

2024 RDCK FireSmart Contractors List

The RDCK FireSmart program offers free FireSmart home assessments, FireSmart rebates, and assists with FireSmart Neighbourhood Recognition Programs. Through the RDCK FireSmart rebate program residents may be compensated between \$500 and \$5000 for working towards FireSmart activities on their residential home or property. Residents can qualify for a FireSmart rebate by first having a FireSmart assessment completed on their home, then completing recommended FireSmart mitigation actions and recording their own hours, claiming expenses for materials purchased, or hired contractors. The annual FireSmart rebate program is subject to available grant funding in a calendar year. Rebates are issued on a first come first served basis until funds are exhausted in a calendar year.

The following list provides contact details for contractors who have met the RDCK FireSmart Contractors List application criteria. All contractors on this list have provided us with proof of a current business, and attended a one hour RDCK FireSmart Contractors Info Session. Being on this list does not constitute an endorsement or referral by the RDCK. We do not guarantee, certify, insure, or inspect work completed by contractors on this list. Always do your own research prior to hiring any contractor. Please be aware that only mitigation actions outlined on your FireSmart report will be eligible for rebate.

To sign up for a FireSmart assessment, apply for a rebate, or apply to be on the RDCK FireSmart Contractors List you can visit www.rdck.ca/firesmart, email firesmart@rdck.bc.ca or call 250-352-1539.

The list is divided into three sections, click on the link below to jump to any of the FireSmart disciplines
