 Central Vancouver Island | |

Which households are most susceptible to household food insecurity?

Household food insecurity and economic factors

Household food insecurity is fundamentally a measure of a lack of economic access to food that is tightly linked to other indicators of social and economic disadvantage. Not surprisingly, household food insecurity is related to a household's income, source of income and other indicators of economic security (such as housing).

Household food insecurity was more prevalent among people in households who were in the lowest quintiles⁴ of income distribution, a relative measure of their household income compared to the household incomes of other respondents adjusted for household and community size (Figure 3). Of those in the lowest quintile, 26.9% were food insecure with 8.1% reporting severe food insecurity, compared to 3.5% in the highest quintile.

⁴ Quintile refers to any of five equal groups into which a population is divided according to the distribution of values of a particular variable.

Figure 3. Prevalence of people living in households with food insecurity status in British Columbia and household income quintile

| | Quintile 1 (Less than \$20,000) | Quintile 2 (\$20,000-39,999) | Quintile 3 (\$40,000-59,999) | Quintile 4 (\$60,000-79,999) | Quintile 5 (\$80,00+) |
|--------------------------|------------------------------------|---------------------------------|---------------------------------|---------------------------------|--------------------------|
| Total | 26.9% | 14.8% | 12% | 5.6% | 3.5% |
| Severe food insecurity | 8.1% | 2.8% | 2.2% | 2.2% | 0.3% |
| Moderate food insecurity | 11.9% | 7.5% | 5% | 0.7% | 1.9% |
| Marginal food insecurity | 6.9% | 4.5% | 4.8% | 2.7% | 1.3% |

There are marked differences in the prevalence of people experiencing household food insecurity when the main source of household income is from social assistance, with 57.9% reporting any food insecurity, and 32.3% experiencing severe food insecurity (Figure 4). The lowest rates are among people living in households where the main source of income is from government pensions (6.5%). The grouping of different income support programs in the CCHS limit the extent to which firm conclusions can be drawn about the extent to which recent reforms to income support programs (such as the Canada Child Benefit or Canada Workers Benefit) have impacted the prevalence of household food insecurity. This data from 2017-2018 also precedes the introduction of BC Poverty Reduction Strategy actions to increase rates and implement the Child Opportunity Benefit; as such, conclusions cannot be made about the impact of these strategies on household food insecurity.

Figure 4. Prevalence of people living in households with food insecurity status in British Columbia and households' main source of income

| | Wages, salaries or self-employment | Employment insurance, workers compensation, social assistance | Seniors income from government | Dividends/interest, child tax benefit, child support, alimony, other or no income |
|---------------------------------|------------------------------------|---|--------------------------------|---|
| Total | 12.4% | 57.9% | 6.5% | 11.6% |
| Severe food insecurity | 2.2% | 32.3% | 1.9% | 2.1% |
| Moderate food insecurity | 6.0% | 19.3% | 2.9% | 4.8% |
| Marginal food insecurity | 4.3% | 6.2% | 1.7% | 4.6% |

While the prevalence for people living in food insecure households where the main source of household income was from wages and salaries is relatively low, among all people living in food insecure households, 75.7% reported their main source of income were wages, salaries or self employment (Figure 5).

Figure 5. Income sources among people living in households with food insecurity status in British Columbia

Household food insecurity is much more prevalent among those who rent rather than own their home, with 23.7% of renters and 7.9% of owners affected by some degree of household food insecurity (Figure 6). Among those experiencing household food insecurity, 55.3% rented their home, compared to 44.7% who owned their home.

Figure 6. Prevalence of people living in households with food insecurity status in British Columbia by renter/homeownership

| | Rent | Own |
|--------------------------|-------|------|
| Total | 23.7% | 7.9% |
| Severe food insecurity | 6.9% | 1.1% |
| Moderate food insecurity | 10.5% | 3.7% |
| Marginal food insecurity | 6.3% | 3.0% |

Household food insecurity and sociodemographic factors

Analysis of sociodemographic factors, such as race, immigration status and household composition (e.g., households with children), in the BC context is not possible with the CCHS Public Use Microdata File (PUMF) that has been used in this report, and which is the most widely available source of national health survey data for public health decision-making. However, it has been well documented elsewhere that food insecurity is strongly related to other forms of social and economic disadvantage. For example, 2021 CIS data analyzed by PROOF shows that racialized groups, and especially Indigenous peoples, experience disproportionately high rates of household food insecurity (15).

Food insecurity is most acutely felt by those who experience the negative impacts of structural inequities, such as discrimination and on-going colonial practices.

Household food insecurity and mental health

People experiencing household food insecurity reported lower rates of positive (excellent, very good or good) perceived mental health compared to those who are food secure, at 79.1% versus 93.0%. This is consistent with the robust evidence for the increased likelihood of depression, anxiety and sleep disorders among those who are food insecure compared to those who are food secure (13). Proposed mechanisms for this relationship include a stress response that may contribute to poorer mental health, or an increased psycho-emotional burden from poorer social relationships given the importance of food to social connection and inclusion in community (14). It should also be noted here that the relationship between mental health and household food insecurity can be bi-directional, as mental health issues can pose challenges to workforce participation and employment, which can, in turn, exacerbate financial stress, poverty and household food insecurity (56).

Supplement: COVID-19 and Concern for Food Security in BC

The COVID-19 pandemic has caused unprecedented changes to social and economic life. Measures necessary to contain the virus have led to job losses and reduced work hours, especially among people in low-wage and precarious work in the food and retail sectors in Canada (23), reflecting long-standing inequalities that the current crisis has exacerbated. Loss of income raises concerns about growing household food insecurity. Data from several sources show that the financial hardships brought on by the pandemic may have impacted household food insecurity. For example, early monitoring by Statistics Canada, using the 6-item short form HFSSM⁵, found that between March and May 2020, one in seven Canadians (14.6%) indicated living in households experiencing food insecurity in the previous 30 days (57). Those who were absent from work due to COVID-19 were more likely to be food insecure (28.4%) than those who were working (10.4%). Taking into account differences in how food security was assessed by Statistics Canada early in the pandemic and in pre-pandemic monitoring suggests a 39% increase in the prevalence of household food insecurity during the pandemic (42).

The BC COVID-19 Survey on Population Experiences, Action and Knowledge (SPEAK) (58) was developed by health system partners in the Province of BC to collect information about BC residents' experiences and measure impacts on social, economic, physical and mental wellness during the COVID-19 pandemic. Two province-wide, cross-sectional, web-based population health surveys were conducted one year apart (May 2020 and April/May 2021). Here, BC residents' experience of concern for food security from round two of the BC COVID-19 SPEAK (58) is reported.

Methods

The BC COVID-19 SPEAK Round 2 (58) was an observational cross-sectional, voluntary, online survey administered in April/May 2021. The target population was residents of British Columbia aged 18 years of age or older. From a final number of 206,241 respondents, a sample of 188,561 was used in the final analytical dataset⁶. Data was weighted using 2016 Canadian Census data by geography (HSDA, Local Health Area (LHA), and Community Health Service Area (CHSA)) at the level of the individual for age,

⁵ The 6-item short form questionnaire includes 6 questions from the 18-item HFSSM and asks about past 30-day food insecurity experiences, while the full HFSSM on the CCHS asks about experiences based on the past 12 months.

⁶ The final analytical dataset for the BC COVID-19 SPEAK Round 2 (58) only included surveys where a Health Service Delivery Area (HSDA) geography, age and sex were assigned and the respondent must have progressed to at least 33% of the survey. Identified duplicate responses and those who withdrew consent after the survey was submitted were removed from the final analytical sample.

sex at birth, education level and ethnicity to ensure a representative sample. Therefore, the data presented in this supplement section represents individual, and not household, experiences of concern for food security.

There are important differences between the measurement of food security concern in the BC COVID-19 SPEAK survey compared to routine monitoring of household food insecurity in Canada. In the BC COVID-19 SPEAK (58), the experience of food insecurity was measured using a single question from the routine HFSSM measure, compared to the Canadian Community Health Survey (CCHS) that uses the full 18-question HFSSM to measure household food insecurity. For this reason, the experiences of concern for food security reported in this supplement should not be directly compared to household food insecurity data from the CCHS reported in this report.

The BC COVID-19 SPEAK (58) asked respondents to answer the question “Please indicate whether the following statement is often true, sometimes, or never true since the COVID-19 pandemic. You worry that food will run out before you get money to buy more.” Those who selected “often true” or “sometimes true” were classified as having concern for food security, while those who selected “never true” were classified as having no concern for food security. Those who selected “I don’t know” or “Prefer not to answer” or with no selection were excluded from the analysis. Responses to this single question related to worry about food running out should be interpreted as an individual’s experience with food worry or concern for food security, rather than experiences with household food insecurity, which is a complex construct that includes worry as well as compromising food quality and quantity (2).

Analytical approach

The BC COVID-19 SPEAK (58) data were analyzed to 1) determine the proportion of respondents who reported concern for food security at the provincial, Health Authority, and Health Service Delivery Area (HSDA) levels, and 2) to examine, using bivariate analyses, the relationship between concern for food security and various economic and sociodemographic factors identified in the literature and by the Health Authority Food Security Committee as important factors related to food security. Variables of interest included geographic location, self-reported race/ethnicity, immigration status, family composition, age, education, household income and reported changes in employment during the COVID-19 pandemic.

Equity-based analysis of concern for food security

The BC COVID-19 SPEAK (58) data shows that, in April/May 2021, concern for food security in BC was most prevalent among populations that were facing inequities stemming from structural drivers of health and wellbeing prior to COVID-19:

People who reside in remote communities:

Rates of concern for food security were highest in Northern Health. People in remote regions had the highest rate of concern for food security at 16.9%. Half of remote regions in the province are in the Northeast Health Service Delivery Area (HSDA).

Racialized people:

People who identify as Black had one of the highest rates of concern for food security at 19.9%, compared to 10.0% among those who identified as white, who had the lowest rate. Data specific to Indigenous people are not included in this report based on the need for data sovereignty.⁷

Immigration status:

Almost half (47.4%) of people with no legal immigration status⁸ or who are refugee claimants reported worry that food would run out before they had money to buy more, followed by those who are on work or study permits at 32.3%.

⁷ OCAP® asserts that First Nations alone have control over data collection processes in their communities, and that they own and control how this information can be stored, interpreted, used, or shared. In accordance with Indigenous Data Governance practices in B.C., COVID-19 SPEAK (58) data from Indigenous respondents is provided to the First Nations Health Authority and Métis Nation B.C. to determine how best to use the data in planning and engaging Indigenous communities across the province.

⁸ Are not a Canadian citizen, do not have permanent residency in Canada or do not have a work/study visa

Findings

The overall prevalence of people reporting worry about food running out before having money to buy more in BC was 12.3%. Prevalence was highest in Northern Health, at 15.5%. The prevalence of concern for food security reported here was overall lower than reported in the first round of the BC COVID-19 SPEAK (58), at 15.6% overall prevalence in BC and 18.4% in Northern Health, in May 2020. The higher prevalence in May 2020 is likely attributed to the emergency context of the early days of the pandemic, while the findings from round 2 (April/May 2021) reported here are likely more reflective of the longer-term, sustained impacts of COVID-19 on food insecurity in BC. Please see the Appendix for statistical results from the BC COVID-19 SPEAK survey.

Rates of concern for food security were relatively consistent across health authorities, ranging from 11.1% in Vancouver Coastal Health to 15.5% in Northern Health. However, they varied more widely across Health Service Delivery Areas (HSDAs), with North Shore/Coast Garibaldi having the lowest prevalence (8.3%) and the Northeast region the highest (19.9%).

Figure 7. Prevalence of people who reported concern for food security in British Columbia by Health Authority

Figure 8. Prevalence of people who reported concern for food security by Health Service Delivery Area (HSDA)

The level of urbanization of respondents' geographic location was classified by Community Health Service Area (CHSA) urban-rural classifications (metropolitan, large-urban, medium-urban, small-urban, rural-hub or rural or remote). Remote CHSAs had the highest rate of concern for food security (16.9%), consistent with existing evidence on the intersecting economic and geographic factors that contribute to food access issues in remote communities (59). Half of the remote CHSAs are in the Northwest HSDA. There were minimal differences in concern for food security between rural and urban CHSAs. This finding is consistent with previous results that report minimal differences between rural/urban residence (17), and may reflect lower cost of housing in rural areas that mitigates the impact of other economic hardships.

Figure 9. Prevalence of people who reported concern for food security by Community Health Service Area (CHSA) urban-rural classifications

There are marked differences in the prevalence of concern for food security based on self-reported race/ethnicity. Previous research has shown that racialized populations experience higher rates of food insecurity than those who identify as white due to structural racism and social and economic determinants of food insecurity (such as poverty, unemployment and disability) act as significant drivers of racial disparities in food insecurity. In the BC COVID-19 SPEAK (58), the highest rates of concern for food security were found among people who did not identify with the racial/ethnic categories included in the survey (21.4%) and among people who identified as Black (19.9%). Data specific to First Nations, Inuit and Métis are not reported here, due to need for data sovereignty and community-led decision-making as the foundation of respectful relationships in health reporting (60).

Figure 10. Prevalence of people who reported concern for food security by race/ethnicity

The prevalence of concern for food security differed based on people’s immigration status. People with no status or refugee claimants and those on work or study permits had the highest rates, at 47.3% and 32.3% respectively. This finding is consistent with Canadian studies which have shown that international students experience higher rates of food insecurity compared to their peers (61-63).

Figure 11. Prevalence of people who reported concern for food security by immigration status

Rates of concern for food security differed by family composition. Prevalence was highest among unattached individuals living with others (27.4%) and single parents living with children under the age of 18 (25.5%). People living with a spouse or partner and no children had the lowest rate (8.5%).

Figure 12. Prevalence of people who reported concern for food security by family composition

The prevalence of concern for food security was highest among those aged 18-34 and 35-49, at 18.4% and 14.0% respectively. Prevalence decreased with increasing age, with those in the age groups 65-79 and 80 and over having the lowest rates at 5.7% and 4.1% respectively.

Figure 13. Prevalence of people who reported concern for food security by age

Prevalence of concern for food security also differed based on levels of formal education. While people with a university degree had the lowest prevalence (6.3%), 19.6% of people who did not complete high school and 14.8% of people for whom high school was the highest level of formal education completed reported concern for food security.

Figure 14. Prevalence of people who reported concern for food security by education

Similar to the CCHS data in this report, which showed that household food insecurity was more prevalent among people in households who were in the lowest quintiles of income distribution, concern for food security was most prevalent among respondents to the BC COVID-19 SPEAK (58) with the lowest annual household incomes. The highest prevalence of concern for food security was among people with household incomes less than \$20,000/year (40.7%) and between \$20,000-59,000/year (22.9%). The prevalence of concern for food security decreased as income increased, and the rate for those with incomes greater than \$60,000/year was lower than the overall provincial rate of 12.3%.

Figure 15. Prevalence of people who reported concern for food security by annual household income

People who experienced an employment change during the pandemic had higher rates of concern for food security compared to the overall rate in BC. The rate was highest among those who were out of work for 7 months or longer, at 30.4%. This finding is consistent with the data that has been reported elsewhere on food insecurity among those who were absent from work due to business closure, layoff or personal circumstances (57).

Figure 16. Prevalence of concern for food security among people experiencing an employment change during the COVID-19 pandemic

Summary of findings

- Analyses of 2017/2018 CCHS data show that 12.5% of people 12 years of age and over in BC lived in households experiencing food insecurity. These results are largely unchanged from the previous August 2016 report on household food insecurity in BC; however, changes in the sampling methods of the CCHS between 2015 and 2017/2018 limit the extent to which comparisons can be made over time.
- The sociodemographic profile of people living in food insecure households has remained largely unchanged since household food insecurity has been consistently monitored in Canada, and tracks with other social and economic markers of health and wellbeing. Those most likely to be food insecure include people in households with economic disadvantage and most impacted by the negative impacts of structural inequities. In the April/May 2021 BC COVID-19 SPEAK (58), racialized people, refugees, people without legal immigration status and those currently unemployed reported concern that food will run out before they have money to buy more at disproportionately high rates.
- The prevalence of food insecurity varied across the province in 2017/2018, with Northern and Interior Health regions experiencing the highest rates. The BC COVID-19 SPEAK (58) provides additional insights into the role of geographical region of residence. Remote regions had the highest rate of people reporting concerns about food security, while there were fewer differences between urban and rural areas.
- Results from this report suggest lower rates of positive perceived mental health for those who experience household food insecurity, and the negative impacts of household food insecurity on overall health are well documented elsewhere.

Discussion

Food insecurity in BC is a significant public health concern and a key indicator of health equity. When considered alongside other evidence on household food insecurity in Canada, our review of the literature and analysis of the CCHS 2017/2018 and the BC COVID-19 SPEAK (58), a survey of the experience of BC residents during the pandemic, support conclusions made elsewhere that dominant responses to food insecurity, such as charitable food responses, do not address the structural drivers nor the symptoms and outcomes of the issue. Only a small proportion of food insecure households utilize food banks, which were the focus of several policy initiatives to respond to the unintended and immediate consequence of the COVID-19 pandemic.

