Q43 The Regional District currently requires that construction be located a distance from lakes, rivers and creeks for the purposes of floodplain management. In some areas of the RDCK there are regulations for riparian assessments if construction is less than 30 meters from a creek, river or lake. 2	Land owners should have option to use a holding tank for household waste water and contract with city of Nelson or Castlegar for wastewater disposal. I believe the present bylaw disallowing holding tanks is based on an assumption that a property owner will dispose of waste water in an improper way. This questionnaire obviously well intended is very poorly constructed.	8/23/2016 11:20 AM
3	As far as developing the area, industrial and commercial should be concentrated in the Castlegar area where there is a lot lacking. We're struggling to keep our public schools open in our communities, shouldn't this be a priority? We have chosen a certain lifestyle, of we wanted smaller lot sizes or commercialism, we'd of moved to a subdivision. This area is Shoreacres need to be protected to preserve a lifestyle;	8/12/2016 2:29 PM
4	A meeting should have been held explaining these questions before doing this survey.	8/8/2016 12:01 PM
5	-The protection and lack of negative human impact to the Slokan pool, forest and waterfront must be stressed here as important. Wildlife corridor & high diversity habitat, native heritage sites, low impact- recreation to interact and enjoy this very special and unique place -Water Use: in this decade of drought there seems to be no discussion or sense of urgency about reducing wasteful water use. ie. watering of sidewalks (driveways, midday irrigation using sprinklers, industrial water use) RDCK must take a leadership role here, too.	8/8/2016 9:47 AM
6	The Kootenays is the most beautiful place to live. We are truly blessed. What ever is done to improve our lives should not in any way compromise the beauty + integrity of our home + the wildlife we share it with.	8/5/2016 4:28 PM
7	We moved to Shoreacres from a city the advantages and longevity in this quiet healthy environment are numerous.	7/28/2016 2:59 PM
8	Enforcement of current existing Bylaws should NOT be dependent on neighbor reporting neighbor there are blatant infractions that a bylaw officer could easily spot should time be given to a community drive through. Preserving our current lifestyle is very important-we like the country for fresh air, clean water and privacy and peace and quiet, Encroachment on this lifestyle is very apparent. Keeping our clean water is critical yet newer members in our community seem totally oblivious-what they are doing affects the entire community. Need Bylaw education and ENFORCEMENT!	7/28/2016 11:17 AM
9	do not allow grow ops (pot) or otherwise legal or not	7/28/2016 8:31 AM
10	Dog control is a major nuisance in our community. I would like to see something change. Dog control is a problem in this community. Is there not already a bylaw in place? Also a concern is schools. In this community (Shoreacres) we are forced to drive or bus our small children 24 km each way to get to public school when Brent Kennedy and Mount Sentinel are 4 km away. The catchment lines need to be re-configured. I would also like to see a controlled railway crossing at the only entrance and exit of Shoreacres. That is a huge safety concern. There are enough residents living here to warrant a safer railway crossing. I am very strongly opposed to a public boat launch/access to the water. We have a great amount of traffic as it is coming to look around for a place to launch their boats and people end up trespassing and being disrespectful.	7/27/2016 10:59 AM
11	The raising and lowering of the water on an hourly basis on the Kootenay River (Brilliant Head Pond) should never be allowed. The documents signed by Cominco in the 1950s was to do with water control during spring flooding and not for Columbia Power to do as they please. This should be stopped now. There is no respect for the public usage of waterways for the name of profit.	7/26/2016 5:08 PM
12	Please do something about how bylaw operates, allowing people to complain and then hide unknown behind a bylaw officer is childish when in reality no one complies with the bylaws. It tears communities apart and gets everyone pissed off with one another. Maybe try and get them to speak to each other and talk about it like how adults would do it. Cheers :)	7/22/2016 2:55 PM
