### 2.5.1 Living Lakes Canada

Georgia Peck  
Lakes Program Manager

#### RECESS/ RECONVENED

The meeting recessed at 9:07 a.m. due to technical issues and reconvened at 9:11 a.m.

Georgia Peck, Lakes Program Manager, gave a presentation to the Board regarding the Foreshore Integrated Management Planning (FIMP) through Living Lakes Canada (LLC). Established in 2017, LLC is an environmental non-profit organization that works to enhance the protection, the restoration, the rehabilitation and the health of watersheds in B.C. and across Canada. LLC is affiliated with Global Nature Funds Living Lakes International.

The FIMP project maps shoreline habitats, assesses habitat values and establishes Shoreline Development Guidelines to conserve ecosystems, support climate resiliency and protect species of conservation concern. Ms. Peck provided an overview of the current approach, which includes three general steps; Shoreline inventory and mapping, Shoreline habitat sensitivities; and creating a Foreshore Development Guide. In 2022-2023, a FIMP survey was conducted on the Arrow Lakes and the survey revealed 87% of the shoreline was in a natural condition, while the remaining 13% was disturbed. Ms. Peck provided five recommendations for the regional district to consider for the planning and developing on the Arrow Lakes to preserve potential impacts to the natural habitat. She showed a table indicating the rate of development per year to the lakes within the Columbia Basin. These rates could have a negative impact to the lakes if there isn't proper planning. Ms. Peck discussed the takeaways to preserve the natural habitat of the lakes within the Columbia Basin when there is an increase in shoreline development.

Georgia Peck answered the Board's questions.

Chair Lockwood thanks Ms. Peck for her presentation.