It is broadly recognized that reducing household food insecurity at a population level requires policies that improve household incomes. Recent Canadian evidence shows that household food insecurity is sensitive to policies that increase economic security, such as the Canada Child Benefit. More research is needed to examine the impact of income supports on household food insecurity, and ultimately, health, including relief measures that were implemented during the COVID-19 pandemic.

There is a need for accessible, consistent data on household food insecurity to monitor the extent of the issue and to evaluate health and social policy responses. Since 2004, Statistics Canada has systematically monitored household food insecurity at the household level using the Household Food Security Survey Module (HFSSM) in the Canadian Community Health Survey (CCHS). Between 2015/2016 and 2021/2022, the HFSSM is included as 2-year themes in alternating biennial CCHS survey cycles. On the off cycles, it is optional content where the provinces and territories decide whether or not to collect the information for their jurisdiction. In BC, the health authorities and the Ministry of Health determine the optional content. In 2017/2018 and 2021/2022, HFSSM was 2-year theme content. In 2015/2016 and 2019/2020 when it was optional content, BC selected HFSSM for 2015/2016 but opted out for 2019/2020 in order to balance other data needs. Since 2019, food insecurity information has been collected in the Canadian Income Survey, an annual cross-sectional survey examining income and income sources of Canadians. More precise measurement of income will improve the monitoring and surveillance of one of the key drivers of household food insecurity and allow for evaluation of the impact of policies that improve economic security.

This report does not include analyses specific to Indigenous Peoples and recognizes limitations and gaps in data related to household food insecurity among Indigenous Peoples. It also acknowledges some of the limitations of income-based approaches to addressing the complex issue of food insecurity, particularly

within Indigenous contexts in which food security is inherently tied to food sovereignty and self-determination. Further work is required to better understand and centre Indigenous contexts and lived experiences in order to inform policies and programs to support food security for Indigenous Peoples in BC while respecting and upholding inherent rights.

Conclusion

This report is an update to the August 2016 *Priority health indicators for BC: Household food insecurity indicator report*. It includes household food insecurity data specific to BC from the 2017/2018 Canadian Community Health Survey, as well as data specific to concerns about food security during the COVID-19 pandemic. This report is part of BCCDC's commitment to ongoing monitoring and surveillance of household food insecurity in the province.

The data in this report demonstrate that household food insecurity continues to disproportionately affect people and households that are marginalized due to structural, social, economic and geographic inequities. The provincial rate of people living in households experiencing food insecurity is concerning given the known impacts of household food insecurity on health and wellbeing. The data and literature in this report are intended to increase understanding of the drivers of household food insecurity and inform evidence-based policy solutions that address the intersecting inequities at the root of household food insecurity.

Organization **West Kootenay Recreational Dirt Bike and ATV Society**

Registration # S0043250

1832 Pass Creek Rd, Castlegar BC V1N 4S6

Name of Organization being sponsored if applicable -

Project Title **Kootenay Motocross Bathroom Upgrades**

Project will be located in: RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, RDCK Area K, City of Nelson, Town of Creston, City of Castlegar

This project will take place at the Kootenay Motocross Track (KMX), which is located near the Bombi summit about halfway between Castlegar and Salmo, about 7km from the Highway 22 and Highway 3 junction, 1.5 km up a FSR.

At the KMX, the new outhouse facility will be located between the youth/beginner training facility and the main track. This will ensure easy accessibility and a central location for all participants and viewers. This location is also close to water lines so that cleaning is easy.

Importance to the community:

We have over 200 members, ranging in age from 5 to 65, from across the West and East Kootenay. Our members come from Nelson and Castlegar (16% each), 12% from RDCK Area H, 8% from RDCK Area B and 6% each from RDCK Area A and RDCK Areas C and G. We have regular day pass participation from all other areas of both regional districts.

This project will provide a more comfortable and sanitary setting for our local members and visitors. In 2023 we held three motocross races, one "hare scramble" and two skills clinics. Our races attracted between 70 and 130 riders. Through September we ran weekly ladies/kids nights with participation of 8-12 individuals. Our annual Tree Hugger hare scramble sees more than 140 participants from across BC. All users at both open track nights and planned races and events, as well as spectators, will benefit from this project.

Work Plan Dates: Project Start: 6/1/2024 Project End: 7/1/2024

| RDCK ReDi FUNDING REQUESTS | | | | |

| Total ReDi Funding Requested | Total from Other Sources | Total Project Cash Budget |
|------------------------------|--------------------------|---------------------------|
| \$18,000.00 | \$26,033.00 | \$26,033.00 |

1. The project will provide:

Over the next 3 years we want to grow our membership by encouraging and enabling more family participation at KMX. To achieve this we are planning to undertake upgrades to staging and facility services and youth track and trail options. This includes upgrading and relocating the bathroom facilities; improving access for safety; adding covered spaces with seating; improving the youth track so it better enables skill development across beginner and intermediate level riders; and constructing a beginner trail circuit.

As part of these larger facility upgrade plans, for this project component we are requesting funding to purchase and install a permanent high grade outhouse structure. This will replace two existing, run-down plywood outhouses. Leko Precast from Vernon BC will be engaged to complete this project. The bathroom facility will be the same standard as used in BC Park and Recreation Sites. Society volunteers will support installation as needed. In future years a second permanent outhouse will be installed.

2. Organization Mandate:

Founded in 2004, WKR DAS is the primary dirt bike club in the West Kootenay. The mandate of the society is to gain respect from others about the sport; educate individuals young and old on safe and responsible riding and land use; and to work together with others for joint use of trails, roads and open land. WKR DAS operates the Kootenay Motocross Track (KMX) and tree hugger trails and the Rover Creek trail network. We average an annual revenue of about \$40,000 coming primarily from memberships, day passes and event fees. Expenses are kept within revenue availability with occasional exception for major equipment purchases, such as in 2021 when we purchased a dozer for track maintenance.

3. Community objectives the project will work towards are:

We have over 200 members, ranging in age from 5 to 65, from across the West and East Kootenay. Our members come from Nelson and Castlegar (16% each), 12% from RDCK Area H, 8% from RDKB Area B and 6% each from RDKB Area A and RDCK Areas C and G. We have regular day pass participation from all other areas of both regional districts.

This project will provide a more comfortable and sanitary setting for our local members and visitors. In 2023 we held three motocross races, one "hare scramble" and two skills clinics. Our races attracted between 70 and 130 riders. Through September we ran weekly ladies/kids nights with participation of 8-12 individuals. Our annual Tree Hugger hare scramble sees more than 140 participants from across BC. All users at both open track nights and planned races and events, as well as spectators, will benefit from this project.

4. Project will address issues or opportunities pertaining to:

The current track facilities are very basic. There are two existing outhouse structures that are in poor condition and poorly located. They are constructed out of plywood making them difficult to clean and kept free of critters. As usership increases it is crucial for sanitation and comfort to have better facilities. In 2023 we had 299 racers, plus

Project: Kootenay Motocross Bathroom Upgrades

spectators, over three events. A higher standard bathroom facility is critical for accommodating this kind of visitation and usage, and ensuring sanitary conditions onsite.

5. This organization is best to provide this project to the community because:

WKR DAS operates the KMX and tree hugger trails and the Rover Creek trail network. KMX is a volunteer run motocross track and Trail system. KMX Features a full MX Track, Kids MX Track and a 23km trail loop. Rover Creek has ~50km of trails. We have been successfully maintaining these facilities as volunteers since 2004 and are confident in our long term ability to deliver on this project. We maintain a license of occupation with the Provincial government for the maintenance and operation of the KMX track and trails, and a water license for our watering system. The trails at Rover Creek are managed through a BC Rec Sites and Trails partnership agreement.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The project will be led by board member Floyd Babiak with support from president Jessica Foster. Vernon based Leko Precast will prepare, deliver and install all materials and supplies. Society volunteers will assist as needed.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Project co-ordination will be volunteer in-kind time.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Nelson Community Food Centre**

Registration # 82876 2344 RR0001
602 Silica St., Nelson BC V1L 4N1

Name of Organization being sponsored if applicable -

Project Title **Nelson Community Food Centre FoodSkills Program**

Project will be located in: City of Nelson

The workshops will be held at the Nelson Community Food Centre located at 602 Silica St. Nelson, BC. Workshop program participants will cook in the newly renovated kitchen on site, and complete other workshop tasks in the community centres main hall.

Importance to the community:

The 2024 Foodskills Program is important to the community as it aligns with the objectives in the Sustainability Principles and Focus Areas of the City of Nelson's Path to 2040, Sustainability Strategy. Like the City of Nelson, this project aims to increase access to nutritious food, prioritize healthy families and individuals, promote local food production and reduce waste.

The Nelson Community Food Centre supports those facing adversity in Nelson and Electoral Areas E, F, H and I. The workshops have been designed to ensure we support the diversity within our community, and the opportunity to bring together participants with shared experiences like newcomers to the community or seniors.

|--------------------|--------------------|--------------------|

1. The project will provide:

The Nelson Community Food Centre 2024 Foodskills Program is a series of workshops designed to create opportunities for people facing adversity to share, connect and advocate around good food. As part of the NCFC's 2022-2026 Strategic Plan, we strive to improve and expand our reach to the community through innovative, no-cost and barrier-free programming.

Through the Summer, Fall and Winter of 2024, the Nelson Community Food Centre will host 'At-Home MicroGreens', 'Harvest Rescue Processing, Canning & Dehydration', 'Sourdough Bread' and 'Around the World - Learn to Cook' workshops. These workshops have been designed to improve food skills, adopt healthier attitudes around food, promote self sufficiency and increase confidence and leadership amongst program participants and volunteers.

2. Organization Mandate:

At the Nelson Community Food Centre, our vision is a thriving community where people come together around good food for all. Our mission is to create opportunities for people facing adversity to share, connect and advocate around good food.

3. Community objectives the project will work towards are:

The 2024 Foodskills Program is important to the community as it aligns with the objectives in the Sustainability Principles and Focus Areas of the City of Nelson's Path to 2040, Sustainability Strategy. Like the City of Nelson, this project aims to increase access to nutritious food, prioritize healthy families and individuals, promote local food production and reduce waste.

The Nelson Community Food Centre supports those facing adversity in Nelson and Electoral Areas E, F, H and I. The workshops have been designed to ensure we support the diversity within our community, and the opportunity to bring together participants with shared experiences like newcomers to the community or seniors.

4. Project will address issues or opportunities pertaining to:

The 2024 Foodskills Program workshops are themed around sustainability, food recovery and knowledge exchange. The workshops will address food security concerns in the community, encourage experiential learning and promote local food system sustainability. They have been created with the intention of supporting all low-income community members and recognizing the diverse community the Nelson Community Food Centre operates in.

These issues were identified through program participant surveys, in-depth conversations with Nelson Community Food Centre Volunteers, and ongoing conversations with other Community Food Centres across British Columbia.

5. This organization is best to provide this project to the community because:

The Nelson Community Food Centre has spent over fifteen years supporting community members facing adversity in the RDCK. We are deeply committed to advocating on issues of poverty reduction, food security and social justice. Staff and volunteers work diligently to provide a safe space where everyone is welcomed and treated with dignity and respect. The Nelson Community Food Centre has gone through a significant transition period over the last twelve months, staff and volunteers are committed and ready to begin regular programming once again.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Project: Nelson Community Food Centre FoodSkills Program

The 2024 Foodskills Program workshops will be overseen by the Nelson Community Food Centres Executive Director and lead by the Food Access Coordinator. Additional workshop support will be provided by Nelson Community Food Centre Volunteers.

- 8. Minors will be working on this project:** No
- 9. Project will be 100% completed by volunteers:** No
- 10. Is the project viable without ReDi funding support: :** Yes
- 11. In-kind sources and contributions:**
 - Executive Director & Director of Development time and labour
 - Spout seedlings for workshop
 - Time donated by sourdough starter workshop leader

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

2024 Foodskills Program: Sustainability, Food Recovery & Knowledge Exchange Workshops

Nelson Community Food Centres Vision: A thriving community where people come together around good food for all. Our Mission: to create opportunities for people facing adversity to share, connect and advocate around good food.

Sustainability:

‘At Home’ Microgreens Workshop: Fall/Winter

- Encourage participants to grow food all year round and gain knowledge surrounding good, nutritious food. Demonstrations of how to successfully grow microgreens and sprouts from their home. Program participants will receive a ‘home kit’ to produce their own at home.

Food Recovery:

Harvest Rescue Process, Canning & Dehydration Workshop (x3): Summer/Fall

- Supporting waste reduction, program participants learn to process, can and dehydrate produce recovered from our annual Harvest Rescue Program.

Knowledge Exchange:

Sourdough Bread Workshops (bi-weekly baking, 2x Sourdough starter workshops): Summer, Fall & Winter 2024

- Demonstrate and provide education to program participants on how to begin their own sourdough starter, which they can then take home and use to bake their own bread. Workshops to be led by a community volunteer who bakes sourdough and sells at local markets.
- Nelson Community Food Centre volunteers will come in every second week to bake sourdough bread that will be distributed to program participants at the Good Food Bank.

‘Around the World’ - Learn to Cook Workshops (x4) - Summer/Fall/Winter

- Celebrating the diversity of our community. 4 workshops will be held to show program participants how to cook healthy, ethnic foods.
- Workshops will be led by various community members, with a focus on healthy, affordable meals that can be created by food provided at the Good Food Bank.

2024 Foodskills Program & NELSON PATH TO 2040, Sustainability Strategy

The 2024 Foodskills Program themes of sustainability, food recovery and knowledge aligns with the City of Nelson's Path to 2040. They include:

Sustainability Principle - Direction - Directly Related Objectives

1. Healthy Neighborhoods
 - a. Inviting parks, community gardens and information public spaces for gathering
 - i. FFSA 1: Ensure nutritious whole food
 - ii. FFSA 3: Encourage individual and commercial food production, processing, and distribution within city limits.
2. Prosperity
 - a. Respecting our leadership role in regional social and economic systems
 - i. FFSA 2: Maximize regional food production, processing and distribution.
 - ii. FFSA 3: Encourage individual and commercial food production, processing, and distribution within city limits.
3. Robust Ecosystems
 - a. Protecting, restoring and enhancing our natural assets by continuing to cultivate responsible environmental practices.
 - b. Using our natural resources efficiently and conserving them to the greatest extent possible.
 - i. FFSA 2: Maximize regional food production, processing and distribution.
 - ii. FFSA 4: Build community capacity and foster ethical food consumption.

Focus Area - Objectives

1. Health Living and Social Well-Being
 - a. A healthy lifestyle includes physical activity, mental health, education, healthcare and supportive social networks.
 - i. HLSW1: Support & encourage healthy living choices and be responsive to the needs of individuals, families and the greater community.
2. Solid Waste
 - a. Nelson is a zero waste community that avoids and reduces consumption first, then reuses, recycles and recovered waste and finally ensures responsible disposal of the small amount remaining.
 - i. SW2: Foster Waste Reduction and elimination practices by providing innovative means for reduced consumption.
 - ii. SW3: Encourage local composting and reuse of organic material.

Registration #

1007 2nd Street, Castlegar BC V1N 1Y4

Name of Organization being sponsored if applicable -

Project Title **West Kootenay Driver Program 2024**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, City of Castlegar

The program operates all over the West Kootenays. There are some other volunteer driver programs however our program serves the widest catchment area and the most clients. We accept clients and will transport clients from Castlegar, Trail, Nelson, RDCK Area D, E, F,G,H,I,J, K and we also will travel to and return from Vernon, Revelstoke and Kelowna.

Importance to the community:

This program has a significant impact on our communities. It is hard to imagine what our communities would be without this type of service. Unfortunately our communities are severely lacking in accessible transportation, both in the public sphere and also in a customized/care areas like transportation to and from medical appointments. In Castlegar, there is only one busy cab and the price is unaffordable for many. Our whole community benefits from the program. Firstly, the clients in need of medical and health supports because they are able to attend their commitments, the volunteers through providing these services, friends and family of the clients as they now do not have to worry about their loved ones who are now able to attend appointments. Many families do not have the means to support their relatives and they feel tremendous responsibility and guilt if they can't support to get them there.

Work Plan Dates: Project Start: 5/16/2024 Project End: 3/31/2025

| \$23,500.00 | \$59,000.00 | \$59,000.00 |

1. The project will provide:

The West Kootenay Driver Program will provide daytime, Monday to Friday, volunteer driver services for citizens of Trail, Castlegar, Nelson, Nakusp, and surrounding areas who are unable to access transportation to attend medical appointments. The service is intended for essential, non-emergency appointments only. Main program outcome is community members being able to attend medical service appointments. The people using this service would otherwise be challenged to make these appointments or not attend at all. Another benefit is providing volunteer opportunities and connecting members of the community. The program achieves its goals by hiring a Program Coordinator who recruits and maintains a pool of volunteer drivers from different communities, meets clients in need, coordinates drives between drivers and oversees the administration of the program. Clients are charged on a sliding scale based on financial need; sometimes free or range up to a small fee per drive depending on income. Some clients receive subsidies through Interior Health to pay for a portion of their drives. The volunteer drivers are offered flat fees per trip to cover mileage. We are operating the program currently, so we are not in need of start-up costs. However due to a gap in funding, we are in need of financial support to pay for subsidies for clients, payments for volunteer drivers and client expenses, and program supplies.

