

# Campbell Field Reimagination Project

## Welcome

Please review the panels and then share your thoughts with us.

## You will see:

- Some background about the project;
- The steps in the project; and
- Draft concepts showing the possibilities for the site.

# Some Background

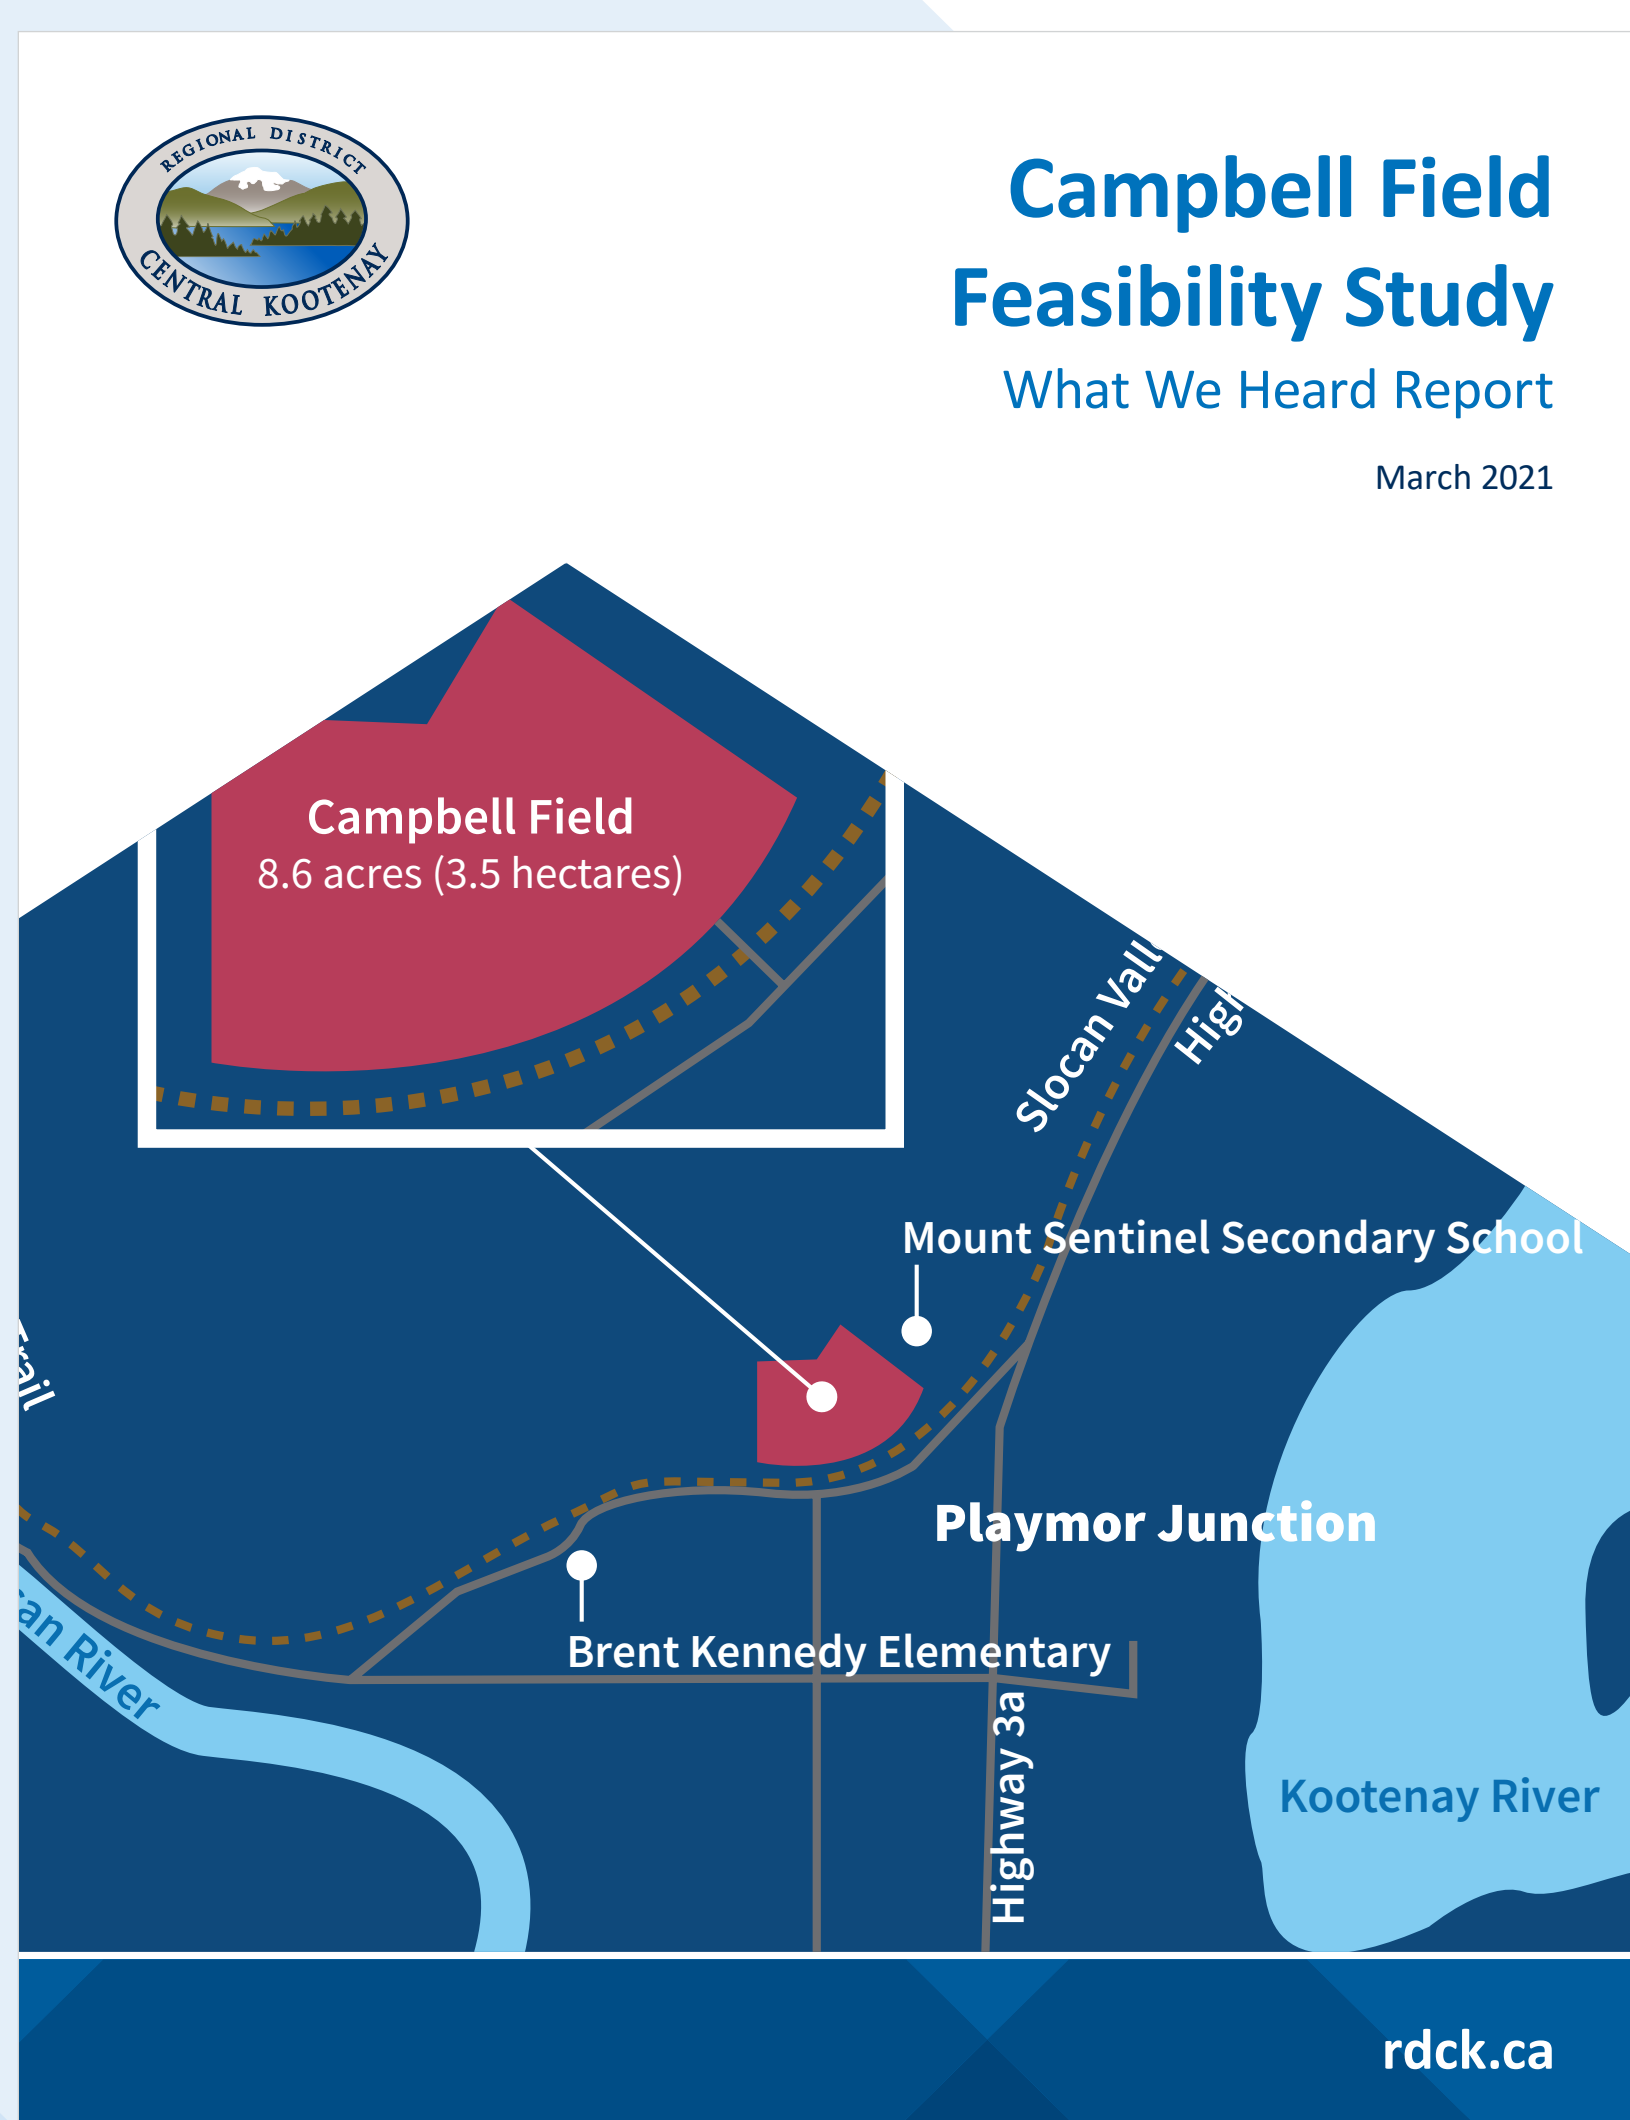

- The Regional District of Central Kootenay (RDCK) acquired Campbell Field from the South Slokan Sports Association in 2016.
- The RDCK is committed to maintain the recreation purpose of the site.
- In 2020 the RDCK began the process of reimagining the recreational activities the site could host.

# Steps in the Project

- The RDCK (led by Area H Director Popoff) started conversations with the City of Castlegar, City of Nelson, Village of Slocan, local school authorities, and other stakeholders about the possibilities for the site.
- Recreation planning documents were reviewed.
- An examination of recreation facilities in the area was undertaken
- A program of community engagement was completed

## All this research led to the development of a Facility Program.

A Facility Program is a description what activities to include in the development. The program is shown below.

