Water Quality Advisory issued for the South Slokan Water System

Nelson, BC: The Regional District of Central Kootenay (RDCK) has issued a Water Quality Advisory for users on the South Slokan Water System. The system is located in the community of South Slokan Village approximately 30 km southwest of Nelson and is within RDCK Electoral Area H. The Dam Inn is across Highway 3A and is supplied water from this water system.

The Water Quality Advisory has been issued due to high post-treatment turbidity as a result of rapid snow melt at the spring supply.

While health risks are considered low, the RDCK recommends children, the elderly, people with weakened immune systems, and anyone seeking additional protection drink boiled water or a safe alternative until further notice. For these at-risk populations, water intended for drinking, washing fruits or vegetables, making beverages or ice, or brushing teeth should be boiled for one minute. Boiled water should then be refrigerated in a clean, covered container. Customers could also choose to use bottled or distilled water, or water that has been filtered through a well-maintained treatment device.

Owners of all public facilities must post a Water Quality Advisory at all sinks or drinking water fountains accessible to the public (alternatively, public fountains and taps may be turned off). As opportunities arise, they must also advise their clientele verbally of the Water Quality Advisory.

The RDCK will be taking measures to reduce risk; water quality will be monitored, and the public will be notified when the RDCK is able to lift the Water Quality Advisory.

We apologize for any inconvenience this might cause and appreciate your cooperation and patience during this time. For more information contact the RDCK (250) 352-8161 or visit our website at www.rdck.ca/water.

Incorporated in 1965, the Regional District of Central Kootenay (RDCK) is a local government that serves 60,000 residents in 11 electoral areas and nine member municipalities. The RDCK provides more than 160 services, including community facilities, fire protection and emergency services, grants, planning and land use, regional parks, resource recovery and handling, transit, water services and much more. For more information about the RDCK, visit www.rdck.ca.