2. Organization Mandate:

We improve the quality of people's lives by providing assistance, counselling and support, and by working for social change in our communities.

3. Community objectives the project will work towards are:

This program has a significant impact on our communities. It is hard to imagine what our communities would be without this type of service. Unfortunately our communities are severely lacking in accessible transportation, both in the public sphere and also in a customized/care areas like transportation to and from medical appointments. In Castlegar, there is only one busy cab and the price is unaffordable for many. Our whole community benefits from the program. Firstly, the clients in need of medical and health supports because they are able to attend their commitments, the volunteers through providing these services, friends and family of the clients as they now do not have to worry about their loved ones who are now able to attend appointments. Many families do not have the means to support their relatives and they feel tremendous responsibility and guilt if they can't support to get them there.

4. Project will address issues or opportunities pertaining to:

Many issues are being addressed with this program, firstly being the lack of transportation services for our communities in the West Kootenays. Many people do not have the means or ability to drive themselves to and from commitments. Not every city has the necessary equipment and resources that individuals need for medical reasons, therefore many are needing to go back and forth between cities. Other issues being addressed are poverty. Opportunities being addressed are primarily volunteerism and enabling seniors to stay in their homes longer. The program provides meaningful positions to people in the community wanting to help out and the drives allow someone to continue living where they may have, their whole life, and not relocate to be closer to medical services. Handy Dart is a similar service however, it only drives within communities, not between cities and has limited hours.

5. This organization is best to provide this project to the community because:

Castlegar and District is best suited to deliver this project as we are already running the program and we require no start up costs. Additionally we have a long history of running this program, our coordinators and drivers know these

Project: West Kootenay Driver Program 2024

communities and clients. They have built interpersonal relationships. We have accumulated knowledge of how to best run volunteer driver programs in and throughout each community. Been doing it since 2006 and expanding area out

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The hired Program Coordinator, contracted Volunteer Drivers, the Executive Director of CDCSS (oversight) and administration and Finance staff to support the program. They are available to answer inquiries of the program by phone or in-person, and process payments to drivers and collect fees that come in from a portion of the rides.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

There is a lot of administration involved with this project that there is little funding to cover - like utilities, mortgage payments, phone bills, internet and the organization pays for most of these costs. Staff also promote the event at different avenues and their time is donated. Volunteers are also not reimbursed their whole mileage when they do drives, so the gas not covered is donated and also their time doing the drives and coordinating their schedules.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Taghum Community Society**

Project will be located in: RDCK Area F

Taghum Community Hall

Importance to the community:

Taghum Hall has become well know for its Taghum Hall Presents programming. We have consistently drawn sizeable audiences... even sold out houses... to our events, and have attained a reputation for high quality and affordable entertainment for the community. Our stage often hosts local amateur and professional performers and provides them with a venue that values their contribution to Nelson cultural community.

Work Plan Dates:

Project Start: 6/10/2024

Project End: 12/31/2024

|------------------------------|--------------------------|---------------------------|
| \$6,200.00 | \$6,600.00 | \$6,600.00 |

1. The project will provide:

The aim of this project is to upgrade Taghum Hall's sound, lighting and stage equipment to a level appropriate for the professional performers who are part of our Taghum Hall Presents... programme, which hosts performances of touring professional musicians, as well as local performances from our talented professional community of performers and actors. In the past year we presented six Taghum Hall Presents performances and two Taghum Hall Youth Presents programmes, in which local children take to the stage for seasonal performances. Our goal for 2024 is to host at least one THP monthly, and we are well on our way to booking that number.

The sound equipment upgrade is required to replace existing inadequate equipment and allow us to provide an enhanced sound experience. The stage upgrade, comprised of lighting, curtains and risers, will enhance both our theatre performances and concerts by elevating the existing rudimentary stage (basically a sound distorting box), to a functional performance stage.

2. Organization Mandate:

Building Community One Event at a Time

3. Community objectives the project will work towards are:

Taghum Hall has become well known for its Taghum Hall Presents programming. We have consistently drawn sizeable audiences... even sold out houses... to our events, and have attained a reputation for high quality and affordable entertainment for the community. Our stage often hosts local amateur and professional performers and provides them with a venue that values their contribution to Nelson cultural community.

4. Project will address issues or opportunities pertaining to:

The existing stage is a sound trapping box. This can be amended by installing sound buffering curtains and using an appropriate sound system. We have frequently contracted a professional sound technician and rented gear to achieve the sound/lighting quality expected by touring professionals. This expense can be alleviated by acquiring the appropriate equipment.

Stage performances require extensive 'curtaining' with available materials (tablecloths, shower curtains, etc.), hardly a professional solution! A stage apron created from existing hall furnishings (a few long benches and a sheet of plywood) to allow recent performers to move beyond the stage boundaries, thereby enhancing voice projection, was neither a long term nor appropriate solution: the apron was a step down from the stage, thereby creating a potentially hazardous condition.

Local performers and visiting professionals have identified these issues, We have sought confirmation by speaking with a theatre professional and sound engineer who recommended the stage mitigation.

5. This organization is best to provide this project to the community because:

Taghum Hall Presents programming has acquired a large and devoted following. It has been overheard locally that Taghum Hall is a major entertainment hub in the region. Our beautiful setting and accessibility from Nelson is a bonus. Indeed we are considering outdoor concerts that can more fully appreciate the beautiful view of the Kootenay River. As a concert venue, Taghum Hall is unique in that it is supported by a host of volunteers who enthusiastically support the performances as ticket takers, concession workers and support team, including billeting and feeding out of town performers

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Jordan Bonin, Taghum Hall board member and impresario of THP, will lead the project. Jordan is himself a professional musician and is training to become a sound technician. He will be supported by Taghum Hall board and the members of the events committee and seek consultation with involved local professional actors, musicians and sound engineer.

8. Minors will be working on this project: No

9. **Project will be 100% completed by volunteers:** Yes

10. **Is the project viable without ReDi funding support: :** Yes

11. **In-kind sources and contributions:**
 - Installation by volunteers
 - Consulting

12. **Supporting documents below, if submitted:**

Organizations are also asked to present copies of supporting documents at community engagement meetings.

To Whom it May Concern

The Taghum Hall has been putting on great shows at its beautiful location. I have worked there over the past year working on sound and lighting. The Hall has the start of a nice sound system but still requires microphones, cables, stands, lights and PA speakers. Which would help augment their current sound system. A grant would help substantially grow the production of these shows. The Taghum Hall community is very active in supporting and hosting live music events.

Dave Ronald, Focus Right Contracting / All Ears Music Productions 2503547698

To Whom it May Concern,

I am writing in support of the Taghum Hall and their application to get funds for technical upgrades.

I am an emerging actor and musical performer, and I have had the pleasure of both working and performing at the Taghum Hall. It is a fantastic community hub, and its team makes significant efforts to make it so. It is always well-booked and is a great venue for social and artistic events.

While Taghum Hall is well suited to theatrical and musical productions in some respects, it currently lacks the technical setup and equipment to thrive as a performing venue. With a few upgrades, it's sound and lighting quality will greatly improve.

Currently, the sound reverberates in such a way that makes it difficult to hear; the addition of an apron riser and additional curtains would mitigate this issue. Just as well, better sound equipment would also make the sound at the hall more reliable and of a higher quality. Finally, while the Taghum Hall does have some stage lightning, it would greatly benefit from upgrades to bring it to the next level.

Technical setup is crucial to augment artistry and create a positive community impact. The community continues to show up for the Taghum Hall, and they deserve to fully experience and appreciate the shows they attend.

I hope you will consider the Taghum Hall to be a recipient of the funding they have requested; I couldn't think of a better venue that has the both the need and will make the best use of it.

Thank you for your time,

Kozmo Sammartino

Organization **Kootenay Emergency Response Physicians Association**

Project Title **Strengthening the Heart of the Kootenays: KERPA's Emergency Response Boost**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area I, RDCK Area J, City of Nelson, City of Castlegar, Village of Salmo, Village of Kaslo

This project will span across the electoral areas of Nelson and the surrounding region, encompassing the 11 electoral areas (A, B, C, D, E, F, G, H, I, J, K) & nine member municipalities within KERPA's mandate. The project aims to improve our emergency response coverage & service efficiency for residents across the broader Kootenay region, fostering a more resilient and responsive healthcare system in both urban & rural communities.. Specifically, the RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area I, RDCK Area J, City of Nelson, City of Castlegar, Village of Salmo & Village of Kaslo.

Importance to the community:

This project is instrumental for the residents of communities & areas we serve, as it significantly enhances KERPA's emergency response capabilities. The proposed upgrades ensure that our emergency response vehicle ('ERV2') & medical equipment are optimally maintained, directly benefiting residents in rural and urban settings alike.

In rural areas, where access to timely medical assistance is often challenging, the improvements will result in quicker response times & increased capacity for advanced medical interventions. By securing funding for this project, we ensure that all community members, regardless of their location, have equitable access to enhanced emergency medical care, addressing the specific needs of the diverse regions served by KERPA.

Work Plan Dates: Project Start: 6/1/2024 Project End: 9/1/2024

|------------------------------|--------------------------|---------------------------|
| \$20,800.00 | \$20,800.00 | \$20,800.00 |

1. The project will provide:

Our project is a multifaceted initiative aimed at fortifying our emergency response capabilities & infrastructure in the Kootenays. We are strategically focused on these key areas:

V-Scan Technology: Introducing advanced V-Scan technology ensures our volunteer physicians have cutting-edge diagnostic capabilities during emergencies, expediting on-site assessments & improving patient outcomes.

Body Armour & Ballistic Helmets: Enhancing the safety of our emergency responders is paramount. The grant will fund state-of-the-art body armour & ballistic helmets, providing crucial protection during high-risk situations.

Office Furniture: With our planned expansion into Castlegar in 2024, the grant will support the purchase of necessary office furniture.

Medicine & Equipment: The funding will be instrumental in acquiring advanced medicines & medical equipment, including kit bags, allowing our physicians to deliver comprehensive & effective care in various emergency scenarios.

Survival Equipment & Truck Maintenance Equipment: Investing in survival equipment & truck maintenance tools is crucial for sustaining our emergency response fleet, ensuring they are well-equipped & operational for any mission.

This comprehensive approach addresses critical needs, from cutting-edge medical technology to personnel support, ultimately strengthening KERPA's ability to provide timely and effective emergency care in our region.

2. Organization Mandate:

Founded by Dr. Nic Sparrow in 2016, Kootenay Emergency Response Physicians Association (KERPA) is a registered charity with a clear mission: saving lives and assisting the most critically ill and injured patients in West Kootenay communities while supporting emergency services. Currently in its 9th year, KERPA operates as a Canadian Registered Charity, dedicating its efforts to the Kootenay Region.

KERPA's unique approach involves dispatching volunteer EMS physicians in a dedicated ground unit equipped with advanced medications and state-of-the-art tools, enabling critical interventions like anaesthetic and surgical procedures at the roadside. The organization selectively responds to life-threatening 911 calls within the region's 11 electoral areas and nine member municipalities, attending to various emergencies ranging from motor vehicle accidents to cardiac arrests.

With a comprehensive Surface Standards Policy Document, KERPA underscores its commitment to the local community and patients in emergency responses. The policy emphasizes the high standards expected of ERP vehicle operators, reminding them to consistently uphold their role as public servants dedicated to saving lives, assisting critically ill and injured patients, and supporting emergency services. This commitment defines KERPA's unwavering dedication to its mission.

3. Community objectives the project will work towards are:

This project is instrumental for the residents of communities & areas we serve, as it significantly enhances KERPA's emergency response capabilities. The proposed upgrades ensure that our emergency response vehicle ('ERV2') & medical equipment are optimally maintained, directly benefiting residents in rural and urban settings alike.

In rural areas, where access to timely medical assistance is often challenging, the improvements will result in quicker response times & increased capacity for advanced medical interventions. By securing funding for this project, we ensure that all community members, regardless of their location, have equitable access to enhanced emergency medical care, addressing the specific needs of the diverse regions served by KERPA.

4. Project will address issues or opportunities pertaining to:

The grant addresses several vital issues, gaps & opportunities within KERPA's emergency response framework. KERPA's volunteers' firsthand experiences have uniquely positioned them to identify the pressing need for the resources we are seeking funding for in this proposal.

The acquisition of the V-Scan technology modernizes our diagnostic capabilities & expedites on-site assessments. Investment in body armour & ballistic helmets enhances the safety of our emergency responders, recognizing the potential risks they face.

The expansion into Castlegar presents an opportunity to establish a secondary dispatch hub, requiring the purchase of essential office furniture. Additionally, funding for medicine & life-saving tools & equipment ensures comprehensive, efficient emergency care delivery. The allocation for survival & truck maintenance equipment fortifies our emergency response fleet, addressing concerns of equipment readiness & vehicle maintenance.

5. This organization is best to provide this project to the community because:

KERPA stands out as the most suitable organization for this project due to our extensive track record in delivering successful emergency medical services in the Kootenays. Our proposal is specifically aligned with our work. With a proven history of operational efficiency, our dedicated team, composed of skilled volunteer emergency responders, possesses the expertise needed for seamless project execution.

Our existing partnerships with local authorities & healthcare institutions further amplify our capacity to implement & manage the proposed upgrades. KERPA's in-depth understanding of the region's specific needs & our established infrastructure uniquely position us to ensure the success of this vital project, enhancing emergency response capabilities for the residents we serve.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

Dr. Nicholas Sparrow, as President & Medical Director, takes a leading role in overseeing operations and collaborates closely with Mr. Kai Schirp, KERPA's Vice-President. Mr. Schirp is instrumental in spearheading initiatives to enhance our emergency response vehicle and medical equipment, managing the orchestration of seasonal maintenance schedules. Working seamlessly in tandem, Dr. Sparrow and Mr. Schirp jointly spearhead the implementation of the proposed project. Their collaborative efforts ensure a holistic approach to project management, combining medical expertise with operational efficiency to fortify KERPA's emergency response capabilities.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: Yes****10. Is the project viable without ReDi funding support: : No**

11. In-kind sources and contributions:

We have no in-kind contributions identified for this project.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Special Operations Medical Retrieval Service

**Kootenay Emergency Response
Physicians Association**

Annual Report 2023

Canadian Registered Charity - 769710328 RR 0001
Special Operation Medical Retrieval Accredited Service #091907

Aim

The aim of this report is to provide a review of the Special Operations Medical Retrieval Service - Kootenay Emergency Response Physicians Association (KERPA), in the Kootenay Region of British Columbia. This report is intended for key stakeholders including the Ministry of Health, Provincial Health Services Authority, Joint Standing Committee on Rural Issues, Rural Coordination Centre of British Columbia, Interior Health, the British Columbia Emergency Health Services (BCEHS) and other relevant agencies involved in the prehospital and emergency care of critically ill and injured patients in the province.

Background

The service began approximately **10 years ago** with the key objectives of supporting the emergency services and providing on-scene physician support and care to the most critically ill or injured patients in the Kootenay Region. KERPA also helps provide additional capacity and expertise to the existing pre-hospital and emergency services in the region. KERPA has had a long-standing collaboration agreement with the BCEHS and assists the emergency services at immediate threat-to-life 911 calls where patients require immediate emergency lifesaving interventions.

KERPA dispatches a locally trained rural EMS Physician in a dedicated, non-transporting, rapid response vehicle directly to the scene of life-threatening emergencies. Our physicians possess comprehensive understanding of the relevant patient, geographic, and local healthcare resource situation. In addition, they have knowledge of the communities and the terrain we respond in. KERPA provides this service for FREE and our rural physicians volunteer their time.

Our dedicated Board of Directors donate their time, and we have one paid, part-time office staff, who supports our charitable responsibilities. Provincial Medical Services Plan (MSP) is not billed for the care we provide – we provide this at no cost. We are funded through grants, community sponsorship and public donations.

KERPA's Emergency Response Vehicle & Physician

In 2016, KERPA became a Canadian Registered Charity and, in 2021, we became the **1st Canadian Physician Ground Based EMS Service** to be awarded full **Special Operations Medical Retrieval Certification** by the Commission on Accreditation of Medical Transport Systems (CAMTS). This accreditation marks the stringent international standards of medical retrieval, quality, safety and patient care KERPA provides (Appendix 1).

Calls Attended

Since May 2014, KERPA has been available to respond to **1283 calls**. These are the highest priority calls assigned by BCAS Dispatch and include primary missions (where our physician arrives on scene and makes contact with the patient), standbys and cancelled calls.

The level of care provided by the Emergency Response Physician (ERP) has varied from minimal, to critical lifesaving interventions. On a number of occasions, the ERP, in conjunction with the Emergency Services, has been instrumental in changing the clinical course and outcome of critically ill patients in the Kootenay Region. For example, in 2019 KERPA was dispatched to a young female stabbed multiple times in the City of Nelson. The patient survived and is enjoying life with her family in the Kootenay area.

