RE: BOIL WATER NOTICE REMAINS IN PLACE FOR WOODBURY VILLAGE WATER SYSTEM

Please be advised that the **BOIL WATER NOTICE** remains in place for water users on the Woodbury Village Water System. The notice was issued on October 5, 2018 due to a coliform count of 14 and associated poor water quality.

Interior Health has advised RDCK Water Services that they would like the water system to remain on a Boil Water Notice until water treatment upgrades have been completed.

The RDCK and Interior Health recommend that all customers drink boiled water or a safe alternative until further notice. Water intended for drinking, washing fruits and vegetables, making beverages or ice, or brushing teeth should be boiled for one minute. Boiled water should then be refrigerated in a clean, covered container. Customers could also choose to use bottled or distilled water.

Owners of all public facilities must post a **BOIL WATER NOTICE** at all sinks or drinking water fountains accessible to the public (alternatively, public fountains and taps may be turned off). As opportunities arise, they must also advise their clientele verbally of the **BOIL WATER NOTICE**.

The RDCK apologizes for any inconvenience this might cause, and appreciates your cooperation and patience during this time. If you have any questions please contact the RDCK at 250-352-6665 or access our website at www.rdck.ca/water.

Sign up for FREE to receive water quality, system maintenance, and water conservation notices by text and/or telephone call, by calling Kim at 1-833-223-2662.