Indoor Activities	Outdoor Activities
<ul style="list-style-type: none"> <li>• Fitness / yoga</li> <li>• Attend performances / events</li> <li>• Field sports (e.g. soccer)</li> <li>• Ice skating (e.g. figure skating)</li> <li>• Court sports (e.g. volleyball)</li> <li>• Hockey (structure / league)</li> <li>• Walking / jogging</li> <li>• Participate in classes / programs</li> </ul>	<ul style="list-style-type: none"> <li>• Attend a performance</li> <li>• Cycling / mountain biking</li> <li>• Family gatherings (e.g. picnic)</li> <li>• Field sports (e.g. soccer)</li> <li>• Inline skating / skateboarding</li> <li>• Skating</li> <li>• Ball diamond sports</li> <li>• Cross country skiing / snowshoeing</li> <li>• Hard court activities (e.g. basketball)</li> <li>• Walking / jogging</li> </ul>

....visit [www.rdck.ca](http://www.rdck.ca) and search under Recreation & Parks Planning for Campbell Field

# Facility Concept

The facility program was provided to an architect who then developed the following concepts.

## 1 Option One INDOOR FOCUS

## 2 Option Two OUTDOOR FOCUS

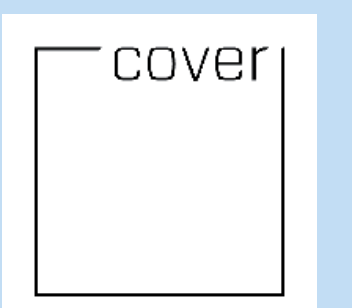

### What's the difference between the Options?

#### Indoor Focus

- Building has large activity space the size of an arena pad
- Larger indoor performance space
- More significant parking requirements
- Less Outdoor sport and activity space

#### Outdoor Focus

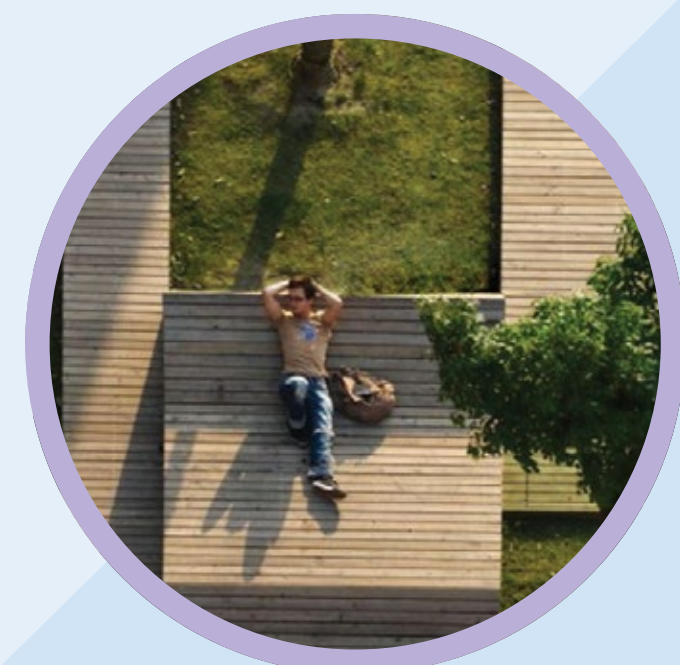

- Building has large activity space the size of a high school gymnasium
- Large roof covered outdoor space (for sport and performance)
- Less significant parking requirements
- More outdoor sport and activity space