CBC News · Posted: Sep 23, 2019 7:07 AM PDT – Woman stabbed at least 5 times in apparent random attack in Nelson, B.C

In 2023, KERPA was available to respond to **313** immediate threat-to-life calls. This was KERPA’s busiest year to date, supporting the Emergency Services at more calls and helping more patients in the Kootenay Region. Of these calls:

- We were placed on ‘standby’ for 93 calls and subsequently stood down
- We were dispatched on 194 and cancelled on 71 (as calls were downgraded or our assistance was not required)
- We attended **123 Primary Missions** where patient contact was made
- At **75** of these calls KERPA medical expertise and or equipment was utilized
- KERPA directly assisted all levels of paramedics in the escorting and transport of high acuity and critical patients to the appropriate designated hospitals in the Region.
 - **Transporting 12 patients to Kootenay Lake Hospital**
 - **Transporting 7 patients Kootenay Boundary Hospital**
 - **Transporting 1 patient to Kelowna by helicopter**
- KERPA also followed ambulance crews to hospitals (in our response vehicle) on 32 occasions to ensure the safe transport of patients and assist crews in the event of patient deterioration.

Types of calls KERPA was available to respond to in 2023:

Response Area

The Maps 1 & 2 below show the geographical locations KERPA responded to in 2021 and 2022. In 2022 BCEHS started to dispatch KERPA to a larger geographic area and as a result we have been able to assist many more critically ill and injured patients in the Kootenays.

Map 1 shows the geographically dispatch area for KERPA in 2021

Satellite Tracked Locations of ERP1 Response Vehicle

Map 2 shows the increased geographical dispatch area for KERPA in 2022

Satellite Tracked Locations of ERP1 Response Vehicle

Service Documentation

The ERP completes a paper Patient Care Record (PCR) only when direct intervention and provision of a higher level of care to patients is required. On calls where this is not needed, the ERP or paramedic records KERPA's attendance on the notes section of the paramedic's electronic PCR and does not complete a separate PCR.

Program Developments

A number of improvements have been made to the ERP Program, since it began in May 2014, to enhance its effectiveness in the community.

- **Safety & Quality** - KERPA has a robust Safety and Quality Committee that meets quarterly, overseeing our operations. This has helped facilitate numerous improvements to ensure full Special Operations International Standards are met. We report to the BCEHS Medical Programs twice a year.
- **Physicians** - a second volunteer physician has joined KERPA and will be ready to respond by the summer of 2024 increasing our capacity in the Region. As part of KERPA's Special Operations Accreditation, we have stringent internal policies pertaining to the qualifications and training requirements of any physician wishing to work with the charity.
- **Scope of Practice** -The scope of medications KERPA provides continues to expand along with critical care and surgical equipment. In 2024 all KERPA vehicles will be carrying the Z Vent Transport Ventilators and our physicians are currently undergoing training for the use of these machine. Our ERPs participate in quarterly "Critical Skills Training" to practice all critical airway and surgical interventions, as well as scenario-based training.

- **Additional Response Vehicle** - KERPA has purchased a second emergency response vehicle. This will be fully equipped and operational by the Summer of 2024. During 2022, KERPA was unable to respond to a major incident due to scheduled maintenance on our vehicle. Numerous patients were injured at this call and one patient was fatally injured. A second response vehicle would have enabled us to respond in the event of scheduled maintenance or mechanical issues. This second vehicle will be able to be used as an additional resource for the region.

ERV1 and ERV2 Vehicles in Nelson

“Our vehicles provide the Province of British Columbia with physician critical emergency care response to support the emergency services in the Kootenay Region.”

Total assets value & infrastructure = \$450,000.00

Discussion

KERPA has proven to be a needed and valuable service in the Kootenay Region. With over 1283 calls answered since 2014, there has undoubtedly been benefit to patients in our community. In 2023 there were numerous cases where KERPA significantly impacted clinical care, patient outcomes, and family experiences. Out of the 123 primary missions KERPA attended in 2023, 30% of patients were in a severe to critical condition requiring early advanced and critical care interventions by the ERP.

**Critical Emergency Care Dispatches 2023
(37 patients)**

| Number of Patients | Type of Call | Additional Information |
|---------------------------|----------------------------|---|
| 14 | Cardiac Arrest – Medical | x4 Drug overdose related |
| 4 | Cardiac Arrest - Traumatic | All motor vehicle related x1 Pediatric |
| 5 | Medical Emergencies | Seizure, Allergic Reaction, Overdoses |
| 14 | Trauma Related Dispatches | x1 Avalanche x10 Traffic Incidents x1 Massive Hemorrhage x1 Gunshot Wound x1 Drowning |

A specific case is included below to demonstrate the service KERPA is able to provide:

Chain Saw Accident – Massive Hemorrhage

KERPA was able to respond to a remote incident by helicopter to assist a patient who accidentally cut one of their limbs with a chain saw.

KERPA mobilizing to a remote incident by helicopter

The patient, in critical condition, had fastened a bungee cord around the limb to halt a severe arterial blood. On arrival our physician assessed the patient, and a hemostatic dressing and CAT tourniquet was applied. The bungee cord was subsequently removed to preserve as much circulation to the patient's limb as possible. Our physician then administered intravenous morphine to the patient and, after discussion with dispatch & local hospitals, decided best to fly the patient directly to Kelowna General Hospital, escorted by a primary care paramedic.

Flying to a remote location in the Kootenay Region

The patient was monitored continuously throughout the flight using our cardiac monitor and given additional analgesia. The patient's limb was saved and they are now at home with their family rehabilitating.

“KERPA unquestionably played a pivotal role in preserving this patient's limb, alongside the other responding agencies.”

Areas with potential for growth

1) Service Support

KERPA has received some program support from the BCEHS and local BC Ambulance Paramedics. However, communication and regional dispatch delays over the years have created additional administrative work for KERPA. This has negatively impacted our operational capacity and reach. Increased transparency, communication and service support would improve our ability to help critical patients and assist the Emergency Services.

Increased awareness and the establishment of collaborative partnerships with the Ministry of Health, Joint Standing Committee on Rural Issues and Rural Coordination Centre of British Columbia could help in ongoing support and development of our reach as a Special Operations Medical Retrieval asset for the Province in the Kootenay Region.

2) Dispatch & Geographical Response Area

The current system for KERPA's dispatch is an automated cell phone text alert. On receiving the text alert, the ERP telephones Kamloops' dispatch to find out the call details and address of the location.

With the current system, the quickest time KERPA can respond from pager to being enroute is 4-5 minutes.

A Computer Aided Dispatch (CAD) laptop, as used by local supervisors, would greatly speed up our ability to identify, and dispatch to, life threatening 911 calls in the Region.

3) Geographical Response Area

KERPA provides the highest level of ground pre-hospital critical care in the Kootenay Region. Over the years KERPA requested to be dispatched more regionally, being notified of all red and purple calls. Whilst this was slow to happen, we are thankful that as of April 2022, the BCEHS increased our reach to other nearby communities. The current system is working well and

we hope KERPA will be increasingly utilized as an additional resource and greater collaboration will lead to more lives saved.

Conclusion

Over the past decade, KERPA has responded to numerous emergency calls in the Kootenay Region, demonstrating our commitment to patient-centred care.

Our efforts have resulted in significant positive outcomes for critically ill and injured patients, with over 250 direct medical or critical interventions conducted since the program's inception. Additionally, we've provided invaluable assistance to emergency services on numerous occasions, directly escorting over 180 patients alongside BC Ambulance Paramedics to local or regional hospitals.

Our presence has had a profound impact on both patients and their families within the community, as well as providing crucial support to paramedic crews during challenging calls.

Furthermore, our Emergency Response Physicians have extended their help to other single-handed ER physicians upon arrival at rural emergency departments.

Strategic provincial authorization for KERPA physicians to utilize local helicopters to assist in reaching a targeted group of critically ill or injured patients, including confirmed motor vehicle entrapments, cardiac arrests, and other specified trauma calls, could extend the reach of our critical care services, benefiting a larger number of individuals.

Although KERPA's service in British Columbia has not always been fully embraced, the outcomes it has achieved are undeniable. We hold optimism for the future, anticipating enhanced support and collaboration at the provincial level, as we continue to deliver critical care to patients in the Kootenay Region.

At the heart of our service lies a commitment to save lives, help critically ill and injured patients and support the Emergency Services.

Project: West Kootenay Cycling online map project

1. The project will provide:

The goal of this project is to combine all of the Active transportation network plans and feasibility studies in the west kootenays into an online map, with the goal of creating a plan to eventually fully link all the communities in the west kootenays with a complete cycling ATN plan. During this time the map will also help us to prioritize efforts for applying for grants to plan and build infrastructure projects in the West Kootenays based on the ATN plans.

2. Organization Mandate:

To further the needs of our cycling community through advocacy, guidance and education and to actualize our vision of "safely moving together"

3. Community objectives the project will work towards are:

This project will benefit all people in the region as it will improve safe cycling infrastructure, which will be accessible to everyone.

4. Project will address issues or opportunities pertaining to:

The ATN Plans that we have involve multiple levels of government including RDCK, City of Nelson, City of Castlegar, as well as other areas such as the city of Trail and the RDKB. Having the central map will allow us to co-ordinate efforts between these different levels of government. The main issues will be finding people with sufficient knowledge to combine the maps and put them online.

5. This organization is best to provide this project to the community because:

Our organization has experience working with many levels of government in our recent input into the Castlegar-Nelson Active transportation feasibility study, the City of Trail Active Transportation Network Plan, and the RDKB South Kootenay Green link active transportation network plan.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

West Kootenay Cycling Coalition

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

None

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **The Kootenay Swim Club**

Registration # S0054417

PO Box 1106, Nelson British Columbia V1L 6H3

Name of Organization being sponsored if applicable -

Project Title **Kootenay Swim Club - Equipment Upgrades**

Project will be located in: City of Nelson, City of Castlegar

Our programming promotes physical literacy by providing swimmers with the opportunity to engage in physical activity in two regional pools as we train out of the Castlegar & District Community Complex as well as the Nelson & District Community Complex ensuring we are as inclusive to as many families as possible in a small rural region. Children engage socially and interact with each other in these two stimulating recreational environments.

Importance to the community:

The Kootenay Swim Club adds value to our community by creating the leaders of tomorrow as well as creating success to be celebrated within our small rural area for the provincial level success swimmers will experience this swim season. We offer families access to affordable recreational activities. Families living throughout our region choose to live in a beautiful area surrounded by water. Living, learning, and playing near bodies of water increases the necessity for our club to support strong safe swimmers. Learning water safety and having the opportunity to develop the ability to swim is a life skill for athletes. Our club has also identified the benefit of social connection, to re-establish the vital sense of belonging within our extended community.

Work Plan Dates: Project Start: 5/16/2024 Project End: 9/30/2024

|------------|-------------|-------------|
| \$4,585.00 | \$21,385.00 | \$21,385.00 |
|------------|-------------|-------------|

1. The project will provide:

The Kootenay Swim Club is a regional Winter Swim Club that draws membership throughout the West Kootenay region and utilizes both the Castlegar & District Community Complex as well as the Nelson & District Community Complex. Our program predominantly provides swimmers aged 8 to 18 the highest level of training and opportunity to compete in SwimBC and SwimCanada sanctioned events; the highest swim level in Canada which makes our programming unique. We offer pool training times 6 days a week, covering everyone from beginner swimmers to national level aspiring competitors. We also offer opportunity for senior swimmers to gain valuable coaching and leadership experience. The program offers youth the ability to train and compete in a swim program where they can follow a path to the highest level swimming can offer. The Kootenay Swim Club offers 10 months per year of fitness training to our swimmers. It's important to note that our programming offers exercise, fitness and leadership through the winter months when outdoor activities are not as accessible for our local youth. With the generous support of the ReDi grant we look to improve and expand our equipment supplies to enhance training opportunity for all athletes, but to assist in final preparation for Provincial competition for our competitive athletes.

2. Organization Mandate:

Our swim program predominantly provides swimmers aged 8 to 18 to train and compete in SwimBC and SwimCanada sanctioned events; the highest swim level in Canada. We offer pool training times 6 days a week, covering everyone from beginner swimmers to national level aspiring competitors. We also run a Masters and Triathlon swimming program for adults who want to fine tune their abilities. We also offer coach training to our swimmers who are interested in becoming leaders

3. Community objectives the project will work towards are:

The Kootenay Swim Club adds value to our community by creating the leaders of tomorrow as well as creating success to be celebrated within our small rural area for the provincial level success swimmers will experience this swim season. We offer families access to affordable recreational activities. Families living throughout our region choose to live in a beautiful area surrounded by water. Living, learning, and playing near bodies of water increases the necessity for our club to support strong safe swimmers. Learning water safety and having the opportunity to develop the ability to swim is a life skill for athletes. Our club has also identified the benefit of social connection, to re-establish the vital sense of belonging within our extended community.

4. Project will address issues or opportunities pertaining to:

The Board of Directors identified the barrier which led to recent membership loss for our swim club as the COVID-19 pandemic. The pandemic caused significant training disruptions due to lockdowns, quarantines, and strict adherence to pandemic protocols. Our swim club was unable to offer swim experiences to the youngest members of our community due to protocols preventing coaches from touching and properly teaching young swimmers the fundamentals of techniques. A sign of a healthy swim club is one in which there are more younger swimmers in relation to older swimmers. A full season with no incoming beginner participants resulted in financial deficits to our organizational budget.

Membership rates are once again increasing, but our budget needs the financial support to replenish necessary equipment and supplies to further support our young athletes. Our swim club hopes to offset this cost without introducing a financial barrier to swim families.

5. This organization is best to provide this project to the community because:

The Kootenay Swim Club was formed to develop a love for swimming and a more intimate understanding of the competitive lifestyle. The Kootenay Swim Club fosters an environment that allows swimmers to identify their

Project: Kootenay Swim Club - Equipment Upgrades

personal goals and gives them the resources and the training skills necessary to achieve them. Our club understands the importance of healthy community, we are well-suited to facilitate programming which provides the opportunity for swimmers in the Kootenay region the chance to utilize their swimming as a motivator to pass on their knowledge and become leaders within our community.

We wish to encourage versatility both in and out of the water. Commitment to goals and to the means of achieving those goals are important lessons to be learned from swimming, keeping in mind that children need time to be children. Accordingly, Kootenay Swim Club swim groups provide all levels of participation and commitment.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Niallan Collier has extensive coaching experience. He first started coaching part time with the Kootenay Swim Club in January 2021 and has been making an impact on swimmers in the role of Head Coach since the 2021/2022 season. Niallan was one of the first swimmers to join the Kootenay Swim Club when it was founded in the 2008/2009 season. During Niallan's time as a swimmer he attended high level meets such as Western Nationals and Senior Nationals. He brings a passion for long-term athlete development protocols and our regional swimmers benefit from his dedication and experiences.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

In-kind sources and contributions include many hours of passionate volunteerism.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

RE: Kootenay Swim Club – equipment upgrades

To whom it may concern,

Please accept this letter in support of the Kootenay Swim Clubs (KSC) ReDi grant application for funding to purchase new training equipment.

The Kootenay Swim Club was founded in 2008 and has evolved to now offer a unique swim program which involves the planning, organization and implementation of age and stage appropriate swim activities for children age 8 – 18. KSC Coaches are committed to respecting the best interests of each child and train them to compete in a manner that will provide valuable life skills once their swimming days are behind them. This organization prioritizes a commitment to their mission statement – Swimmers today, leaders for a lifetime.

Within Balfour Golf & Recreation's aims to promote healthy living and community spirit throughout all of its operations. This shared mindset aligns with the values instilled via KSC programming and we therefore encourage you to support the swimmers of our region via the ReDi grant funding stream.

Regards,

A handwritten signature in black ink, appearing to read "Craig Wilkinson", with a long horizontal stroke extending to the right.

Craig Wilkinson
General Manager
Balfour Golf & Recreation

REDI GRANT – CITY OF NELSON SUSTAINABILITY STRATEGIES, GOALS, and OBJECTIVES

The intended purpose of this document is to highlight how the Kootenay Swim Club aligns with current City of Nelson sustainability strategies, goals, and objectives.

The Nelson Path to 2040 Sustainability Strategy serves as an umbrella document that sets the direction for future policy and planning decisions. This strategy is comprised of varying components which include sustainability principles and directions which define Nelson's community vision. These five principles, to varying levels, all align with the Kootenay Swim Club's policies and actions.

Cultural Strength uses arts, heritage, and recreation to establish diversity and ultimately the creation of meaningful learning opportunities; this is at the heart of the Kootenay Swim Club. Our organization supports healthy living; foster an inclusive and respectful community; and maximize intergenerational connections.

Healthy neighbourhoods are safe, welcoming, connected places with meaningful opportunities to interact with neighbours of all ages and income levels. The Kootenay Swim Club creates safe, welcoming, and connected spaces in two regional recreational complexes and prioritizes meaningful interactions among athletes, coaching staff, parents as well as community members. The swim culture is filled with personal moments; these young athletes learn the fundamentals together, train together, and compete together. Moments of joy, sadness, and triumph are important as they bring the individual swimmers together as teammates and friends. All swimmers understand the struggle of the sport and understand the importance of respecting each other as well as other teams, striving to make each other better and stronger.

