EVACUATION ALERT REMOVED

Date: June 14, 2022

Time: 4:00PM

The Regional District of Central Kootenay has been advised that the potential for imminent danger of flood to the life and property of persons, resident or present in the Six Mile area (Electoral Area 'F') in the Regional District of Central Kootenay has diminished at this time.

The Evacuation Alert has been removed but may be re-activated if heavy rainfall or flood hazards pose a threat to the Duhamel Creek 'orphan dike' infrastructure.

In the event that conditions change an Evacuation Alert may be re-issued and the evacuation process will recommence.

A handwritten signature in blue ink, appearing to read "C. Johnson".
