# AMP and FCM GHG Reduction Study

Two important projects/studies at the same time – both are strategic in scale/scope

- The Asset Management Project (AMP) - led by Senior Project Manager
- The FCM GHG Reduction Feasibility Study – was being led by Senior Energy Specialist

Both projects will inform AM planning and will inform practices and policy and budgets

# Asset Management Project (AMP)

Roth IAMS – Budget \$100K

Draft reports from Consultant regarding the Asset Management roadmap and software analysis to be received in mid November – staff review

Board report in December

# GHG Reduction Feasibility Study

BES – Budget \$200K/\$50K

All draft reports received

Additional Scope - Renewable Natural Gas (RNG) Fortis-funded initiative

Pathways reports to be received in November.

Report possible at December or January Board meeting

**2030**

**REDUCE**  
emissions by  
**50%**  
*(below 2018 levels)*

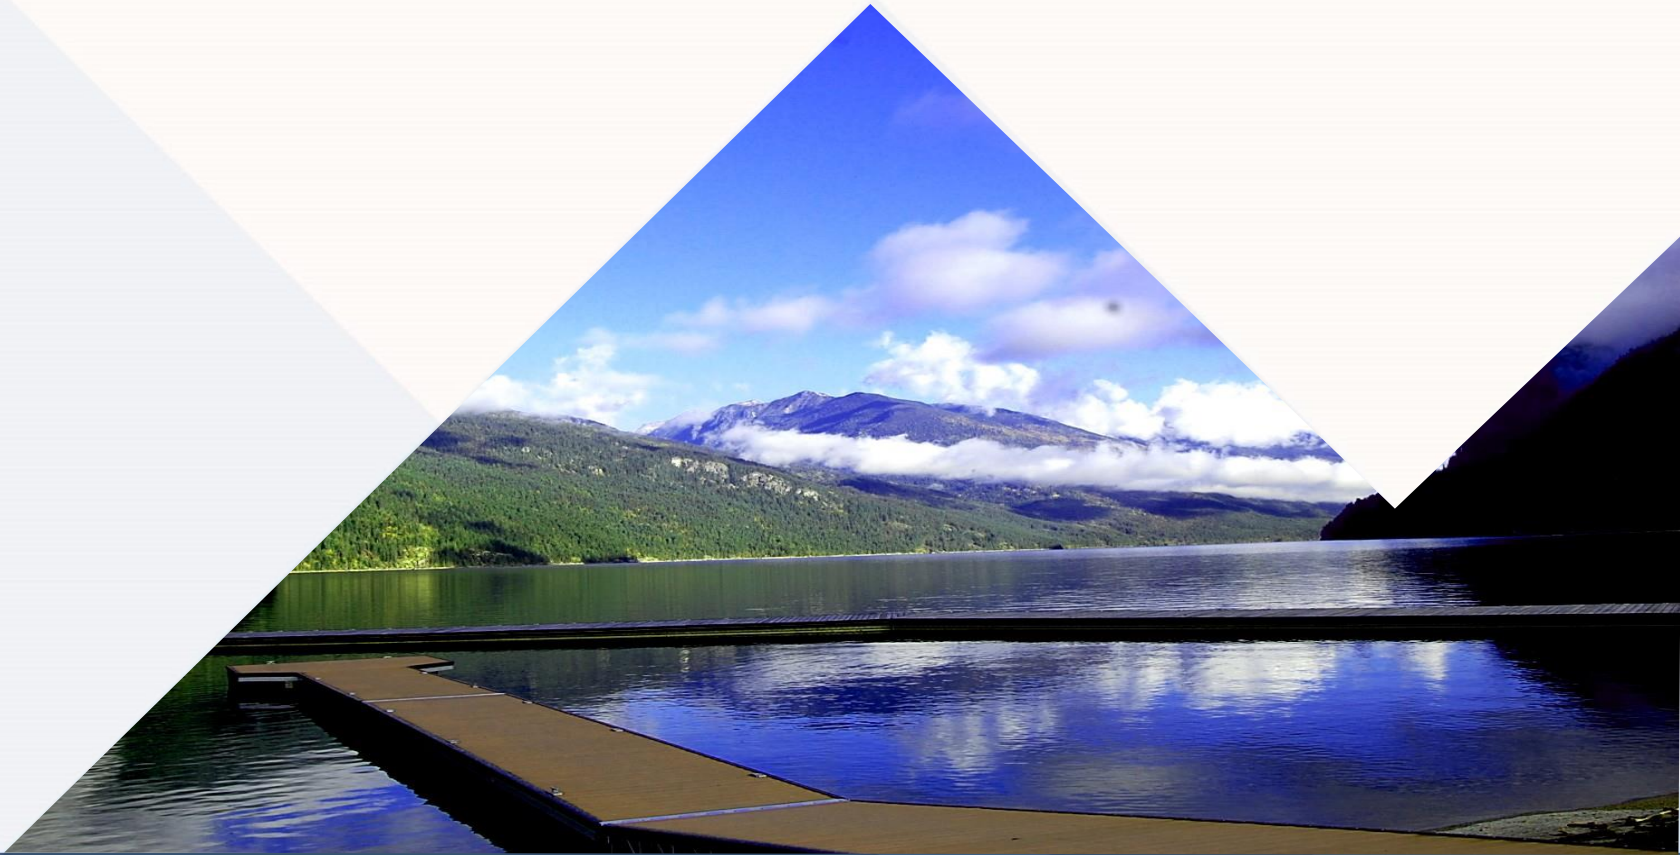

**2050**

**REDUCE**  
emissions by  
**100%**  
*(below 2018 levels)*