We serve the community through social and cultural programs that engage, connect residents, and enhance quality of life. All of which align with the overarching pillars of the Path to Sustainability in the municipal vision. We endeavour to purchase all of our new equipment locally whenever possible, our organization supports local business which contributes to the economic success and prosperity of our community. We also provide meaningful employment to a head coach, intermittent assistant coaches as well as junior coaches who help throughout the swim season.

Nelson Next guides our community towards systemic solutions that address our climate change priorities while also advancing other community needs, such as economic development and diversification, improved health, and increased social connection which is what is at the heart of our Swim Club.

Project: Kootenay History Education Project

1. The project will provide:

Our project is the continuation of our work to educate the general public and students of School District #8 about Kootenay history. This is done by annually adding to our website kootenayhistory.com and through storytelling in schools. The website portion is carried out by secondary and post-secondary students funded through Canada Summer Jobs (which in turn contributes to their further education. The storytelling in Schools is performed by professional storyteller Mike Funergy who offers story presentations and workshops .

2. Organization Mandate:

To support the creation and performance of original theatrical productions and school presentations based on the history of Nelson, BC and the Kootenays and to support and administer tours of these productions throughout the Kootenays.

To support and administer the creation and performance, in Nelson, of other theatrical productions and school presentations and to support and administer tours of these productions throughout the Kootenays.

3. Community objectives the project will work towards are:

Education and knowledge of local history is an important ingredient in the creation of a well-rounded education. Participating students will benefit.

4. Project will address issues or opportunities pertaining to:

Kootenay students will learn about their regional history through access to the websites and story presentations. Schools have identified the need for art and performance activities as part of a full educational curriculum.

5. This organization is best to provide this project to the community because:

We have been successfully doing this for over twenty years

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The project will be supervised by NHTS administrator Richard Rowberry with two Canada Summer Jobs hires and storyteller Mike Funergy.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Employee home/office space and equipment
Touchstones Nelson Museum archive resources

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Johanna Strom <Johanna.Strom@sd8.bc.ca> Wed, Feb 14, 12:02 PM (7 days ago)

Hi,

I just wanted to reach out and ask if we can organize a writing workshop for 2 different classes with Mike Funergy. There is a 2/3 class and a 4/5 class who are interested. We thought maybe a one-hour workshop with each class?

Thanks so much,
Johanna Strom

Mike Funergy Mon, Jan 29, 9:59 AM

Hi Richard,

Just letting you know we're confirmed for the following:

Mike

Monday March 11th

Solomon/Podovelnikoff 9:10-10:10 (grades 3-5

Recess 10:20-10:40

Johnson / McRann 10:40-11:40 (Gr 5/6)

Tuesday March 12th

Long and Koorbatoff 9:10-10:10 (Multiage 1-4)

Recess 10:20-10:40

Marken//Christie 10:40-11:40 K-2

For over twenty years Nelson History Theatre has been creating theatre with both professional and youth performers, storytelling in regional schools and building heritage based websites. Recently we have also taken to supporting local artists with their projects. One such is Mike Funergy and here's his introduction....

Mike is a teller of personal & traditional tales and workshop host who has worked with all ages, from schools to seniors homes.

He has told stories at storytelling events in BC and Ontario, has appeared on podcasts and radio stations, at the Vancouver Aquarium, Vancouver Science World, Toronto International Storytelling Festival, and various other events. He has performed in public and private schools throughout Metro Vancouver and Nelson.

He is the host of 'That's Another Story' on Kootenay Co-Op Radio, which is a show about 'stories and the stories behind the stories'. He is passionate about bringing storytelling to wide audiences who may not realize the power of stories, especially younger generations who grew up with the internet.

Mike hosts workshops for adults who wish to learn how to use personal stories to improve their communications skills, those who want to improve the presentation of their ideas and business pitches, and in schools to get kids excited about storytelling.

He is also the representative for Storytellers of Canada for British Columbia, and resides in Nelson BC.

For website information go to www.kootenayhistory.com

Project Title **Slocan Ridge Repeater: Replace VHF repeater Antenna with High-Gain version**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area H, RDCK Area I

Slocan Ridge. This is a mountain top site (at 6500 feet in elevation) that hosts many radio repeaters, and is located between Nelson and Castlegar.

Importance to the community:

This will ensure that there is 100% VHF emergency radio coverage for Nelson, and surrounding communities throughout the entire year.

Amateur Radio operators in this area can then provide emergency radio services to all communities within range of the Slocan Ridge repeater site.

Work Plan Dates: Project Start: 6/1/2024 Project End: 10/31/2024

Project: Slocan Ridge Repeater: Replace VHF repeater Antenna with High-Gain version

1. The project will provide:

The project is to replace a failing VHF repeater antenna located on the Slocan Ridge site (mountain top). The existing VHF antenna is quite old, more than 20 years in service, and is showing signs of failure. Maintaining and improving the Slocan Ridge radio site has been ongoing for several years.

2. Organization Mandate:

The purpose of the WKARC is to promote and assist in the use of amateur radio (Emergency) communications. WKARC has been serving the local Ham Radio community for over 50 years. Serving the Nelson, Castlegar, Slocan Valley, Kootenay Lake, and Duncan Lake areas. Our amateur radio club provides volunteer communications for events throughout the region. Club members are active in every facet of the hobby and they maintain several analog, digital, VHF & UHF mountain top repeaters. We are Amateur Radio (Ham Radio) Operators licensed by Innovation, Science and Economic Development Canada (formerly Industry Canada).

3. Community objectives the project will work towards are:

This will ensure that there is 100% VHF emergency radio coverage for Nelson, and surrounding communities throughout the entire year.

Amateur Radio operators in this area can then provide emergency radio services to all communities within range of the Slocan Ridge repeater site.

4. Project will address issues or opportunities pertaining to:

Replace VHF repeater antenna with a new high-gain version.

5. This organization is best to provide this project to the community because:

WKARC has the technical expertise to perform this type of work. It is very specialized, and requires 4-wheel drive travel up severe mountain roads to access the repeater site.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Technical support personnel from the WKARC society.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Volunteer time and labour for preparation of radio equipment, installation, and maintenance.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Kutenai Art Therapy Institute**

Registration # 89127 4037 BC0001

191 Baker St 2nd floor, Nelson BC V1L 4H1

Name of Organization being sponsored if applicable -

Project Title **Land-Based Art Hive**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area G, City of Nelson

This project will take place in Nelson BC, based out of our art studios on 191 Baker Street. We are fortunate to have three large studio spaces, with art materials floor to ceiling. Many of the art materials are donated and saved from the landfill.

Importance to the community:

The community has a treasured resource in the KATI art space. The project has a broad community impact. Anyone can come and make art. You do not have to be an artist.

"I have tried various therapists in the past and none have worked long term for me until I tried art therapy. I like that it is not just talking and that the art can start discussions and help with understanding my mental health."

Public art initiatives contribute to building vibrant, connected, and resilient communities.

Work Plan Dates: Project Start: 6/1/2024 Project End: 12/7/2024

| \$6,700.00 | \$6,700.00 | \$6,700.00 |

1. The project will provide:

An Art Hive is a public art studio that welcomes everyone as an artist. "It's a welcoming place to talk, make art and build communities. Responding in creative ways to things that matter" - Art Hives.

Participants can collaborate, find support, and contribute to the growth and vibrancy of our communities through art making.

We would like to offer a Land-Based Art Hive series. Saturday afternoons from early summer 2024 through December 2024 (slowing down in the summer). Accessibility is a core value of Art Hive. We would see this service as free or by donation. Art Hive would be supervised by a professional art therapist that prioritizes working with natural materials and bringing the land into the studio and beyond. We will explore the question "what can nature teach us?" This is a drop-in format, accessible, low barrier, and meant to strengthen community relations, and relations to the land.

Some of the outcomes participants can expect include:

- Creating art in a supportive community
- Stress relief, self-expression, and personal growth
- Improved sense of personal and community wellness
- A connection to land-based healing practices

Land-based art therapy has the potential to inspire hope, increase emotional resiliency, and facilitate individual and collective healing in the face of the environmental crisis we all face.

2. Organization Mandate:

Mission Statement: The Kutenai Art Therapy Institute (KATI) believes that the creative process is healing and life-enhancing, and that the expressive arts can contribute therapeutically to both individual and community health. KATI is dedicated to training culturally sensitive and responsive art therapists, and to providing art therapy as a community service.

Kutenai Art Therapy Institute (KATI) is dedicated to the interplay between creativity, land-based practice, and collective care, expressed through transformative education and community service.

For over 25 years, KATI has been providing art-making opportunities for the local community. Every year, KATI offers thousands of hours of free or by donation art therapy services to people of all ages with a wide range of concerns. KATI hosts weekly Open Studios for the community.

Since the Institute's inception, KATI has been funded by the Ministry of Child and Family Development to work with families, providing support to parents, adolescents and children. Community well-being and mental health are central to our work.

3. Community objectives the project will work towards are:

The community has a treasured resource in the KATI art space. The project has a broad community impact. Anyone can come and make art. You do not have to be an artist.

"I have tried various therapists in the past and none have worked long term for me until I tried art therapy. I like that it is not just talking and that the art can start discussions and help with understanding my mental health."

Public art initiatives contribute to building vibrant, connected, and resilient communities.

4. Project will address issues or opportunities pertaining to:

The key issues that will be addressed are mental health and resilience. We appreciate that the City of Nelson consulted locally, and mapped out priorities. This project aligns well with City identified priorities, including:

1. Cultural Strength - KATI is a low-barrier public art asset in our community that enriches the quality of life for all citizens. This project will allow us to connect and promote artistic expression and support healthy living.
2. Resilience is identified by the City of Nelson's path to 2040 as maintaining and enhancing the social and ecological systems that strengthen our ability to withstand challenges. This project is focused on resilience through relationships, art, community, and the land.

Nelson does not currently have many low-barrier arts and cultural spaces where art making is inclusive, non-technical, and simply for the joy of the creative process.

5. This organization is best to provide this project to the community because:

KATI has been in this community for almost 30 years. For most Nelson and area residents, whether it's yourself, a loved one, or an acquaintance, you are likely to know someone who has benefited from art therapy, or community art making at KATI. We are accessible to people from all walks of life, and folks come to KATI with a wide range of concerns and needs. We are a truly affordable and accessible community art-making and art therapy space. We have the personnel, the experience, as well as a central space to carry out this project well.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The Kutenai Art Therapy Institute KATI staff and art therapy students.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

KATI student interns will contribute countless volunteer hours to this project. An estimated total volunteer hour contribution is 100 hours valued at \$40 per hour is \$4000 in volunteer support.

The KATI Board is an active volunteer board, their work will support this project as well.

Rental of the KATI studio is offered in kind, the rental rate is \$125 per half day X 22 days of service = \$2750 value.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Organization **Diverse Family Roots Society**

Registration # 711389619

Po Box 461, Fruitvale BC V0G 1L0

Name of Organization being sponsored if applicable -

Project Title **Dads Matter. Families on a Tuesday . Supporting Families With Diverse Needs. Families Housing That Fits**

Project will be located in: City of Nelson, Town of Creston, Village of Nakusp, Village of New Denver, City of Castlegar, Village of Salmo, Village of Silverton, Village of Slocan, Village of Kaslo

These will take place virtually and in person in each community . Each region has its own unique identities and needs. The project encompasses the RDKB, RDCK, RDKB.

Importance to the community:

Up until now, this has not existed in the region. Families are disconnected and isolated. COVID did not help at all, in fact more and more families are feeling disconnected, isolated , especially those with medically vulnerable family members.. Families will benefit from Our Tuesday Night Get togethers on ZOOM. Sharing, inspiring, supporting, mentoring. Many young families feel isolated, on their own. The in person events will be uplifting, encouraging, supportive, inclusive.

Thursday evening Sessions for inclusive and supportive, intentional housing . Many families are aging and are the primary caregiver for their aging at home sons and daughters.

Dads will feel connected through the Sunday Night- Dads Supporting Dads online sessions. The in person events will be uplifting, encouraging, supportive, inclusive.

Families will benefit . We intend to lift the instances of isolation, disconnect, aloneness by connecting like/ similar families.

Work Plan Dates: Project Start: 5/24/2024 Project End: 5/17/2025

1. The project will provide:

Dads Matter. Connecting dads that have sons/ daughters with disabilities/ Diverse Abilities. Relieving the strain and pressures of not being alone. Connecting Dads. Supporting dads. Inspiring Dads. Connect to resources and subject matter experts (SME). Delivered virtually and in person sessions.

Families on a Tuesday. Families that have sons and daughters with disabilities, Diverse Abilities. We will connect, support, Mentor, inspire , connect families/ to resources and to subject matter experts and other families with lived experience. delivered virtually and in person sessions.

Families Housing that Fits- Inclusive, supportive, intentional housing conversations. Sharing and discussion on housing options that could be available in each region and the role that families can play in that. Delivered virtually and In person sessions. The project will cover all of the Kootenays , RDKB, RDCK and RDEK with funding requests being submitted to each.

2. Organization Mandate:

Diverse Family Roots Society is the only grassroots, parent/family-driven support network for families with children or family members with diverse abilities/disabilities that is based in the Kootenays. Create a world where everyone is connected to support, families, resources, and to the community in which they live. Providing information sharing, mentoring, opportunities for connection and sharing, promoting awareness and inclusion

3. Community objectives the project will work towards are:

Up until now, this has not existed in the region. Families are disconnected and isolated. COVID did not help at all, in fact more and more families are feeling disconnected, isolated , especially those with medically vulnerable family members.. Families will benefit from Our Tuesday Night Get togethers on ZOOM. Sharing, inspiring, supporting, mentoring. Many young families feel isolated, on their own. The in person events will be uplifting, encouraging, supportive, inclusive.

Thursday evening Sessions for inclusive and supportive, intentional housing . Many families are aging and are the primary caregiver for their aging at home sons and daughters.

Dads will feel connected through the Sunday Night- Dads Supporting Dads online sessions. The in person events will be uplifting, encouraging, supportive, inclusive.

Families will benefit . We intend to lift the instances of isolation, disconnect, aloneness by connecting like/ similar families.

4. Project will address issues or opportunities pertaining to:

Issues of isolation, addressing the fact that Dads/ Families are not alone in their journey . Connection- connecting like families, meaning to connect families that have similar challenges. Whether it's ASD, ADHD, FASD, OCD, Epilepsy, Downs Syndrome and more we will connect, support those.

Not in school because of the challenges of their son/ daughter.

Project: Dads Matter. Families on a Tuesday . Supporting Families With Diverse Needs. Families Housing That Fits

Lack of Inclusive, intentional housing options. Lack of affordable, supportive housing options. It's an epidemic on its own . So many aging parents still have their aging sons/ daughter living with them with no safe solutions/ options to choose from.

5. This organization is best to provide this project to the community because:

The only grass roots family to family, parent to parent group for dads/ Families that have sons and daughters with disabilities/ diverse abilities that is based in the Kootenays. The Family navigator has 35 yrs of lived experience. Our volunteer " Family Stewards' are all parents that live through out the region and have lived experience .

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The Family Navigator.

8. Minors will be working on this project: No

Organization **Kootenay Boundary Regional Hospital & Health Foundation Society**

Registration # 89312 3034 RR0001

1200 Hospital Bench, Trail BC V1R 4M1

Name of Organization being sponsored if applicable -

Project Title **Orthopedic Enhancement Project**

Project will be located in: RDCK Area A, RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area G, RDCK Area H, RDCK Area I, RDCK Area J, RDCK Area K, City of Nelson, Town of Creston, Village of Nakusp, Village of New Denver, City of Castlegar, Village of Salmo

Phase 1 of the Project commenced January 2023 at the KBRH Health Foundation/KBRH including planning, securing approvals and equipment quotes, grant writing and broad reaching fundraising. Phase 2 includes the CBT ReDi Grant process, purchasing equipment and reporting back as required. Fundraising for this project will occur at the KBRH Health Foundation. Procurement of the equipment will occur at KBRH. Usage of equipment associated with the Orthopedic Enhancement Project will take place at KBRH in the Operating Rooms, to be used by the Orthopedic Surgeons.

Importance to the community:

The Orthopedic Enhancement Project will greatly improve patient care for 88,000 residents living in the West Kootenay Boundary Region. KBRH is the regional service hub for orthopedic and trauma services, providing over 1,700 scheduled and emergency orthopedic surgeries annually. This initiative aims to bring advanced care closer to home, benefiting residents across the area. With the inclusion of state-of-the-art equipment and skilled surgeons, KBRH will treat more orthopedic patients locally, minimizing the need to refer patients to larger city centres for care. The Project will support the introduction of innovative surgical approaches, less invasive techniques, and ultimately reduce pain and recovery time for patients. This not only accelerates patients' return home and functionality but also involves families in the healing process, resulting in a more positive patient experience. The successful completion of the Orthopedic Enhancement Project promises a significant leap forward in regional healthcare and delivery of orthopedic surgical services.