# Facility Concept

## Option One - INDOOR FOCUS

# Facility Concept

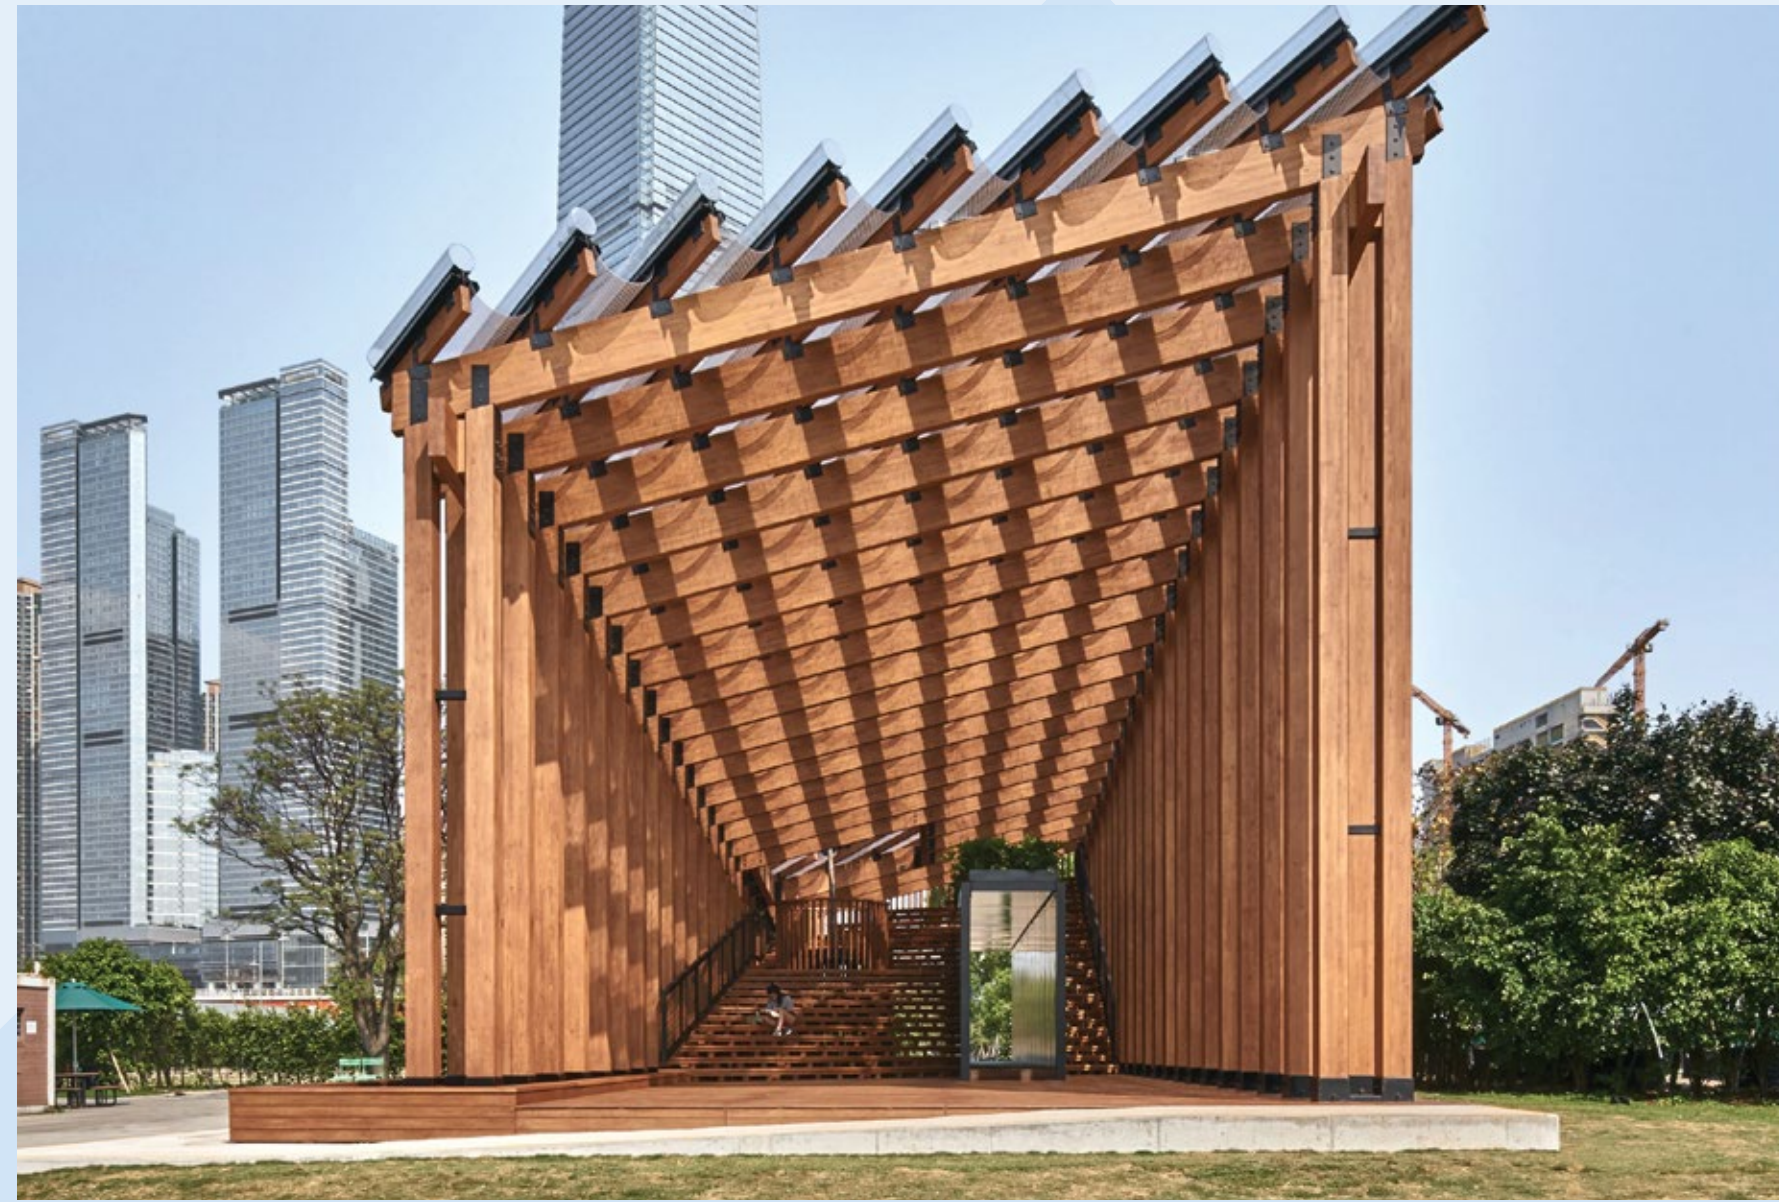

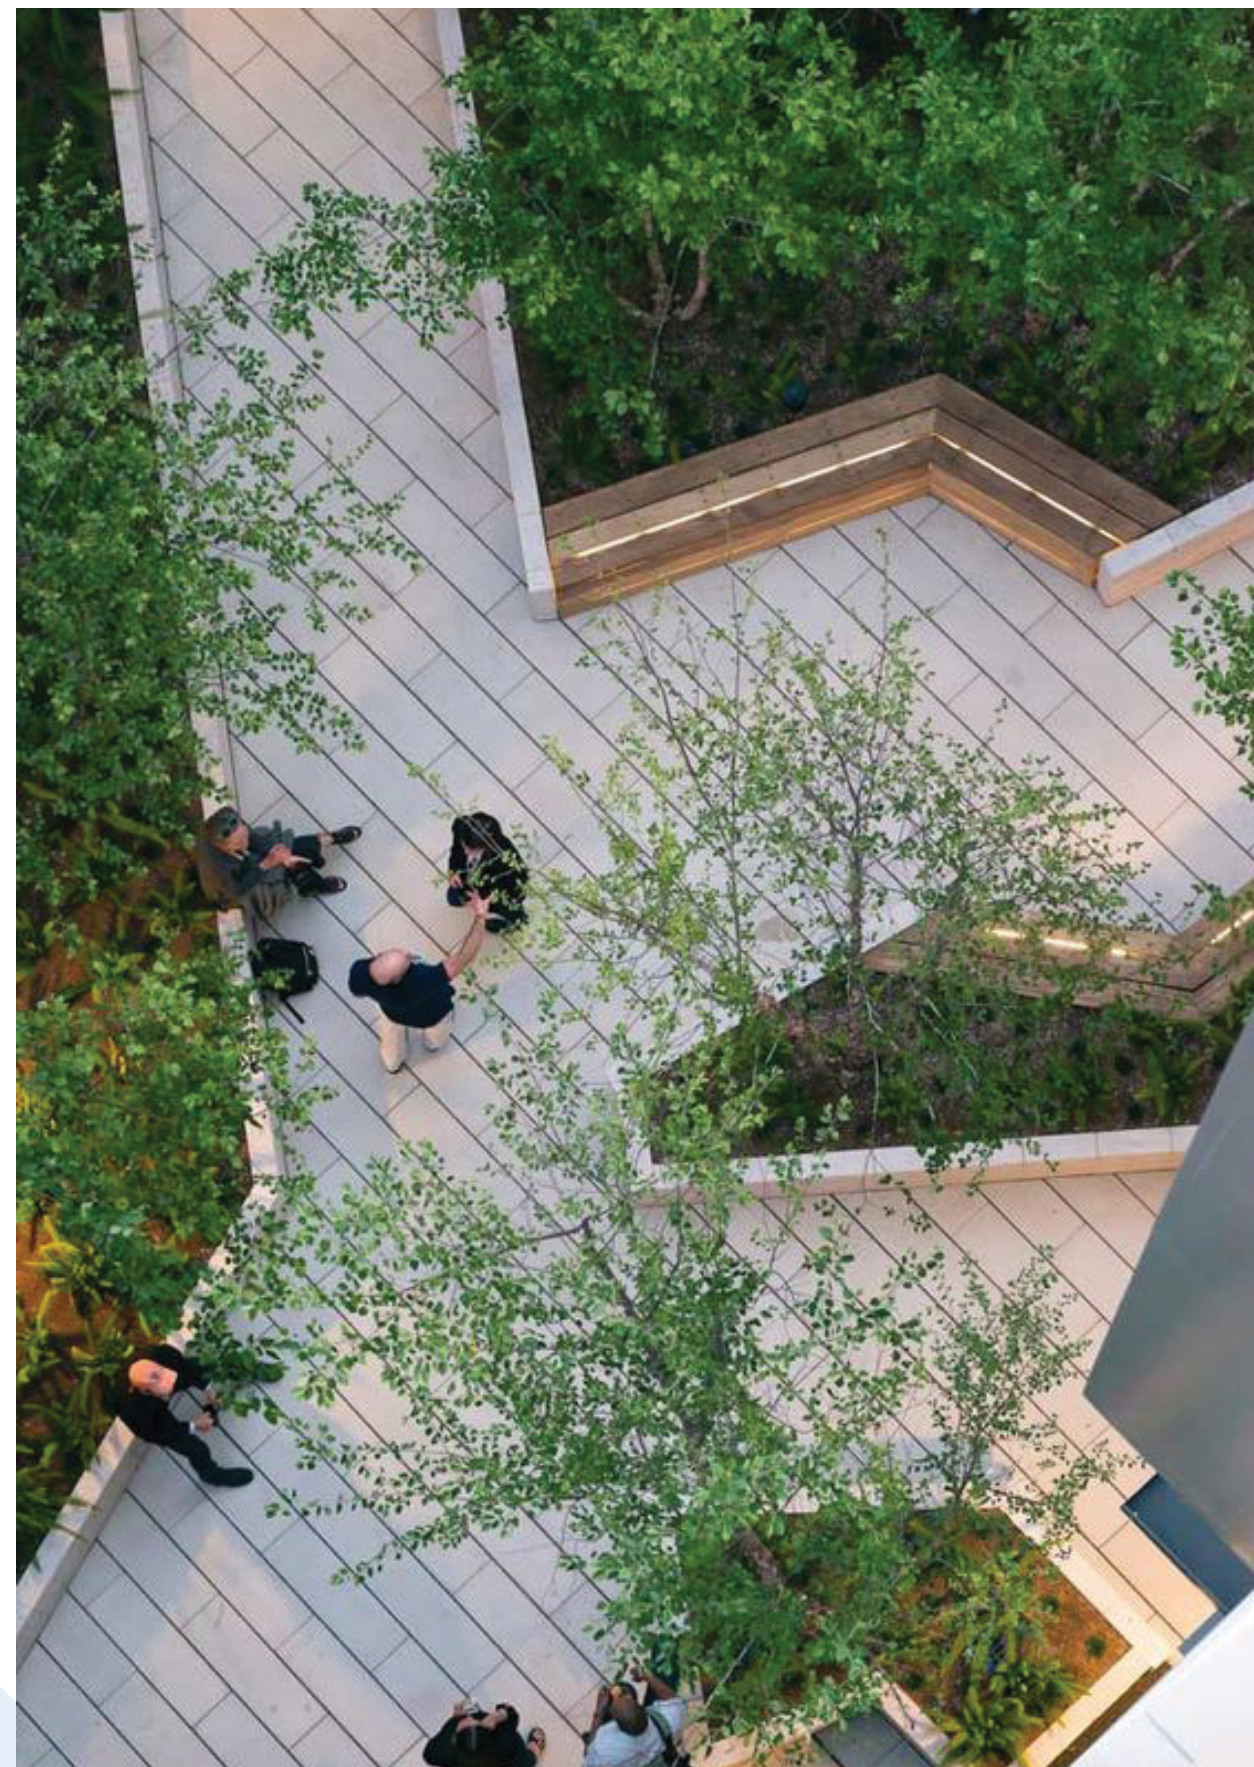

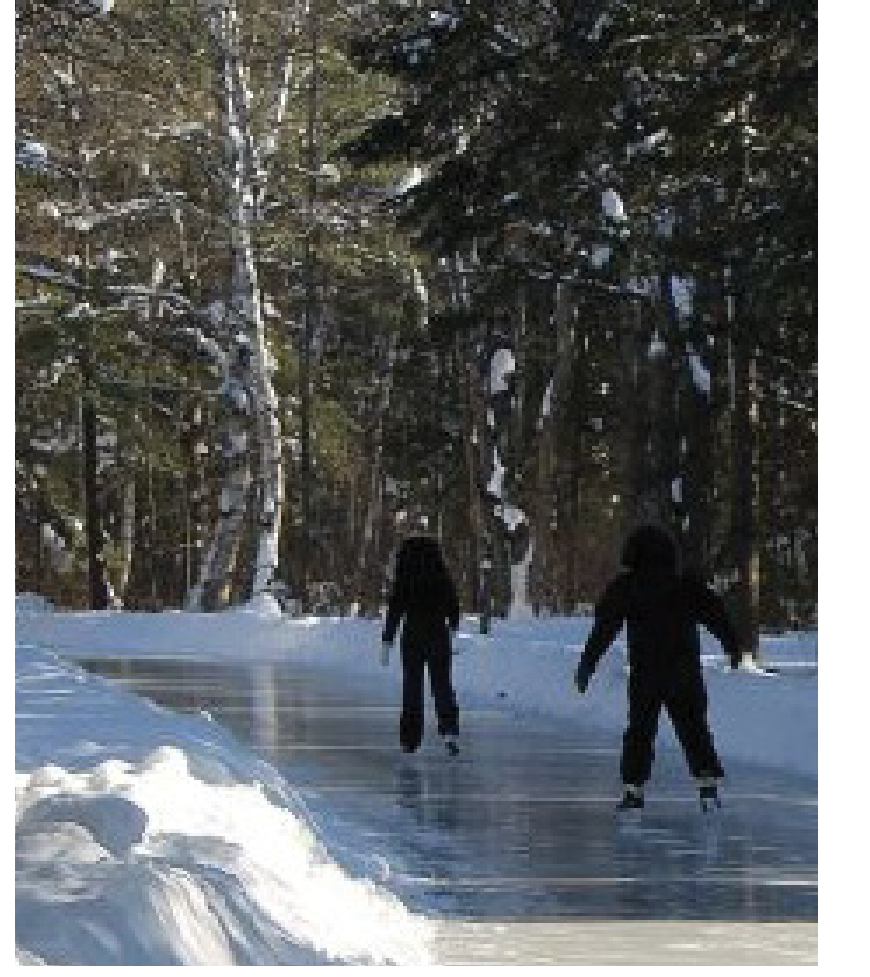

## Option Two - OUTDOOR FOCUS

# What do you think?

After reviewing the concepts please share your thoughts by visiting the RDCK website ([www.rdck.ca](http://www.rdck.ca)). Please share your thoughts by December 17, 2021.

## Think about these questions before you visit the website:

- Which of the two options do you generally prefer? Why
- What are the best parts of the Options presented?
- What improvements should be made to the Options?
- What other comments would you like to share?

## You can access the questionnaire by visiting the RDCK website

1. [www.rdck.ca](http://www.rdck.ca) and search under “Recreation & Parks Planning” for Campbell Field. You will see a link for feedback on the concepts.
  - » These panels will be available for you to view on the website
2. You can scan the QR code to go right to the feedback form

## Next Steps

- The concept will be revised as necessary based on the feedback received.
- Cost estimates will be developed to accompany the concept. These include capital costs (the cost to build the facility) and operating costs (how much it will cost to run the facility).
- An entire site plan will be developed showing outdoor amenities and where the recreation facility will be situated.