Work Plan Dates: Project Start: 5/16/2024 Project End: 12/31/2024

|------------------------------|--------------------------|---------------------------|
| \$32,000.00 | \$750,000.00 | \$750,000.00 |

1. The project will provide:

In September 2023, the KBRH Health Foundation launched the Orthopedic Enhancement Project, a \$750,000 effort to advance patient care at Kootenay Boundary Regional Hospital (KBRH). This Project will purchase state of the art medical equipment for the Operating Rooms at KBRH, to be used by the Orthopedic Surgeons.

The Orthopedic Enhancement Project will support 2 new Orthopedic Surgeons, who have been recruited to work at KBRH, as well as our existing team of 4 Orthopedic Surgeons. The equipment purchased will allow the surgical team to continue their excellent work providing hip and knee replacement; hip, knee, ankle, shoulder, hand and wrist repair; and trauma surgeries.

Notably, this Project will also support a new level of service for patients including total ankle replacements, hip and knee replacements with a one-day discharge, reverse shoulder arthroplasties and it will change the way some current procedures are performed.

The total Project (Phase 1 & 2) is \$750,000 with \$430,000 donated to date; \$320,000 remains outstanding (for Phase 2) and is the focus of this application, emphasizing the Foundation's commitment to advancing healthcare accessibility and patient care for residents of the West Kootenay Boundary Regional Hospital District.

2. Organization Mandate:

Since 1988, the KBRH Health Foundation, formerly the Trail Regional Hospital Foundation, has raised over \$24.9 million to advance healthcare in the Kootenay Boundary. The Foundation's revenue is generated through gifts from donors. Funding priorities include equipment, patient care & comfort and staff education. The operating budget for 2024 is \$1,750,000.

Kootenay Boundary Regional Hospital (KBRH) has 81 acute care beds, 50 multi-level care beds, and responds to the health care needs of 88,000 residents. KBRH offers specialist services, core medical services and advanced diagnostic services to the residents of its 29,000 sq. km area of accountability. The funds stewarded through the KBRH Health Foundation directly benefit patients receiving healthcare services within the West Kootenay Boundary Regional Hospital District service area.

3. Community objectives the project will work towards are:

The Orthopedic Enhancement Project will greatly improve patient care for 88,000 residents living in the West Kootenay Boundary Region. KBRH is the regional service hub for orthopedic and trauma services, providing over 1,700 scheduled and emergency orthopedic surgeries annually. This initiative aims to bring advanced care closer to home, benefiting residents across the area. With the inclusion of state-of-the-art equipment and skilled surgeons, KBRH will treat more orthopedic patients locally, minimizing the need to refer patients to larger city centres for care. The Project will support the introduction of innovative surgical approaches, less invasive techniques, and ultimately

Project: Orthopedic Enhancement Project

reduce pain and recovery time for patients. This not only accelerates patients' return home and functionality but also involves families in the healing process, resulting in a more positive patient experience. The successful completion of the Orthopedic Enhancement Project promises a significant leap forward in regional healthcare and delivery of orthopedic surgical services.

4. Project will address issues or opportunities pertaining to:

The Orthopedic Enhancement Project addresses key healthcare challenges and opportunities. Recognizing the limited local access to some advanced orthopedic services and the pressing need to recruit and retain specialists, the Project supports the team of Orthopedic Surgeons at KBRH and upgrades surgical capabilities to offer a broader range of procedures. Advanced surgical care will be provided locally at KBRH, alleviating the financial and emotional burden on patients who currently travel for specialized orthopedic treatments. The Project also addresses the long wait times for orthopedic surgeries. Recruitment of 2 new orthopedic surgeons and acquisition of this equipment will increase capacity to provide more surgeries, add new surgical procedures, and decrease wait lists.

Interior Health's Senior Executive Team and KBRH's site leadership identified the need, supported specialist recruitment, and approved this new level of service for the West Kootenay Boundary Regional Hospital District service area.

5. This organization is best to provide this project to the community because:

KBRH is the regional hospital for the Kootenay Boundary and has a proven track record of delivering quality patient care. The Foundation's mandate is to purchase priority medical equipment to improve patient care. Funding shortfalls continue due to budget constraints and competing demands to fund priority equipment across all sites in the West Kootenay Boundary Regional Hospital District and Interior Health.

Hospital Foundations play a critical role in supplementing equipment purchases so that our community members can receive the best healthcare possible. Donors have supported this Project with donations totaling \$430,000. We remain committed to raising the remaining \$320,000 to ensure all priority equipment is on site as soon as possible to support the orthopedic surgical team and their patients.

6. Partners involved in this project have been consulted: True**7. Partners involved in implementing this project:**

The Manager of Clinical Operations for the Operating Rooms will work with KBRH Health Foundation to purchase the equipment once funding is secured.

The Foundation team includes long term staff with over 25 years fundraising and other applicable experience, combined.

The KBRH staff working on this Project are all licenced and accredited by their respective governing agencies.

Interior Health's KBRH Administration and the KBRH Health Foundation's Board of Directors have approved this Project.

8. Minors will be working on this project: No**9. Project will be 100% completed by volunteers: No****10. Is the project viable without ReDi funding support: : Yes****11. In-kind sources and contributions:**

The KBRH Health Foundation will provide the in-kind contribution of staff time as follows:

File No. 73-2024

Project: Orthopedic Enhancement Project

Presentations to municipalities (50 hours)= \$1,750.00

Time spent on grant application (10 hours)= \$500.00

Time spent with IH on administration and ordering process (15 hours)= \$525.00

Time spent completing final reporting for the grants, if successful (4 hours)= \$140.00

Total In-Kind = \$2,915.00 depending on presentations.

Cindy Ferguson
Manager Clinical Operations OR & ACU
Kootenay Boundary Regional Hospital
cindy.ferguson@interiorhealth.ca

April 3, 2023

KBRH Health Foundation
Attn.: Lisa Pasin
1200 Hospital Bench
Trail, BC V1R 4M1

Dear Lisa,

I am writing to request funding to support the Orthopedic Enhancement Project at Kootenay Boundary Regional Hospital (KBRH).

Our appeal is directed towards the KBRH Health Foundation, seeking assistance in acquiring advanced medical equipment and instrumentation to be used in the Operating Rooms at KBRH. This equipment and instrumentation will be dedicated for use by the Orthopedic Surgeons.

The project specifically calls for cutting-edge equipment, including a Self Retaining Hip Surgery Retractor System, Universal Lateral Positioner, Collinear Reduction Clamp Set, Orthopedic Hana Table, and other essential tools. This project will significantly enhance the capabilities of our surgical team, reduce patient wait times, and elevate the overall standard of orthopedic care, providing enhanced accessibility and convenience for patients close to home in the Kootenay Boundary.

The newly acquired equipment will advance techniques used in all current procedures performed at KBRH, including hip and knee replacements, ankle, shoulder, hand, and wrist repairs, along with trauma surgeries. Notably, it will introduce a 24 hour or less discharge process for patients undergoing hip and knee replacements, as well as support two new orthopedic surgeons being recruited to the surgical team at KBRH.

On behalf of the dedicated medical professionals delivering care to orthopedic patients, which includes our most vulnerable senior citizens, at KBRH, we extend our gratitude for consideration of funding for this transformative initiative. Your support will undoubtedly make a profound impact on the well-being and quality of care for individuals in our communities.

Sincerely,

Cindy Ferguson
Manager of Clinical Operations OR, ACU, MDR & Surgical Services
Kootenay Boundary Regional Hospital

City of Nelson Addendum to CBT-ReDi Grant Application 2024: Orthopedic Enhancement Project

The Orthopedic Enhancement Project is a regional initiative that positively impacts Nelson's Path to Sustainability Strategy Goals and Objectives in the priority areas of: Prosperity and Resiliency, and the Focus Areas of Healthy Living & Social Well-Being and Economy.

The majority of funding for the Orthopedic Enhancement Project will be derived from the Regional District of Kootenay Boundary, including support from residents (individuals and families), auxiliaries, corporations, and municipalities throughout Trail, Warfield, Rossland, the Beaver Valley and the Electoral Areas A & B. Funding has been requested from the RDKB CBT-ReDi program totalling \$42,500. For proportional funding requests within the RDCK, please see the full CBT-ReDi submission documents. Every area/municipality in the RDKB and RDCK has been asked for funding support through the ReDi Grant process.

\$430,000.00 in community donations have been raised to date for the Orthopedic Enhancement Project. Fundraising for this project commenced September 2023 and is expected to conclude by December 2024.

Prosperity & Resiliency:

- The Orthopedic Enhancement Project supports existing healthcare infrastructure and personnel. Interior Health employs over 600 employees within our areas. Nelson residents that require orthopedic care will benefit from this project. KBRH is the regional service hub for orthopedic surgery and trauma services in the Kootenay Boundary and provides over 1,700 scheduled and emergency orthopedic surgeries annually. Ensuring that KBRH can provide orthopedic surgeries closer to home, rather than travelling outside of our region, for Nelson residents meets the City of Nelson's goal to ensure healthy and affordable lifestyles for their residents.
- Our hospitals (KBRH and KLH) play an important leadership role in maintaining regional hospital services. This role includes providing our citizens with the best healthcare possible and thus investment in this existing healthcare model is imperative. Our citizens expect a high level of healthcare provision and it is our responsibility to facilitate an improved level of health care whenever possible, which will benefit all residents across the West Kootenay Boundary Regional Hospital District.
- Economic security and meaningful employment are benefits that can be derived from improvements in our regional healthcare system. As our facilities are improved, through capital projects and expansion of services, the importance of our healthcare system when considering regional referral services also increases.
- When we expand services to include cutting edge, state of the art services, it also supports staff and specialist recruitment and retention.
- The medical equipment purchases requested in this grant will provide the Orthopedic Surgeons with the critical equipment necessary to continue their excellent work providing hip and knee replacement; hip, knee, ankle, shoulder, hand and wrist repair; and trauma surgeries. As well, two new procedures will be introduced including total ankle replacements - currently patients are travelling to Kelowna or Vancouver for this procedure and one-day hip and knee replacements - ensuring patients can heal in the comfort of their homes, sooner, when possible.

Please see the grant application itself for full details on the Orthopedic Enhancement Project.

Healthy Living & Social Well-Being and Local Economy:

- Supporting our healthcare system and improving our access to advanced healthcare strengthens our social and economic systems, and will benefit the entire West Kootenay Boundary Regional Hospital District during challenging times.
- Maintaining our current hospital system provides stable employment opportunities for many citizens and is an important economic driver for our communities.
- In times of healthcare treatment and crisis, it is beneficial for our citizens to receive care locally and to have the fullest array of services available in our local communities. The benefits include: patients remain closer to home and receive a greater level of support from their friends and family; intergenerational connections will be maintained; patients employment will not be jeopardized through required absences from work while they travel out of area for medical care if treatment is not provided locally; and reduced cost of travel for patients who would typically be referred to larger city centres to receive care often requiring extended stays and the expense of accommodations, meals, etc., further increasing the burden on rural families.

We **thank you** for considering a contribution for the Orthopedic Enhancement Project through the RDCK CBT-ReDi Program. We appreciate contributions of any value. Your participation will enhance healthcare and maintain good health for all those who choose to live and work in the City of Nelson and surrounding areas.

Sincerely,

Lisa Pasin
Executive Director
KBRH Health Foundation

320 Vernon Street, 3A, Nelson BC V1L 4E4

Name of Organization being sponsored if applicable -

Project Title **Exhibition & Residency Project 2024-2025**

Project will be located in: City of Nelson

Oxygen Art Centre has leased a 900 sq. ft. renovated warehouse space in downtown Nelson since 2005 from Liz Cohoe, of Lillie & Cohoe millinery, with whom the building is shared along with three other commercial tenants. The space is managed by the Centre's Executive Director and is used year-round for the organization's programming.

Oxygen's facilities are well suited for this project as it is easily transformed and is ideally located in downtown Nelson. It features a wheelchair ramp and access notes. Oxygen's O2 satellite enhances community engagement with the arts, located along Stanley and Baker St. (downtown Nelson, BC).

Importance to the community:

Oxygen's structure as an artist-run centre acts as a catalyst for community development. To date we've directly engaged over 32,000 people with our exhibition and residency program, including regional members and tourists alike.

As an integral and long-standing cultural hub for artists of all disciplines and professional levels in the West Kootenay and Columbia Basin, Oxygen provides professional development and critical research opportunities for artists from this region and beyond, many of whom have gone on to have robust art careers.

Oxygen presents exhibitions as space for exchange, as an opportunity for inciting dialogue. This is an essential approach to stimulate critical engagement and debate, especially in our unique, regional context.

Work Plan Dates: Project Start: 6/1/2024 Project End: 6/30/2025

1. The project will provide:

This project will provide 25 weeks of contemporary arts programming at our facility, as well as in person and online adjunct programming.

Free for the public to attend, this project includes 3 exhibitions and 3 residencies, as well as 2 collaborative community-based installations in Oxygen's bathroom and 5 exhibitions in our satellite exhibition window space entitled "O2- featuring regional, emerging artists.

The project includes adjunct programming through events, school tours, talks, performances, reading groups, film screenings, and participatory workshops, as well as produce and disseminate 3 catalogues and 2 zines.

The artists involved in this project represent a diverse mix of emerging, professional, local, and regional talent with a focus on supporting BIPOC, LGBTQ2S+ artists. The 2024-2025 program explores biodiverse agrarian practices, textiles, plant-based medicines, and harvesting, cooking, and gathering according to seasonal, land-based rhythms.

Through this free public programming we anticipate engaging approximately 2,200 people at our main facility and 5,000 people at O2. Further, the project will involve 18 artists, 32 professional contracts, with approximately 26 volunteers.

This project creates vital economic opportunities for the local creative sector and, engages and inspires the community through creative processes that contribute to the rich cultural fabric of our regional identity and help create an inclusive sense of place.

Please refer to program attachment for more information.

2. Organization Mandate:

Oxygen Art Centre is an artist-run centre situated on the tum xula7xw of the snl"É•ayl"ckstx (otherwise known as Nelson, B.C.). Fundamental to the regional cultural landscape, Oxygen Art Centre is a rural artist-run centre that nurtures contemporary professional practices while engaging the wider community through multi-disciplinary programming.

Rurally located, Oxygen serves our immediate Nelson community of 10,000 people, as well as our regional communities of around 70,000 people living in remote outlying areas. Our online programs and events have expanded our audience, better serving regional, rural communities and communities provincially and nationally.

Oxygen is an integral and long-standing cultural hub for artists of all disciplines with a focus on emerging and youth artists in the West Kootenays and the Columbia Basin. Oxygen provides meaningful professional development opportunities to local artists and brings artists of national and international repute to our communities. Through education, residencies, exhibitions, and events Oxygen advances rural cultural development and achieves experimental, accessible, and inclusive programming.

Project: Exhibition & Residency Project 2024-2025

In addition to contemporary arts programming, our artist-run centre is actively researching and developing intersectional feminist and decolonial policies to support three- and five-year organizational strategic plans by which to better serve historically marginalized communities including 2SLGBTQQA+ and BIPOC communities.

Oxygen Art Centre's mandate is to act as a catalyst and incubator for the development of the arts community and its audience(s). Oxygen Art Centre is an artist-run centre that considers accessibility at all levels of our organization, one that continues to learn and shape how our facility and programs serve diverse communities. This practice is based in reciprocity, dialogue, policy development, and ongoing research to create accessible public spaces to engage with contemporary art practices.

These commitments extend to all aspects of our programming, including in person and online experiences, materials, and events, which includes the provision of accessible opportunities for artists and audiences of diverse backgrounds and experiences. Our goal is not only to build an accessible and inclusive environment at Oxygen, but also to work toward a more inclusive and accessible arts and culture sector more broadly. Our approach to accessibility is community-informed and continues to develop in consultation and collaboration.

3. Community objectives the project will work towards are:

Oxygen's structure as an artist-run centre acts as a catalyst for community development. To date we've directly engaged over 32,000 people with our exhibition and residency program, including regional members and tourists alike.

As an integral and long-standing cultural hub for artists of all disciplines and professional levels in the West Kootenay and Columbia Basin, Oxygen provides professional development and critical research opportunities for artists from this region and beyond, many of whom have gone on to have robust art careers.

Oxygen presents exhibitions as space for exchange, as an opportunity for inciting dialogue. This is an essential approach to stimulate critical engagement and debate, especially in our unique, regional context.

4. Project will address issues or opportunities pertaining to:

This project highlights our region, and as such, supports B.C. artists and cultural practitioners. Specifically, we are responding to our place-historically, institutionally, and physically-as well as topics pertaining to climate change, agrarian practices, and decolonization. This project supports an equity-lens, bringing cross-generational and diverse backgrounds into dialogue.

This project fosters a diverse, value-added program that includes meaningful employment opportunities for professional and emerging artists and creatives according to CARFAC rates, as well as service agreements with regional businesses. Both aspects stimulate rural economic development through myriad of channels.

This project creates thought-provoking and stimulating experiences for our regional community that celebrates and embraces our diverse artistic and cultural values.

Oxygen supports professional practices, exposure, and sustainability of our local art scene through critical engagement with local and visiting professional artists.

This project is open to all and provides accessible, free programming.

5. This organization is best to provide this project to the community because:

Oxygen Art Centre was founded as the Nelson Fine Arts Centre Society in 2002 by former writing and visual arts faculty at the Kootenay School of the Arts. The centre spent its first two years establishing its educational focus and in January 2005, the society opened the Oxygen Art Centre in downtown Nelson.

Project: Exhibition & Residency Project 2024-2025

Oxygen has now completed 22 years of successful arts education programming and 19 years of full season programming including: 643 courses since 2002, 61 exhibitions since 2005, 42 artist residencies since 2005 and over 423 events hosted through our presentation series.

Oxygen is known for challenging and experimental programming. We value the curatorial, research, and production of contemporary art programming that support diverse artists in all stages of their careers. We are particularly interested in contemporary art practices that are interdisciplinary, process-based, and socially engaged.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Oxygen is an artist-run centre governed by a volunteer Board of Directors, of which the majority are practicing artists.

Oxygen's Executive Director, Julia Prudhomme (PhD-c, MFA) has over ten years' experience working and volunteering at arts and culture organizations across Canada. Prudhomme is concurrently completing her doctoral thesis on feminist curatorial practice with a focus on rural arts organizations.

Importantly, this project will create 50+ contracts for professional artists and creatives at CARFAC rates. This project will also involve volunteers, consisting of a dedicated pool of artists and community members who give 600 volunteer hours every year.

8. Minors will be working on this project: No

9. Project will be 100% completed by volunteers: No

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

Our Exhibition & Residency program can keep doors open to the public for free admission due to a committed crew of volunteers who host gallery open hours and events, averaging 400 hours per year (400hrs volunteer labour @ \$20/hr = \$8000).

Residency artists are billeted with local community members while in Nelson. At \$150 per night x 3 months of residencies, this in-kind contribution is valued at \$13,500.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

**Oxygen Art Centre's Exhibition & Residency Project 2024-2025
DETAILED WORK PLAN / SCHEDULE:**

Oxygen Art Centre's main facility:

29 January 2024

Dear Selection Committee,

Please accept this letter of support for Oxygen Art Centre's (Nelson Fine Arts Centre Society) application to the Columbia Basin Trust Resident Directed Grants for the 2024 intake.

As a recent guest curator for "The Hungry Mist (*A Névoa Faminta*)" residency and exhibition project (November 2023 – February 2024), I endorse the artist-run centre's support of critical contemporary art research for visiting and local, emerging and professional artists. My curatorial practice has greatly benefitted from their programming, and I was excited to be welcomed by and immersed within the Nelson community during my time in residence (November 2023).

The team at the artist-run centre welcomed The Hungry Mist project with great dedication, articulating the engagement of the Nelson public and cultural agents in the activities and workshops I proposed as a curator, as well as sparing no effort to make the project, which had an international reach, happen as smoothly as possible.

As their collaborator, I could acknowledge how Oxygen Art Centre is a vital contributor to the arts and culture sector and to the Columbia Basin regional community.

Thank you for your time and consideration.

Kind regards,

Rodrigo D'Alcantara

Sessional Lecturer & PhD Candidate in Art History

Department of Art History

Concordia University, Tiohtià:ke/Montréal

6 February 2024

Dear Selection Committee,

Please accept this letter of support for Oxygen Art Centre's (Nelson Fine Arts Centre Society) application to the Columbia Basin Trust Resident Directed Grants for the 2024 intake.

As a Nelson resident, professional interdisciplinary artist, active Oxygen board member, and contributor to Oxygen's Exhibition & Residency committee, I support the artist-run centre's support of critical contemporary art research for visiting and local, emerging, and professional artists. I have benefitted from their programming and continue to be excited to take part in their offerings within the community.

Oxygen Art Centre is a vital contributor to the arts and culture sector and our region's community.

Thank you for your time and consideration.

Kind regards,

A handwritten signature in black ink, appearing to read 'Laurel Terlesky', with a stylized, cursive script.

LAUREL TERLESKY, M.F.A.

*Grateful to create in the traditional territories of the Sinixt, the Syilx, and the Ktunaxa peoples
(Nelson, B.C.)*

Oxygen Art Centre Exhibition and Residency Project 2024-2025:

Oxygen Art Centre's Exhibition and Residency project corresponds to an overarching program that composes our organization's three-year curatorial vision. The goal of this project is to provide professional artists with the resources to create and exhibit new works, and to provide contemporary and professional arts programming to the public.

Oxygen enacts feminism(s) as an instituent practice; a foundation to counter colonial, patriarchal infrastructures. Through reciprocal practices our artist-run centre commits to the everyday work of radical care. By reclaiming care, we acknowledge the complexities of our positions as a public contemporary art organization that contributes and responds to social, environmental, and political ecologies from our rural contexts. We believe that this work is critical as a non-profit artist-run centre to foster decolonial, anti-capitalist relations and the practice of contemporary art programming and research. Oxygen Art Centre attends to intersectional feminist and queer concerns of interdependency and a politics of care as approaches to all aspects of our operations.

Oxygen is known for challenging and experimental programming. We value the curatorial, research, and production of contemporary art programming that support diverse artists in all stages of their careers. We are particularly interested in contemporary art practices that are interdisciplinary, process-based, and socially engaged. Oxygen's programming is primarily focused through two core programs: the Exhibition and Residency Program and the Education Program. This application will support the Exhibition and Residency Program, presented at Oxygen Art Centre's Nelson, BC, Canada facility from 2024-2025.

Oxygen's Exhibition and Residency program supports process-based projects that encourage experimentation and push conventional practice. Oxygen produces 2-3 exhibitions per year featuring work by emerging and professional artists. Oxygen hosts one artist-in-residence annually. The program supports artists by offering time, space, and resources to deeply explore their practice(s) or a project. Residencies are one-year in length, including remote and in-person components.

Alongside this program, we offer adjunct programming such as artist talks, open studios, film screenings, performances, school tours, and readings groups, as well as the publication of catalogues and printed matter. Adjunct programming provides multiple methods to engage with artists and practices via online, in person, and hybrid formats.

This curatorial trajectory is more focused and responsive to our context than in the past. During the selection process we focused on our organization's goal to support work with regional relevance, particularly how our programming could both galvanize and unsettle our regional identity and our organization's contribution to the regional and national cultural landscape.

Oxygen focuses on supporting artists that challenge themselves to experiment with new processes due to our unique context. Oxygen is also a supporter of local and regional artists and creative professionals. By evenly distributing support to local and visiting artists and creative professionals, Oxygen is a vital agent in providing contemporary arts and cultural programming to Nelson and the regional district.

Additionally, this project includes consistent exhibition publications, another advancement for the centre. Publications or catalogues directly reflect Oxygen's mandate to be a conduit for art and arts education by providing thorough critical and contextual information to our exhibitions. Publications also fund local writers, poets, designers, photographers, and printers, as well as contribute to a larger archive for both the organization, community, and participating artists to advance their careers.

Through these projects we seek to create space for the voices and creative practices that have not previously been given opportunities for artistic presentation and support.

The following will be featured during this project:

Staff + Collaborators

Julia Prudhomme (she/her, b. 1989, Mississauga, ᑭᓄᓂᓐᓂᓐᓂᓐᓂᓐ, and Haudenosaunee territories otherwise known as St. Catharines, ON) is a white settler curator, scholar, and artist who lives and works on the traditional territory of the sn̓ᓂay̓ckstx (Sinixt) peoples. She is developing an intersectional feminist curatorial practice that focuses upon artistic process, experimentation, and care within (and against) institutions. In addition to curatorial projects Julia holds a Master of Fine Arts in Interdisciplinary Studies at University of British Columbia (2013). Her artistic practice is often collaborative, working in video and installation, zines and mixtapes, and has presented this work across Canada, United States and Europe.

Julia has contributed to public art galleries and artist-run centres in numerous capacities for over ten years and continues this work as a PhD candidate at McMaster University (PhD-c ABD in Communications, New Media, and Cultural Studies, 2017-present) and Executive Director at Oxygen Art Centre in Nelson, BC (2019-present). Julia also volunteers for numerous organizations including, Cultural Development Committee (City of Nelson, 2019-present), Secretary for Pacific Association of Artist-Run Centres (2020-present), and Director for Slokan Valley Community Arts Council (2021-present).

Natasha Smith holds a BA Hons. in Fine Art Printmaking and has been a practicing visual artist for over 20 years. Natasha's personal and physical environment inspires her most recent semi-abstract works, which combine printmaking, collage, painting and assemblage. She is a self-defined teaching artist and has taught at KSA (Kootenay Studio Arts at Selkirk College), Oxygen Art Centre, Red Deer College, Metchosin International School of the Arts, and Malaspina Printmaking Studio. Natasha works from her studio in beautiful Krestova, BC. and is the Education Coordinator at Oxygen Art Centre.

Creative Professionals

Hall Printing

Hall Printing has a long and rich history of providing print to the communities of the West Kootenay. Hall Printing was founded in 1920 and has made many transformations in equipment and staff in the 100 years of print. We have some cases of letterpress type next to a windmill letterpress which is still used for numbering, scoring and perforating. In the modern print shop, heavy lead type has given way to massive amounts of network cable to connect all the computer controlled production machines.

Ingrid and Ron Hope are the current owners of Hall Printing after purchasing the business from Dave and Gail Chartres in 2005. When Ingrid started at Hall Printing in 1990 as the front office receptionist, the shop consisted of one slow copier, three presses and no computer. Now the two shops in Trail and Nelson depend on 6 copiers, 3 large format printers, 3 presses and 21 computers to print on tons of paper every year.

Large capital investments every year keep equipment current and improve the environmental footprint of Hall Printing. All our platemaking is chemical free, we use vegetable oil based ink, most of our house stock is FSC® certified and all waste is recycled.

Keiko Lee-Hem (Designer)

Keiko Lee-Hem is a graphic designer, artist, maker, and wanna-be back-to-the-lander located in the West Kootenays. My natural creative flames were stoked while studying Fine Arts at Emily Carr University of Art and Design. The seeds of graphic design and writing were sown and tended through Langara College's Publishing Program.

Kenton Doupe (Photographer)

Canadian based freelance photographer, videographer, graphic designer, and woodworker. I specialize in artistic portraits with a strong emphasis on dark/ethereal/abstract imagery. I've been shooting professionally since 2014 after graduating with a degree in Fine Art.

Artists: Main Exhibition & Residency program

Chris Dufour is an interdisciplinary social practice artist working between Kanien'kehá:ka and Lekwungen territory. Their work seeks to intersperse explorations of ecology, (non)belonging, and relation within queerness, gender, and climate apocalypse and survival. Chris' work focuses on social and community engaged practices that have incorporated collaborative projects in ecological stewardship, encounters for relation, and broader community building. Chris uses mediums of plants, gardening, ecological wandering, textiles, installation, darkroom manipulation, leather tanning, and sculpture to process questions of how do we cultivate a sense of belonging within and among systemic power dynamics? How do we push against empire while cultivating resilient communities and cultures of care? What practices of living can we recuperate, develop, and employ within contemporary cultures of crisis?

Of Irish and Quebecois heritage, Chris grew up outside of Kijipuktuk (so called Halifax, Nova Scotia) and has spent the last 8 years working and living across many territories on Turtle Island. After attending the Yukon School of Visual Arts, Chris took on a practice of grassroots learning that brought them to social practice, permaculture, and accessible community-based education. Throughout, Chris values projects which seek to utilize material practices as a facilitator, to process connections and relationships to ecologies, modalities of care, alternative futures, and ruminations about world building.

SF Ho is an artist, writer and facilitator. Their parents immigrated to Turtle Island from Hong Kong in the 1970s and they have been living as an uninvited guest on the unceded territories of the xwməθkwəy̓əm, Sḵwxwú7mesh, and sə́lilwətaʔl peoples for over twelve years. They are informed by early experiences of community organizing around anti-poverty issues while growing up in Ontario. They're cultivating a practice of wary sociality, never finishing books, and being sort of boring. Their practice

considers intersections of culture, history, and embodied experience from racialized, queer perspectives. Ho has presented their artwork and writing across this continent as well as internationally. They've published a novella about love and aliens called *George the Parasite*. They were the founder of the land-based program *Slow Wave Small Projects* and they have served on the board and advisory committees of many arts organizations across so-called Canada.

Chanelle Adams (collaborator w/SF Ho) is a multidisciplinary essayist, researcher, and translator. She completed a B.A. in Science and Technology Studies at Brown University with a focus on history of science and medical anthropology. In 2017, she was awarded a Franco-American Fulbright to research Madagascar plant medicine in the French colonial archives. During her time in Marseille, she completed a M.A. in Social Sciences at the Ecole des hautes études en sciences sociales. She is currently enrolled at the University of Lausanne in the Political Ecology doctoral program. Adams was a founding member and Managing Editor at [Bluestockings Magazine](#). Her work on music, healing, and diaspora has been published by NPR, The Feminist Press, Bitch Media, and The Funambulist, among others.

She has given academic and artist talks in the USA, France, Czech Republic, Benin, Greece, South Africa, Madagascar, and Canada.

Manuel Axel Strain is a 2-Spirit artist from the lands and waters of the x^wməθk^wəyəm (Musqueam), Simpcw and Syilx peoples, based in the sacred region of their q̓ic̓əy̓ (Katzie) and q^wa:n̓l'ən̓ (Kwantlen) relatives. Strain's mother is Tracey Strain and father is Eric Strain, Tracey's parents are Harold Eustache (from Chuchua) and Marie Louis (from nkmaplqs), Eric's Parents are Helen Point (from x^wməθk^wəyəm) and John Strain (from Ireland). Although they attended Emily Carr University of Art + Design they prioritize Indigenous epistemologies through the embodied knowledge of their mother, father, siblings, cousins, aunts, uncles, nieces, nephews, grandparents and ancestors.

Creating artwork in collaboration with and reference to their relatives, their shared experiences become a source of agency that resonates through their work with performance, land, painting, sculpture, photography, video, sound and installation. Their artworks often envelop subjects in relation with ancestral and community ties, Indigeneity, labour, resource extraction, gender, Indigenous medicine and life forces. Strain often perceives their work to confront and undermine the imposed realities of colonialism. Proposing a new space beyond its oppressive systems of power. They have contributed work to the Richmond Art Gallery, Vancouver Art Gallery, Surrey Art Gallery, UBCO Fina Gallery and were longlisted for the 2022 Sobey Award.

Artists: O2 window space

Hannah DeBoer-Smith

I am a multimedia artist, ranging from comics, illustration, painting, wood, textiles, sculpture leather, music and songwriting, tattooing, book making, writing. There's more, but you get the gist of it. Whatever I create I ask myself, "what would I want to see out of the things I create?" and draw the creative processes from that place and move forward. Through happenstance or upbringing, I process the word very literally, which comes across in my art. For what my work lacks in the abstract it makes up for in the honest, humorous, relatable and grounded approach to processes the world through an artistic medium.

For many years I have focused a lot of my creative energy on comics and illustration work. This has

been largely due to my focus being drawn toward working on a non arts related degree and work. In re-emerging I have the time and space to re-expand my creative energy. I have lately been exploring sculpture, paper, texture and light and how we can interact with these mediums.

I have taught many creative pursuits mainly in sewing, textiles and printmaking and have mentored and supported youth gallery curation.

I have exhibited at Oxygen Art Centre twice through the Youth Arts Festival and have participated in Nelson Art Walk in 2022.

Samonte Cruz is a trans, Filipinx goldsmith, artist & educator in Nelson, BC. They are currently developing a body of work titled, *Filipino Survivance: Contemporary Cultural Artifacts & Adornment*, funded by Canada Council; reimagining sacred ancestral objects, while highlighting the skill & unique style of ancient Filipinx goldsmiths.

In 2021/2022, Samonte collaborated with local textile artist, Jennifer Burke and glass artist, Bee Schroeder; working together and in their individual studios to make components that were ultimately used in constructing a wearable, multi-layered garment that is meant to embody the experience of chronic pain; creating a physical representation & visual of Samonte's invisible disability.

The group explored the contrasting experiences of pain & social isolation with queer resilience, trans empowerment & gender euphoria.

Although the garment was worn for a documented performance of a song written by Samonte for the project, the garment itself has never been exhibited.

Organization **Health Arts Society**

Registration # 81014 0749 RR0001

1254 West 7th Avenue, Vancouver B.C. V6H 1B6

Name of Organization being sponsored if applicable -

Project Title **Concerts in Care**

Project will be located in: RDCK Area A, RDCK Area B, RDCK Area C, RDCK Area D, RDCK Area E, RDCK Area F, RDCK Area H, RDCK Area I, RDCK Area J, City of Nelson, Town of Creston, City of Castlegar

Concerts will take place in ten RDCK care homes and senior centres located in Nelson, Castlegar, Creston and Kaslo.

Importance to the community:

This project is specifically dedicated to improving the quality of life for elders living in care in the RDCK. Concerts in Care offer residents a sense of participating in ordinary life and provide them the opportunity to be respected and valued audience members. This application is for funding towards the delivery of 70 in person Concerts in Care, which will address an audience of approximately 3000 and will offer 170 performer opportunities for the Kootenays community of professional artists. Local seniors, staff, and resident families will all enjoy the performances. Local professional musicians will benefit from the connection with this audience as well as the additional performance income.

1. The project will provide:

Concerts in Care is a Senior's Quality of Life program that offers a series of professional concerts performed primarily by Kootenay based musicians for residents of long-term care facilities. Ten concerts will be delivered at each of the homes, totalling 70 concerts for the series. All concerts will follow strict guidelines set by local health authorities.

2. Organization Mandate:

Health Arts Society (est. 2006) is a registered charity delivering the work of professional musicians to audiences isolated in care and has, to date, delivered over 24,000 forty-five-minute daytime concerts throughout British Columbia. The Society's work is dedicated to the idea that no real community can exist without elders, and addresses the need for quality of life initiatives for this underserved and sometimes forgotten population. Concerts in Care offer elders and others living in care a sense of participating in ordinary life and provides them the opportunity to be respected and valued audience members.

3. Community objectives the project will work towards are:

This project is specifically dedicated to improving the quality of life for elders living in care in the RDCK. Concerts in Care offer residents a sense of participating in ordinary life and provide them the opportunity to be respected and valued audience members. This application is for funding towards the delivery of 70 in person Concerts in Care, which will address an audience of approximately 3000 and will offer 170 performer opportunities for the Kootenays community of professional artists. Local seniors, staff, and resident families will all enjoy the performances. Local professional musicians will benefit from the connection with this audience as well as the additional performance income.

4. Project will address issues or opportunities pertaining to:

There are no mandated standards for providing quality of life programs for people living in chronic care residences, nor do budgets generally allow for regular high-quality arts programming. Projects such as Concerts in Care help connect these isolated audiences with the performance community. People in long-term isolation are in need of stimulation, yet many of them will be unable to access live music or theatre arts for the rest of their lives. These concerts offer seniors a sense of participating in ordinary life. More than ever, during this extended period of isolation, we are hearing that seniors are in need of comfort and connection and have greatly missed our in house concert program.

5. This organization is best to provide this project to the community because:

The innovative Concerts in Care program, unique in Canada, was created in 2006 in response to the broadly understood isolation experienced by elders in care. Concerts in Care connect health care residents, their families and health care staff with professional members of the arts community. Only by reason of frailty are those isolated in care unable to travel to public concert venues. Health Arts Society has been delivering concerts in the Kootenays region since 2009, to enthusiastic responses from audiences and health care staff. Over 1300 concerts have been presented in the RDCK over the last several years and the excellent reception to the program is most encouraging for its continuation.

Please see www.healtharts.org for further information

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

The Kootenay Chapter Coordinator, Nicola Everton, is responsible for recruiting local and touring musicians and scheduling performances around the RDCK. A series of monthly concerts will be scheduled over ten months .at each

Project: Concerts in Care

of the venues beginning in August 2024 and ending in May 2025. Feedback evaluation forms and personal feedback from performers, staff and residents help to fine-tune the program.

- 8. Minors will be working on this project:** No
- 9. Project will be 100% completed by volunteers:** No

To Whom it May Concern

Castlevue Care Centre wanted to thank you for the amazing concert performed. Concerts in Care is always a lovely and well put together performance that makes everything run smoothly for staff and residents in the facility. Our residents always appreciate Concerts in Care coming in and they enjoy the performance as well as the social interaction of seeing the performers. The performance is always talked about with staff and residents after about how well done it was. We at Castlevue Care Centre would like to see many more Concerts in Care performances in the future and look forward to it.

Best Regards,

The Recreation Team

February 5, 2024

To Whom it May Concern,

This letter is in support of the Concerts in Care provided by the Health Arts Society at Mountain Lake Seniors Community. The residents of Mountain Lake have been enjoying Concerts in Care for a number of years and continue to benefit greatly from the talented musicians who perform at our home on a monthly basis.

Each month we are provided a poster advertising the upcoming performance, which allows us to look forward to the event and plan for specific residents to be in attendance, who we know will appreciate and benefit from the musical genre/instruments involved.

The quality of musicians and the performances they share are of such a high standard and we feel so fortunate to share these performances with our residents who are no longer able to make it to our local theatre or venues. With Nelson being an "arts" town, we have many residents living in our home who have been musicians themselves and/or have enjoyed local musical performances before moving into care, and the fact that they are still able to enjoy such high-quality shows from highly talented musicians is a great treat; keeping them connected to their local community and providing enriching and meaningful opportunities that they can share with loved ones.

We are grateful to and appreciate the Health Arts Society for bringing this program to our residents and our home and hope we can continue this relationship for the future.

Thank you,

Sandra Grochowich

To Whom It May Concern:

I am writing you this letter on behalf of Concerts in Care to show my support. I believe the programme is deserving of the funding because it provides the need for high quality, live, professional arts programmes for elders in residential care including our residents here at Victorian Community Health Centre of Kaslo - Long Term Care. Our residents love each performances and they are always looking forward every month to see and hear these professional musicians. The smiles and joy that they bring to our residents are precious and greatly appreciated.

For these reasons, I hope you consider their application for funding. If you have any questions feel free to reach me at 250-353-2731.

Thank you,

Mary Ricablanca

 CBT ReDi Grant Application February 10, 2024
 Attachment 1

Alignment with City of Nelson planning documents

| Document | Focus Area & Objective | Health Arts Society |
|-------------------------------|--|--|
| Path to 2040 | <p>Arts, Culture and Heritage</p> <p>ACH1: Promote artistic and cultural expression and celebration in the community to help support a vibrant centre and identity.</p> <p>ACH2: Preserve and celebrate the authenticity and heritage of our community</p> | <p>Enriches community life in Nelson by creating opportunities for small musical performances. Supports Nelson's reputation as a cultural centre.</p> <p>Encourages artists to participate in Nelson's cultural sector; providing a conduit between the arts community and seniors in care. Assists professional musicians to remain living in Nelson by providing opportunities for employment.</p> |
| | <p>Local Economy</p> <p>LE4: Focus economic development and stimulus where it contributes to community values, including a vibrant downtown and waterfront and meaningful employment opportunities that support healthy lifestyles.</p> | <p>Identified a gap in type of musical performances. Creates employment opportunities for local professional musicians.</p> |
| | <p>Healthy Living and Social Well-being</p> <p>HLSW2: Foster an inclusive & respectful community where all citizens have opportunities for meaningful participation in social, cultural, economic and environmental aspects of the City.</p> | <p>Seniors living in long-term care suffer isolation as they are no longer able to access live music or theatre. These events offer residents a sense of participating in ordinary life and a feeling of inclusion.</p> |
| Comprehensive Cultural Policy | <p>Value Statement 5.2.1: Our authentic identity as a community with well-preserved and abundant heritage architecture, and professional and practising artists.</p> | <p>Health Arts Society-Concerts in Care increases performance opportunities for local professional musicians who struggle to make a living and often have to travel out of town to perform.</p> |

| | | |
|--|--|--|
| | 5.2.3: The cultural sector's ability to contribute to the community's identity. | We are providing cultural events of a type currently not often found (chamber music and similar small ensembles) which enhances Nelson's identity as an arts community. |
| | 5.2.5 Collaboration both within the cultural sector and with all sectors of Nelson's and the regional economy. | We are working with other musical organizations in Nelson such as Nelson Overture Concerts and Selkirk Pro-Musica. to coordinate evening performances in Nelson as well as the communities of, Castlegar, and Kaslo to maximize performance opportunities for artists. |
| | 5.2.9: Professionalism and best practices in the cultural sector. | Only professional musicians perform concerts in Care programs. It is our goal to bring high quality music to seniors isolated in care. |
| | 5.2.10: Innovation within the cultural sector. | Concerts in Care concerts are unique in that they provide professional level performances for seniors in care. Most public health authorities do not have mandated standards or budgets for these types of concerts.. |

Crest View Village looks forward to Concerts in care every month! Residents faces light up, and their toes are tapping. They enjoy the amazing music from a variety of styles and Genres that are brought to us.

Concerts in Care is something special for residents to look forward to and that we are privileged enough to experience.

Thank you for supporting Concerts in care and making it available to us.

Organization **Slocan Valley Baseball Association (SVBA)**

Registration # S0070450

C/O 1013 Garden Road, South Slocan BC V0G 2G1

Name of Organization being sponsored if applicable -

Project Title **Field Maintenance and upgrades to allow for more inclusive access.**

Project will be located in: RDCK Area F, RDCK Area H, RDCK Area I, RDCK Area J

This project will take place at the multi-purpose baseball field in Slocan Park at the Slocan Park Hall.

Importance to the community:

This project will ensure a safe place for youth to play Baseball in the Slocan Valley. We currently have close to 100 baseball players, aged 5-13 playing across 7 teams. This activity needs a field that these youth players can learn the game and compete against other teams in the Kootenays (Nelson, Castlegar, Trail, Cristina Lake, etc.) It will provide a place for everyone in the community to come out and support the youth as well. It will benefit the community as a whole, as well as any youth that choose to register with our league (players, umpires, and coaches).

Work Plan Dates: Project Start: 6/1/2024 Project End: 9/30/2024

| \$4,000.00 | \$7,500.00 | \$7,500.00 |

Project: Field Maintenance and upgrades to allow for more inclusive access.

1. The project will provide:

We are looking to upgrade and maintain the playing field by adding bleachers for fans to watch the practices and games. This would allow the elderly and children a place to sit and watch. We are also looking at replacing the current irrigation system as we have had issues with the solenoids and sprinkler heads that we currently have in place. Through volunteer workers, we will replace the irrigation components that are faulty and add a set of bleachers for fans and parents to watch the youth play ball. We are also looking for shade cover options, as the spectator areas are currently in full sun.

2. Organization Mandate:

To provide an inclusive space for youth to learn new skills and play the game of Baseball and T-Ball. To develop leadership in players to help umpire and coach the game.

3. Community objectives the project will work towards are:

This project will ensure a safe place for youth to play Baseball in the Slocan Valley. We currently have close to 100 baseball players, aged 5-13 playing across 7 teams. This activity needs a field that these youth players can learn the game and compete against other teams in the Kootenays (Nelson, Castlegar, Trail, Cristina Lake, etc.) It will provide a place for everyone in the community to come out and support the youth as well. It will benefit the community as a whole, as well as any youth that choose to register with our league (players, umpires, and coaches).

4. Project will address issues or opportunities pertaining to:

With limited seating, fans don't have many places to sit where they can see the field and watch the kids play and practice safely. As the league becomes more popular, we realize that seating is limited to an area behind the Home Team dugout. We would like to add a second set of bleachers behind home plate to give fans and that don't have their own seats a place to view of the playing field. As we open up more opportunities to play other out of area teams.

As well, we have identified some issues with our irrigation system, where the automatic sprinklers have stopped working in some spots on the field, and we are unable to source parts. These parts of the field have become dry with limited watering and this can be hazardous to player safety during games and practices.

5. This organization is best to provide this project to the community because:

We have been running the baseball program since 2018 and have been involved every year since the associations inception. We have done extensive upgrades to the field from the beginning, especially during COVID, when the kids were not able to play. We have built the field and maintained it every year. As such, we have installed the original irrigation system, but 1 set of bleachers, and levelled out the playing field. We have a unique knowledge of the field layout and the needs that it has to keep it in good playing condition.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

Volunteers have identified these needs, and will be the ones to implement them. From putting the bleachers together after they are delivered, to replacing the irrigation system parts that are failing as well as maintaining the field. The SVBA Board will oversee this project as a whole.

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

Project: Field Maintenance and upgrades to allow for more inclusive access.

11. In-kind sources and contributions:

Volunteers are ready to assist in the installation of the irrigation components and to build the bleachers when they arrive on site. Machinery time, fuel, and man hours are also being donated.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.

Project Title **West Kootenay Pony Club**

Project will be located in: RDCK Area E, RDCK Area F, RDCK Area H

This year stable management sessions will be held at the Crescent Valley Hall and the Nelson and District Riding club in Blewett. Additional venues, including the Sunshine Bay riding grounds in Harrop, may be sought as needed. The club camps will take place at the Nelson and District Riding Club and Sunshine Bay Riding grounds. Regional pony club camp takes place in Chase and the Quiz event this year is in Kamloops.

Importance to the community:

WKPC provides opportunities for youth to have positive experiences with horses through multifaceted educational experiences; learning responsibility, sportsmanship, compassion and empathy. The program fosters the development of leadership skills through member involvement and the mentoring and teaching of younger members and peers. Teamwork skills are developed and new friends made. Members also learn to be confident, motivated horse people with a high degree of knowledge and skill in the equestrian arts. Members are encouraged and supported to participate and contribute to the broader community and the effect of the program ripples out through personal connections and community engagement.

1. The project will provide:

The West Kootenay Pony Club (WKPC) fosters the development of leadership, horsemanship and teamwork through a program that encompasses horse care, stable management and riding. The WKPC focuses on both theoretical and practical stable management and horseback riding instruction. For the stable management portion of the program the club meets roughly two times per month from January to June to learn about all aspects of equine theory, including: breeds, feeding, first aid, horse care and safety in a fun, sage and engaging environment. For the riding portion and practical component, the WKPC will run three, three day camps during the 2024 riding season with certified coaches. Camps will include quality riding instructions, stable management sessions and team building activities. PC members will also work together to care for their horses (and themselves) in a camping environment. Members will also be supported to attend the regional Pony Club camp in the Okanagan, other local camps in the area and the regional quiz event. Stable Management sessions and camps are run in a way that encourages teamwork in a positive learning environment. WKPC members are also encouraged to engage with the broader horse community and to reciprocate community involvement in our program through volunteering with other organizations and events, including the Nelson Riding grounds, Sunshine bay riding grounds and the local Derby.

2. Organization Mandate:

The West Kootenay Pony Club is a member-driven association, run by volunteers, that seeks to serve the needs of youth aged 6 - 25 who are interested in riding, learning about and/or caring for horses and ponies. Pony Club strives to educate and foster youth in developing skills in horsemanship, teamwork, leadership and responsibility through their work with horses, the community and one another.

3. Community objectives the project will work towards are:

WKPC provides opportunities for youth to have positive experiences with horses through multifaceted educational experiences; learning responsibility, sportsmanship, compassion and empathy. The program fosters the development of leadership skills through member involvement and the mentoring and teaching of younger members and peers. Teamwork skills are developed and new friends made. Members also learn to be confident, motivated horse people with a high degree of knowledge and skill in the equestrian arts. Members are encouraged and supported to participate and contribute to the broader community and the effect of the program ripples out through personal connections and community engagement.

4. Project will address issues or opportunities pertaining to:

There is a strong and growing interest in horses among youth in our area. A huge amount of responsibility is required in horse ownership and/or involvement that can be daunting for families new to horse care and riding. In addition to this, experienced horse families often seek educational experiences to foster horsemanship and personal development. The Canadian Pony Club is a highly reputable, internationally-recognized program that promotes safe practices and education to ensure the safety of young athletes and proper treatment of horses in equine sport and leisure. WKPC offers a solid foundation in safety, knowledge and experience, covering all aspects of horse care and riding. WKPC also offers a more affordable option for youth to be involved with horses, removing some of the financial barriers families may face. WKPC works to connect young riders with appropriate horses, creating positive partnerships for owners, riders and horses.

5. This organization is best to provide this project to the community because:

The WKPC has a strong and long-standing history. Through hard work and comprehensive and positive programming, the WKPC has created a solid reputation as a group that teaches and mentors youth to become safe, responsible, knowledgeable equestrians and community members. WKPC is supported by the regional and national

Project: West Kootenay Pony Club

pony club levels to achieve its goals and deliver effective, safe programming to provide a solid educational foundation in horsemanship and stable management. WKPC is also accountable to the regional and national levels of the program.

6. Partners involved in this project have been consulted: True

7. Partners involved in implementing this project:

WKPC has an elected board who work together to organize, manage and oversee the operations of the program. WKPC youth, family members and other volunteers work together to facilitate and teach stable management lessons and support riding events. Qualified coaches and local experts (ie. veterinarian, farrier) also assist with stable management sessions. Equine Canada Certified coaches are hired to teach the riding portion of the camps. Pony club members are a vital part of the program, taking responsibility for projects and mentoring new/younger members.

8. Minors will be working on this project: Yes

9. Project will be 100% completed by volunteers: Yes

10. Is the project viable without ReDi funding support: : Yes

11. In-kind sources and contributions:

WKPC is a volunteer run organization. Parent volunteers put in countless hours to make pony club happen, including; sitting on the board, running stable management sessions, volunteering at fundraising events and work parties, making camps successful. We also bring in volunteer mentors to teach some stable management sessions. The Nelson and District Riding club and Sunshine Bay riding club generously wave the rental fee for the use their riding grounds for camps and stable management sessions.

12. Supporting documents below, if submitted:

Organizations are also asked to present copies of supporting documents at community engagement meetings.
